| 1-6      | Yes            | Cowbarn                                  |
| 1-7      | Yes            | Far Barn                                 |
| 1-8      | Yes            | Historic Nursery                         |
| 2-1      | Yes            | Polly's Play Pen (all 'PP- ' locations)  |
| 2-2      | Yes            | Conifer Rows East                        |
| 2-3      | Yes            | Conifer Rows West                        |
| 2-4      | Yes            | West Field SW                            |
| 2-5      | Yes            | West Field NW                            |
| 2-6      | Yes            | Oak Grove                                |
| 2-7      | Yes            | Witch-hazel Border                       |
| 2-8      | Yes            | West Field Meadow                        |
| 3-1      | Yes            | North Field W                            |
| 3-2      | Yes            | North Field N                            |
| 3-3      | Yes            | North Field E                            |
| 3-4      | Yes            | North Field S                            |
| 3-5      | Yes            | North Field Meadow                       |
| 4-1      | Yes            | Holly Park 1                             |
| 4-2      | Yes            | Holly Park 2                             |
| 4-3      | Yes            | Holly Park 3                             |
| 4-4      | Yes            | Holly Park 4                             |
| 4-5      | Yes            | Holly Park 5                             |
| 4-6      | Yes            | Holly Park 6                             |
| 4-7      | Yes            | Visitor Center                           |
| 5-       | Yes            | Parking Area and Entry Plantings         |
| 6-       | No             | Woodland Garden (under development)      |
| 7-1      | No             | Littlefield Residence                    |
| 7-2      | No             | Plant Production (all Nursery locations) |
| 7-3      | No             | Littlefield Maintenance Building         |
| 8-       | No             | Southern Woodland and Compost Facilities |

## 2018 Inventory of Living Collections

These data represent all active accession-items (n=3500) at Polly Hill Arboretum, current as of January 1, 2019.

*How to read this table:*

- Taxon: Botanical name and (when applicable) cultivar
- Item No.: Full accession-item number, a single accession may have multiple alphabetic items (qualifiers)
- Item Location: References Map of Grounds Locations & Table
- Source: Original source of accessioned plant material
- Material: Material type at the time of receipt
- P (Provenance):
- W – of direct wild origin
  - Z – of indirect wild origin
  - G – garden (cultivated) origin
  - U – unknown origin

| Taxon                               | Item No.    | Location | Source                                     | Material   | P |
|-------------------------------------|-------------|----------|--|------------|---|

## 2018 Summary Data

### Accessions by Type

|                                    |  |      |
|------------------------------------|--|------|
| Seed                               |  |      |
| Number of accessions, seed-culture |  | 127  |
| Nursery                            |  |      |
| Number of accessions, containers   |  | 375  |
| Number of items, containers        |  | 1848 |
| Collections                        |  |      |
| Number of accessions, display      |  | 1710 |
| Number of items, display           |  | 2847 |
| Number of taxa, display            |  | 1368 |
| Total                              |  |      |
| Active accessions at PHA           |  | 2201 |

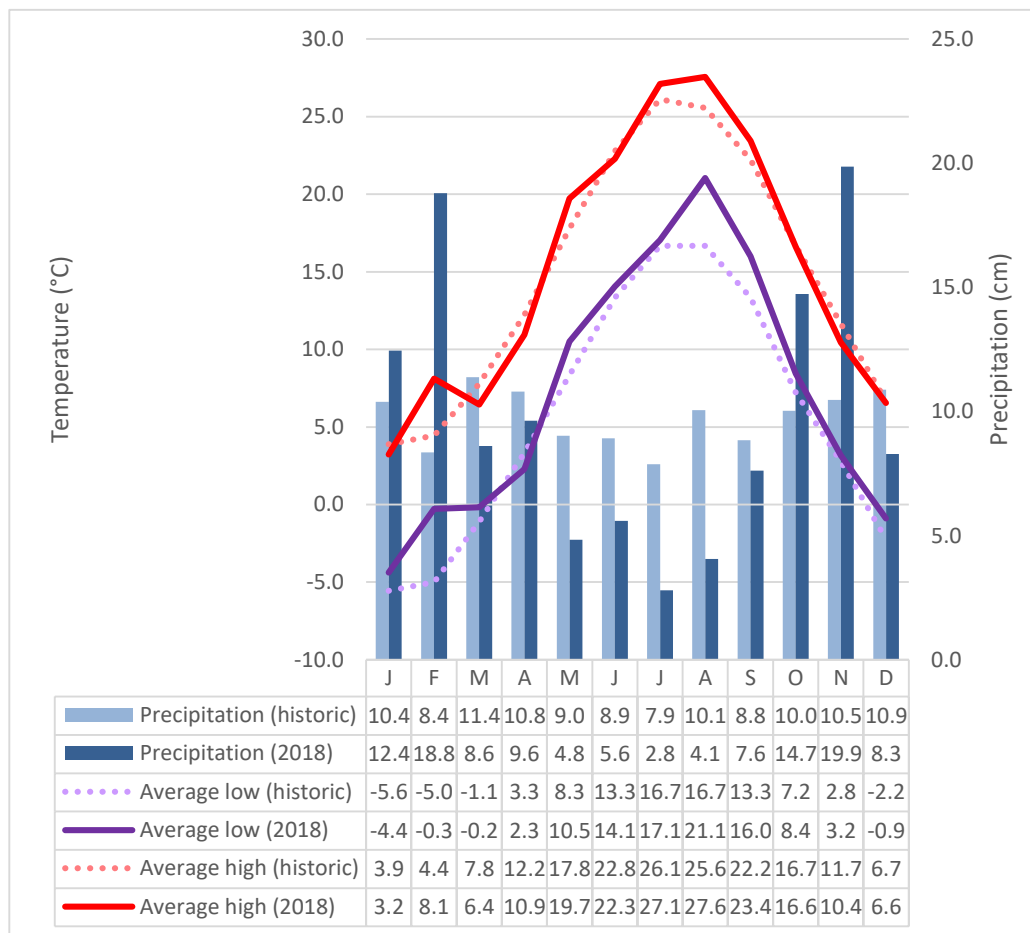

### Taxonomic Representation (Plant Diversity)

|   |      |
|---|------|
| Number of families                      | 114  |
| Number of genera                        | 347  |
| Number of species                       | 1022 |
| Total unique taxa (species + cultivars) | 1617 |

### Accession Provenance (%)

|   |      |
|---|------|
| (W) Collected from known, wild origin   | 39.2 |
| (Z) Collected from unknown, wild origin | 3.5  |
| (G) Garden origin                       | 54.7 |
| (U) Unknown origin                      | 2.6  |

### 2018 vs. historic weather patterns

Weather data accessed from the Polly Hill Arboretum weather station (KMAWESTT<sub>4</sub>).

In 2018, PHA experienced an ultimate low of -16.6° C (2.1° F) on January 7<sup>th</sup>  
and an ultimate high of 32.8° C (91.1° F) on August 29<sup>th</sup>
