Herbstlaub 'Excel'

## Syringa hyacinthiflora

Hybrids in this group bloom earlier than the *Syringa vulgaris* cultivars, are bushier, and produce an abundance of flowers.

## Lovely Lilacs: Exclusive Historical Rarities, our recommendation of selected beautiful varieties

Piccoplant has developed an interesting marketing tool so that lilacs can be marketed even better in retail: We deliver each plant with foldable picture labels that contain a photo of the flowering plant, as well as the plant history and care instructions in up to four languages (German, English, French and Russian).

In order to bring the unique scent of lilacs closer to the customer in a sensory way, these labels can be supplied with scents. Lilac-colored pot covers with a photo offer an additional visual incentive to buy. CC banners are also available for the Lovely Lilac brand.
