*Abelia x 'Lynn'* USPP20604

PINKY BELLS™

2-3' Zones 6-9 🦋 🚫

This compact plant has the largest flowers of any abelia. Pendulous, lavender-pink flowers bloom from mid-summer to fall. New growth on the foliage and stems takes on red hues in late spring and autumn. Pinky Bells has a strong root system, healthy growth, and excellent container presentation.

Uses: Containers, landscapes, foundation plantings  
Growth Rate: Medium

*Abelia x grandiflora* 'Rika' USPP20568

BRONZE ANNIVERSARY™

3-4' Zones 6-9 🦋 🚫

The foliage of this abelia emerges a unique bronze-copper color and then matures to an attractive lime-green as the season progresses. White bell-shaped blooms emerge in spring and intermittently throughout the summer. A very strong bloomer.

Uses: Containers, landscapes, foundation plantings  
Growth Rate: Medium

*Abelia x grandiflora* 'Keiser' USPP21632

RUBY ANNIVERSARY™

4-6' Zones 5-9 🦋 🚫

This beauty gives you more color as the dark, glossy foliage has ruby-red new growth and fall color. Long blooming with clusters of salmon pink buds, white flowers, and soft pink bracts from mid-summer until frost. The fragrant flowers are a butterfly magnet.

Uses: Landscapes, foundation plantings  
Growth Rate: Medium

*Abelia x grandiflora* 'Mindoo' USPPAF

SUNNY ANNIVERSARY™

3-4' Zones 6-8 🦋 🚫

A true color breakthrough, this incredible abelia boasts yellow blooms painted with a splash of pink and orange. The large, fragrant flowers appear in mid-summer and continue through September.

Uses: Containers, landscapes, foundation plantings  
Growth Rate: Medium

*Abelia mosanensis* 'SMNAMDS' USPPAF CanPBRAF

SWEET EMOTION®

5-6' Zones 4-8 🦋 🚫

This super hardy Abelia is a knockout in the North and South. Darker red-pink buds open to exceptionally fragrant flowers in spring. Glossy green foliage turns orange-red in fall. New this year.

Uses: Landscapes, foundation plantings, mixed borders  
Growth Rate: Medium

SUNJOY® Series

The Sunjoy series features a variety of foliage colors but the same exceptional performance, superior habit, and low maintenance. Not recommended for greenhouse production.

Uses: Hedges, borders, foundation plantings  
Growth Rate: Slow to Moderate

*Berberis thunbergii* 'Celeste' USPPAF

SUNJOY® Cinnamon

4-5' Zones 4-8 🚫

A whole new look for barberry. This plant is a standout with its distinctive dark orange foliage and compact branching. Cinnamon is an excellent plant for adding low-maintenance, season-long color.

*Berberis thunbergii* 'Koren' USPPAF

SUNJOY® Citrus

2-3' Zones 4-8 🚫

This bright yellow barberry has a neat, rounded habit that results in a uniformly ball-shaped plant that looks nice in a container and provides easy, season-long color for landscapes. This plant was evaluated for over five years in full sun to ensure excellent burn-resistance.

AWARD WINNER

SUNNY ANNIVERSARY™ *Abelia*

Silver Medal, Plantarium

*Berberis thunbergii* 'Talago' USPP20602

SUNJOY® Gold Beret

6-12" Zones 4-8 🚫

This unique dwarf barberry is low-mounding and boasts golden foliage in the summer turning to red in the fall. Gold Beret is stunning as in-ground mass plantings and is burn resistant.

*Berberis thunbergii* 'Maria' USPP18082

SUNJOY® Gold Pillar

3-4' Zones 4-8 🚫

For great garden architecture and brilliant color, Gold Pillar is a standout. Its bright golden foliage turns orange and red in the fall, and its narrow shape resembles 'Helmond Pillar.' A burn-resistant variety, Gold Pillar is excellent in containers or for entrance gardens.

*Berberis thunbergii* 'Kasia' USPPAF

SUNJOY® Mini Saffron

18-24" Zones 4-8 🚫

This dwarf golden barberry grows fast enough to be profitable. Mini Saffron is a burn-resistant gem, even in the heat of summer. The foliage has hints of orange in the new growth and turns orange-red in fall. This plant provides easy, no-prune, season-long color and a neat, mounded habit.

*Berberis thunbergii* 'Mimi' USPPAF

SUNJOY® Mini Salsa

18-24" Zones 4-8 🚫

This dwarf barberry is an improved 'Crimson Pygmy' that does not revert, so crops are consistent. With its vivid, dark red foliage, this easy-to-grow plant adds exceptional color to home and commercial landscapes.

*Berberis thunbergii* 'Helen' USPPAF

SUNJOY® Syrah

4-5' Zones 4-8 🚫

This barberry shines with its black-purple foliage and provides low-maintenance, season-long color to gardens. Its upright habit is good for hedging. This is an excellent, uniform cultivar well-suited to container production.

*Berberis thunbergii* 'O'Byrne' USPPAF

SUNJOY® Tangelo

3-4' Zones 4-8 🚫

Bright and cheery, this barberry has tangy orange foliage that is often accentuated by a distinctive chartreuse margin. Stronger growing than other variegated cultivars, it is colorful in the landscape from spring to fall. Certified wheat-rust resistant.

INSPIRED™ Series

These three butterfly bushes are a phenomenal trio. Each InSpired buddleia delivers magnificent color.

Uses: Mixed borders, perennial beds  
Growth Rate: Fast

*Buddleia x* 'Pink Pagoda' USPP2214 CanPBRAF

INSPIRED™ PINK®

4-6' Zones 5-9 🦋 🚫

This butterfly bush has clear pink flowers that are delightfully fragrant and also seedless. This is a great choice for gardeners in areas where invasiveness is a concern.

*Buddleia x* 'LVOargus2' USPPAF CanPBRAF

INSPIRED™ Violet

4-10' Zones 5-9 🦋 🚫

Fragrant, dark purple flowers shine against the glossy dark green foliage. In milder climates, Violet can be trained into a unique, long-blooming patio tree.

*Buddleia* 'LVOargus01' USPPAF CanPBRAF

INSPIRED™ White

4-6' Zones 5-9 🦋 🚫

Purer than pure white, this seedless butterfly bush just wants to bloom. A wonderful compact variety that mixes well with other varieties.

## LO & BEHOLD® Series

Top Seller

Not only are the varieties in this collection of dwarf buddleia fragrant and beautiful, they are also non-invasive. And because they are continual bloomers, you can count on long-lasting color and constant butterfly and hummingbird visitors.

Uses: Containers, landscapes, beds, butterfly gardens  
Growth Rate: Fast

Buddleia USPP19991 CanBRA

LO & BEHOLD® 'Blue Chip' 24-30" Zones 5-9

The first miniature butterfly bush, 'Blue Chip' is long blooming, frost tolerant, and needs no pruning or deadheading. Its fragrant flowers attract butterflies and hummingbirds. This beauty is an ideal choice for smaller landscapes and container gardens.

Buddleia USPP19991 CanBRA

LO & BEHOLD® 'Blue Chip Jr.' 20-28" Zones 5-9

The next generation of Lo & Behold® 'Blue Chip'! Young Junior is smaller than the original, less brittle, and has attractive silver-green leaves. Great for mass plantings, containers or mixed into perennial gardens. It flowers from mid-summer to frost.

Buddleia USPP24015 Can4654

LO & BEHOLD® 'Ice Chip' 18-24" Zones 5-9

This dwarf, wide-spreading addition to the Lo & Behold series has fragrant white flowers that rebloom until frost and that stand out beautifully against a backdrop of silvery foliage. Its neat, low-spreading habit makes it the perfect ground covering plant. Like 'Lilac Chip,' 'Ice Chip' is more compact than 'Blue Chip.'

Buddleia USPP24016 Can4663

LO & BEHOLD® 'Lilac Chip' 18-24" Zones 5-9

'Lilac Chip' is a dwarf, seedless butterfly bush that reblooms from mid-summer until frost without deadheading. It has fragrant lavender-pink flowers and is more compact than 'Blue Chip.'

Buddleia USPP19991 CanBRA

LO & BEHOLD® 'Pink Micro Chip' 18-24" Zones 5-9

A whole new color for the Lo & Behold series, 'Pink Micro Chip' is a small plant with an abundance of unique, tiny blooms giving this butterfly bush the look of a salvia but with the sweetness of a buddleia. Like others in the series, it blooms continuously, attracting butterflies all season. It does not set seed. New this year.

Buddleia USPP19991 CanBRA

LO & BEHOLD® 'Purple Haze' 2-3' Zones 5-9

Dark purple-blue flowers radiate downward and outward like purple pinwheels and bloom continuously from midsummer to frost. It has a uniquely horizontal, low-spreading habit and dark green, feathery leaves. It is also an excellent groundcover. This is a sterile variety that will not produce unwanted seedlings.

Buddleia USPP23425 Can4446

'Miss Molly' 4-5' Zones 5-9

The fragrant flowers of 'Miss Molly' are a rich sangria-red, which may be even more pronounced in the South. This compact plant is smaller than many other buddleia varieties, and its distinctive blooms make late summer gardens shine. Non-invasive.

Uses: Containers, landscapes, beds, butterfly gardens  
Growth Rate: Fast

Buddleia USPP19950 Can3603

'Miss Ruby' 4-5' Zones 5-9

A sweetheart of a plant with remarkably vivid, fuchsia blooms, a compact habit, and soft silver-grey foliage. 'Miss Ruby's color is unlike any other buddleia on the market. Non-invasive.

Uses: Containers, landscapes, beds, butterfly gardens  
Growth Rate: Fast

Buddleia USPP19991 CanBRA

'Miss Violet' 4-5' Zones 5-9

Just like her sisters, 'Miss Molly' and 'Miss Ruby,' 'Miss Violet' is a compact selection that bears loads of vibrant violet purple flowers in summer. Non-invasive. New this year.

Uses: Containers, landscapes, beds, butterfly gardens  
Growth Rate: Fast

Buddleia USPP22465 Can4657

'Summer Skies' 4-5' Zones 5-9

A high drama plant for the summer garden. Its soft violet-blue flowers contrast beautifully with the bright yellow and white variegated leaves. Variegation is very stable.

Uses: Containers, landscapes, beds, butterfly gardens  
Growth Rate: Fast

English Butterfly Series 4-5' Zones 5-9

There are butterfly bushes and then there are these three fantastic compact buddleia bred by the U.K.'s Elizabeth Keep. The upright, mounded plants are covered with brilliantly colored, extra-large flower panicles that are irresistible to butterflies, bees, and other flying pollinators. Always top sellers.

Uses: Containers, landscapes, beds, butterfly gardens  
Growth Rate: Fast

Buddleia davidii Adokeep ADONIS BLUE™

Buddleia davidii Peakeep PEACOCK™

Buddleia davidii Pyreep PURPLE EMPEROR™

Buxus microphylla Bulthouse USPP19991 CanBRA

SPRINTER® 2-4' Zones 5-9

This is an improved, fast-growing form of 'Winter Gem.' Its glossy evergreen foliage is attractive year-round, and it has excellent hardiness. This variety's more upright habit makes it great for hedging, and because Sprinter grows fast it will fill in more quickly than other varieties.

Uses: Hedges, borders, foundation plantings, containers  
Growth Rate: Medium

Buxus microphylla var. koreana Eselles USPP22328 Can4595

WEDDING RING® 1-3' Zones 5-8

Wedding Ring is a hardy, compact, variegated boxwood. Its rich, glossy green foliage has a lime margin that matures to gold as summer progresses. It holds its color well in summer and winter and is an excellent addition to formal gardens or as a year-round accent plant in any home landscape.

Uses: Containers, beds, foundation plantings, low hedges  
Growth Rate: Slow

Buxus sempervirens Katerberg USPP19991 Can2365

NORTH STAR™ 2-3' Zones 5-8

Glossy, dark green foliage and a dense, spherical form that rarely requires pruning are what makes North Star shine. It has superior winter color, too. This versatile, hardy boxwood brings year-round interest to any outdoor space.

Uses: Containers, beds, foundation plantings, low hedges  
Growth Rate: Slow

PURPLE PEARLS™

4-5' Zones 6-8

This new hybrid beautyberry has distinctive pink flowers. The foliage is tinged with purple, particularly in the fall when the very large purple-violet berries cover the plant. Purple Pearls is vigorous and has a nice upright habit.

Uses: Mixed borders, cutting gardens, perennial beds  
Growth Rate: Fast

*Calycanthus* <sup>TM</sup>USPP24014 CanPBRAF

'Aphrodite'

5-6' Zones 5-9

'Aphrodite' is an improved calycanthus with large, bright red magnolia-like flowers. Unlike 'Hartlage Wine' it is very fragrant. This rebloomer has nice, glossy foliage, too.

Uses: Mixed borders, beds  
Growth Rate: Medium

*Caryopteris clandonensis* <sup>TM</sup>Jason' USPP22160

LIL' MISS SUNSHINE™

30-36" Zones 5-9

This cross between Petit Bleu™ and Sunshine Blue® delivers shiny yellow foliage and a neat compact habit. Lil' Miss Sunshine produces an abundance of blue flowers in later summer.

Uses: Containers, groundcover, landscapes, perennial beds and borders  
Growth Rate: Fast

*Caryopteris x clandonensis* <sup>TM</sup>CT912' USPPAF CanPBRAF

BEYOND MIDNIGHT™

24-30" Zones 5-9

Extremely dark, glossy, dramatic foliage gives this Caryopteris a distinguished look for formal borders. It forms a compact mound topped with rich blue flowers in late summer. New this year.

Uses: Containers, landscapes, perennial beds and borders  
Growth Rate: Fast

*Caryopteris x clandonensis* <sup>TM</sup>Mimblel' USPP14674 Can2317

PETIT BLEU™

24-30" Zones 5-9

Tightly compact, vigorous plants are covered by exquisite, deep blue flowers in summer and fall.

Uses: Containers, groundcover, landscapes, perennial beds and borders  
Growth Rate: Fast

*Caryopteris incana* <sup>TM</sup>Jason' USPPAF Can2316

SUNSHINE BLUE®

3' Zones 5-9

As different from earlier, anemic-looking yellow leaf forms as it gets. Sunshine Blue is vigorous, bushy, well-branched, and has incredible, azure blue flowers and brilliant gold foliage.

Uses: Containers, perennial beds and borders, landscapes, butterfly gardens  
Growth Rate: Fast

*Ceanothus x pallidus* <sup>TM</sup>Minmar' USPPAF CanPBRAF

MARIE BLEU™

2-3' Zones 6

Loads of misty blue flowers in late spring cover this compact plant. Red seed heads add another season of garden interest. This is an extremely drought-tolerant plant.

Uses: Mixed borders, perennial beds  
Growth Rate: Medium

*Ceanothus x* <sup>TM</sup>Minmadore' USPPAF CanPBRAF

MARIE GOLD™

2-3.5' Zones 6-9

Marie Gold™ has all the features and beauty of Marie Rose™ Ceanothus but with the addition of bright golden foliage. Attractive rich pink blooms and showy red seed capsules complete the package of this beauty.

Uses: Mixed borders, perennial beds  
Growth Rate: Medium

*Ceanothus* <sup>TM</sup>Minmarose' USPPAF

MARIE ROSE™

2-4' Zones 4-9

Marie Rose has numerous panicles of rich pink flowers that appear in mid-summer and again in early fall, followed by attractive red seed capsules. It is an upright, compact plant with glossy foliage and purple stems. This extremely drought-tolerant plant requires well-drained soil and should not be overwatered. Adored by butterflies.

Uses: Mixed borders, perennial beds  
Growth Rate: Medium

*Cephalanthus occidentalis* <sup>TM</sup>SMCOSS' USPPAF CanPBRAF

SUGAR SHACK™

3-4' Zones 4-10

Buttonbush has long been prized as a native, but it was way too big for most landscapes. Not anymore! We've cut the size in half and added colorful red fruit and glossy foliage. Add in distinctive, fragrant white flowers and you've got a delightful plant that shines from spring to fall.

Uses: Mixed borders, mass plantings, rain gardens  
Growth Rate: Medium

DOUBLE TAKE™ Series

4-5' Zones 5-9

Top Seller

You'll do a double take when you see this series of quince that look like a camellia. More than just pretty flowers, the new Double Take quinces are easy to care for because they're thornless and do not produce fruit. Once established, they are extremely drought tolerant. Developed by Dr. Tom Ranney and his team at the Mountain Crops Research & Extension Center in North Carolina, the Double Take series is sure to brighten spring gardens across North America. Perfect for spring impulse sales.

Uses: Hedging, mass plantings, and cutting gardens  
Growth Rate: Medium

*Chaenomeles speciosa* <sup>TM</sup>USPP20952

DOUBLE TAKE™ 'Orange Storm'

Orange Storm puts on a spectacular early spring display of large double flowers that feature a unique orange color and a bright yellow eye.

*Chaenomeles speciosa* <sup>TM</sup>USPP20920

DOUBLE TAKE™ 'Pink Storm'

Large, double flowers are an intense pink. A spring charmer that is excellent in the landscape and makes exceptional cut arrangements.

*Chaenomeles speciosa* <sup>TM</sup>USPP20951

DOUBLE TAKE™ 'Scarlet Storm'

The large, true red flowers of 'Scarlet Storm' will fool you because they resemble roses more than quinces. These beauties make early spring gardens come alive.

*Chamaecyparis pisifera* <sup>TM</sup>Dow Whiting' USPP20883 Can3636

SOFT SERVE®

6-10' Zones 5-8

Soft Serve is a compact, conical false cypress with graceful, soft, fern-like branching. Its leaves are bright green on top and flecked with silver-blue on the bottom. An excellent substitute for dwarf Alberta spruce or other larger conifers.

Uses: Landscapes, borders, specimens  
Growth Rate: Medium

'Diamond Ball'

🌱🌱 5-6' Zones 4-9

The cool white-blue flowers are round or semi-spherical in shape, and reach 4-5" in diameter. This prolific bloomer flowers on both old and new wood, and blooms from June through August. Long blooming and easy to grow!

Uses: Specimen plant

Growth Rate: Fast

**Clematis**<sup>Zojapur<sup>®</sup> USPP20343 CanPBRAF</sup>

HAPPY JACK® Purple

🌱🌱 6-8' Zones 5-9

Super easy to grow, this early and long-flowering beauty blooms on old and new wood from midsummer into fall. Intense plum purple flowers with bright yellow stamens measure 3-5" across. New this year.

Uses: Specimen, containers, perennial gardens, mixed borders

Growth Rate: Fast

**Clematis**<sup>Zojogo<sup>™</sup> USPPAF CanPBRAF</sup>

JOLLY GOOD™

🌱🌱 6-7' Zones 4-9

This easy-to-grow 'Jackmanii' hybrid grows vigorously yet maintains its compact habit. Light purple flowers with magenta undertones are produced in abundance all summer on new wood. New this year.

Uses: Specimen, perennial gardens, mixed borders

Growth Rate: Fast

**Clematis**<sup>Krakowiak<sup>™</sup> USPP24374 CanPBRAF</sup>

PINK MINK®

🌱🌱 9-10' Zones 4-9

Now everyone can grow Clematis! Easy to grow and lots of flowers, that's the hallmark of Szczepan Marczyński's breeding. Pink Mink® hits the mark head on with an abundance of bright pink-on-pink blooms from early summer to early fall.

Uses: Specimen plant

Growth Rate: Fast

**Clematis**<sup>Zostiva<sup>™</sup> USPP23372 CanPBRAF</sup>

STILL WATERS™

🌱🌱 4-7' Zones 5-9

Large, icy violet blue blooms appear early and last long into summer on this easy-to-grow Clematis. It blooms reliably every year on new wood. Try it paired with Black Lace™ Sambucus. New this year.

Uses: Specimen, perennial gardens

Growth Rate: Fast

**Clematis**<sup>USPP24044 CanPBRAF</sup>

'Sweet Summer Love'

🌱 10-15' Zones 4-9

Wouldn't it be great if Sweet Autumn clematis flowered sooner and longer and came in other colors? Now it does! 'Sweet Summer Love' has the flowers, the fragrance, the ease of growth, and beautiful cranberry-violet blooms that start over a month earlier than others. This breakthrough vine is from award-winning clematis breeder Szczepan Marczyński of Poland. It will add lots of drama to gardens when trained up a trellis or other support.

Uses: Specimen plant

Growth Rate: Fast

**Clethra alnifolia**<sup>Crystalina<sup>™</sup> USPP21651 Can4160</sup>

SUGARTINA® 'Crystalina'

🌱🌱 28-36" Zones 4-9 🦋🚫

This improved dwarf clethra holds its tight dense shape well. Fragrant pure white flowers appear in late summer, and the dark glossy foliage turns yellow in the fall.

Uses: Beds, landscapes, borders, butterfly gardens

Growth Rate: Medium

**Clethra alnifolia**<sup>Caleb<sup>™</sup> USPP21589 Can4167</sup>

VANILLA SPICE®

🌱🌱 3-6' Zones 4-9 🦋🚫

This North American native is a standout plant with attractive, glossy, dark green leaves and extra large, pure white flowers. The individual blooms are roughly the size of a dime, about twice the size of a typical clethra, and appear on large spikes. There are few plants that offer such wonderful fragrance in late summer. Butterflies adore this plant.

Uses: Beds, landscapes, borders, butterfly gardens

Growth Rate: Medium

**Cornus obliqua**<sup>Powell Gardens<sup>™</sup> USPPAF CanPBRAF</sup>

RED ROVER™

🌱🌱 4-5' Zones 4-8 🦋🚫

A compact and colorful selection of our valuable native silky dogwood. Clean green foliage accents white flowers in late spring and blue fruit in fall. Exceptional fall color and red stems in winter add to its year-round appeal. Outstanding shrub for moist to damp sites. New this year.

Uses: Naturalizing, mass plantings, landscapes

Growth Rate: Medium

**Cornus sanguinea**<sup>Cato<sup>™</sup> USPP19892 CanPBRAF</sup>

ARCTIC SUN™

🌱🌱 3-4' Zones 4-7 🚫

A brightly colored compact dogwood with rich yellow stems tipped in blood red. Arctic Sun is brighter than other compact varieties and adds a bold splash of color in the winter landscape. This hardy, adaptable plant will tolerate damp soils. Good for cut stems.

Uses: Beds, landscapes, winter gardens, rain gardens

Growth Rate: Medium

**Cornus stolonifera**<sup>Farrow<sup>™</sup> USPP18523</sup>

ARCTIC FIRE™

🌱🌱 3-4' Zones 3-8 🚫

Compact and heavily branched, Arctic Fire produces clouds of white flowers in May. In winter, the bare red stems bring brilliant color to the landscape. Good for cut stems.

Uses: Beds, landscapes, winter gardens, rain gardens

Growth Rate: Medium

**Cornus stolonifera**<sup>Neil Z<sup>™</sup> USPPAF CanPBRAF</sup>

PUCKER UP!®

🌱🌱 3-4' Zones 3-8 🚫

This unique red-stemmed dogwood features glossy, puckered foliage that is distinctive as well as attractive. The thick foliage delivers a high degree of leaf spot resistance. Compact growth and bright red winter stems add to this native shrub's year-round appeal.

Uses: Beds, landscapes, winter gardens, rain gardens

Growth Rate: Medium

**Cytisus scoparius**<sup>SMNCSGH<sup>™</sup> USPPAF</sup>

SISTER GOLDEN HAIR®

🌱 12-18" Zones 6-8 🚫

Larger, showier, bright gold flowers cascading down its branches in mid-spring create tremendous impulse appeal at retail. Can be trimmed to shape after flowering. An excellent accent plant for sunny, dry landscapes. Not recommended for the Northwest. New this year.

Uses: Container gardens, edging, mixed borders

Growth Rate: Medium

*Deutzia* <sup>NCKX1</sup> USPPAF CanPBRAF

YUKI CHERRY BLOSSOM™ 1-2' Zones 5-8

It took ten years but we now have the first ever Nikko-type deutzia with pink flowers. That's right, pink flowers on a low spreading deutzia. A shower of elegant pink flowers creates a carpet of color. Great for mass plantings because of its neat, mounded habit and rich burgundy-purple fall color.

Uses: Mass plantings, groundcover, mixed borders  
Growth Rate: Medium

*Deutzia* <sup>NCKX1</sup> USPPAF CanPBRAF

YUKI SNOWFLAKE™ 1-2' Zones 5-8

This extra-heavy blooming deutzia has elegant white spring flowers, which creates great container presentation at retail. Its neat, mounded habit and attractive fall color make it a great landscape plant, too.

Uses: Mass plantings, groundcover, mixed borders  
Growth Rate: Medium

*Deutzia gracilis* <sup>Duncan</sup> USPP16098 Can2640

CHARDONNAY PEARLS® 20-36" Zones 5-8

A dense, rounded shrub with arching branches, versatile, easy Chardonnay Pearls has chartreuse foliage and dainty white flowers.

Uses: Containers, mixed plantings, landscapes, beds  
Growth Rate: Medium

*Deutzia gracilis* <sup>Mincream</sup> USPPAF CanPBRAF

CRÈME FRAICHE® 1-2' Zones 5-8

The attractive variegated foliage and white flowers of this plant make it a showy gem in the garden. It particularly shines when planted near yellow-flowered annuals and perennials. Like most variegated plants, it will have the occasional reversion, but is still a very attractive garden plant.

Uses: Mass plantings, groundcover, mixed borders  
Growth Rate: Medium

*Diervilla rivularis* <sup>SMINDRSF</sup> USPPAF CanPBRAF

KODIAK® Black 3-4' Zones 5-7

An adaptable, drought tolerant, native shrub that thrives in sunny and shady landscapes while supporting pollinator populations. Dark burgundy-black foliage is especially intense in spring and fall, topped with bright yellow flowers in early summer. New this year.

Uses: Landscapes, naturalizing, mass plantings  
Growth Rate: Medium

*Diervilla x* <sup>62X88544</sup> USPPAF CanPBRAF

KODIAK® Orange 3-4' Zones 5-7

An adaptable, drought tolerant, native shrub that thrives in sunny and shady landscapes while supporting pollinator populations. An eco-friendly alternative to burning bush, it lights up the fall landscape with its glowing orange foliage. New this year.

Uses: Landscapes, naturalizing, mass plantings  
Growth Rate: Medium

*Euonymus alatus* <sup>Select</sup>

FIRE BALL® 5-7' Zones 4-9

Here's a hot burning bush with excellent branching, hardy stems, and superior winter hardiness. In fall, the emerald green foliage turns to molten red.

Uses: Landscapes, beds, hedges, foundation plantings  
Growth Rate: Slow

*Euonymus alatus* <sup>Hayman</sup> USPP21634 Can4389

UNFORGETTABLE FIRE® 5-7' Zones 4-9

A new compact form of burning bush with dense, fine branching and smaller leaves, it has much better container presentation than other varieties. Outstanding fall color makes this a great plant for landscapes.

Uses: Landscapes, beds, hedges, foundation plantings  
Growth Rate: Slow

*Euonymus fortunei* <sup>Interbolwi</sup> USPP10424

BLONDY® 18-24" Zones 5-9

Add value and bright, butter yellow color to your finished containers with this very popular sport of 'Sunspot.' Green margins give depth and definition to combinations, and the low-growing, tightly branched habit is especially attractive in window boxes.

Uses: Containers, groundcover, mixed plantings  
Growth Rate: Slow

*Euonymus fortunei* <sup>Rosemerto</sup>

GOLD SPLASH® 18-24" Zones 5-9

With large, round, gold-margined leaves and superior disease resistance and cold hardiness, Gold Splash is a beautiful and top-performing shrub. The yellow fruit, orange seeds, and the tidy, attractive habit are eye-catching.

Uses: Containers, groundcover, mixed plantings  
Growth Rate: Slow

*Euonymus fortunei* <sup>WALDBOLWI</sup> USPP16787 Can3397

GOLDY™ 18-24" Zones 5-8

The breeder of Blondy® has developed this new and improved 'Emerald-n-Gold' that is a bright flush of gold in the spring. The variegated foliage is also colorful year-round.

Uses: Mass plantings, groundcover, foundation plantings  
Growth Rate: Slow to Medium

*Euonymus fortunei* <sup>Alban</sup> USPPAF Can4596

WHITE ALBUM™ 18-24" Zones 5-9

This improved form of 'Emerald Gaiety' has superior leaf spot resistance and a consistent growing habit. Landscapers and gardeners will appreciate the bright leaves that set it apart from older varieties. The stable variegation has a large, cream-colored border around the perimeter of the large evergreen leaves.

Uses: Containers, groundcover, mixed plantings  
Growth Rate: Slow

**SNOW DAY® Series** 5-6' Zones 4-9

If you think of Pearl-bush as an old-fashioned plant for last century's gardens, think again. Snow Day varieties have larger flowers, and more of them, than old varieties. They are a spring snowstorm of pure white flowers, and just what your garden needs to welcome spring.

Uses: Mixed borders, landscapes, beds, specimens  
Growth Rate: Medium

*Exocorda x* <sup>USPP23329</sup> CanPBRAF

SNOW DAY® 'Blizzard'

This beauty creates a blizzard of blooms just in time for spring impulse sales. It can be pruned to remain small or trained into a small tree.

*Exocorda* <sup>Niagara</sup> USPP21665 Can4690

SNOW DAY® Surprise

This variety has bigger flowers and is a better production plant than 'The Bride.' A flood of white flowers covers Snow Day Surprise in the spring, and its compact, broadly upright growth habit presents well in containers.

## SHOW OFF® Series

Show Off forsythias earn their name with an outrageous display of classic yellow spring flowers. Unlike older varieties, Show Off plants flower from base to tip for a lush, showy flower display each spring.

*Uses:* Containers, mixed plantings, landscapes, beds  
*Growth Rate:* Medium

*Forsythia x intermedia* <sup>Minfor® USPP19321 CanPBRaf</sup>

SHOW OFF® 5-6' Zones 4-9

This Show Off struts its stuff in the garden. A showy bloomer with large, golden flowers in abundance, this forsythia has a better, fuller habit that gardeners appreciate. Superior in containers.

*Forsythia x 'Minfor6'* <sup>USPP24361 CanBRAf</sup>

SHOW OFF® Starlet 2-3' Zones 5-9

This dwarf forsythia is a mass of bright yellow spring flowers from base to tip. Perfect for gardeners who want to replace older forsythia that take up too much room and have a weak flower display. The same showy blooms of Show Off, but in a smaller package. A fantastic impulse item for early spring sales.

*Forsythia* <sup>NIMBUS® USPPAF Can608</sup>

SHOW OFF® Sugar Baby 18-30" Zones 4-9

This miniature, upright selection is the smallest in the Show Off series. It delivers more flowers per inch to create an outstanding spring display. A very compact, dwarf plant, Sugar Baby provides lots of spring color in a small space.

*Genista lydia* <sup>Select</sup>

BANGLE® 2' Zones 4-9

With waves of electric yellow flowers in the early spring, this low-mounding beauty is great in mass plantings and makes a magnificent container plant. Bangle is a nearly leafless plant with bright green stems that provide interesting year-round texture and color.

*Uses:* Containers, mixed plantings, landscapes, beds  
*Growth Rate:* Medium

*Hebe* <sup>USPP20376</sup>

'Frozen Flame' 24-36" Zones 8-10

Beautiful grey and white leaves develop purple tips in winter and spring. As the weather turns cold and sunny, the color becomes more intense. Large blue flowers appear in May and June.

*Uses:* Mixed borders, specimen plant, container plant, edging  
*Growth Rate:* Medium

*Hebe* <sup>USPP20359</sup>

'Magic Summer' 18-24" Zones 8-10

An attractive small evergreen shrub best suited to milder coastal areas. Small grey and white leaves turn purple/red in spring. Abundant purple/blue flowers appear in June. Use it in the perennial garden or in a pot on the terrace.

*Uses:* Mixed borders, specimen plant, container plant, edging  
*Growth Rate:* Medium

*Hebe* <sup>USPP22145</sup>

'Wild Romance' 18-24" Zones 8-10

Dark green foliage turns to deep burgundy at the end of each stem in winter and spring. Turns a lighter red in summer. Purple flowers appear in early summer. A stunning plant for borders and containers in milder climates.

*Uses:* Mixed borders, specimen plant, container plant, edging  
*Growth Rate:* Medium

## Rose of Sharon

Tough, easy, vigorous, and gorgeous. No wonder gardeners and garden designers rave about these tropical-looking hardy plants.

*Uses:* Containers, specimens, mixed beds  
*Growth Rate:* Medium

*Hibiscus x* <sup>Resi® USPPAF CanPBRaf</sup>

FULL BLAST® 8-10' Zones 5-9

Large lavender flowers set this hybrid hibiscus apart from the rest. They contrast wonderfully with the rich, dark green foliage and give temperate gardens a tropical feel. Full Blast may be grown as a small tree or shrub. This early-blooming variety may be forced into bloom for spring sales.

*Hibiscus syriacus* <sup>'Antong Two' USPP19547 Can339</sup>

LIL' KIM™ 3-4' Zones 5-9

This truly unique shrub is one of very few miniature hibiscus. Lil' Kim's dainty white flowers have a showy red eye and last three days instead of the typical one day before falling. The flower color is a dramatic contrast to the thick, dark green leaves.

*Hibiscus syriacus* <sup>SHIMRR38® USPPAF CanPBRaf</sup>

LIL' KIM™ Red 3-4' Zones 5-9

Like the rest of the Lil' Kim series, this selection also maintains its naturally dwarf habit without pruning and is a great choice for containers. It produces deep rosy red flowers in summer, pairing up nicely with many summer flowering perennials. New this year.

*Hibiscus syriacus* <sup>SHIMRV24® USPPAF Can339</sup>

LIL' KIM™ Violet 3-4' Zones 5-9

This purple form of the dwarf Lil' Kim™ hibiscus is perfect for containers and smaller gardens. It has the same compact habit but with plum-violet flowers accented by a red eye. The flowers, which can be up to 3" across, are very striking against the dark, glossy foliage and are held up by very strong stems.

*Hibiscus syriacus* <sup>'America Irene Scott' USPP20579 Can382</sup>

SUGAR TIP® 8-12' Zones 5-9

An eye-catching rose of sharon with brightly variegated creamy-white and bluish-green foliage. Unlike 'Purpureus Variegatus,' this beauty actually flowers! Loads of clear pink, double flowers, and it does not produce seed like older cultivars. Beautiful as the focal point of containers and gardens alike.

## CHIFFON™ Series

8-12' Zones 5-9

The Chiffon cultivars are extremely strong growers that boast vivid, exotic-looking blooms. This series has earned the praise of growers and consumers alike.

*Hibiscus syriacus* <sup>'Notwoodthree' USPP20574 Can383</sup>

BLUE CHIFFON™

Lacy, rich blue blooms grace this vigorous grower. Exceptional as a hedge or as a focal point in decorative containers.

*Hibiscus syriacus* <sup>'Notwoodone' USPP12619 CanPBRaf</sup>

LAVENDER CHIFFON™

Large, single blooms have a swirl of petals at the center and are reminiscent of anemone or antique roses. Very floriferous.

Medal, Salon du Vegetal; Bronze Medal, Plantarium 2011; Best of Show, IGC 2010

**CHIFFON™ Series cont.**

8-12' Zones 5-9

*Hibiscus syriacus*<sup>JANNW0004</sup> USPP24336 Can4656

**PINK CHIFFON™**

This beautiful new plant has the same flower power and soft, graceful stems of other Chiffon varieties, but with large, soft pink flowers accented by a lacy center tuft. The distinctive, clear pink of Pink Chiffon is an unusual addition to summer gardens.

*Hibiscus syriacus*<sup>Notwoodtwo</sup> USPP12612

**WHITE CHIFFON™**

Identical to Lavender Chiffon, but with brilliant white flowers.

**SATIN® Series**

8-12' Zones 5-9

Satin cultivars are tremendously improved versions of hardy hibiscus.

Prized for their brilliant colors, vigor, and overall first-rate performance, they put on a summer-long show.

*Hibiscus syriacus*<sup>DVPazurri</sup> USPP20563 Can4391

**AZURRI BLUE SATIN®**

The first-ever seedless hibiscus with single blue flowers, this beauty was developed in Belgium after years of breeding. Its large single flowers, which bloom mid-summer through fall, are an intense, rich blue adorned with an attractive ruffled margin.

*Hibiscus syriacus*<sup>Marina</sup> USPP12680

**BLUE SATIN®**

A strong growing, uniform plant with rich blue color.

*Hibiscus syriacus*<sup>Mathilde</sup> USPP12660

**BLUSH SATIN®**

Long-blooming blush pink flowers with stunning red centers.

*Hibiscus syriacus*<sup>ILV037</sup> USPPAF CanPBRAF

**ORCHID SATIN®**

Exceptionally large, sterile, orchid pink, single blossoms are accented by a dramatic red eye. Presents well in containers and has great impulse appeal at retail. Non-invasive. New this year.

*Hibiscus syriacus*<sup>SHIMCR1</sup> USPPAF CanPBRAF

**RUFFLED SATIN®**

Looking more like a tropical hibiscus than a temperate plant, this hardy bloomer boasts rich pink, ruffled flowers accented by an intense burgundy-red eye. Large and showy, the overlapping flower petals form a complete circle. Its glossy green leaves and short internodes make for a very nice, full, bushy plant. Low seed-set is an added benefit.

*Hibiscus syriacus*<sup>Toru</sup> USPP12196

**VIOLET SATIN®**

Large deep violet-pink flowers. Blooms in late summer.

*Humulus*<sup>Summer</sup> USPPAF CanPBRAF

**SUMMER SHANDY™**

5-10' Zones 5-8

Yes, hops are used for brewing beer, but this variety was bred for its ornamental appeal. The bright golden-yellow foliage of this vine is colorful all season, and Summer Shandy has a refined habit and less aggressive growth than other varieties. It is well suited to home gardens.

Uses: Specimen plant, mixed borders

Growth Rate: Fast

**Smooth Hydrangea**

Super hardy and easy to grow across North America, smooth hydrangeas reliably produce flowers on new wood every year. Traditionally, this species bears white flowers, though remarkable pink selections have recently become available. Their flower color is not affected by soil pH.

Uses: Mixed beds, landscapes, hedges, dried cut flowers

Growth Rate: Fast

*Hydrangea arborescens*<sup>Abetwo</sup> USPP20571 Can4166

**INCREDIBALL®**

4-5' Zones 3-9

**Top Seller**

Magnificent and massive is the best way to describe the blooms on this strong-growing hydrangea. The huge flower heads measure up to 12" in diameter, emerging lime green, changing to white, and then to green. And because the blooms are backed up by strong, sturdy stems, there is no drooping, even after a heavy rain.

*Hydrangea arborescens*<sup>NCHA1</sup> USPP20765 Can4166

**INVINCIBELLE® Spirit**

3-4' Zones 3-9

**Top Seller**

The very first pink-flowered 'Annabelle' hydrangea, Invincibelle Spirit is an exceptional and unique plant. It is easy to grow and produces new flowers right up until frost. And because the buds are produced on new wood, it will still produce flowers even in the most extreme weather conditions. Sturdy stems hold the continuous flowers upright.

*Hydrangea arborescens*<sup>NCHAZ</sup> USPPAF CanPBRAF

**INVINCIBELLE® Spirit II**

3-4' Zones 3-9

The second generation of Invincibelle Spirit boasts notable improvements like darker foliage, stiffer stems, and larger, richer pink flowers which age to an attractive green. It is a strong rebloomer, delivering loads of blooms in summer and fall across North America. As with the original Invincibelle Spirit, \$1 from every plant sold will be donated to the Breast Cancer Research Foundation®. New this year.

INVINCIBELLE® Spirit and Spirit II *Hydrangea arborescens* – \$1.00 will be sent to the Breast Cancer Research Foundation for each Invincibelle Spirit sold. We encourage you to donate as well. BCRF is dedicated to preventing breast cancer and finding a cure in our lifetime by funding clinical and translational research worldwide. Find out more about this worthy organization at [www.brcfure.org](http://www.brcfure.org).

### ABRACADABRA® Series

🌱🌱 3-4' Zones 5-9

Showy black satin stems and big, funky flowers create magic in the garden with the Abracadabra series.

*Hydrangea macrophylla* <sup>Horde</sup> USPP21635

#### ABRACADABRA® Orb

Mophead flowers emerge green and peach and then mature to hot pink. Flower color can be pushed to blue with the addition of aluminum sulfate.

*Hydrangea macrophylla* <sup>Horabstra</sup> USPP21636

#### ABRACADABRA® Star

Star's lacecap blooms emerge pink and white and turn hot pink as they age. Flower color can be pushed to blue with the addition of aluminum sulfate.

### CITYLINE® Series

🌱🌱 1-3' Zones 5-8

Top Seller

Developed in Germany where plant growth regulators are prohibited, Cityline hydrangea have a naturally tight, compact habit, vivid color and excellent mildew resistance.

*Hydrangea macrophylla* <sup>Berlin Rabe</sup> USPP10912

#### CITYLINE® Berlin

Large, rosy pink blooms are long lasting and change to an attractive green with age. Dark green, glossy mildew-resistant foliage makes a stunning contrast to colorful blooms. Perfect for smaller gardens.

*Hydrangea macrophylla* <sup>Ramars</sup>

#### CITYLINE® Mars

Mars is out of this world. It's a petite plant, but it has big, long-lasting mophead blooms in heavy hot pink and white. Easily grows into a tight, full plant without shearing or using PGRs.

*Hydrangea macrophylla* <sup>Paris Raps</sup> USPP10906

#### CITYLINE® Paris

With mounds of brilliant red blooms, Cityline Paris is worthy of the name. Its compact habit makes this show stopper an excellent choice for containers and smaller landscapes. Excellent mildew resistance.

*Hydrangea macrophylla* <sup>Ragra</sup>

#### CITYLINE® Rio

One of the taller, wider, and earlier-blooming varieties in the Cityline series, Rio has large, exquisite, bluish-lavender blooms and beautiful foliage. These flowers last and last.

*Hydrangea macrophylla* <sup>Venice Raven</sup> USPP10928

#### CITYLINE® Venice

Venice has an exceptionally tight, compact growth habit and large, bright pink or blue flowers depending on the pH of the soil. A showy shrub for beds and containers.

*Hydrangea macrophylla* <sup>Vienna Raus</sup> USPP10930

#### CITYLINE® Vienna

This hydrangea makes a statement with its rich, pinkish mauve blooms. Like others in this series, Vienna has excellent mildew resistance.

*Hydrangea macrophylla* <sup>Horheart</sup> USPPAF

#### EDGY® Hearts

🌱🌱 2-4' Zones 5-9

Hearts has large, intense blooms that are dark pinkish-red with a thin, pure white line on the margin. Flower color can be pushed to blue with the addition of aluminum sulfate. The plant also has strong stems and glossy foliage.

### LET'S DANCE® Series

🌱🌱 2-3' Zones 5-9

Top Seller

The Let's Dance hydrangea series represents the next generation of reblooming hydrangea, blooming on both new wood and old and delivering seasons of flowers. Plus, the series boasts vivid flower coloration and attractive, glossy foliage. Will bloom for gardeners in the North and is a wonderful substitution for older forms of hydrangea that have trouble blooming.

*Hydrangea macrophylla* <sup>Berner</sup> USPP22229 Can4526

#### LET'S DANCE® Big Easy

The largest flowers you'll see on a reblooming mophead hydrangea, Big Easy is a plant with attitude. The blooms progress from pink/green to pink and then often back to green. In more acidic soils, blooms may be blue.

*Hydrangea macrophylla* <sup>SMHMTAU</sup> USPPAF CanPBRAF

#### LET'S DANCE® BLUE JANGLES®

A very strong rebloomer with rich color. The Let's Dance reblooming series continues to improve and expand with Blue Jangles™, a compact selection with delightful rich blue (or pink) mophead flowers. A real standout in the garden and in the container because of its sturdy frame and its propensity to bloom.

*Hydrangea macrophylla* <sup>SMHMLDD</sup> USPPAF CanPBRAF

#### LET'S DANCE® Diva!

This reblooming hydrangea has sepals the size of your palm and baby blue (or pink) lacecap blooms as big as a dinner plate. Soil pH will affect bloom color.

*Hydrangea macrophylla* <sup>Robert</sup> USPP20020 Can4070

#### LET'S DANCE® Moonlight

A strong rebloomer with large, rich pink mopheads (or blue, depending on pH). Good bronze fall foliage.

*Hydrangea macrophylla* <sup>SMHMSIGMA</sup> USPPAF CanPBRAF

#### LET'S DANCE® RAVE™

The intensely jewel toned, rich violet purple flowers of this reblooming hydrangea are sure to garner lots of oohs 'n aahs from customers. Acid soils deepen its vivid hue, while alkaline soils result in saturated pink blooms. This strong, reliable rebloomer keeps its compact size in landscapes and containers. New this year.

*Hydrangea macrophylla* <sup>ES14</sup> USPPAF CanPBRAF

#### LET'S DANCE® RHYTHMIC BLUE™

The blooms of Rhythmic Blue are the richest, most vibrant blue seen on a hydrangea. The florets have a distinctive geometric shape and are closely packed into full, richly colored mophead flowers that shift easily from pink to rich amethyst blue by adjusting the soil pH. The reliable blooms are held up on sturdy stems, and a tidy habit and good wilt-resistance add to its appeal.

*Hydrangea macrophylla* <sup>Lynn</sup> USPP20019 Can4069

#### LET'S DANCE® Starlight

Starlight features massive vivid pink blooms (or blue, depending on pH). This is the first lacecap to bloom on new wood. Beautiful in mass plantings or decorative containers.

\* If you must prune, do so after flowering  
 \*\* If you must prune, do so after early summer bloom

## Bigleaf Hydrangeas

Fertilization: Moderate to High (150-300)  
 Light level: Medium  
 Overwintering temperature: 35-50° F  
 pH: 5.6-6.2  
 Pest, disease concerns: Aphids, Leaf Spot, watch for mildews  
 Pruning, growth regulators: B-9 is effective at controlling height and darkening foliage color. Pruning soon after potting will produce a finished product that doesn't open up when it flowers. The key is to make the first prune at the level of the first set of leaves closest to the soil.

Vernalization: Required  
 Water requirements: Moderate  
 Grower notes: Prefers moist, well-drained soils. May be trimmed after flowering. Soil pH will affect flower color. Protect overwinter in colder climates.

## Panicle Hydrangeas

Fertilization: Moderate to High (150-300)  
 Light level: Medium to High  
 Overwintering temperature: Polyhouse  
 pH: 5.6-6.2  
 Pest, disease concerns: Aphids, Leaf Spot, Spider Mites  
 Pruning, growth regulators: Flowers continuously from July until frost. A light prune after flowering will result in fresh terminals 6-8 weeks later. NOTE: If you hard prune after mid summer, flowers will be delayed until the end of September.

Vernalization: Required  
 Water requirements: Partly dry  
 Grower notes: Prefers good, loamy soil. Most adaptable of all hydrangeas to different soil types. Most urban tolerant and very difficult to kill. Best if pruned back in late winter or early spring. Prefers medium moisture, not as water dependent as *Hydrangea macrophylla*. Will tolerate drought. Fertilize in early spring by applying a slow release fertilizer specialized for trees and shrubs. Follow the label for the recommended rate of application.

## Mountain Hydrangeas

Fertilization: Moderate to High (150-300)  
 Light level: Medium  
 Overwintering temperature: 35-50° F  
 Pest, disease concerns: Aphids, Leaf Spot, watch for mildews  
 Pruning, growth regulators: B-9 is effective at controlling height and darkening foliage color. Pruning soon after potting will produce a finished product that doesn't open up when it flowers. The key is to make the first prune at the level of the first set of leaves closest to the soil.

Vernalization: Required  
 Water requirements: Moderate  
 Grower notes: Prefers moist, well-drained soil. Supplemental water may be needed in very hot weather. Pruning is typically not needed, but it may be pruned to shape immediately after the spring bloom. Fertilize in spring with a controlled release fertilizer.

## Oakleaf Hydrangeas

Fertilization: Moderate to High (150-300)  
 Light level: Medium  
 Overwintering temperature: 35-50° F  
 Pests, disease concerns: Bacterial leaf spot  
 Pruning, growth regulators: Pruning soon after potting will produce a finished product that doesn't open up when it flowers. The key is to make the first prune at the level of the first set of leaves closest to the soil.

Vernalization: Required  
 Water requirements: Dry  
 Grower notes: Best in moist, well-drained soil. Prune after flowering. May need protection in winter.

## Smooth Hydrangeas

Fertilization: Moderate to High (150-300)  
 Light level: Medium to high  
 Overwintering temperature: Polyhouse, no heat  
 Pests, disease concerns: Aphids can be a problem.  
 Pruning, growth regulators: Prune back in late winter to encourage strong new growth and flowering. Flower color is not affected by soil pH.

Vernalization: Required  
 Water requirements: Moderate  
 Grower notes: Prune back in late winter to encourage strong new growth and flowering. Flower color is not affected by soil pH. Best in moist, well drained soil but adapts to most sites.

Award of Garden Merit, Royal Horticulture Society at Wisley Gardens

*Hydrangea macrophylla* <sup>SMHMPI</sup> USPPAF CanPBRAF

PARAPLU® 30-36" Zones 5-9

Mophead blooms of rich, vibrant florets range from candy pink to intense hot pink. There may be some purple in lower pH soils. The florets are doubled and arch downward like a phalanx of dainty umbrellas. Paraplu holds up well in the heat and has also stood up to the rigors of Midwestern winters. Its compact habit and glossy foliage make it a very handsome plant even before it blooms.

*Hydrangea macrophylla* <sup>Sommarie</sup> USPP20595

PINK SHIRA™ 3-4' Zones 5-9

A beautiful, compact grower, Pink Shira's flowers emerge green and become infused with red before transforming to shades of rich pink. Blooms are long lasting and turn lavender purple in acid soils.

### Panicle Hydrangea

With so many choices in panicle hydrangeas, how do you choose? Proven Winners selects varieties for strong, sturdy stems that can hold any flower size in any climate. They also select for pure, intense flower colors in summer and fall. Dwarf cultivars are excellent in containers, larger ones are perfect for landscapes. However you use them, count on reliable blooms year after year.

*Hydrangea paniculata* <sup>LV080</sup> USPP22782 CanPBRAF

BOBO® 30-36" Zones 3-8

**Top Seller**

This dwarf hydrangea will turn heads. Bobo is a showy, hardy plant that is engulfed by large white flowers in summer. The flowers are held upright on strong stems and continue to grow and lengthen as they bloom. In fall they can turn pinkish. Bobo is an undeniable asset to any garden, particularly those in which space is limited.

*Hydrangea paniculata* <sup>SMHPL</sup> USPPAF CanPBRAF

FIRE LIGHT® 4.5-6' Zones 3-9

Fire Light is the new standard by which to measure all hardy hydrangeas. Upright panicles are packed with florets, which transform from pure white to rich pomegranate-pink. Its thick, sturdy stems hold up the beautiful flowers so they are prominently displayed in the garden.

*Hydrangea paniculata* <sup>USPP12874</sup> Can2319

'Limelight' 6-8' Zones 3-8

**Top Seller**

From the Netherland's Pieter Zwijnenburg Jr., Limelight's flowers open creamy white then turn lime green. In fall they turn deep pink. Blooms every year without fail. Consumer Rated #1 Proven Winners shrub.

*Hydrangea paniculata* <sup>USPP15395</sup>

'Little Lamb' 4-6' Zones 3-8

This compact hardy hydrangea is an excellent choice for residential landscapes.

*Hydrangea paniculata* <sup>Jane</sup> USPP22330 Can3914

LITTLE LIME® 3-5' Zones 3-9

**Top Seller**

A dwarf form of the popular 'Limelight' hydrangea, Little Lime sports the same great flowers and coloration, with soft green flowers that first turn pink and then burgundy in the fall. At one-third the size of 'Limelight', this beauty is an excellent plant for smaller landscapes and containers.

*Hydrangea paniculata* <sup>SMHPLQFI</sup> USPPAF CanPBRAF

LITTLE QUICK FIRE™ 3-5' Zones 3-8

**Top Seller**

Little Quick Fire is the dwarf form of early blooming, easy-to-sell Quick Fire. Its white flowers turn deep pink in summer and stay attractive into fall. It's a wonderful companion plant for Little Lime™ and Bobo™ hydrangeas.

*Hydrangea paniculata* <sup>DVPpinky</sup> USPP16166 Can2892

PINKY WINKY® 6-8' Zones 3-8

Exceptionally large, two-toned blooms emerge pure white and turn an intense deep pink as summer progresses. Blooms mid-summer until frost, regardless of climate, soil, or pruning.

*Hydrangea paniculata* <sup>Bulk</sup> USPP16812 Can3398

QUICK FIRE® 6-8' Zones 3-8

The earliest flowering hydrangea yet, Quick Fire starts blooming in late May – early June. Flowers open white pink and darken as they age. Blooms every year like clockwork.

*Hydrangea paniculata* <sup>SMHPRZEP</sup> USPPAF CanPBRAF

ZINFIN DOLL™ 6-8' Zones 3-8

This outstanding hardy panicle hydrangea bears buckets of beautiful, dense panicles of blooms which emerge pure white, then turn bright red-pink from the bottom up. Its flowers are fuller and they make excellent cut flowers too. New this year.

### GATSBY™ Series

5-6' Zones 5-9

Just as *The Great Gatsby* is a classic of American literature, *H. quercifolia* is a classic native plant. Long prized by veteran gardeners, we think it's time to bring this intriguing North American plant to a wider market. With that in mind, we are pleased to offer three superior new varieties that will introduce all gardeners to the charm of oakleaf hydrangeas.

Uses: Mixed borders, woodland gardens  
Growth Rate: Medium

*Hydrangea quercifolia* <sup>Brenhill</sup> USPPAF CanPBRAF

GATSBY GAL™

This plant is a little smaller than other *H. quercifolia*, but with large flowers, and lots of them. Full panicles of pure white blooms are held upright above the foliage. The flowers are quite large relative to the plant's compact size and make this plant a great choice for smaller gardens.

*Hydrangea quercifolia* <sup>Brother Edward</sup> USPPAF CanPBRAF

GATSBY MOON™

This is a distinctive, showy take on our beloved native oakleaf hydrangea. The tightly packed, pure white double florets are weather-resistant and create very full, conical panicles with a unique 'quilted' effect. As the bloom ages, it turns a nice shade of green that lasts through most of the summer.

*Hydrangea quercifolia* <sup>JoAnn</sup> USPPAF CanPBRAF

GATSBY PINK™

This remarkable cultivar of our native oakleaf hydrangea boasts huge, showy panicles of blooms which quickly transform from pure white to an incredibly rich pink in summer. Its dark green foliage turns mahogany red in autumn. A great way to add flair to natural style shade gardens. New this year.

*Hydrangea quercifolia* <sup>Doughill</sup> USPPAF CanPBRAF

GATSBY STAR™

Doubled blooms are similar to those of 'Snowflake', but the individual petals are pointed instead of rounded. The result is a beautiful, lacy panicle – and a very showy plant. It's a fun way to add some unexpected drama to woodland gardens.

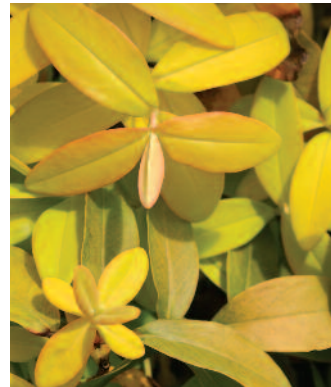

**Did you know that hydrangea is the #1 plant genus searched for online?**

## Mountain Hydrangea

Especially good for areas prone to late frosts, mountain hydrangeas are known for their greater bud and stem hardiness as well as their reblooming capabilities. They bloom reliably on both old and new wood from early summer to frost each year.

*Hydrangea serrata*<sup>MAKD' USPPAF CanPBRAF</sup>

TUFF STUFF™ 18-24" Zones 5-9

This is a real beauty, with flowers so delicate and refined that it seems strange to call them tough – but they are. Extremely bud-hardy and reblooming, Tiny Tuff Stuff produces abundant lacecap flowers comprised of doubled sepals. While this plant leans to blue, the flower color may range from blue to pink to white, all soft, delicate shades perfect for refined gardens. The flowers age to an attractive pink and tip down in a distinctive arching fashion.

*Hydrangea serrata*<sup>MAK20' USPPAF Can4527</sup>

TUFF STUFF™ 2-3' Zones 5-9

This hydrangea has improved bud and stem hardiness as well as the ability to flower on new wood. Its attractive, reddish-pink lacecap flowers create a mass of color in early summer, and it continues to produce new flowers right up until frost. The semi-double to double florets begin with creamy coloration in the center before maturing to an intense pink. If your reblooming *H. macrophyllas* have been inconsistent performers, try Tuff Stuff. It is an especially good choice in colder climates where reblooming hydrangeas have not lived up to expectations. Soil pH will affect flower color.

*Hypericum calycinum*<sup>NCHCI' USPPAF CanPBRAF</sup>

GOLDEN RULE® 12-18" Zones 5-8

An excellent groundcovering subshrub for shade, Golden Rule has colorful orange new growth and attractive yellow foliage. Yellow summer flowers up to 2" across add to its appeal. Although it is not as aggressive as the green-leaved varieties, it will benefit from a trimming one or two times per year. It does not revert.

*Uses:* Mass plantings, groundcover, erosion control  
*Growth Rate:* Medium

*Hypericum x 'Deppe'*<sup>USPP20045 Can3587</sup>

SUNNY BOULEVARD™ 2-3' Zones 4-8

This tightly branched shrub is noted for its long bloom time, beginning in July and continuing until September. The petite flowers are rich yellow and abundant, and the leaves are willow-like. Blends gracefully into the perennial border.

*Uses:* Beds, borders, and cut flowers  
*Growth Rate:* Medium to Fast

*Hypericum kalmianum*<sup>SMHKBF' USPPAF CanPBRAF</sup>

BLUES FESTIVAL™ 2-3' Zones 4-7

Attractive blue leaves contrast with the bright yellow flowers in July and August, creating an appealing combination. The tightly branched, compact growth habit of Blues Festival makes this a good native plant for landscaping.

*Uses:* Mixed borders, foundation plantings  
*Growth Rate:* Medium

*Ilex crenata*<sup>ANNYS1' USPPAF CanPBRAF</sup>

BRASS BUCKLE™ 12-18" Zones 5-8

Perfect for edging walkways, patios or borders, this small-statured Japanese holly shines all year long. Its glossy, clear yellow, evergreen foliage is burn-resistant so it can be grown in sun or part shade. In milder climates, it makes an attractive container specimen. New this year.

*Uses:* Specimen, edging, entrance gardens, containers  
*Growth Rate:* Medium

*Ilex crenata*<sup>FarrowSKS' USPPAF</sup>

PATTI O™ 3-4' Zones 6-7

Patti O is another great plant from Maryland plantsman Mike Farrow. Smaller than its sister Sky Pointer®, Patti O has smaller, darker leaves and glossier foliage. Much darker than typical *I. crenata*, this petite evergreen is perfectly scaled for smaller gardens and patios and for flanking formal entryways.

*Uses:* Mixed borders, foundation plantings  
*Growth Rate:* Medium

*Ilex crenata*<sup>Farrowone' USPP20049 Can3813</sup>

SKY POINTER® 4-5' Zones 6-7

Add some architecture to your garden or decorative container with this narrow, conical seedling of 'Sky Pencil' holly. It was selected for its superior production performance. Shiny, dark evergreen leaves and tight, upright branching make this a must-have plant. Adds texture to the garden from spring through winter.

*Uses:* Containers, entrance gardens, specimen  
*Growth Rate:* Medium

## Blue Holly

Blue holly is much better suited to North American conditions than the English type. Shrubs have large, glossy, blue-tinted green leaves and cherry red berries. Our choice male and female evergreen shrubs have notably compact branching. Both male and female are needed to produce fruit.

*Uses:* Specimens, foundation plantings, hedges  
*Growth Rate:* Slow

*Ilex x meservae*<sup>Gold Princess' USPPAF CanPBRAF</sup>

CASTLE GOLD™ 5-6' Zones 5-9

Foliage flushes a bright, attractive lime-gold. This hardy plant has bright red fruit. Female.

*Ilex x meservae*<sup>Hachfee' USPP14310 Can2314</sup>

CASTLE SPIRE® 8-10' Zones 5-8

Dark glossy leaves contrast with the bright red fruit. Female. Pyramidal form.

*Ilex x meservae*<sup>Heckenstar' USPP14308 Can2315</sup>

CASTLE WALL™ 5-8' Zones 5-8

The lustrous green foliage is outstanding for hedges. Male pollinator. Broad, columnar form.

## Winterberry

Although attractive additions to the spring and summer landscape, for winterberry it's what happens during late fall and winter that counts. Bright red, pea-sized shiny fruits persist long after the leaves are gone, creating spectacular displays of brilliant color.

*Uses:* Borders, hedges, wildlife-friendly gardens, cut stem impulse sales  
*Growth Rate:* Slow

*Ilex verticillata* 'Spray'

BERRY HEAVY® 6-8' Zones 3-9

Extra large fruits on a compact form. A real conversation starter. Pollinator: Mr. Poppins

*Ilex verticillata* 'Roberta Case'

BERRY HEAVY® Gold 6-8' Zones 3-9

Strike it rich with Berry Heavy® Gold, the winterberry with the biggest, brightest gold fruit yet. You will treasure this plant for gardens, mass plantings or as a cut branch. Selected by the late, great plantsman and conservationist Fred Case of Saginaw Michigan. Ten cents from each plant sold is donated to support the Nature Conservancy. Use Mr. Poppins as pollinator.

*Ilex verticillata* 'Spritzer'

BERRY NICE® 6-8' Zones 3-9

Mildew resistant, with a pleasing, mounded shape and a profusion of medium-sized fruits. Pollinator: Mr. Poppins

*Ilex verticillata* 'FarrowBP' USPPAF CanPBRAF

BERRY POPPINS™ 3-4' Zones 3-9

An excellent, heavy-fruiting dwarf variety, Berry Poppins is ideal for gardeners who want bright winter color and fruit for cutting but don't have room for a typical winterberry. Use Mr. Poppins as a pollinator.

*Ilex verticillata* 'NCIV1' USPPAF CanPBRAF

LITTLE GOBLIN™ 3-5' Zones 3-9

The first ever tetraploid winterberry brings you extra big and abundant rich-red berries on a dwarf plant. You will treasure this plant for gardens, mass plantings or as a cut branch. Its compact size makes it ideal for residential landscapes. Use Mr. Poppins as a pollinator.

*Ilex verticillata* 'FarrowMP' USPPAF CanPBRAF

MR. POPPINS™ 3-4' Zones 3-9

This compact male winterberry is the ideal pollinator for Berry Poppins.

*Itea virginica* 'Sprich' USPP10988

LITTLE HENRY® 2-3' Zones 5-8

Arching chains of white flowers in summer are followed by fantastic wine-red foliage in fall. Native.

*Uses:* Containers, beds, mixed borders  
*Growth Rate:* Medium

*Juniperus horizontalis* 'Hagedus' USPP22743 CanPBRAF

GOOD VIBRATIONS® Gold 12-18" Zones 4-9

Unlike any other juniper, Good Vibrations is soft to the touch and provides dynamic, seasonal color changes. In the spring, it emerges an attractive chartreuse hue, changes to bright yellow, and then takes on orange hues in the autumn. A sport of 'Hughes,' it has the same spreading, horizontal habit, a drought-tolerant culture, and is easy to grow.

*Uses:* Mass plantings, rock gardens, slope and bank plantings  
*Growth Rate:* Medium

*Kolkwitzia amabilis* 'Maradco'

DREAM CATCHER™ 6-9' Zones 4-8

Dream Catcher is like no beauty bush you've seen. This shrub looks spectacular even when it's not in bloom and its golden yellow foliage turns a splendid golden orange in fall. For best performance, place in part shade.

*Uses:* Containers, mixed beds, landscapes  
*Growth Rate:* Medium

## INFINITINI™ Series

2-4' Zones 6b-11

Bred to be compact yet vigorous growers, this exciting line of dwarf crapemyrtles creates new opportunities for sales through zone 6b. Offer these beauties as all-summer flowering potted plants or color for mixed borders. They are very easy to grow, are heat and drought tolerant, and even tolerate clay soils.

*Uses:* Specimen plant, containers, mixed borders, entrance gardens  
*Growth Rate:* Medium

*Lagerstroemia x* 'GZX133123' USPPAF

INFINITINI™ Brite Pink

Bright pink, fluffy flowers line the stems of this dwarf crapemyrtle as it reblooms all summer long. It keeps its compact size as it matures, fitting easily into containers and residential landscapes. New this year.

*Lagerstroemia x* 'GZX133271' USPPAF

INFINITINI™ Magenta

This heavy blooming crapemyrtle produces showy clusters of rich dark pink-red flowers in summer atop a clean mound of bright green foliage. Use it to add a pop of color to landscapes and containers. New this year.

*Lagerstroemia x* 'GZX133251' USPPAF

INFINITINI™ Orchid

This compact crapemyrtle produces plenty of showy lavender purple flowers on low, arching stems in summer. It has shown good winter survival in zone 6b. Beautiful in containers and landscapes. New this year.

*Laurus nobilis* 'LNSS' USPPAF

SICILIAN SUNSHINE™ 6-20' Zones 8-10

Uniformly crisp chartreuse to gold foliage sets this sweetbay apart from traditional cultivars. It has strong, consistent gold color, is fragrant, and features attractive red pedicels.

*Uses:* Specimens, foundation plantings, hedges  
*Growth Rate:* Slow to Medium

*Ligustrum* 'NCLX1' USPPAF CanPBRAF

GOLDEN TICKET® 4-6' Zones 5-8

Enjoy all the fragrance and color of gold privet without the guilt of growing an invasive plant. Dr. Thomas Ranney of NCSU solved the puzzle by making a wide interspecific cross that resulted in this compact, colorful, eco-friendly flowering shrub. This seedless privet will not litter landscapes with seedlings. It provides durable season-long color for landscapes, and has fragrant late spring flowers.

*Uses:* Landscapes, hedging, mass planting  
*Growth Rate:* Medium

*Lonicera periclymenum* USPPAF CanPBRAF

'Scentsation' 10-15' Zones 4-9

The name says it all! A very showy vine with extremely fragrant yellow flowers blooms from mid-spring to late summer. It then produces bright red berries. This floriferous honeysuckle has a very long bloom time and is a wonderful addition to summer gardens, especially when trained up a trellis or fence. It is non-invasive.

*Uses:* Specimen plant  
*Growth Rate:* Medium

# SHRUBS THAT YIELD EDIBLE FRUIT

Now it's easy to grow your own superfruit! these adaptable plants produce lots of tasty, healthy berries. While fruit trees require a large garden, these adaptable selections thrive in residential landscapes, and can even be grown in patio containers.

## Sweetberry Honeysuckle

*Lonicera caerulea* <sup>Dolce Vita</sup> USPPAF CanPBRAF

SUGAR MOUNTAIN® Blue

5-6.5' Zones 2-6

Reminiscent of raspberries and blueberries, this new haskap selection from the Czech Republic gives you bigger, tastier berries on an easy to grow hedge. So much easier to grow than blueberries, this native shrub is super hardy and needs no special soils. Plant two selections for even heavier fruit crops.

Uses: Home gardens, fruit production  
Growth Rate: Medium

*Lonicera caerulea* <sup>Stimul</sup> USPPAF

SUGAR MOUNTAIN® BALALAIKA™

5-6' Zones 2-6

Abundant sweet fruits up to 1" long and 0.5" wide. This low maintenance selection is an excellent companion plant for Sugar Mountain® Blue. Fruiting improves when two varieties are planted near each other.

Uses: Home gardens, fruit production  
Growth Rate: Medium

*Lonicera caerulea* <sup>54-57</sup> USPPAF

SUGAR MOUNTAIN® EISBÄR™

5-6' Zones 2-6

This high yielding selection produces very big fruit – up to 1.5" long and 0.5" wide. Use as a companion plant to Sugar Mountain® Blue for improved fruiting.

Uses: Home gardens, fruit production  
Growth Rate: Medium

*Lonicera caerulea* <sup>Indigo</sup> USPPAF

SUGAR MOUNTAIN® KALINKA™

5-6' Zones 2-6

This very high-yielding selection has fruits about 1" long. Pollinator for Sugar Mountain® Blue.

Uses: Home gardens, fruit production  
Growth Rate: Medium

## Goji Berry

*Lycium barbarum* <sup>SMNDBL</sup>

BIG LIFE BERRY®

10-12' Zones 5-8

An edible shrub, Big Lifeberry has extra-large fruit, perfect for home cooks. Easy-to-grow goji berries are popular for their health benefits and are easy to grow in full sun, although some staking may be necessary for maximum access to the nutrient-rich fruit. Can be grown in home gardens or a patio pot. A pollinator is not needed.

Uses: Specimen, home orchards, fruit production  
Growth Rate: Medium

*Lycium barbarum* <sup>SMNDSL</sup>

SWEET LIFE BERRY®

10-12' Zones 5-8

A second edible shrub that is the same size as Big Lifeberry but with smaller, extra-sweet fruit that is perfect for snacking. A pollinator is not needed.

Uses: Specimen, home orchards, fruit production  
Growth Rate: Medium

**JAZZ HANDS™ Series**

A versatile, low maintenance shrub for sun or part shade, Chinese fringe flower is a member of the witchhazel family. Its naturally graceful form, colorful foliage, and spring blooms make it a favorite for Southern gardens. It thrives in heat, tolerates drought but prefers some moisture, and is evergreen in mild climates.

*Uses:* Groundcover, hedges, foundation plantings, mixed borders, container specimen  
*Growth Rate:* Fast

*Loropetalum chinense* <sup>Kurenai Daiou</sup> USPPAF

JAZZ HANDS™ Bold 5-6' Zones 7b-9

This eye-catching selection boasts the biggest flowers of the series, backed by similarly large, purple leaves that flush pink in spring to accent the hot pink blooms. Dark foliage holds its color all season. New this year.

*Loropetalum chinense* <sup>Kurenai</sup> USPPAF

JAZZ HANDS™ Dwarf Pink 1-3' Zones 7b-9

A great match for Jazz Hands Dwarf White, this dwarf selection bears hot pink blooms atop its cool purple foliage with cranberry accents. Use it to add a pop of color to landscapes and containers. New this year.

*Loropetalum chinense* <sup>Hakuro</sup> USPPAF

JAZZ HANDS™ Dwarf White 1-3' Zones 7b-9

A great match for Jazz Hands Dwarf Pink, this is the most attractive white flowered Loropetalum we've seen. Rich, dark green foliage provides the perfect backdrop for the large, pure white flowers in spring followed by sporadic rebloom all summer. New this year.

*Loropetalum chinense* <sup>Beni Hime</sup> USPPAF

JAZZ HANDS™ Mini 10-12" Zones 7b-9

A low growing groundcover type, this selection spreads its purple-black foliage to 3-4', holding its deep coloration all season. Showy pink flowers pop out in spring. Also pretty in decorative urns. New this year.

*Loropetalum chinense* <sup>Hime</sup> USPPAF

JAZZ HANDS™ Variegated 4-6' Zones 7b-9

This first-ever introduced, variegated Loropetalum forms a gorgeous arching mound of dark purple foliage dotted with hot pink flowers in spring. Its showy new growth is splashed with eye catching pink and white variegation. New this year.

*Microbiota decussata* <sup>Prides</sup>

CELTIC PRIDE™ 1-3' Zones 3-7

An excellent, cold-hardy evergreen adaptable to sun or shade, Celtic Pride has superior disease resistance, which prevents the tip die-back common in other Russian cypress. Its green foliage turns an attractive russet color in the winter.

*Uses:* Foundation plantings, mixed borders, mass plantings  
*Growth Rate:* Medium

*Parthenocissus quinquefolia* <sup>Toku</sup> USPPAF CanPBRAF

RED WALL® 20' Zones 3-9

This native vine is perfect for covering unattractive fences. It has dark green foliage that turns to fire-engine red in the fall and features blue fruit in fall as well. This fast-growing and salt-tolerant native vine is the easiest way to create a colorful 'green' wall.

*Uses:* Specimen plant creates a green "fence"  
*Growth Rate:* Fast

*Parthenocissus quinquefolia* USPPAF

'Yellow Wall' 20' Zones 3-9

A companion plant for Red Wall® Virginia Creeper, this vine is noted for its yellow autumn color. A nice native vine for covering fences and walls quickly.

*Uses:* Specimen plant creates a green "fence"  
*Growth Rate:* Fast

*Physocarpus opulifolius* <sup>Mindia</sup> USPP16391 Can2892

COPPERTINA® 6-8' Zones 3-7

An all-season beauty with coppery foliage that darkens as it matures and white, summer-blooming flowers. Native.

*Uses:* Landscapes, mixed beds, specimens  
*Growth Rate:* Medium

*Physocarpus opulifolius* <sup>Seward</sup> USPP14821 Can2641

SUMMER WINE® 5-6' Zones 3-7

A strong grower that doesn't get out of control, Summer Wine is a compact ninebark that features purple foliage and pale pink flowers. It has good resistance to powdery mildew.

*Uses:* Landscapes, mixed beds, specimens  
*Growth Rate:* Medium

*Physocarpus opulifolius* <sup>SIMPOTW</sup> USPPAF CanPBRAF

TINY WINE® 3-4' Zones 3-8 **Top Seller**

This dwarf ninebark is smaller than others on the market. Tiny Wine is extra bushy, with small, refined, dark bronze-maroon leaves, which contrast beautifully with the white flowers in late spring. The flower show is exceptional, with dainty flowers blooming up and down the stem in a very showy display. This plant will provide a lot of low-maintenance color in a very small space.

*Uses:* Mixed borders, hedges, foundation plantings  
*Growth Rate:* Medium

**HAPPY FACE® Series**

2-3' Zones 2-7

This collection of potentilla provides gardeners with a trio of attractive flower colors along with dark, healthy, dense foliage. All are low-maintenance plants.

*Uses:* Mass plantings, mixed borders, foundation plantings  
*Growth Rate:* Fast

*Potentilla* <sup>Lundy</sup> USPP22176 CBRAF

HAPPY FACE® Yellow

Big, bright yellow flowers grace this Happy Face from spring until late summer and shine against its dark, healthy foliage. Little or no pruning is needed to maintain the plant's tight, dense habit.

*Potentilla fruticosa* <sup>Lundy</sup> USPP22732 CanPBRAF

HAPPY FACE® Pink Paradise

The clear pink, semi-doubled flowers hold their color longer than other pink potentillas, although they may still fade under intense heat. This is an excellent choice for cooler climate gardeners who want low-maintenance flowers all summer long.

*Potentilla fruticosa* <sup>White Lady</sup> USPP22761 CBRAF

HAPPY FACE® White

Happy Face produces an abundance of extra large big white flowers from spring until late summer. Its dense habit and dark, healthy foliage add to its appeal. This is a wonderful, low-maintenance plant that is perfect for adding bright color to the summer landscape. Ideal for colder climates.

*Rhamnus frangula* <sup>Ron Williams</sup> USPP14791

FINE LINE® 5-9' Zones 2-7

Gardeners are always on the lookout for varieties that provide vertical accents and structure, and Fine Line does both extremely well. Plant four or five of these in separate containers and you've got a portable, living screen. This non-invasive cultivar is an excellent alternative to older, weedy varieties.

*Uses:* Containers, landscapes, mixed beds, narrow hedges  
*Growth Rate:* Medium

## BLOOM-A-THON® Series

An azalea that's twice as nice because it blooms for months, not weeks, and can take the heat. Plus the disease-resistant foliage maintains excellent color all year long.

Uses: Mixed borders, foundation plantings, specimen plant  
Growth Rate: Medium

*Rhododendron* (Azalea)

BLOOM-A-THON® Lavender

3.5-4.5' Zones 6-9

Bright lavender flowers appear in April, then the plant reblooms from early July until hard frost. Even high summer temperatures can't stop this magnificent bloomer.

*Rhododendron* (Azalea)

BLOOM-A-THON® Pink Double

3.5-4.5' Zones 6-9

Ruffled, double pink flowers are the hallmark of this beautiful azalea, which blooms for 4-6 weeks in the spring and then again for 12-16 weeks in the summer and fall. Who says azalea color is for spring only?

*Rhododendron* (Azalea)

BLOOM-A-THON® Red

3-4' Zones 6-9

The large, cherry red flowers of this Bloom-a-thon will adorn a partially shaded garden spot, first in the spring and then again in the heat of summer and early fall.

*Rhododendron* (Azalea)

BLOOM-A-THON® White

2.5-3' Zones 6-9

With an explosion of pure white blooms, this Bloom-a-thon definitely brightens up a shady corner. Like the rest of the series, it will bloom first in the spring and rebloom in the summer.

## DANDY MAN™ Series

Hardy, disease-resistant Dandy Man rhododendron also have excellent heat tolerance. These strong growers have vibrantly colored flowers.

Uses: Landscapes, mass plantings  
Growth Rate: Slow

*Rhododendron*

DANDY MAN™ Pink

6-8' Zones 4-9

A unique combination of hardiness, heat tolerance and root rot resistance makes this *hyperthyrum* hybrid a garden workhorse. Pink flowers adorn this attractive, dark green, well-branched shrub during its early mid-season bloom time. Developed by former American Rhododendron Society President Dr. Leonard Miller. Very disease resistant.

*Rhododendron*

DANDY MAN™ Purple

6-8' Zones 4-9

This hard-working Joe Parks' hybrid has proven itself hardy in Maine and New Hampshire. You'll love the rich purple blooms, but you will really appreciate the *R. pseudochrusanthum* genes which give it an extremely high level of Phtophthora resistance. Pretty and tough, this shrub delivers! Very disease resistant.

*Rhododendron*

'Amy Cotta'

2-3' Zones 4-8

A rich pinkish-lavender, heavily flowering form of 'PJM' rhododendron, 'Amy Cotta' is a slow-growing, semi-dwarf form perfect for sites that call for a compact flowering evergreen. Dense, azalea-like foliage is smaller and darker than that of 'PJM'; plentiful ruffled blooms cover the plant in early spring.

Uses: Landscapes, beds, borders, specimen plant  
Growth Rate: Slow

*Rhododendron*

BOLLYWOOD®

18-24" Zones 5-9

Bright neon red-pink flowers engulf this compact semi-evergreen azalea in spring. Vivid, glossy, silver and dark green variegated foliage supplies the color for the rest of the year. A very showy plant with lots of impulse appeal.

Uses: Landscapes, beds, borders, specimen plant  
Growth Rate: Medium

*Rosa x*

LIVIN' LA VIDA®

30-36" Zones 5-9

The remarkable bright coral to flamingo pink flowers of Livin' La Vida pop against the glossy, dark green foliage. This continuous-blooming, disease-resistant rose produces lots of showy, full blooms with a high petal count. Its compact, upright growth and good branching make it an excellent container plant as well as a great landscape plant.

Uses: Specimen plant, mixed border  
Growth Rate: Medium

## OSO EASY® Series

Top Seller

Oso Easy landscape roses have glossy foliage, a low-mounding habit, and exceptional disease tolerance.

Uses: Containers, landscapes, beds  
Growth Rate: Medium

*Rosa x*

OSO EASY® Cherry Pie

2-4' Zones 5-9

Abundant bright candy apple red single blooms grace this low-maintenance landscape rose. The tallest variety in the Oso Easy series.

*Rosa x*

OSO EASY® Double Red

3-4' Zones 5-9

A floriferous new easy-growing rose with an abundance of bright red, doubled blooms with orange undertones. This seedling from Double Knock Out® maintains a nice rounded habit and has excellent disease resistance. Highly disease-resistant.

*Rosa x*

OSO EASY® Fragrant Spreader

1-2' Zones 3-9

Fragrant, single pink blooms. A low grower that covers large areas, banks, or tough locations.

*Rosa x*

OSO EASY® Honey Bun

2-3' Zones 5-9

Not only are the blooms on this beauty unique in color, they're also semi-double. Flower color ranges from blush-pink to butter yellow to creamy white. A luscious treat.

*Rosa x*

OSO EASY® ITALIAN ICE®

18-30" Zones 5-9

Similar to 'Peace' in its coloration, Italian Ice's orange buds open to soft yellow flowers melting into pink blushed margins. The soft flower color is set off nicely by its dark green, glossy foliage. Flowers are semi-doubled, with 24-30 petals per bloom. This self-cleaning rose has excellent disease resistance, abundant flowers, and a nice habit, making it an excellent plant for home gardens.

*Rosa x*

OSO EASY® Lemon Zest

18-30" Zones 5-9

We've evaluated yellow roses for years, looking for one that lived up to our demands for brilliant color and excellent disease-resistance. This is it! Sunny, canary yellow flowers do not fade to white and really light up against the glossy green foliage. It is free flowering, producing lots of buds which open to self-cleaning flowers. Excellent disease resistance.

*Rosa x* 'ChewperAdventure' USPP22190 Can4688

OSO EASY® Mango Salsa 2-3' Zones 5-9

A truly unique flower color that is deliciously tropical, with shades of ruby-red grapefruit and summer sunsets.

*Rosa x* 'ChewMayTime' USPP18347 Can3401

OSO EASY® Paprika 1-2' Zones 3-9

Abundant red-orange single blooms with a bright yellow eye. Glossy green foliage shows hints of red in new growth.

*Rosa x* 'Horcoherent' USPP15882 Can3915

OSO EASY® Peachy Cream 1-3' Zones 3-9

Large, double flowers emerge peach and transform to cream.

*Rosa x* 'ChewNiceBell' USPPAF CanPBRAF

OSO EASY® Pink Cupcake 2-4' Zones 5-9

This disease-resistant rose is a delicious shade of pink, with a touch of coral to keep it from being too sweet. Large flowers are in sharp contrast to the glossy green leaves. Look for up to 20 petals on each flower. The foliage has reddish new growth.

*Rosa x* 'WEKciabako' USPP18552

HOME RUN® 3.5-4' Zones 4-9

The most disease-resistant rose on the market, this seedling of Knock Out® is resistant to both powdery mildew and black spot and has good downy mildew resistance as well. True red flowers bloom continuously from summer to frost, and this heat-tolerant, cold-hardy beauty requires no deadheading.

Uses: Mass plantings, mixed borders  
Growth Rate: Medium

*Rosa x* 'Weiphom' USPP22958

PINK HOME RUN® 3.5-4' Zones 4-9

A pink sport of Home Run®, this beauty is early to flower and produces fresh, vivid, rich pink flowers all summer without deadheading. Plus, Pink Home Run® has excellent disease resistance.

Uses: Mass plantings, mixed borders  
Growth Rate: Medium

### OSO HAPPY® Series

What makes consumers oh so happy about this series of landscape roses? It's their perpetual blooms and superb disease resistance. Add to that magnificent color, pleasing growth habit, outstanding cold hardiness and you have a winner.

Uses: Mass plantings, shrub and perennial borders  
Growth Rate: Medium

*Rosa x* 'ZLEMarianne Yoshida' USPP22205 Can4448

OSO HAPPY® Petit Pink 2.5-3.5' Zones 4-9

Oso Happy features sprays of petite, bubble gum pink flowers and small green leaves, which are reminiscent of a miniature rose, but this is a full-sized landscape plant comparable to 'The Fairy.' This variety has a refined, mounded habit, a strong continuous cycle of blooms, and exceptional disease resistance.

*Rosa x* 'ZLEMartinCipar' USPP20471 CanPBRAF

OSO HAPPY® CANDY OH!™ 3-4' Zones 4-9

Large sprays of vivid red flowers bloom from midsummer to fall. A very attractive, disease-resistant rose that's great for landscaping.

*Rosa x* 'Zlesak Poly3' USPPAF CanPBRAF

OSO HAPPY® Smoothie 3' Zones 4-9

This thornless rose features panicles of single, hot pink blooms that flower from June to frost. This disease-resistant rose holds up to black spot very well and is an excellent plant for integrating into mixed borders. Bred by David Zlesak of Minnesota, it is very winter hardy.

*Salix chaenomeloides* 'Lubbers Zwart' USPPAF, CanPBRAF

BLACK CAT® 10-12' Zones 4-7

This showy pussywillow features extra large, black catkins in late winter/early spring. Its long branches make excellent cuts for winter arrangements. Salix is very hardy and easy to grow in moist to wet, sunny areas. It can be pruned to size after flowering. New this year.

Uses: Landscapes, mixed borders, cutting gardens  
Growth Rate: Fast

*Sambucus nigra* 'Gerda' USPP12305 Can2663

BLACK BEAUTY™ 8-12' Zones 4-8

Almost-black leaves distinguish this outstanding elderberry. Pretty pink, lemon-scented flowers appear in summer.

Uses: Containers, mixed beds, specimens, hedges  
Growth Rate: Fast

*Sambucus nigra* 'Eva' USPP15575 Can2633

BLACK LACE™ 6-8' Zones 4-8

Top Seller

A stunning development in elderberry breeding, Black Lace is an easy-growing, durable shrub with lacy, finely cut, intense purple black foliage that resembles a Japanese maple. It is very cold hardy and easy to grow, and adaptable to most sites. Pink flower clusters appear in early summer. Consumer Rated #2 Proven Winners shrub.

Uses: Containers, mixed beds, specimens, hedges  
Growth Rate: Fast

*Sambucus racemosa* 'SMNSRD4' USPPAF CanBRAAF

LEMONY LACE™ 3-5' Zones 3-7

Check out this showy new cutleaf elderberry with bright golden foliage. It's a colorful, shaggy mound of gold threads with colorful reddish new growth. The foliage is more deeply cut than 'Sutherland Gold' or Black Lace™ resulting in a compact irregular mound with extremely fine texture. White spring flowers produce red fruit in fall. Will tolerate full sun in northern climates, but prefers light shade in more southern areas.

Uses: Landscapes, specimen plant  
Growth Rate: Fast

*Schizophragma hydrangeoides* 'Mimens' USPPAF CanPBRAF

ROSE SENSATION™ 3.5-4.5' Zones 5-9

Elegant and distinctive, schizophragma is a great choice for gardeners who want something a little different in their landscapes. This is a showier variety with larger, deeper pink sepals in June and July. It's a great addition to woodland settings or trained up a north-facing wall.

Uses: Specimen plant, woodland gardens  
Growth Rate: Medium

## DOUBLE PLAY® Series

Top Seller

For interesting foliage and intense flower color, this series of spiraea has no equal. Compact, beautifully mounded plants, Double Play spiraea are also durable, showy, and easy to maintain.

Uses: Mixed beds, landscapes, mass plantings  
Growth Rate: Medium

*Spiraea japonica* <sup>'Galien'</sup> USPP21712 Can4072

DOUBLE PLAY® ARTISAN®

24-30" Zones 4-9

Artisan has color that inspires. Its blue-green foliage emerges a rich purple-red, setting it apart, and the blooms are as rich and pure a pink as you'll find in a spiraea.

*Spiraea* <sup>'Tracy'</sup> USPP21588 Can4073

DOUBLE PLAY® Big Bang

2-3' Zones 4-9

Massive pink flowers of a size never before seen in a spiraea mean lots of color from spring until fall. And that's true for the foliage, too, as it glows orange in spring and then matures to bright yellow.

*Spiraea media* <sup>'SMMSBK'</sup> USPPAF CanBRA4

DOUBLE PLAY® BLUE KAZOO®

2-3' Zones 4-8

Cool blue foliage is the perfect contrast to this hardy plant's crisp white blooms. Hints of burgundy in the new growth foreshadow the rich red foliage color it develops in fall. This neat, mounded plant is an excellent addition to the landscaper's palette.

*Spiraea japonica* <sup>'Tan'</sup> USPP21615 Can4074

DOUBLE PLAY® Gold

16-24" Zones 3-9

Just as showy as Artist, but Gold has a different coloration and a slightly smaller size. Excellent in mass plantings, the pure golden foliage provides a lovely contrast to the abundant bright pink blooms.

*Spiraea japonica* <sup>'SMNSJMF'</sup> USPPAF CanPBR4F

DOUBLE PLAY® Pink

24-36" Zones 3-9

Greatly improved selection with more vibrant flower color and excellent foliage. Foliage emerges dark red in spring, then changes to rich green, forming a dense mound. Intense pink flowers cover the shrub in late spring. The perfect combination of form, flowers, and foliage. New this year.

*Spiraea japonica* <sup>'SMNSJMF'</sup> USPPAF CanPBR4F

DOUBLE PLAY® Red

24-36" Zones 3-9

A color breakthrough for Spiraea, this selection bears revolutionary red flowers in late spring. Together with its showy dark burgundy spring foliage, it's the perfect Double Play®. New this year.

*Spiraea betufoia* <sup>'Tor Gold'</sup> USPPAF CanPBR4F

GLOW GIRL®

3-4' Zones 3-8

Spring flowers bloom when shoppers are in the garden center! The crisp lemon-lime foliage holds its color well, doesn't burn in summer, and turns russet red in fall. This is a wonderful cold-hardy plant with months of retail and landscape appeal.

Uses: Mixed beds, landscapes, mass plantings  
Growth Rate: Medium

*Spiraea x media* <sup>'Darsnorm'</sup>

SNOW STORM™

3-4' Zones 4-8

Masses of white blossoms cover every inch of this wonderful spirea from April through May. In autumn the blue-green foliage catches fire, becoming brilliant reddish orange.

Uses: Mixed beds, landscapes, mass plantings  
Growth Rate: Medium

*Symphoricarpos x doorenbosii* <sup>'Kordes'</sup>

AMETHYST™

3-5' Zones 3-7

Bright pink berries inject a refreshing note of vivid color to late summer and fall gardens. Easy to grow and very versatile.

Uses: Winter gardens, cut stems  
Growth Rate: Fast

## BLOOMERANG® Series

Top Seller

Bloomerang varieties are the most compact, most generously blooming and reblooming dwarf lilacs available. Fragrant flowers are prolific in spring, and the shrub reblooms again in mid-summer to frost, long past even the latest-blooming lilacs.

Uses: Mixed borders, foundation plantings  
Growth Rate: Medium

*Syringa* <sup>'SMSJBPT'</sup> USPPAF CanPBR4F

BLOOMERANG® Dark Purple

4-6' Zones 3-7

Bloomerang goes even bigger. Dark Purple grows taller than Purple and has larger, more rounded inflorescences. It's very showy in spring and continues to amaze with fragrant blooms from mid-summer to frost. A strong grower, Dark Purple will add beauty and fragrance to gardens from spring to fall.

*Syringa x 'Penda'* <sup>'USPPAF'</sup> CanPBR4F

BLOOMERANG® 'Pink Perfume'

4-5' Zones 3-7

The latest addition to the Bloomerang series puts on the same multi-season show as its siblings, only this time in pink. Its branched clusters of delightfully fragrant blooms are the hallmark of spring landscapes. After a brief rest, this lilac reblooms from midsummer through frost. New this year.

*Syringa x 'Penda'* <sup>'USPP20575'</sup> Can4071

BLOOMERANG® Purple

4-5' Zones 3-7

Beautiful lilac-purple blooms cover this petite, reblooming plant. An ideal choice for a small garden or even a container.

*Syringa x* <sup>'SMNSJMF'</sup> USPPAF CanPBR4F

SCENT AND SENSABILITY™ Pink

2-3' Zones 3-7

This dwarf lilac is wider than it is tall and produces copious dark pink buds that open to soft, lilac-pink flowers. Scent and Sensibility Pink came out of the same breeding program as Bloomerang®, but it does not rebloom strongly enough to be part of the Bloomerang collection. However, it does have repeat flowers through the summer, making it a fragrant, colorful compact plant for smaller landscapes.

Uses: Mixed borders, foundation plantings  
Growth Rate: Medium

ANNA'S MAGIC BALL™ 1' Zones 3-7

This bright golden dwarf evergreen looks great year round and can fill a void in many landscapes. It forms a bright golden evergreen ball, resembling 'Danica' but in yellow and with looser foliage and a more block-like habit. From Van Vloten Nursery in Canada, Anna's Magic Ball has good burn-resistance and holds its color nicely in winter.

Uses: Borders, foundation plantings, accent plant  
Growth Rate: Slow

*Thuja occidentalis* 'USPP21974 CanPBR/AF'  
'Filip's Magic Moment' 6-8' Zones 3-7

Not your typical arborvitae, Filip's Magic Moment has the same desirable size and habit of a dwarf Alberta spruce, plus brighter color. Extremely easy to grow, this evergreen is perfect for flanking formal entryways, either in the ground or in large containers.

Uses: Hedges, foundation plantings, accent plant  
Growth Rate: Slow

*Thuja occidentalis* 'Art Boe' USPP22174 Can3912  
NORTH POLE® 10-15' Zones 3-7

This narrow columnar selection of 'Wintergreen' has excellent hardiness and dark green winter foliage color. More narrow than 'Smargd' (AKA Emerald Green) it is also resistant to winter burn. Developed by Art Boe of Faribault, MN.

Uses: Hedges, screens  
Growth Rate: Medium to slow

*Thuja occidentalis* 'SMT0YB' USPPAF CanPBR/AF  
POLAR GOLD™ 12-15' Zones 3-7

Polar Gold has attractive gold evergreen foliage that adds brightness to the landscape all year round. It features dense, finely textured foliage that is resistant to wind burn, and at 12 to 15 feet in height, Polar Gold is a nice size for residential landscapes.

Uses: Hedges, screens  
Growth Rate: Medium

*Thuja plicata* 'Grovepl'  
SPRING GROVE® 20' plus Zones 5-8

Hardy, deer resistant, and very vigorous, Spring Grove holds its pyramidal form without pruning. Dark green foliage color stays fresh year round.

Uses: Hedges, landscapes  
Growth Rate: Slow

*Viburnum* 'Le Bois Marquis' USPP21686  
HANDSOME DEVIL™ 6-8' Zones 7-9

An elegant, glossy-leaved evergreen viburnum selected for its rainbow of green, burgundy, and orange-bronze hues in the new growth and in autumn. It is a compact, dense plant that makes an excellent hedge or specimen and is an especially good choice for milder climates. Pure white June flowers are followed by red fruit that matures to black. A cross between *V. odoratissimum* 'Awabuki' and *V. hilleri* 'Winton.' For best fruiting, use *V. odoratissimum* as a pollinator.

Uses: Hedge, specimen plant  
Growth Rate: Medium

*Viburnum* 'Redell' USPP24227 CanPBR/AF  
RED BALLOON™ 6-8' Zones 4-8

Yes, it's showy, but it's also easy to grow. This compact, well-branched hybrid has loads of bright red fruit, tightly packed into showy clusters in late summer and fall. White flowers appear in April and May. This cross between *V. lantana* and *V. rhytidophyllum* has a rounded upright habit. Fruiting is enhanced by planting it near *V. 'Mohican'* or *V. rhytidophylloides* 'Alleghany.'

Uses: Mixed borders, landscapes  
Growth Rate: Medium

*Viburnum brachteatum* 'SMVDLS' USPPAF CanPBR/AF  
ALL THAT GLITTERS™ 4-6' Zones 5-8

The glittery foliage of this viburnum catches the light beautifully and makes it very appealing in the garden. White late-spring flowers are followed by blue fruit in the fall. Much smaller than typical *V. brachteatum*, this plant is a nice size for residential landscapes. Plant near All That Glows for best fruit set.

Uses: Mixed borders, wildlife gardens, foundation plantings  
Growth Rate: Medium

*Viburnum brachteatum* 'SMVDL' USPPAF CanPBR/AF  
ALL THAT GLOWS™ 4-6' Zones 5-8

The high gloss shine of this compact viburnum is eye-catching. About half the size of a typical *V. brachteatum*, this variety has an attractive dense habit and very glossy foliage. The fruit size and set is quite large, especially for such a small plant. It's a great choice for residential landscapes. Plant near All That Glitters for the best production of blue fruit in late summer and fall.

Uses: Mixed borders, wildlife gardens, foundation plantings  
Growth Rate: Medium

*Viburnum carlesii* 'SMVCB' USPPAF CanPBR/AF  
SPICE BABY™ 3.5-5' Zones 4-8

With its fragrant spring blooms and attractive habit, this compact Korean spice viburnum is a great addition to gardens. Stronger growing than other compact varieties, it's a great choice for smaller landscapes, providing all of the intoxicating spring fragrance of traditional Korean spice in a petite package.

Uses: Mixed borders, foundation plantings  
Growth Rate: Medium

*Viburnum carlesii* 'Spiro' USPP24251 CanPBR/AF  
SPICE GIRL® 6-7' Zones 4-8

Everything you want in a viburnum and more: strong growth, fragrance, and colorful flowers. The spring flowers start out a deep reddish-pink and mature to pinkish white. This is a stronger grower than other *V. carlesii*.

Uses: Landscapes, mixed beds  
Growth Rate: Medium

*Viburnum cassinoides* 'SMNVDDD' USPPAF CanPBR/AF  
LIL' DITTY™ 1-2' Zones 3-8

This dwarf, fragrant Viburnum is an adaptable, easy to grow shrub for landscapes. Creamy white flowers are produced in abundance in late spring followed by showy fruits in fall which transition through pink, red, blue and black shades. Use *V. nudum* as a pollinator. New this year.

Uses: Mixed borders, foundation plantings  
Growth Rate: Medium

*Viburnum dentatum* 'Christom'  
BLUE MUFFIN® 5-7' Zones 3-8

A compact and very choice arrowwood viburnum, Blue Muffin produces masses of white flowers in spring followed in late summer by vivid blue berries. A songbird favorite, this shrub is the ideal size for residential landscapes. Use Chicago Lustre™ as a pollinator.

Uses: Landscapes, wildlife-friendly gardens, mixed beds, foundation plantings  
Growth Rate: Medium

*Viburnum dilatatum* 'Henneke' USPP12870  
CARDINAL CANDY™ 6-8' Zones 4(5)-7

A profusion of lacy white flowers in spring give way to clusters of persistent, shiny red berries that remain through winter. Fruiting appears to be strong without a pollinator. This variety is harder than other *V. dilatatum*.

Uses: Landscapes, specimens, mixed beds  
Growth Rate: Slow

2000 Gold Medal, Pennsylvania Horticulture Society; Silver Medal, Royal Boskoop Horticulture Society; 2011 Royal Horticultural Society Award of Garden Merit

##### *Viburnum nudum* <sup>Bulk</sup> BRANDYWINE™

5-6' Zones 5-8

No viburnum has a more beautiful fruit display than Brandywine, with its berries emerging green and transforming to shades of vivid pink and blue. Showy, glossy leaves add even more color, changing to dark maroon in fall. Brandywine will fruit without a pollinator, and makes a great companion plant to 'Winterthur.'

Uses: Landscapes, mixed beds  
Growth Rate: Medium

##### *Viburnum* <sup>NCVX1</sup> USPPAF

##### SHINY DANCER™

3-5' Zones 6-8

This semi-evergreen Viburnum boasts exceptionally shiny, dark green leaves which turn rich burgundy red in fall. Spring brings abundant creamy white flowers and new leaves tinged with red. Compact, easy to grow, adaptable landscape plant. Produces fruit when pollinated by V. 'Huron' or V. 'Chippewa'. New this year.

Uses: Mixed borders, mass plantings, landscapes  
Growth Rate: Medium

##### *Vitex agnus-castus* <sup>SMVAC20</sup> USPPAF CanPBRAF

##### BLUE DIDDLEY®

3-6' Zones 5-9

This dwarf chastetree is a fun little ball of lavender-blue flowers spikes in mid-summer. Its compact size gives it better container presentation than other varieties.

Uses: Perennial gardens, mixed borders  
Growth Rate: Medium

## Weigela

Our choice weigelas have the funnel-shaped flowers and interesting foliage of traditional, old-fashioned varieties but without the legginess or excessive height. Beautiful even when not in bloom, breathtaking when they are.

Uses: Mixed borders, containers, specimens, hedges  
Growth Rate: Medium

##### *Weigela florida* <sup>Bramwell</sup> USPP18513 CanPBRAF

##### FINE WINE®

2-3' Zones 4-8

Fine Wine is a treat with its rosy pink blooms. Smaller than Wine & Roses but larger than Midnight Wine, this beauty has the same dramatic dark burgundy foliage in a compact, mounded habit. A great plant for borders or perennial beds.

##### *Weigela florida* <sup>Carlton</sup> USPP20025 Can3800

##### GHOST®

4-5' Zones 4-9

Ghost has magical properties with dark red flowers in the spring and remarkable foliage that turns an iridescent buttercream. Makes a beautiful specimen plant or hedge. Reblooming.

##### *Weigela florida* <sup>Elvera</sup> USPP12217 Can2843

##### MIDNIGHT WINE®

10-12" Zones 5-8

At under 12 inches, Midnight Wine is small in size but still provides plenty of impact. Rosy pink spring flowers.

##### *Weigela florida* <sup>Verweig</sup> USPP18204 Can3315

##### MY MONET®

12-18" Zones 4-8

Top Seller

A masterpiece in the garden, My Monet boasts colorful green, pink, and cream foliage and bright pink blooms in the spring. Tight, low-mounding habit adds versatility.

##### *Weigela florida* <sup>USPP23212</sup> Can4891

##### MY MONET® 'Sunset'

12-18" Zones 5-6

My Monet Sunset is a new dwarf weigela with eye-catching gold foliage and attractive red fall color. In addition to its colorful season-long foliage, it will occasionally produce soft pink flowers.

## SONIC BLOOM® Series

4-5' Zones 4-8

Top Seller

Beautiful reblooming is the hallmark of the Sonic Bloom series. Brilliant flowers open in May and then rebloom from midsummer to frost. Plus, the waves of blooms appear without deadheading. The plants in this series are fast growing, with excellent container presentation, and make are great for season-long impulse sales.

Uses: Mixed beds, foundation plantings  
Growth Rate: Fast

##### *Weigela florida* <sup>Bokrasopea</sup> USPPAF Can4598

##### SONIC BLOOM® Pearl

Pearl's flowers open pure white with a yellow throat and then change to pink, giving you multiple colors on a single plant. The flowers really pop against the bright green foliage.

##### *Weigela florida* <sup>Bokrasopin</sup> USPPAF Can4597

##### SONIC BLOOM® Pink

Hot pink buds open to rich pink flowers in May and repeat until frost.

##### *Weigela florida* <sup>Verweig-6</sup> USPPAF Can4716

##### SONIC BLOOM® Red

The lipstick red flowers are remarkable and make this beauty a must-have shrub.

##### *Weigela florida* <sup>Bokrasopin</sup> USPP23781 Can4655

##### SPILLED WINE®

2-3' Zones 4-8

Top Seller

The new look for purple-leafed weigela, Spilled Wine has dark, wavy leaves and a spreading habit. Its hot pink-magenta flowers are similar to those of Wine & Roses, and its dark foliage provides easy-to-sell, season-long color for gardens. A heat-tolerant beauty.

##### *Weigela florida* <sup>Alexandra</sup> USPP10772 Can2842

##### WINE & ROSES®

4-5' Zones 4-8

Top Seller

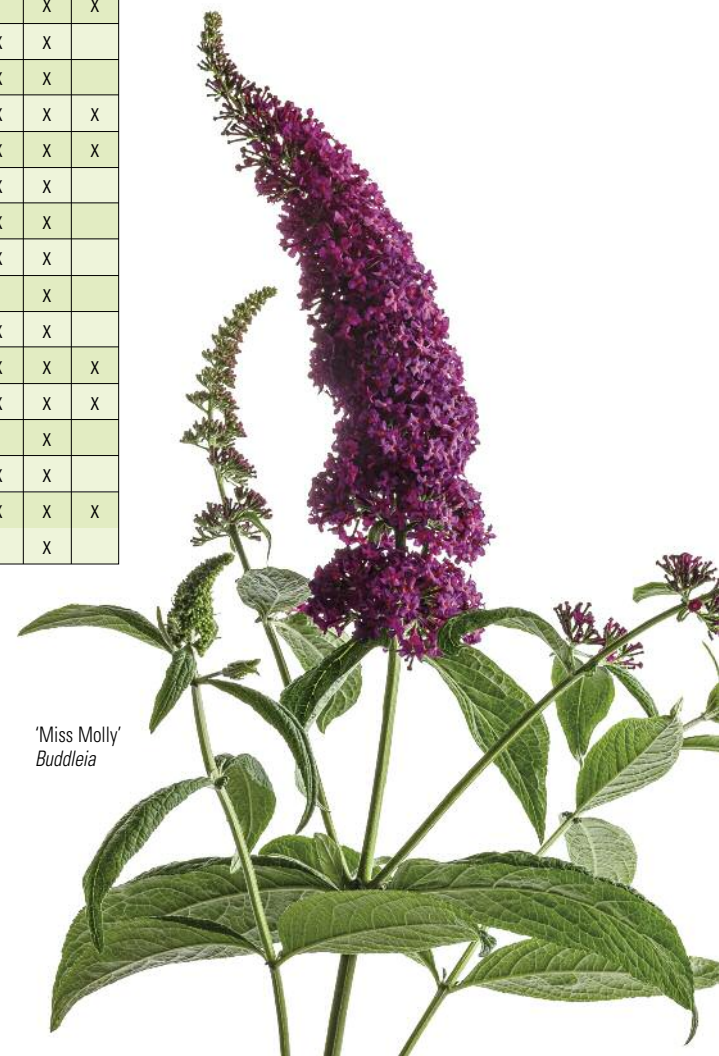

A rounded form displays the dark purple foliage and rose pink blooms to perfection. A source of season-long beauty anywhere in the garden.

## Shrubs by Region

For growing information and sources for Proven Winners® flowering shrubs, visit [www.provenwinners.com](http://www.provenwinners.com).

### Easy-to-grow shrubs for growers new to growing woody ornamentals:

- Buddleia
- Hibiscus
- Hydrangea
- Roses
- Spiraea
- Weigela

**Proven Winner's goal is to have the #1 plant and genetics in every category of woody ornamentals in the marketplace and to dramatically change the way people view each category. Here is our progress towards that goal:**

- #1 Buddleia series – first dwarf, non-invasive series
- #1 Caryopteris series – first dwarf yellow
- #1 Quince series – first thornless with massive double flowers
- #1 Deutzia series – first pink Nikko, first variegated 'Nikko', first gold leaf
- #1 Forsythia series – heaviest bloomers
- #1 Rose of Sharon series – longer flowering, new habits, seedless

**Proven Winners sells more Hydrangeas than any other brand including Endless Summer.**

- #1 Hydrangea arborescens – first pink, first green, first rebloomers, first with strong stems
- #1 in Hydrangea paniculata – first green, first dwarfs that hold their blooms
- #1 in Hydrangea serrata – first rebloomers
- #1 Physocarpus – improved disease-resistance
- #1 Rhamnus – first columnar cutleaf
- #1 Sambucus – first purple leaf, pink flowers, purple cut leaves
- #1 Lilac – first strong rebloomer
- #1 Weigela – best purples, dwarfs, and rebloomers
- Soon to be #1 Clematis – 'Sweet Summer Love' is fragrant and easy to grow
