That if any portion of said highway shall be damaged by reason of breaks or leaks in any pipe laid or constructed under said franchise, the grantee thereof shall at its own

expense repair any such damage, and put such highway in as good condition as it was in before such break or leak, to the satisfaction of the Common Council of said City.

(3) The right to grade, sewer, pave, macadamize or otherwise improve or alter or repair the streets, highways and alleys in The City of San Diego, or to change the grade thereof, shall be reserved to The City of San Diego, such work to be done so as to interfere as little as possible with the rights and privileges enjoyed by the grantee of this franchise, under the terms and provisions thereof.

The grantee, or its successors or assigns, shall change the location of the pipes and conduits or other appliances placed in the City streets so as to comply with any change of grade of said streets or highways ordered by the Common Council of said City, and shall maintain and operate said pipes and conduits at all times in accordance with the ordinances and laws of The City of San Diego relating to the government and control of the use of streets. All changes in the location of pipes, conduits or appliances of any kind or character used in connection with said pipe line which may be required under the terms and provisions of this ordinance, shall be made at the expense of the grantee, or its successors or assigns. The grantee and its successors and assigns, shall waive any and all claims for damages against said City caused by reason of any grading, sewerage, paving, macadamizing, or otherwise improving, altering or repairing any of said streets, highways or alleys.

(4) The grantee of this franchise, and its successors and assigns, shall have the right, during the period for which said franchise, is granted, to transport gasoline and water, and transmit electric energy or other kindred substances, through said pipe lines and service connections.

(5) Said grantee shall not sell, transfer nor assign this franchise, or the rights and privileges granted thereby, without the consent of the Common Council by ordinance duly and regularly adopted.

(6) This grant of franchise and authority shall be and is subject to the right of a majority of the electors of The City of San Diego voting at any election at any time thereafter, to repeal, change or modify the said grant, and such right is hereby expressly reserved to said electors.

(7) Any refusal or failure by said grantee, or its successors or assigns, to comply with any of the terms and conditions of this franchise shall constitute ground for forfeiture of said franchise, and all the rights granted hereunder.

(8) In the event that this franchise is forfeited for any reason the grantee, or its successors or assigns, shall thereafter remove all pipes, conduits, attachments, appliances and equipment of every kind and character belonging to said grantee from the streets, highways and alleys in as good condition as they were in prior to such removal.

Each bid shall be accompanied by a check certified by a responsible bank equal to one per centum (1%) of the amount of the bid, payable to the City Treasurer of said City, as a guaranty and assurance that the bidder will take so much of said bonds as he shall bid for, and will pay the price bid therefor, should the bonds be awarded to him.

The Common Council shall consider such bids as may have been offered, and shall sell bonds to the highest bidder, provided the right shall be reserved to reject any and all bids.

The successful bidder or bidders shall be required to take so much of said bonds as he shall bid for, and shall be awarded to him by the Common Council, at the rate fixed and upon ten days' notice from the City Clerk that said bonds are executed and ready for delivery. In the event of the failure of any such purchaser to take the amount and number of bonds awarded to him upon his bid by the Common Council for ten days after giving the notice last aforesaid, his check accompanying his bid and the sum for which it is drawn, shall be forfeited to the City, and the money shall be paid into the City Treasury.

In the event of the failure of the Common Council to sell said bonds at the time for which bids have been requested as hereinbefore provided, the same may be sold without any further advertisement to any bidder for the best price that can be obtained, but for not less than par, which shall be construed to mean the face of the bond plus accrued interest to the date of delivery.

(9) That the grantee of this franchise shall, during the life of this franchise, pay to The City of San Diego two per cent. (2%) of the gross annual receipts of the person, partnership or corporation arising from the use, operation or possession of this franchise, as a rental for the use of said streets. On or before the last Monday in November of each year the grantee of this franchise shall cause to be filed with the City Auditor a sworn statement of the gross receipts of said company for the preceding year, or the portion of said year during which this franchise is in operation, and the said grantee shall pay the said two per cent. (10) The Common Council during the life of this franchise, shall have the power to investigate the books of the grantee of this franchise, and to examine under oath the officers, agents or employees of the said grantees concerning the annual statement, as hereinbefore provided.

(11) The Police Department of said The City of San Diego is hereby empowered, in case of fire, accident, parades, obstructions on, breaks in, or repairs of streets, or any emergency, or to prevent accidents or congestion, or in case of public necessity, to temporarily divert and reroute the auto busses operated under the terms of this ordinance, upon such streets as in the judgment of said department is necessary.

Section 10. The failure on the part of the grantee of this franchise to operate auto bus or stage service in accordance with the terms and conditions of this ordinance for a period of thirty (30) days shall cause a forfeiture of this franchise, and the said Common Council is hereby empowered to declare such forfeiture upon receipt of satisfactory evidence that said grantee has failed to operate under the terms of said franchise for said period of time.

Section 11. The franchise herein granted shall be subject at all times to the right of a majority of the electors of said The City of San Diego, voting at any election at any time hereafter, to repeal change or modify the said grant.

Section 12. SECTION 27. Each department of the City of San Diego shall limit its expenditures to the amount and for the purposes set forth under the respective departmental titles and designations by serial number.

SECTION NO. 28. No transfer from one fund to another shall be made unless by special direction of the Common Council manifested by Ordinance. Every requisition issued with Ordinance No. 5051, in addition to all other matters, shall contain the maximum amount of the charge to be made against the item drawn upon, and no expenditure shall be made which exceeds the maximum figure contained in the requisition therefor, and any claim based upon an amount exceeding the maximum amount contained in said requisition shall be invalid as against the City of San Diego. Each requisition shall be presented to the City Auditor for his approval as to funds before any indebtedness thereon shall be incurred and before any claim based upon said requisition shall become a legal charge against any item contained in this ordinance. It shall be unlawful for any department to expend during any one month of the ensuing fiscal year more than one-twelfth of the amount allotted to said department for said fiscal year, except as may be by Ordinance of the Common Council otherwise provided, and that except all items contained in this Ordinance prefixed by a (*) shall be exempt from said one-twelfth allotment.

SECTION NO. 29. All moneys deposited to the credit of the General Fund for the installation of new services and extensions in the Water Department, shall, by Auditor's transfer, be credited to Item P-34 of the Operating Department.

All moneys deposited to the credit of the General Fund for upkeep and repair of paved streets, shall, by Auditor's transfer, be credited to Item P-55 of the Operating Department.

All moneys deposited to the credit of the General Fund for the installation of sewer laterals and extensions, shall, by Auditor's transfer, be credited to Item P-63 of the Operating Department.

SECTION NO. 30. There is hereby appropriated out of the General Fund of the City of San Diego to the departments named in the foregoing sections of this ordinance the various sums of money specified therein, for the purpose of conducting the business of said departments of the city government during the fiscal year beginning January 1st, 1927.

SECTION NO. 31. This is an ordinance for the immediate preservation of the public peace, health and safety, and one of urgency, and shall take effect and be in force from and after its passage and approval.

The facts constituting the urgency in this case are that by reasons of the provisions of the charter requiring the Common Council and Auditor to estimate the probable expenditures of the various departments for the ensuing fiscal year and the additional fact that the tax rate for said fiscal year shall be based upon said estimated expenditures, it is necessary that an ordinance limiting the amounts to be expended by the various departments should be in effect as of January 1st, 1927.

Respectfully submitted,

H. L. MOODY,

City Auditor

Approved: S. J. HIGGINS City Attorney.

The retirement system shall be known as the "City Employees' Retirement System of San Diego" and by such name all of its business shall be transacted, all of its funds invested and all of its cash and securities and other property held.

The retirement system so created shall begin operation as of the first day of January, 1927.

Section 3. Membership (1) Membership in the retirement system shall begin not earlier than the first day of January, 1927, and shall consist of the following:

(a) All employees who enter or re-enter the service of The City of San Diego after the first day of January, 1927 may become members on their own application, and all such employees who shall complete 6 months of service thereafter shall become members of the retirement system as a condition of their employment.

(b) All employees in service on the first day of January, 1927 shall become members as of the said first day of January, 1927 unless within thirty days thereafter any such employee shall file with the Board of Administration on a form prescribed by such Board, a notice that he does not desire to be included in the membership of the system, which notice shall include a duly executed waiver of all present and prospective benefits which would otherwise inure to him on account of his participation in the retirement system.

(2) An employee whose membership in the retirement system is dependent on his own election, and who elects not to become a member, may thereafter apply for and be admitted to membership; but no such employee shall receive prior service credit unless he shall have become a member on or before the first day of January, 1928.

(3) A member in the City Employees' Retirement System shall lose his membership in said system if he shall:

(a) Become a beneficiary;

(b) Die;

(c) Withdraw his accumulated contributions;

(d) Be absent from the City service more than five years;

(e) Cease to become a member by voluntary withdrawal or dismissal from the City service.

Nothing herein contained, however, shall be construed as preventing said employee from again becoming a member upon again being employed by the municipality; provided, however, that if said member shall be absent from the service of the City for more than five years, he shall not be entitled to retirement benefits other than those to which a new employee of the municipality may be entitled by reason of employment with the municipality.

(4) It shall be the duty of the head of each department to submit to the Board of Administration a statement showing the name, title, compensation, duties, date of birth and length of service of each member and such information regarding other employees in his department as the Board of Administration may require for the operation of the retirement system.

Section 4. Service Creditable (1) Under such rules and regulations as the Board of Administration shall adopt, each member who was an employee at any time during the year 1926 and who becomes a member during the year 1927 shall file a detailed statement of all service as an employee as defined in this ordinance, rendered, by him prior to January 1, 1927 for which he claims credit and of such other facts as the Board of Administration may require for the proper operation of the retirement system.

(2) The Board of Administration shall fix and determine by appropriate rules and regulations how much service in a year is equivalent to a year of service, but in no case shall more than one year be creditable for all service in one calendar year, nor shall the Board of Administration allow credit for service for a period of more than one month's duration during which the employee was absent without pay.

(3) Subject to the above restrictions and to such other rules and regulations as the Board of Administration may adopt, the Board of Administration shall verify, as soon as practicable after the filing of such statements of service, the service therein claimed.

(4) Upon verification of the statements of service the Board of Administration shall issue to each member a prior service certificate certifying the aggregate length of service rendered prior to the first day of January, 1927, with which he is credited on the basis of his statement of service. So long as membership continues a prior service certificate shall be final and conclusive for retirement purposes as to such service, provided, however, that any member may, within one year from the date of issuance or modification of such certificate, request the Board of Trustees to modify or correct his prior service certificate.

When membership ceases such prior service certificate shall become void. Should the employee again become a member, such employee shall enter the system as an employee not entitled to prior service credit.

(5) Creditable service at retirement shall consist of the membership service rendered by him since he last became a member, and also if he has a prior service certificate which is in full force and effect, the amount of the service certified on his prior service certificate.

Section 5. Benefits

(1) (a) Any member in service may retire upon his written application to the Board of Administration setting forth at what time, not less than 30 days nor more than 90 days subsequent to the execution and filing thereof, he desires to be retired, provided that the said member at the time so specified for his retirement shall have attained the age of 62 and shall have completed not less than 10 years of creditable service as an employee, and notwithstanding that during such period of notification, he may have separated from service.

Return of Accumulated Contributions

(4) Should a member cease to be an employee except by death or retirement under the provisions of this ordinance he shall be paid such part of the amount of the accumulated contributions standing to the credit of his individual account in the Annuity Savings Account as he shall demand; provided, however, that the Board of Administration may in its discretion, before ordering a warrant for the payment of said accumulated contribution so demanded by said employee upon his retirement from service other than by death or pursuant to the provisions of this ordinance, require a written notice to be served on said board at least sixty (60) days prior to payment, in order that said board may have time to convert securities in its hands for the payment of such claim, or realize money from such investments as it may have made.

Optional Allowances

(5) Any member may elect to receive his benefit in a retirement allowance payable throughout life, or he may elect to receive the actuarial equivalent, at that time, or his retirement allowance in a lesser retirement allowance payable throughout life with the provisions that:

Option 1. If he dies before he has received in payments the present value of his retirement allowance as it was at the time of his retirement, the balance shall be paid to his legal representative or to such person as he shall nominate by written designation duly acknowledged and filed with the Board of Administration; or

Option 2. Such other form of benefit as shall be certified by the actuary to be of equivalent actuarial value to his retirement allowance, provided that the Board of Administration shall determine that the granting of such optional allowance is consistent with the purpose of the retirement system and shall be necessary or desirable from the point of view of the member.

Section 6 Administration

Board of Administration

(1) The general administration and the responsibility for the proper operation of the retirement system and for making effective the provisions of this ordinance shall be vested in the Board of Administration as provided in Section 28 of Chapter I of Article II of the Charter of The City of San Diego.

(2) Subject to the limitations of the said Section 28 of Chapter I of Article II of the City Charter and of the limitations of this ordinance the Board of Administration shall, from time to time, establish rules and regulations for the administration of the retirement system and the transactions of its business.

(3) The Board of Administration shall engage such actuarial and other services as shall be required to transact the business of the retirement system.

(4) The Board of Administration shall keep in convenient form such data as shall be necessary for actuarial valuation of the various funds of the retirement system and for checking the experience of the system.

(5) The Board of Administration shall keep a record of all its proceedings which shall be open to public inspection. It shall prepare annually during the month of January a report showing the fiscal transactions of the retirement system for the preceding fiscal year as provided in Section 12 of Article X of the City Charter, the amount of the accumulated cash and securities of the system, and the last balance sheet showing the financial condition of the system by means of an actuarial valuation of the assets and liabilities of the retirement system. The Board shall submit said report to the Mayor and shall furnish copies thereof to the heads of the various departments for their use and for the use of the members employed therein.

Legal Adviser

(6) The City Attorney of the City of San Diego shall be the legal adviser of the Board of Administration.

Duties of Actuary

(7) The Board of Administration shall designate an actuary who shall be the technical adviser of the Board on matters regarding the operation of the retirement system and shall perform such other duties as may be required in connection therewith.

(8) Immediately after the establishment of the retirement system the actuary shall make such investigation of the mortality, service and compensation experience of the members of the system as he shall recommend and the Board of Administration shall authorize, and on the basis of such investigation he shall recommend for adoption by the Board of Administration such tables and such rates as are required in Subsection 9, Paragraphs (a), (b), and (c) of this section. On the basis of such recommendation, the Board of Administration shall adopt tables and certify rates, and as soon as practicable thereafter, the actuary shall make a valuation, based on such tables and rates, of the assets and liabilities of the funds and accounts created by this ordinance.

(9) In the year 1930, and at least once in each five year period thereafter, the actuary shall make an actuarial investigation into the mortality, service and compensation experience of the members and beneficiaries of the retirement system, and shall make a valuation of the assets and liabilities of the funds of the system and taking into account the result of such investigation and valuation, the Board of Administration shall -

(a) adopt for the retirement system such mortality, service and such other tables as shall be deemed necessary;

(b) certify the rates of contribution payable by members under the provisions of this ordinance; and

(c) certify the rates of contribution payable by the City of San Diego under the provisions of this ordinance.

(10) On the basis of such tables as the Board of Administration shall adopt, the actuary shall make an annual valuation of the assets and liabilities of the funds of the system created by this ordinance.

Section 7. Management of Funds (1) The Board of Administration shall be the trustees of the several funds of the retirement system, and shall have full power to invest and re-invest such funds in bonds of the United States, State of California, municipal corporations,

counties, or irrigation districts, or in such securities as may be authorized by law for the investment of funds of municipal corporations; and subject to the restrictions of such laws as may be in effect for the investment of funds of municipal corporations said trustees shall have full power to hold, purchase, sell, assign, transfer and dispose of any of the securities and investments in which the funds shall have been invested, as well as the proceeds of such investments.

(2) The Board of Administration annually shall allow regular interest on the mean amount for the preceding year in each of the accounts of the City Employees' Retirement Fund. The amounts so allowed shall be due and payable to said accounts and shall be annually credited thereto by the Board of Administration from interest and other earnings of the moneys in the retirement system. Any excess of earnings over the amount required to pay interest on the various accounts in said City Employees' Retirement Fund shall be deductible from the amounts to be contributed each year by The City of San Diego.

(3) The Treasurer of The City of San Diego shall be the custodian of the several funds and accounts of the system. All payments from such funds or accounts shall be made by him only upon the proper warrants signed by the City Auditor after having first been duly authorized by the Board of Administration of the City Employees' Retirement Fund.

(4) For the purpose of meeting disbursements for pensions, annuities, and other payments there may be kept available cash, not exceeding ten per centum of the total amount in the several funds of the retirement system, on deposit in one or more banks or trust companies of the City of San Diego, organized under the laws of the State of California or of the United States, provided, that the sum on deposit in any one bank or trust company shall not exceed twenty-five per centum of the paid up capital and surplus of such bank or trust company.

(5) Except as otherwise herein provided, no trustee and no employee of the Board of Administration shall have any direct interest in the gains or profits of any investment made by the Board of Administration, nor as such receive any pay or emolument for his services. No trustee nor employee of the Board shall, directly or indirectly, for himself or as an agent in any manner use the same, except to make such current and necessary payments as are authorized by the Board of Administration; nor shall any trustee or employee of the Board of Administration become an endorser or surety or in any manner an obligor for moneys loaned by or borrowed from the Board of Administration.

Section 8. Method of Financing (1) All of the assets of the retirement system shall be credited in accordance with the purpose for which they are held to one of two funds, namely, the City Employees' Retirement Fund, as created by Subsection 7 of Section 28 of Chapter I of Article II of the City Charter, and the retirement system Expense Fund.

(2) City Employees' Retirement Fund

The City Employees' Retirement Fund shall be subdivided into four accounts as follows: The Annuity Savings Account, the Annuity Reserve Account, the Pension Accumulation Account and the Pension Reserve Account.

(3) Annuity Savings Account

(a) The Annuity Savings Account shall be the account in which shall be accumulated contributions from the compensation of members to provide for their annuities. Upon the basis of such tables as the Board of Administration shall adopt and regular interest, the actuary of the retirement system shall calculate for each age of entrance into membership the constant proportion of compensation which, when deducted from each payment of the prospective earnable compensation of a member entering at any such age prior to his attainment of age 62 and accumulated at regular interest until his attainment of age 62, shall provide at that time an annuity equal in amount to $1/140$ of his average final compensation multiplied by the number of his years of service as a member. Such proportion of compensation shall be limited to a maximum of 5 per cent. for all employees under 50 years of age at the establishment of the system and to a maximum of 5 per cent. for all employees entering the service after January 1, 1927. Such proportion of compensation so limited shall be known as the normal rate of member's contribution. The proportion so computed for a member age 61 shall be applied to a member who attains a greater age before he becomes a member of the retirement system.

(b) The Board of Administration shall certify to the head of each department and to the City Auditor the rate of contribution for each member, and the head of each department and the City Auditor shall cause to be deducted from the compensation of each and every member on each and every payroll of such department for each and every payroll period amounts computed by multiplying the earnable compensation for the payroll period by the rates so certified for each member, provided however that compensation at a rate in excess of \$2,400 per annum shall be considered as \$2,400 for the purposed of computing the amounts to be deducted.

In determining the amount earnable by a member in a payroll period, the Board of Administration may consider the rate of annual compensation payable to such member on the first day of the payroll period as continuing throughout such payroll period and it may omit deductions from compensation for any period less than a full payroll period if an employee was not a member on the first day of the payroll period; and to facilitate the making of deductions it may modify the deduction required by any member by such an amount as shall not exceed one-tenth of one per centum of the annual compensation upon the basis of which said deduction is to be made.

(c) The deductions provided for herein shall be made notwithstanding that the minimum compensation provided for by law for any member shall be reduced thereby. Every member shall be deemed to consent and agree to the deductions made and provided for herein and shall receipt for his full salary or compensation; and payment of salary or compensation less said deductions shall be a full and complete discharge and acquittance of all claims and demands whatsoever for the services rendered by such person during the period covered by such payment except as to the benefits provided under this ordinance. Said head of each department shall certify to the Board of Administration on each and every payroll the amounts to be deducted; and each of said amounts shall be deducted and when deducted shall be paid into said Annuity Savings Account and shall be credited, together with regular interest, to an individual account of the member from whose compensation said deduction was made.

(d) In addition to the normal contributions deducted from compensation as hereinbefore provided, subject to the approval of the Board of Administration, any member may redeposit in the Annuity Savings Account by single payment or by an increased rate of contribution any amount or any part thereof which he previously withdrew, or such additional amount as may be computed to provide with his prospective retirement allowance a total retirement allowance not in excess of one-half of his final average compensation on retirement at age 62. Such additional amount so deposited or redeposited shall become a part of his accumulated contributions but they shall not be considered in computing the pension to be provided from the contributions of the City, as provided in Section 5, Subsection (2), subdivision (b).

(e) The accumulated contributions of a member withdrawn by him, or paid to his estate or to his designated beneficiary in the event of his death as provided in this ordinance, shall be paid from the Annuity Savings Account. Upon the retirement of a member his accumulated contributions shall be transferred from the Annuity Savings Account to the Annuity Reserve Account.

(4) Annuity Reserve Account

The Annuity Reserve Account shall be the account from which shall be paid all annuities and all benefits in lieu of annuities Payable as provided in this ordinance.

(5) Pension Accumulation Account

(a) The Pension Accumulation Account shall be the account in which shall be accumulated all reserves for the payment of all pensions and other benefits payable from contributions made by The City of San Diego and from which shall be paid all pensions and other benefits on account of members with prior service credit.

(b) On account of each member who is an employee of The City of San Diego, the said City shall pay annually into the Pension Accumulation Account for the preceding fiscal year an amount equal to a certain percentage of the earnable compensation of each member to be known as the "normal contribution", and an additional percentage of his earnable compensation to be known as the "accrued liability contribution". The rates per centum of such contributions shall be fixed on the basis of the liabilities of the retirement system as shown by actuarial valuation. Until the first valuation the normal contribution shall be one and sixteen hundredths per centum, and the accrued liability contribution shall be one and seventy-three hundredths per centum of the earnable annual compensation of all members.

(c) On the basis of regular interest and of such mortality and other tables as shall be adopted by the Board of Administration, the actuary engaged by the Board to make each valuation required by this ordinance during the period over which the deficiency contribution is payable; immediately after making such valuation, shall determine the uniform and constant percentage of the earnable compensation of the average new entrant, which, if contributed on the basis of the earnable compensation of such new entrant throughout his entire period of active service would be sufficient to provide for the payment of any pension or other benefit provided by the City that may be payable on his account. The rate per centum so determined shall be known as the "normal contribution" rate. After the accrued liability contribution has ceased to be payable; the normal contribution rate shall be the rate per centum of the earnable compensation of all members obtained by deducting from the total liabilities of the Pension Accumulation Fund the amount of the funds in hand to the credit of that fund and dividing the remainder by one per centum of the present value of the prospective future salaries of all members as computed on the basis of the mortality and service tables adopted by the Board of Administration and regular interest. The normal rate of contribution shall be determined by the actuary after each valuation.

(d) Immediately succeeding the first valuation, the actuary engaged by the Board of Administration shall compute the rate per centum of the total annual compensation of all members which is equivalent to the sinking fund payment that would liquidate at regular interest within a period of thirty years the liability on account of all members and beneficiaries which is not dischargeable by the aforesaid normal contribution made on account of such members during the remainder of their active service. The rate per centum originally so determined shall be known as the "accrued liability contribution" rate.

(e) The total amount payable in each year to the Pension Accumulation Fund shall be not less than the sum of the rates per centum known as the normal contribution rate and the accrued liability contribution rate of the total compensation earnable by all members during the preceding year; provided however that the aggregate payment by the City of San Diego shall be sufficient, when combined with the amount in the fund to provide the pensions and any other benefits payable out of the fund during the year then current.

(f) The accrued liability contribution shall be discontinued as soon as the accumulated reserve in the Pension Accumulation Fund shall equal the present value, as actuarially computed and approved by the Board of Administration, of the total liability of such fund less the present value, computed on the basis of the normal contribution rate then in force, of the prospective normal contributions to be received on account of persons who are at that time members.

(g) All pensions and benefits in lieu thereof, with the exception of those payable on account of members who receive no prior service allowance, shall be paid from the Pension Accumulation Account.

(h) Upon the retirement of a member not entitled to credit for prior service, an amount equal to his pension reserve shall be transferred from the Pension Accumulation Account to the Pension Reserve Account.

(6) Pension Reserve Account.

The Pension Reserve Account shall be the account from which shall be paid the pensions to members not entitled to credit for prior service and benefits in lieu thereof.

(7) Expense Fund

The Expense Fund shall be the fund to which shall be credited all money provided by the City of San Diego to pay the administration expenses of the retirement system, and from which shall be paid the expenses necessary in connection with the administration and operation of the system. Annually the Board of Administration shall estimate the amount of money necessary to be paid into the Expense Fund for the ensuing year to provide for the expense of operation of the retirement system and, such estimate shall be submitted to the City Auditor in accordance with Section 1 of Chapter I of Article VI of the City Charter.

(8) Estimate of Appropriations Required

(a) On or before the last day of November in the year 1927 and each year thereafter the Board of Administration shall certify to the City Auditor the amount of the appropriation necessary to pay to the various funds and accounts of the retirement system, the amounts payable by The City of San Diego as enumerated in this ordinance for the year beginning on the succeeding first day of January, and items of appropriation providing such amounts shall be included in the budget ordinance. The amounts so appropriated shall be credited to the various funds and accounts of the retirement system.

(b) To cover the requirements of the system for the period prior to the first day of January, 1928, the amount of \$11,000.00 shall be paid into the Pension Accumulation Account of the City Employees' Retirement Fund and the amount of \$4,500.00 shall be paid into the Expense Fund.

Section 9. Guaranty

The creation and maintenance of reserves in the Pension Accumulation Account, the maintenance of annuity reserves and pension reserves as provided for, and regular interest creditable to the various accounts as provided in Section 7, Subsection (2) of this ordinance and the payment of all pensions, annuities, retirement allowances, refunds and other benefits granted under the provisions of this ordinance and all expenses in connection with the administration and operation of this retirement system are hereby made obligations of The City of San Diego to the extent that the Charter of said City authorized such obligation; provided, however, that nothing in this ordinance contained shall be construed as imposing any liability in addition to that imposed upon said City by the terms and provisions of Subdivision (3), Section 28, Chapter I, Article II of the Charter of said City. All income, interest and dividends derived from deposits and investments authorized by this article shall be used for the payment of said obligations of the said City. Any amounts derived therefrom which, when combined with the regular amount otherwise contributable by the City of San Diego as provided under the provisions of this ordinance exceed the amount required to provide

such obligations, shall be used to reduce the regular appropriations otherwise required.

Section 10. Protection Against Fraud

Should any change or error in the records result in any member or beneficiary receiving from the retirement system more or less than he would have been entitled to receive had the records been correct, the Board of Administration shall correct such error, and as far as practicable, shall adjust the payments in such manner that the actuarial equivalent of the benefit to which such member or beneficiary was correctly entitled shall be paid.

Section 11. Limitation of Other Statutes

If any section or sub-section of this ordinance, or any part of any section of this ordinance, be declared unconstitutional, the remainder of the ordinance shall not thereby be invalid, and the Common Council hereby declares that in the event of any section of part of any section of this ordinance is declared to be unconstitutional, it would have passed the remainder of this ordinance notwithstanding.

All provisions of ordinances inconsistent with the provisions of this ordinance are hereby repealed, to the extent of such inconsistency.

Section 12. This ordinance shall take effect and be in force on the thirty-first day from and after its passage and approval.

1. PERCENTAGE PAYABLE TO THE CITY. The grantee of said franchise, successors or assigns, shall file with the City Clerk of The City of San Diego during the first fifteen days of February of each year after the taking effect of the ordinance granting the said franchise and during the same period of each successive year thereafter during the existence of the franchise, a statement verified by the oath of the grantee, successor or assigns, showing the total gross receipts arising from the use, operation and possession of said franchise for the preceding calendar year (or fraction thereof for the first and last years, as the case may be), and shall thereupon pay to the said City Clerk for The City of San Diego the aggregate sum of two per centum of said gross annual receipts as shown by said statement, and this franchise being a renewal of a right already in existence the payment of said percentage of gross receipts shall begin upon the taking effect of the ordinance granting this franchise. Any refusal of said grantee, successors or assigns, to file said verified statement and to pay said percentage of said gross annual receipts within the time above provided shall constitute ground for forfeiture of said franchise and all rights granted thereby. The Mayor of the Common Council may after said statement is made inspect and examine the books of the grantee of this franchise and may cause the same to be examined by an expert accountant and may examine under oath any and all of the officers or agents of the railway company for the purpose of ascertaining the gross annual receipts under this franchise.

2. MOTIVE POWER. The railroads shall be operated by means of electricity used through the overhead trolley system or by such means as may hereafter be approved by the Common Council of said City.

3. CONDITION OF STREETS. The owner of the franchise or privilege shall at all times keep that portion of the street occupied by his or its tracks in good condition, constantly in repair, flush with the street and with good crossings, and in the event that the street on which said franchise or privilege is granted shall be paved either by the city or under proceedings authorized by the General Laws of the State, the said owner of said franchise or privilege shall be required to pay for only that portion of any construction in excess of that covered by the specifications for the improvement of the rest of the street and which shall be necessary to provide a safe and suitable foundation for the operation of car lines over a paved street. It is the intent and purpose of this section to relieve the owner of a franchise or privilege to operate street cars on the streets of The City of San Diego of the cost of new surface pavement between the tracks of said owner and for two feet on each side thereof on the streets to be hereafter paved, and to require the owner of said franchise or privilege to lay a suitable foundation for the operation of car lines over a paved street.

Nothing herein contained, however, shall relieve the said owner of said franchise or privilege of his or its obligation to keep those portions of the streets occupied by the said owner constantly in repair, flush with the streets and with good crossings, and to keep that portion of the pavement now existing or which may hereafter be placed between the rails, and for two feet on, each side thereof, and between the tracks if there is more than one, in good condition.

5. CITY'S RIGHT TO ACCESS TO STREETS. That the right to grade, sewer, pave, or otherwise improve or alter or repair the streets, or change the grade thereof, shall be reserved to the said City, such work to be done so as to obstruct the railroads as little as possible. The grantee, successors or assigns, shall shift and reshift the rails so as to avoid the obstruction created thereby, and shall waive any and all claims for damage against said city caused by reason of such grading, paving or improving, or altering or repairing said streets.

6. ROADBED LOCATION. That the location of any tracks shall conform in all cases with the official grade of the streets where the same have been graded, and in other cases to be

laid as near to the natural grade as practicable, and when at any time any part of routes shall be graded or the grade thereof altered or changed by said Common Council, the said railroads shall be made to conform therewith by said grantee, successors or assigns. That turn-out tracks may be so constructed and maintained as to curve off the main track and across the curbs and sidewalks and lead into car-barns, repair-shops, machine-shops, depots and other buildings, but a substantial gutter shall be maintained under such tracks.

7. LOCATION OF TRACKS. That the tracks shall be constructed and laid so that each of them shall be when practicable of equal distance from curb lines, or as nearly so as the condition or width of the street will permit.

8. ENGINEER. That the City Engineer shall give the established grade of the streets along the line of construction and set stakes indicating the grade; he shall see that the tracks are constructed in conformity with the terms and requirements of the franchise, and for such service he shall receive such fees as are provided therefor, and the same shall be paid by the grantee, successors or assigns.

9. TIME LIMIT FOR CONSTRUCTION. Work to construct the railroads not already constructed shall be commenced in good faith within not more than four months from the granting of the franchise, and if not so commenced within said time, said franchise shall be declared forfeited, and the railroads shall be completed within not more than three years from the granting of the franchise, and if not so completed within said time said franchise or privilege so granted shall be forfeited; provided, that for good cause shown the Common Council may by resolution extend the time for completion of construction not exceeding three months.

10. TRANSPORTATION OF FREIGHT. Transportation of freight may be carried on over streets between the hours of eleven o'clock P. M., and six o'clock A.M. only, or at other times which the Common Council may approve.

11. CESSATION OF OPERATION. In case the grantee of the franchise or privilege, successors or assigns, shall cease to operate said railroads for a period of ninety days consecutively after the same shall have been fully constructed and completed, except in case of unavoidable accident, or other matters not within the control of the grantee, successors or assigns, the said franchise or privilege shall be and is hereby declared to be forfeited, and the grantee, successor or assigns, shall remove the tracks and put the streets in good condition.

12. RIGHT TO REPEAL. The grant of the franchise or privilege shall be subject to the right of the majority of the electors of The City of San Diego, voting at any election at any time thereafter to repeal, change or modify the said grant, and the ordinance granting such franchise or privilege shall contain a reservation of such right to repeal, amend or modify said ordinance."

Section 2. This ordinance shall take effect and be in force on the thirty-first day from and after its passage and approval.

That the City of San Diego hereby grants to the Union Oil Company of California, a corporation, and its successors and assigns, the franchise and authority to lay, construct, operate, maintain, renew, repair and remove a pipe line, not exceeding eight (8) inches in diameter, together with service connections not exceeding eight (8) inches in diameter leading from said pipe line to the property line, along the streets, for the transportation of petroleum oil and its by-products, in, under, along and across the following described public highways and portions thereof and intersecting highways of The City of San Diego, to-wit:

Sixteenth Street, from the northeasterly line of Newton Avenue to the southerly line of Logan Avenue; that certain alley running northwest and southeast through Blocks 137 and 138 of Mannassee and Schiller's Addition, as per Map No. 209, filed July 11, 1870, in the office of the County Recorder of San Diego County, California; from the northwesterly line of Sigsbee Street to the northwesterly terminus of said alley at the south line of Sherman's Addition, as per Map No. 856, filed February 18, 1899, in the office of said County Recorder of said San Diego County; for the term of fifty (50) years from and after the date of the adoption of this ordinance.

Section 2. Work to construct, lay, operate, maintain, renew, repair and remove pipe lines for the purpose of transporting petroleum oil and its by-products, in conformity with the terms and provisions of this ordinance, or to exercise any other privilege whatever under the terms of this franchise, shall be commenced in good faith within not more than two (2) months from the granting of this franchise, and if not so commenced within said time said franchise so granted shall be declared forfeited by said Common Council. Said work must be completed within not more than one year thereafter, and if not so completed within said time said franchise so granted will be forfeited by said Common Council; provided, that for good cause shown said Common Council may by resolution extend the time for the completion thereof not exceeding three (3) months.

Section 3. The franchise granted by the terms and provisions of this ordinance is upon the following conditions and limitations:

(1) The grantee of said franchise, its successors and assigns, shall file with the Clerk of said The City of San Diego, during the first fifteen days of February of each year after the taking effect of the ordinance granting the said franchise and during the same period each successive years thereafter until the term of the franchise shall have expired, a statement, verified by the oath of said grantee, its successors or assigns, showing the total gross receipts arising from the use, operation or possession of said franchise for the preceding calendar year (or fraction thereof for the first and last years, as the case may be); and said grantee, or its successors or assigns, shall thereupon pay, as a rental for that portion or those portions of the streets, highways, roads or alleys of The City of San Diego exclusively occupied by the grantee of this franchise, to the said City Clerk, for said The City of San Diego, the aggregate sum of two per cent. (2%) of the gross annual receipts, as shown by said statement. The payment of said percentage of gross receipts by said grantee, or its successors or assigns, to The City of San Diego, shall begin upon the taking effect of the ordinance granting this franchise.

Any refusal by said grantee, its successors or assigns, to file said verified statement, or to pay said percentage of said gross annual receipts, as hereinabove provided, within the time above provided, shall constitute a ground for forfeiture of said franchise, and all rights granted thereby.

The Mayor and Common Council of The City of San Diego may, after said statement is made, inspect and examine the books of the grantee of this franchise, or its successors or assigns, at its place of business, and may cause the same to be examined by an expert accountant, and may examine under oath any and all of its officers and agents, for the purpose of ascertaining the gross annual receipts under this franchise.

(2) The grantee of this franchise and its successors and assigns shall have the right to construct, maintain, operate, renew, repair and remove such traps, manholes, appliances and attachments as may be necessary to properly maintain oil pipes and service connections con-

structed under this franchise, and said traps, manholes, appliances and attachments shall at all times be kept flush with the surface of the highway, and so located as to conform to any order of the Common Council in regard thereto, and not to interfere with the use of the highway as a public street or highway.

Said grantee, and its successors and assigns, shall also have the right, subject to to such regulations as are now or may hereafter be in force, to make all necessary excavations in said highways for the construction and repair of said pipe lines, service connections, traps, manholes, appliances and attachments, or either or any of them. All pipes, conduits, service connections, traps, manholes, attachments and appliances constructed or maintained under the provisions of this franchise shall be constructed and maintained in accordance and in conformity with all of the laws of the State of California, and such ordinances, rules and regulations now in force or hereafter adopted or prescribed by the Common Council of The City of San Diego; provided, however, that all pipes laid under the terms and provisions of this franchise shall not exceed eight (8) inches in diameter.

The work of laying, repairing, constructing and removing all pipes, service connections, traps, manholes, attachments and appliances shall be conducted with the least possible hindrance to the use of the highways of said City, and as soon as the laying, constructing, repairing or removing of any pipe, service connection, trap, manhole, attachment or appliances is completed, all portions of the highways which have been excavated or otherwise injured shall be placed in as good condition as the same were in before the constructing, maintaining, operating, renewing, repairing or removal of any pipe, service connection, trap, manhole, attachment or appliance, and to the satisfaction of the Common Council of said City.

That if any portion of said highway shall be damaged by reason of breaks or leaks in any pipe laid or constructed under said franchise, the grantee thereof shall at its own expense repair any such damage, and put such highway in as good condition as it was in before such break or leak, to the satisfaction of the Common Council of said City.

(3) The right to grade, sewer, pave, macadamize or otherwise improve or alter or repair the streets, highways and alleys in The City of San Diego, or to change the grade thereof, shall be reserved to The City of San Diego, such work to be done so as to interfere as little as possible with the rights and privileges enjoyed by the grantee of this franchise, under the terms and provisions thereof.

The grantee, or its successors or assigns, shall change the location of the pipes and conduits or other appliances placed in the City streets so as to comply with any change of grade of said streets or highways ordered by the Common Council of said City, and shall maintain and operate said pipes and conduits at all times in accordance with the ordinances and laws of The City of San Diego relating to the government and control of the use of the streets. All changes in the location of pipes, conduits or appliances of any kind or character used in connection with said pipe line which may be required by the terms and provisions of this ordinance shall be made at the expense of the grantee, or its successors or assigns. The grantee and its successors and assigns, shall waive any and all claims for damages against said City caused by reason of any grading, sewerage, paving, macadamizing or otherwise improving, altering or repairing any of said streets, highways or alleys.

(4) The grantee of this franchise, and its successors and assigns shall have the right, during the period for which said franchise is granted, to transport petroleum oil and its by-products through said pipe lines and service connections.

(5) Said grantee shall not sell, transfer nor assign this franchise, or the rights and privileges granted thereby, without the consent of the Common Council by ordinance duly and regularly adopted.

(6) This grant of franchise and authority shall be and is subject to the right of a majority of the electors of The City of San Diego, voting at any election at any time thereafter, to repeal, change or modify the said grant, and such right is hereby expressly reserved to said electors.

(7) Any refusal or failure by said grantee, or its successors or assigns, to comply with any of the terms and conditions of this franchise shall constitute ground for forfeiture of said franchise, and all the rights granted hereunder.

(8) In the event that this franchise is forfeited for any reason the grantee, or its successors or assigns, shall thereafter remove all pipes, conduits, attachments, appliances and equipment of every kind and character belonging to said grantee from the streets, highways and alleys of The City of San Diego, and put the streets, highways and alleys in as good condition as they were in prior to such removal.
