About us ...

Lovegroves is a traditional nursery specialising in rare and unusual trees and shrubs. To complement our trees and shrubs we also supply ferns, climbers and a few other choice plants that we just love!

We might be small but we aim to produce an inspiring collection of desirable plants. We currently have over 400 plant varieties available. Please remember not everything is always in stock despite our best efforts! We also may not always have it in your preferred size, but we are always happy to check the nursery beds and let you know what we have and haven't got.

British-grown, Peat-free...

All of our products are potted in peat-free compost that's renewable, sustainable and endorsed by the RHS. The vast majority of our plants are grown on-site but those few that aren't are all British-grown and, where possible, locally sourced.

So, if you are passionate about the environment as well as your garden, there's no better reason than to get shopping with us!

Email ...

Simply email with a list of plants, we will check availability and get back to you as soon as possible.

Your order ...

On receipt of your order we will check availability and confirm your order by email or phone. You will be notified when your order is dispatched by 2 day delivery. If your order is urgent, please let us know. If your order is being sent as a gift, we can add a special greeting at no extra cost.

Postage and packaging is charged at £10 for up to 3 standard size plants (2 or 3l pots). For larger orders please ask for a quote.

If you would like to **collect your order from the nursery** then please call in advance to check that we are in.

If you would like to place your order to **pick up at a show** then please let us know. We would ask that you place your order at least 5 days in advance, if possible, as we are likely to be very busy in the run up to shows.

Browse our plants ...

We have listed our plants in alphabetical order for simplicity. We are currently compiling a more advanced database where we can sort by plant type, soil type, aspect, hardiness and AGM plants, as well as order plants directly online. Please be patient for this, however, as we have only just started developing our nursery and there is lots of work in progress!

Where there is more than one pot size available we have noted their separate prices. We hope you find something that's of interest.
