

AGAPANTHUS

Features + Benefits

From STAR® ROSES and PLANTS

These Agapanthus varieties were selected for heavier flowering at a younger age than other commercial varieties. These varieties will produce a minimum of 8–10 flowering stems per plant. The habits of these varieties lend themselves well to both container and landscape uses.

STRAIGHT A® 'BARLEY BLUE' AGAPANTHUS

Agapanthus praecox 'Barley Blue'

- ▶ Compact, 1½–2' h x 1½–2' w.
- ▶ Early blooming.
- ▶ Longer bloom window than other commercial varieties.
- ▶ Sturdy flowering stems.
- ▶ Light blue flowers.

STRAIGHT A® 'PURPLE DELIGHT' AGAPANTHUS

Agapanthus praecox 'Purple Delight'

- ▶ Compact, 2–3' h x 2–3' w.
- ▶ Mid-season blooming.
- ▶ Repeat-blooming.
- ▶ Longer bloom window than other commercial varieties; produces blooms through late summer.
- ▶ True purple blooms with a richer color than other commercial varieties.
- ▶ Self-cleaning of spent flowers results in a cleaner looking plant.

STRAIGHT A® 'JONIE BLUE' AGAPANTHUS

Agapanthus praecox 'Jonie' PP 25,557

- ▶ Compact, 1½–2' h x 1½–2' w.
- ▶ Early to mid-season blooming.
- ▶ Dark blue, pendulous flowers. Flower color intensity increases when exposed to cooler temperatures.
- ▶ Sturdy flowering stems.

STRAIGHT A® 'BLUE FLARE' AGAPANTHUS

Agapanthus praecox 'Blue Flare' PP 26,422

- ▶ Mounding, 2–2½' h x 2' w.
- ▶ Early to mid-season blooming.
- ▶ Longer bloom window than other commercial varieties; produces blooms through late summer.
- ▶ Large flower heads.
- ▶ Two-toned flowers; flowers open a light blue with a dark blue mid rib running down each of the petals.

STRAIGHT A® 'SHONA' AGAPANTHUS

Agapanthus praecox 'Shona' PP 31,887

- ▶ Mounded, 2–2½' h x 2–2½' w.
- ▶ Early blooming.
- ▶ Longest blooming Agapanthus in our collection; produces blooms for close to 6 months.
- ▶ Pure white flowers.
- ▶ Low foliage with a sturdy, intermediate length flower stem.

STRAIGHT A® 'BLUE BAYOU' AGAPANTHUS

Agapanthus praecox 'Blue Bayou' PP 26,420

- ▶ Compact, 2–3' h x 2–3' w.
- ▶ Mid-season blooming.
- ▶ Longer bloom window than other commercial varieties; produces blooms through late summer.
- ▶ Rich blue, pendulous flowers on full flower heads.
