WHEREAS, due to the growth in population and industries of The City of San Diego, a greatly increased demand has been made and will continue to be made upon the water system now owned and operated by said City, and by reason of said increased demand the daily consumption of water in said City exceeds the continuous safe supply of the water system now owned by said City, thereby causing a present existing shortage of water supply for the use of said City and its inhabitants; and

WHEREAS, the San Dieguito Water Company, a corporation, is the owner of certain properties located along and upon the San Dieguito River, in the County of San Diego, State of California, consisting of dams, reservoirs, reservoir sites, water-bearing lands, water rights, pipes and aqueducts and rights of way therefor, and certain other properties suitable and proper for supplying said city and its inhabitants with water, all of said properties aforesaid constituting what is sometimes known and will be hereinafter designated and referred to as "San Dieguito Water System;" and

WHEREAS, a large and continuous supply of water may be obtained from said San Dieguito Water System; and

WHEREAS, said San Dieguito Water Company is willing to enter into a contract with said city whereby said Company will lease said San Dieguito Water System to said City for the term of thirty (30) years, and whereby said San Dieguito Water Company will grant to said City, and said City will acquire upon payment of five hundred thousand dollars (\$500,000.00) to said company, an option to purchase said water system for the price of three million seven hundred fifty thousand dollars (\$3,750,000.00), with the provision that upon the exercise of said option said five hundred thousand dollars (\$500,000.00) will be applied on said purchase price; NOW, THEREFORE,

IT IS HEREBY RESOLVED AND DETERMINED, that the public interest and necessity of The City of San Diego and the inhabitants thereof demand the acquisition by said The City of San Diego of said San Dieguito Water System, and to the end that said system may be acquired and as a means whereby an additional water supply may be secured for said City and for the inhabitants thereof,

IT IS FURTHER RESOLVED AND DETERMINED that the public interest and necessity of said The City of San Diego and the inhabitants thereof demand that said City enter into a contract with said Company whereby said Company will lease to said City said water system for the term of thirty (30) years, as aforesaid, and whereby said Company will grant to said City and said City will acquire from said Company an option to purchase said water system for said price of three million seven hundred fifty thousand dollars (\$3,750,000.00) as a means for securing a supply of water for the use of said City and its inhabitants; and

IT IS FURTHER RESOLVED AND DETERMINED that the public interest and necessity of said The City of San Diego and the inhabitants thereof demand the acquisition by said City of said option as aforesaid; and

IT IS FURTHER RESOLVED AND DETERMINED that the acquisition of said option for the purchase of said properties, as aforesaid, is necessary and convenient to carry out the objects, purposes and powers of said City, and is a suitable and proper means for acquiring a supply of water for said City and its inhabitants; and,

IT IS FURTHER RESOLVED AND DETERMINED that the estimated cost of the acquisition of said option to purchase said San Dieguito Water System, as aforesaid, is five hundred thousand dollars (\$500,000.00), and the cost of acquiring said option is and will be too great to be paid out of the ordinary annual income and revenue of said city.

RESOLUTION NO. 35160

WHEREAS, the Interstate Commerce Commission in its recent decision on the San Diego Chamber of Commerce Complaint under Docket No. 15526, against 39 rail carriers, has plainly said that it found San Diego unduly prejudiced by the action of these carriers in refusing to open San Diego Gateway to through transcontinental and other traffic; and

WHEREAS, the San Diego Chamber of Commerce and shippers of San Diego did, for several years prior to the filing of this complaint, earnestly endeavor to induce the interested rail carriers to remove this discrimination and prejudice without force, which they definitely refused to do; finally resulting in an action before the Interstate Commerce Commission, petitioning that body to require these carriers to remove this discrimination and prejudice by the opening of the San Diego Gateway to through transcontinental and other traffic, thereby placing this City on an equality with other Pacific Coast Ports, as regards "through freight rates," "reconsigning", "reshipping" and "milling in transit" privileges in connection therewith; and

WHEREAS, the Interstate Commerce Commission in its decision on this matter has said that it concludes that it is without jurisdiction to establish for the future the through routes and joint rates sought, by reason of the fact that traffic between points in the United States handled over this route by one of the lines involved moves, for a short distance, through a foreign country - Mexico; it emphatically says that the situation is one that should be corrected, as will be noted by the language of the Commission, as follows:

"Here complainant and intervenors seek the establishment of thru routes and joint rates from points in the United States through a foreign country - Mexico - to points in the United States. In their brief they cite several cases in support of their contention that we have jurisdiction. However, in each of the cases cited by them it was found that we had jurisdiction to award reparation because of damage resulting from the charging of existing rates from points in the United States through a foreign country to a point in the United States, but not to prescribe such rates for the future.

"Since the hearing transcontinental rates have been established to El Toro, California, through San Diego over the route through Mexico here considered. El Toro is 47 miles south of Los Angeles and 77 miles north of San Diego. In so publishing these rates the Santa Fe and the Southern Pacific short haul themselves on some of the traffic. These rates permit San Diego millers and industries to extend their operations north of San Diego as far as El Toro. However, millers and industries at Los Angeles, San Francisco, Oakland, Sacramento and other points near them serve not only their own territory, but also can come into San Diego's territory while San Diego cannot come into territory served by them.

"Many routes are open in connection with transcontinental rates and, generally, to apply transcontinental rates to Sacramento and San Francisco and points south thereof, through San Diego, would not create hauls longer than hauls under existing available routes.

"On the merits there appears to be no warrant on the part of defendants for restricting the markets of San Diego industries when not similarly restricting the markets

served by Los Angeles and other California cities. In other words, allowing Los Angeles, San Francisco, Sacramento and Oakland industries to get into San Diego territory and not allow San Diego industries to get into the territory served by industries in the other cities presents an unreasonable and prejudicial situation which is in the power of defendants to remove and should be removed."

NOW, THEREFORE, BE IT RESOLVED By the Common Council of The City of San Diego, as follows:

That in view of the decision of the Interstate Commerce Commission upholding the position of the complainants, this Common Council supports the efforts of the Chamber of Commerce and San Diego shippers, now in progress, to induce the rail carriers to cease their opposition (based solely on technical grounds) to the removal of this one remaining obstacle to the industrial and commercial development of San Diego and adjacent territory, which could only delay but would not defeat final accomplishment of the adjustment of this manifestly unfair situation;

That a copy of this Resolution be placed in the hands of the Santa Fe, Southern Pacific and San Diego & Arizona Railways, and also, that a copy be furnished to the press and to the San Diego Chamber of Commerce.

Passed and adopted by the said Common Council of the said City of San Diego, California, this 8th day of September, 1925, by the following vote, to-wit:
