Hey hortiholics! Who hasn't experienced the magic of Terra Nova™?

Our plants have spanned the globe with new devotees in England, Japan, and New Zealand. Even Russian websites are touting the assets of our showy plants. Nothing pleases us more than when we hear our customers exclaim, "They disappeared!" or "They vaporized!" Plants so hot, they sold like Magic!

We have now moved into our spacious greenhouses and into our new lab with up to five times the capacity of our old one. With all this new space, we can produce more plants when you want them. Our web-magician, Josh, has created an entirely new website with even more support for customers and garden writers. These include culture sheets and downloadable images for print, newsletters, and signage. If you haven't been on the site for a bit, come hither! Be sure to hook up with our availability list to find our exciting varieties as well as some older favorites offered on availability ONLY. The Terra Nova™ brand is being recognized more and more by growers and consumers. Retailers are jumping on the bandwagon, advertising the fact that they carry Terra Nova™ plants! We have such name recognition in the Portland area, that we've seen Heuchera on nursery sign-boards by the variety!

Remember to carry the book, Heucheras and Heucherellas by Dan Heims and Grahame Ware (by Timber Press). If this book has even a small percentage of the impact that The Hosta Book did for that genus, prepare yourself for even more demand and sales.

We are excited to bring Debbie Knitz in as our sales manager, who brings us her energy and vast sales experience. Another rabbit we've pulled out of the hat is "Sparky", alias Chris Hansen, the former director of new plants at Wayside Gardens. Chris brings us years of marketing experience, a botanical mind, and a photography talent that few can aspire to! We can't forget to mention all the hard work that the breeding, sales, customer service, shipping, and production crews have done to get our plants to you.

We were very pleased this year to have three pages of coverage by USA Today. Over 7 million readers got to know me, Terra Nova Nurseries, and 5 of our hottest plants. People were showing up in garden centers everywhere, clutching copies of the articles to find the aforementioned plants. To date, our company has won 65 International Awards of Horticulture. We are most proud to have received the Reginald

Cory Memorial Cup from the Royal Horticultural Society for our advances in the genus Heuchera. Our staff is always looking for new plants, so Ken and Dan spent several weeks exploring the wonders of China!

By the way, we do NO artificial genetic

Premium Annuals

BEGONIA 'FIREWORKS'

BEGONIA 'BENITOCHIBA'

Begonia 'Benitochiba' (ben-ee-toe-chee-ba)
Palmate leaves, sheathed in metallic rose-red!
 Self-branching and shrubby, this plant defies classification, having the appeal of a Rex, but the shape and toughness of a shrub-type begonia. It was great in our gardens during the summer. Exotic pink flowers. Z 10-11 ● 18/24/24 水 ☼ ☞

NEW Begonia 'Cathedral'

(sometimes called 'Cathedral Windows')
Ruffled foliage with windows of red and green are featured on this unusual, but tough plant for house or summer containers. The undersides of these fascinating leaves have erupted veins allowing cathedral windows of light to shine through. Ivory-pink flowers adorn 12" spikes. An easy plant in the home and in outdoor containers.
 Z 10-11 ● 12/12/14 ☼ ☞

Begonia 'Fireworks'

A showstopper in our trade show booth! Deep metallic, paisley purple bands encircle an iridescent silver-white center that is undeniably striking. Great pink flowers add to the appeal. This plant did especially well in our display gardens in amended garden soil. Not as picky as a Rex and shows great vigor. Upright habit.
 Z 10-11 ● 12/12/14 ☼ ☞

Begonia 'River Nile' (Thompson)

More tolerant of cold than most begonias, this one sports bright chartreuse leaves that are heavily edged in dark red. The borders are also ruffled and the leaf bases swirl like a ram's horn toward the leaf center. Light pink flowers. Great as a patio plant or as a houseplant, easier to grow than a Rex. This plant did especially well in our display gardens in amended garden soil. Z 10-11 ● 24/20/27 ☼ ☞

Brugmansia 'Snowbank' PP14847 EU16251

BEGONIA 'CATHEDRAL'

(*Variegated Angel's Trumpet*) Here's our first Angel's Trumpet introduction with fragrant, peach colored blooms of immense proportions, which emerge from some of the most brilliant and broadly margined foliage you have ever seen! Our first tetraploid Brugmansia is awesome in containers (3 gal. is best).
 Z 8-13 ☼ ☞ 36/60/60 ✨ ☼ ☞

Colocasia esculenta 'Black Magic'

(*Black Elephant Ears*) Highlighted as one of the "Top Black Plants" in Karen Platt's Black Magic and Purple Passion book. Tropical in appearance and moisture loving, 'Black Magic' thrives in full sun gardens and containers everywhere! Needs warmth to "kick into gear."
 Z 9-13 ☞ 30/30/12 ☼

Eucomis comosa 'Oakhurst'

(*Purple Pineapple Lily*) Strapping, upright brilliant burgundy foliage and purple pineapple-like flowers adorn the plant. Originally found in a San Diego Nursery, this deep-purple leafed novelty has loved blazing sun there for nearly 20 years. Plants have also endured 0 f degree winter temps for short periods. Has a stately and exotic look where it combines well in mixed containers. Also lasts an amazing 21 days as a cut flower!
 Z 6b-10 ☼ ☞ 20/24/32 ✨ ☼ ☞

Xanthosoma mafaffa 'Lime Zinger'

(*Golden Elephant Ears*) Wow! These leaves are stunning! Imagine huge lime green-colored elephant ears held upright. A tropical plant to complement Colocasia 'Black Magic'. Use in containers as an accent. Grows to 4 feet or more.
 Z 10 ☞ 36/48/12 ☼ ☞ pond side

NEW Zantedeschia 'Edge of Night'

PP14926 (syn. Z. 'Dark Star') (Sande)
(Calla Lily) The dramatic richly colored 3" flowers resemble black velvet and add a new dimension to this popular group of plants. Black edges outline the glossy green, silver-flecked leaves and provide the perfect backdrop for the floral display! 'Edge of Night' has a multitude of uses including mixed containers and garden plantings. In colder regions of the country, 'Edge of Night' can also be moved indoors for winter-long enjoyment. One of Europe's most popular cut flowers comes to American gardeners via Terra Nova Nurseries!
 Z 8-10 ☼ ☞ 12/28/30 ✨

BEGONIA 'RIVER NILE'

EUCOMIS 'OAKHURST'

COLOCASIA 'BLACK MAGIC'
 XANTHOSOMA 'LIME ZINGER'

Vigorous Grower

BRUGMANSIA 'SNOWBANK'
 ZANTEDESCHIA 'EDGE OF NIGHT'

Large 3" Blooms!

Actaea simplex 'Black Negligee'

(syn. Cimicifuga) (O'Byrne)

(Bugbane) Our customers report that 'Black Negligee' has much more vigor than the other dark varieties. Lacy black foliage shrouds the lovely dark stems. Beautiful purple-tinted, white flowers project 2' upward and carry an exotic perfume of grape and jasmine. Give it lots of water with full sun in most states for the darkest foliage.

Z 5-9 ☀ 24/48/60 🦋 ✂

NEW Agave 'Spot' (syn. Manfreda) (Cistus)

The darkest spotted selection from Sean Hogan and Parker Sanderson of Cistus Nursery. Big clumps sport shiny, blue green leaves with prominent dark purple spots. It tosses up 4' tall spikes terminating with fragrant, 1" long white flowers in summer. 'Spot' grows well in heat and humidity, but it must have good drainage. This wild, deciduous succulent looks like it traveled off the set of Star Trek! *Grower Note: Plants do not show their spots until one year old from a tc plug.*

Z 6-9 ☀ 16/16/48 for a 3 year old plant.

Arum italicum ssp. italicum 'Winter White'

(Italian Arum) TC propagation yields consistent coloration on this clump-forming, non-running variety. Each leaf is a work of art with dramatic, sculptured foliage and an overlay of bright marbling. Leaves appear in late fall and are showy throughout the cold months to early summer. The plant's foliage pattern is not fully visible until it reaches maturity in its second year. Shiny orange jellybean berries give color in summer after the leaves go dormant. Not shipped during summer dormancy.

Z 5-9 ☀ 12/12/10

Astrantia major 'Hadspen Blood' (Pope)

(Barrenwort) Excellent rebloom and dense foliage that has purple black accents when grown in full sun. Plants show

great vigor and free-flowering traits. Excellent, long-lasting cut-flower. Nori Pope, the brilliant ex-curator at Hadspen House offered this form of Masterwort. Likes moist soils and must have sun for flowers to color up.

Z 5-9 ☀ 12/18/24 🦋 ✂

Astrantia major 'Magnum Blush'

(Barrenwort) Vigorous. A huge improvement over the normally small-flowered masterwort. Flowers as big as a half-dollar adorn this heavily blooming and repeat blooming variety. A favorite in our display gardens and a constant source of cut flowers! Very large pink buds open to delightful pink-blushed ivory flowers. Great for cottage and woodland gardens and prefers rich, moist soils.

Z 5-9 ☀ 12/24/36 🦋 ✂

Bergenia 'Pink Dragonfly' (Eskuche)

(Pig squeak) Narrow leaves, with brilliant purple winter color, erupt in luscious bright pink flowers in proportion to its foliage on this petite beauty. Truly the Bergenia for people who are looking for multi-seasons of interest.

Z 4-9 ☀ 12/12/15 🦋 ✂

Brunnera macrophylla 'Looking Glass'

PPAF (Walter's Gardens, TN reselected clone)

(Looking glass Siberian bugloss) Shimmering silver 5" heart-shaped leaves bedeck this sport of Brunnera 'Jack Frost'. The mound gives rise to masses of blue, forget-me-not flowers appearing in spring. Provide evenly moist, rich soils for the best growth. Glows in the garden.

Z 4-9 ☀ 15/12/17

Brunnera macrophylla 'Jack Frost'

PP13859 EU9772 (Walter's Gardens)

(Silver Siberian bugloss) Winner of the Plantarium in Holland "Best New Plant Award in 2001". Sky blue, forget-me-not flowers and a netted silver overlay on each leaf. Absolutely stunning in the garden from early spring to fall. One of the showiest and most garden worthy plants to come along in a decade. Several years ago, John Walters took Dan to a slightly secret part of Walter's Gardens. "What do you think?" John asked, as he handed him a pot of this silvered minor miracle. "Um, I'll take it!" Dan replied, and we did indeed get a license to propagate what Dan considers to be a significant, world-class perennial

Z 4-9 ☀ 15/12/17

Campanula

(Bellflower) From groundcovers to massive specimens, this large genus provides a diverse mix of both flower color and form, which tolerate a wide range of garden conditions. Those marked with an asterisk (*) beside the name do especially well in the South.

Campanula punctata

'Bowl of Cherries'* PP13194 EU11408

This dwarf, which has hundreds of dark, cherry-red bells has prolific flowering and re-blooming tendencies. Those who have been to our nursery have seen our voting system; irrigation flags marking the winners. A vote of 5 flags can put a plant into production. 'Bowl of Cherries' got an unprecedented 10 flags. Great for mixed containers.

Z 5-9 ☀ gc/5/15 🦋 ✂

Campanula collina

(Armenian bellflower) One of the most gorgeous small Campanulas, with attractive blue-purple bells that hover over mats of scallop-edged, heart shaped foliage. The intensely colored flowers emerge in June. Its compact mound of foliage makes it an ideal plant for the garden or the alpine trough. Not invasive, but does creep slowly underground. Limited.

Z 5-8 ☀ 8/6/12 🦋

ARUM 'WINTER WHITE'

BERGENIA 'PINK DRAGONFLY'

CAMPANULA 'BOWL OF CHERRIES'

CAMPANULA COLLINA

Extremely Vigorous Grower

ACTAEA 'BLACK NEGLIGEE'

BRUNNERA 'JACK FROST'

ASTRANTIA 'MAGNUM BLUSH'

ASTRANTIA 'HADSPEN BLOOD'

BRUNNERA 'LOOKING GLASS'

☀ = full sun ☂ = partial shade ● = shade x/x/x = spread/foliage ht/flower ht (inches on a 2 year old plant)
 * = fragrant ✂ = cut flower 🦋 = butterfly 🦋 = hummingbird 水 = Japanese origin 🌿 = tropicalismo
 🏠 = house plant

CAMPANULA 'ELIZABETH OLIVER'

Campanula cochlearifolia 'Elizabeth Oliver'
 English nurseries launched this charming dwarf spreader with fully double sky-blue flowers. This heavy flowering cascader is excellent for rockeries or edging a path. Does well in containers. Tolerates limey conditions and needs good drainage.
 Z 4-8 ☀ gc/2/3 ☒

CAMPANULA 'KELLY'S GOLD'

Campanula persicifolia 'Kelly's Gold'
 (Golden Peach-leaved Bellflower) The brilliant gold foliage gives rise to nice white flowers just kissed with blue at the edges. Originally found in Ann Holt's garden on Bainbridge Island, Washington, this unique form looks like it got hit by uranium; it positively glows! Prefers moist, loamy soil with good drainage.
 Z 4-9 ☀ 12/10/26 ✂ ✂

Campanula punctata 'Pantaloons'^{PP13282}
 'Pantaloons' surprises us with huge 2" light purple flowers that are shaped in a double "hose-in-hose" like we've never seen before. Looks like an elaborate 1890's undergarment. (The plant will occasionally throw up single flowers). This plant is vigorous and reaches standard C. punctata height.
 Z 5-9 ☀ 15/12/28 ✂ ✂ ✂

CAMPANULA 'PLUM WINE'
 CAMPANULA 'SARASTRO'

NEW Campanula punctata

'Pink Octopus'^{PPAF PVR}

Japanese lantern buds open to striking pink, octopus-like flowers. Over 50 blooms flutter down from the nicely upright flowering branches above strong, deeply cut foliage. Unique and interesting! Long bloom time and easy to grow. Tolerant of most soils. Z 5-9 ☀ 18/10/15 ✂

Campanula punctata 'Plum Wine'

Huge light pink blooms, striped with pigment, are accented by the silver gray-blue foliage in summer, which deepens to a dark purple-red in winter. This eye-catching combination of both flower and foliage provides extended seasons of interest for the sunny border.
 Z 5-9 ☀ 15/5/15 ✂ 水 ✂

Campanula

'Royal Wave'^{PPAF PVR}

Our most fragrant Campanula blooms continuously in late spring. Huge, wavy and up facing cups (up to 2" wide!) of blue purple splashed with white centers ride the tide over green foliage. This regal offering has invincible, sturdy foliage that holds up even in inclement weather. Sterile flowers and mounding habit. Excellent for container production.

Yo! Dude! Don't miss the wave! Z 5-9 ☀ 14/7/9 ✂ ✂

Campanula 'Samantha' (Reeck)

This Award winning plant forms lovely mats of foliage displaying unusual and charming blue-violet, 1" wide, very fragrant flowers which face upwards. Re-blooms sporadically with deadheading. A slow spreader that is great for well-drained border in partial shade to full sun. Excellent for container production.
 Z 5-9 ☀ 14/9/11 ✂ ✂

Campanula 'Sarastro'^(Kress)

A C. punctata hybrid only 26" tall with HUGE, 2 1/2" purple bells and a well-branched habit! Not a runner, but a moderate spreader. From wild and wonderful Christian Kress of Austria's Sarastro Nursery. Great for container sales, and re-blooms well when cut back.
 Z 4-9 ☀ gc/26/26 ✂ ✂

Carex siderosticha 'Lemon Zest'^{PP14463}

The only gold C. siderosticha on the market that holds its gold all summer! Its bright lemon swords will illuminate the garden! These golden clumps glow in moderate shade with even moisture. Striking in borders and containers. This clumping, deciduous sedge combines well with Hosta and Heuchera.
 Z 6-9 15/12/28 ✂ ✂ ✂

Carex ciliatmarginata

'Treasure Island'^{PPAF PVR (Shady Oaks Nursery)}

This slow spreading ground cover is a wonderful addition to the lightly shaded garden. Its bright white edge and stripes on short leaves contrast well with ferns, Heuchera and Hosta. Robert Lewis Stevenson would have jumped to buy this bright new groundcover. Excellent at container's edge and is a great long-lived mixer in a pot. Grower Note: This needs heat to emerge well in spring, like the other forms. Late to emerge in spring.
 Z 6-9 15/12/28 ✂ ✂ ✂

Caryopteris divaricata 'Snow Fairy'

(Variegated Bluebeard) Soft textured, feathery variegated foliage for the spring and summer garden. Slow to emerge in the spring, so add a bit of extra heat. Leaves edged white all season. Late summer bloom of gentle blue. Comes back from the base each spring, not old wood, and may require pinching or culling of green shoots. Mike Durr says this plant is tops for heat and drought-resistance, even in the full sun. Shipping April-Sept. only.
 Z 5-9 ☀ 36/36/36 水 ✂ ✂

CAMPANULA 'ROYAL WAVE'

CAMPANULA 'SAMANTHA'

CAREX 'LEMON ZEST'

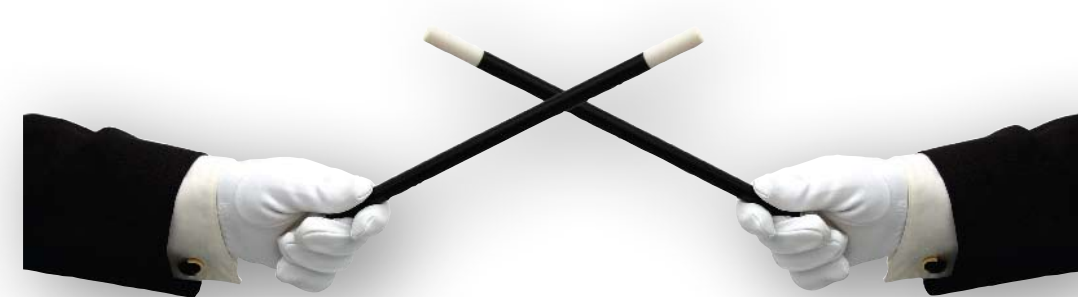

CAREX 'TREASURE ISLAND'
 CARYOPTERIS 'SNOW FAIRY'

Large 2" Double Flowers!

CAMPANULA 'PANTALOONS'

NEW

CAMPANULA 'PINK OCTOPUS'

50+ Blooms Per Stem!

Over 300 Blooms per Plant

OUR NEW HARDY COREOPSIS

COREOPSIS 'AUTUMN BLUSH'

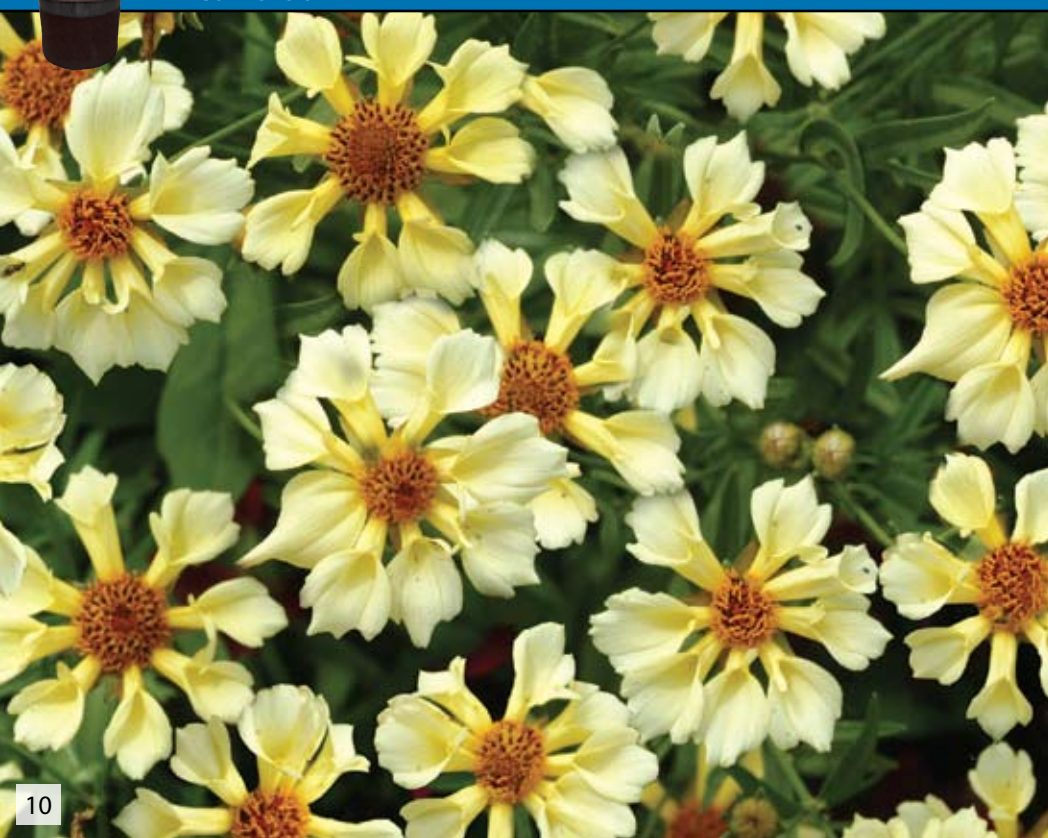

NEW

COREOPSIS 'SNOWBERRY'

NEW

COREOPSIS 'PINWHEEL'

The Terra Nova breeding team has been working hard and is ready to introduce several lines of Coreopsis. Our goals are to breed for flower size, bloom longevity, floriferousness, plant habit and hardiness. One of the backbones of this breeding program has been the extremely hardy Coreopsis auriculata 'Nana'.

NEW Coreopsis 'Autumn Blush' PPAF PVR
This hardy hybrid out of C. auriculata 'Nana' begins flowering in the late spring with 1" strawberry-eyed, butter-yellow flowers. Flowers form a mid-height canopy of color, which changes as the season progresses. Cooler temperatures of late spring and fall enhance the strawberry coloration. Continuous flower production and vigorous growth have made 'Autumn Blush' destined to become one of American gardeners' favorite plants. Z 5-9 ☀️ 🌱 32/24/26 🌿 ✂️

NEW Coreopsis 'Pinwheel' PPAF PVR
Quilled, butter-yellow flowers with lacy-blue foliage put this Coreopsis in a league of its own! This hardy charmer forms wonderful mounds covered with hundreds of flowers all summer! The pleasing soft color of this uniquely shaped flower combines well with the entire garden color palette. Z 6-9 ☀️ 🌱 32/24/26 🌿 ✂️

NEW Coreopsis 'Snowberry' PPAF PVR
Like raspberries dropped in the snow, these creamy-white flowers are splashed with an eye patch of dark red. Multitudes of large 1½" wide flowers bloom all summer atop dark green foliage. Works well in the mixed border or used in containers. It's sterile (making it a more prolific bloomer) and is easy to grow. Z 6-9 ☀️ 🌱 32/26/28 🌿 ✂️

Our Exclusive Hardy Coreopsis

COREOPSIS 'AUTUMN BLUSH'

CROCOSMIA 'SOLFATARE'

CORYDALIS 'GOLDEN PANDA'

CORYDALIS 'BLUE HERON'

CORYDALIS 'BERRY EXCITING'

Corydalis

NEW *Corydalis* sp. 'Berry Exciting' PPAF PVR
Brilliant yellow, fern-like leaves are streaked green and erupt in fragrant purple flowers. This wonderful new mutation of *C. 'Blackberry Wine'* is one of the few *Corydalis* that does not go summer dormant. Its vigorous cascading habit makes it an excellent ground cover and looks great spilling out of baskets and over banks. Z 5-9 ◀ 16/10/13 ✨

Corydalis sp. 'Blackberry Wine'
This early-emerging beauty has blue-green, ferny leaves which provide a backdrop for hundreds of ultra-fragrant flowers the color of blackberry wine! It holds its slightly silvered foliage all spring, summer, and fall with a cascading habit, excellent in baskets or over walls. Takes heat and humidity! Cut back after bloom to freshen foliage. Z 5-9 ◀ 16/10/13 ✨

Corydalis curviflora var. *rosthornii* 'Blue Heron' (Heronwood Nursery)
Our largest, darkest blooming *Corydalis*! Dark blue flowers atop stunning red stems are enhanced by blue-green foliage. Huge, intensely fragrant, deep blue appear on this extremely long blooming *Corydalis*. A marvelous new *Corydalis* collected in Sichuan, China by Mr. Dan Hinkley himself! Will go summer dormant if it is kept too dry or hot. Z 6-8 ▶ 10/8/9 ✨

Corydalis flexuosa 'Blue Panda' (Reeck, Hatch)
A wonderful, fragrant blue *Corydalis* from China's "Panda Country". This long bloomer and re-bloomer in the Pacific Northwest combines the charms of cobalt-blue flowers and fragrance. Z 5-8 ▶ gc/8/12 ✨

NEW *Corydalis* 'Canary Feathers' PPAF PVR
Soft, blue-green feather-like foliage is accented by large, trusses of canary-yellow flowers carried high above the leaves.

This is our showiest and most vigorous *Corydalis* introduced to date! This long bloomer and sun tolerant hybrid makes a great highlight in shady spots where it combines well

with our silver leaf Heucheras and Pulmonarias. Since 'Canary Feathers' is a hybrid, it's sterile and doesn't reseed. Prefers moist, well-drained soils. Z67-9 ▶ 10/7/9

Corydalis elata (Reeck)
Perhaps the best *Corydalis* for the south! Fabulously fragrant cobalt-blue flowers adorn the upright habit of this garden jewel. Flowers emerge in May and bloom through July in Oregon. Does well in moist soils. Z 6-8 ☀▶ 12/16/18 ✨

Corydalis flexuosa 'Golden Panda' PP13254 EU15678 (Reeck, Hatch)
One of the gifts of the tissue culture process is the occasional occurrence of an amazing sport. Green-gold leaves in spring become infused with a warmer golden glow as they age. When the gold reaches its peak, the plant puts forth hundreds of fragrant cobalt flowers. More sun = darker flowers. Glowing reports have been heard for this introduction. Summer dormant. Z 6-8 ▶ gc/8/12 ✨

Corydalis flexuosa 'Purple Leaf' (Blue Dragon)
Up before the robins in spring (with its cousin 'Blackberry Wine'), this bronzy-leaved fumitory is vigorous, rhizomatous, early blooming and long lived. Plants are more compact than the type and are charming in the rock garden, or scrambling around stepping-stones. A great lacy contrast to Heuchera 'Lime Rickey'. Fragrant, violet-blue flowers abound in early spring. May go summer dormant. Z 5-9 ▶ gc/8/10 ✨

Crococsmia X *crococsmiiflora* 'Solfatare' (Bronze Montbretia) Bronze swords of foliage erupt with yellow-apricot blooms. Winner of an AGM (Award of Garden Merit) by the RHS - the highest award that can be bestowed on a plant. Lovely contrast and instant appeal. Excellent for mixed container sales. Z 7-9 ☀ 14/14/20 ✨✂

Dicentra

Dicentra spectabilis 'Gold Heart' (new name Lamprocapnos) EU4817 CPBR0974 (Pope)
Truly one of the most stunning plants in our spring garden with 3' tall, peach-colored stems holding exquisite, brilliant, gold leaves. In late spring, large, rose-pink flowers emerge on arching stems. From Nori Pope of Hadspen House Nursery in Castle Cary, England. Voluntary royalty to breeder. Not for resale into Canada. Ships November through May. Z 5-9 ▶ ● 24/28/36 ✨✂

Dicentra 'King of Hearts' (Ownbey)
This hybrid combines large dark rose flowers with the most sumptuous, lacy, "beyond blue" foliage in a duet that is incomparable. It is a good neighbor and spreads slowly forming multi-seasonal mounds. In addition, it doesn't go summer dormant! Z 5-9 ▶ ● 14/6/9 ✨✂

ECHINACEA 'FANCY FRILLS'
ECHINACEA 'LITTLE GIANT'

ECHINACEA 'GREEN EYES'

ECHINACEA 'LILLIPUT'

ECHINACEA 'HOPE'

Echinacea

The sturdy stems and enormous, multi-petalled, fragrant flowers of E. 'Ruby Giant' are the heart and soul of the Terra Nova Echinacea breeding program. We select various heights of plants from 15 to 30 plus inches tall. The plants are further evaluated for their upright habit, flower count and showy outstretched petals. All of our Echinacea blooms are extremely fragrant and last for weeks as cut flowers. Our breeders continue to work on unique colors and other desirable characteristics.

Echinacea purpurea 'Fancy Frills' PPAF PVR
This lovely coneflower appears almost like a pink sunflower, with multiple rows of rich shaggy petals! Stems are quite strong and the large 4" flowers are perfect for cutting. A new, long-blooming, and fragrant addition to your border.

Z 4-9 ☀ 24/20/30 🌱 🌿 ✂

Echinacea purpurea 'Fragrant Angel' PP16054 EU17449
Grows just like 'Ruby Giant', with large, fragrant, horizontal white flowers with layered, overlapping petals and huge yellow cones. The well branched stems extend the blooming season right through summer and fall. 'Fragrant Angel' also boasts extreme vigor in the South.

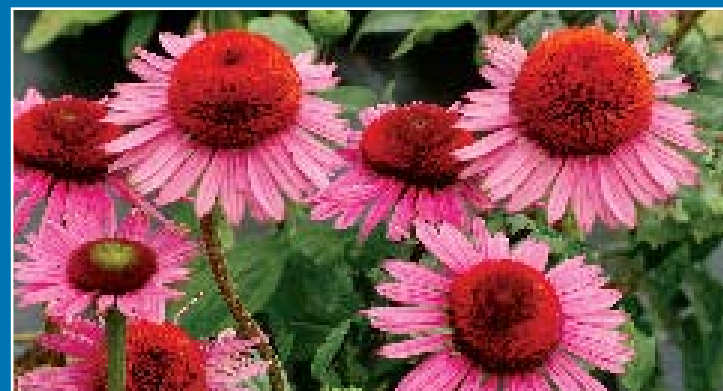

Z 4-9 ☀ 24/20/30 🌱 🌿 ✂

Echinacea purpurea 'Green Eyes' PPAF PVR
Shocking magenta flowers have beautiful indented green centers that mature to a cone with rich orange. This strong, well-branched plant is a super addition to the border with its long-lasting blooms that also make great cut or dried flowers!

Z 4-9 ☀ 24/20/30 🌱 🌿 ✂

Echinacea purpurea 'Hope' PPAF PVR
Calm, fragrant, soft pink flowers of great size, fragrance, and substance adorn this long blooming perennial. It is dedicated to the breast cancer survivors and the memories of those who have succumbed to breast cancer. Terra Nova will make a donation of \$.25 for each plant sold, to the Oregon & SW Washington affiliate of the Susan G. Komen Breast Cancer Foundation to help further the search for a cure for breast cancer. Sold with beautiful over-sized picture labels that advertises this

ECHINACEA 'MARS'

as a "Plant for the Cure". Labels are mandatory to ensure success of the program.

Z 4-9 ☀ 24/20/30 🌱 🌿 ✂

Echinacea purpurea 'Lilliput' PPAF PVR
A breeding breakthrough! Short mounds are covered with over 25+ blooms of fragrant deep rose-purple on this miniature 'Ruby Giant'. This form is unlike anything we have ever seen! Perfect in the front of the border or as a groundcover.

Z 4-9 ☀ 15/12/18 🌱 🌿 ✂

Echinacea purpurea 'Little Giant' PP16183 PVR
A new dwarf coneflower with fragrant, large, purple flowers. Each of these has dark orange cones and ruffled, overlapping petals on strong stems. Many 5" flowers are produced on this long blooming gem. We counted 35 open blooms on a 2 year-old plant in our garden. Excellent for container production.

Z 4-9 ☀ 12/16/20 🌱 🌿 ✂

Echinacea purpurea 'Mars' PPAF PVR
Bright orange orbs are surrounded by brilliant rose purple petals. Compact well-branched habit, and dark stems helps make this inter-planetary gem, shine. Blooms all summer. Easy to grow. The great cut flowers are fragrant as well. Our richest colored coneflower to date!

Z 4-9 ☀ 24/20/30 🌱 🌿 ✂

Echinacea purpurea 'Ruby Giant'
'Ruby Giant' was the first Echinacea bred for multi-branched, strong flower stems boasting huge 5" wide fragrant blooms. This clonal selection from the original Rubinstern seed material has a double row of petals held horizontally for maximal impact. 'Ruby Giant' has become the industry standard for garden worthy Echinacea. Blooms all summer into fall.

Z 4-9 ☀ 24/20/30 🌱 🌿 ✂

Echinacea purpurea 'Sparkler' PPAF PVR
Bright, variegated splashes of green and cream decorate these leaves. From the time this plant emerges from the chilly soil in spring, it contributes color to the garden with its sparkling leaves. In the summer as the flowers develop the leaf variegation softens so as not to compete with the excellent rose pink, 4" flowers. Grower Note: Requires a longer finish time.

Magicians Wanted!

Planttalentscouts. That's what we are! We comb the world looking for amateur and professional breeders whom might have that "hot little property" that everybody wants.

As the largest introducer of new perennials worldwide we know that new plants are the lifeblood of our industry. Our specialties are new, improved, variegated, and outstandingly colorful foliage perennials. Many of our introductions are found by gardeners and breeders just like you!

Like magic rings we link potential top selling plants to their market!

First we will evaluate your discovery to determine its marketability. Provided the plant can be propagated in our state of the art laboratory (most can), we will then begin planning production and marketing strategies to get it to market. We can patent your plant to protect it from being propagated by nurseries that pay no royalties. Our patent costs are very competitive, because the work is done in house. You, being the breeder/originator of the plant, will be paid a royalty for each plant sold by Terra Nova or its licensees, patented or not.

For the best promotion for your plant, Terra Nova has partnerships with some of the largest wholesalers in the world. This assures global market penetration. We aggressively promote YOUR plant through our catalog, our website, trade shows, television and radio, press releases, and presentations given by renowned plantsman, Dan Heims. Plants placed with Terra Nova are regularly displayed at major wholesale and retail garden shows. They are entered in competitions, garden trials, shows world-wide, and showcased in our own display gardens. Visit our website to see the awards won in the US and Europe. You will receive royalty payments and the joy of sharing your discoveries with others around the globe.

If you'd like advice on a new plant, call Gary Gossett or Dan Heims at 800-215-9450 x309 or 503-263-3150 x309 Gary's cell phone is (971) 219-6607

Euphorbia amygdaloides 'Orange Grove' PPAF PVR

Brilliant chartreuse flowers fade to citrus orange after emerging from the clean, red tinted new foliage. Compact height, spreading habit, and mildew resistance are major benefits of this hybrid between E. 'Golden Glory' PP14514 and E. amygdaloides var. robbiae. Dry shade is not a problem for this wonderful groundcover.

Z 6b-10 ☀ 18/18/30

NEW Euphorbia 'Royal Velvet' (O'Byrne)

Tailored evergreen velveteen leaves of rich deep red provide the perfect foil for its spring floral display. In spring, its 8" chartreuse colored flower spikes have dramatic dark maroon eyes. This cross between E. characias 'Portuguese Velvet' and E. x martinii 'Red Martin' has the best of both worlds! This superior selection from Ernie & Marietta O'Byrne thrives in their world-class garden.

Z 7-10 ☀ 24/18/36

Farfugium japonicum

(syn. Ligularia tussilaginea)

(Leopard Plant) This is an amazing group of plants prized in Japan for their evergreen, leathery foliage and very late flowers in fall. Dan saw these used heavily in the shrine gardens in Kyoto, Japan. We've also heard good reports of their thriving in the South.

Farfugium japonicum 'Aureomaculatum'

Fascinating glossy leaves 6" across are dark green with bold yellow spots splashed randomly across the leaf. Large, yellow, daisy-like flowers appear in early to mid summer. Excellent companion plant for Dicentra 'Gold Heart'.

Z 7-10 ● 24/12/20 水 ☀

Farfugium japonicum 'Crispatum'

Wild, crested fans of gray foliage show pink highlights in the spring. Always sure to capture stares. Perfect for containers and worth bringing in for the winter in colder zones. Yellow, daisy-like flowers appear atop the gray-blue foliage in early summer. Evergreen in milder climates. *Grower Note:* shows cresting only on mature plants. Z 7-10 ● 24/14/24

水 ☀

Fatsia japonica 'Spider's Web'

Web'

(Variegated Japanese Aralia)

A fantasy of brilliant white splashing and dotting. Flecked variegation changes with the seasons and as the plant ages. Large, 12" palmate leaves bring a hint of tropics to the garden. In fall, long-blooming clusters of pristine white flowers are followed by grape-colored berries. A beautiful Aralia given to Dan by variegated plant guru (sensei #1), Dr. Yokoi in Japan. Named by Dan's other sensei, Mr. Hirose.

Rubus 'Golden Ruby'

Hardy Ferns

All our ferns are clonally propagated and thus, all are true to type. The Athyrium as a group are very heat and humidity tolerant, but young plants need to have their roots kept cool. Plants do not push new growth (roots or tops) during winter months and need a longer dormancy period than most ferns. Grower Note: It is not unusual for the final coloration not to show during its juvenile stage. Best color is seen after vernalization.

Athyrium niponicum var. pictum 'Burgundy Lace' PP15072 PVR (Japanese Painted Fern)
 Our #1 selling hardy fern! Bar none, the best red in the marketplace. With one look at its gorgeous metallic burgundy leaves (brightest in spring), you're sure to fall in love! Great vigor in containers as well as in the garden. Z 4-9 ☐ ● 12/15/ NA

Athyrium filix-femina 'Cristatum' Encourage (Randaci)
 (Crested Lady Fern) This elegant, special, crested and tasseled form of this Victorian Athyrium has great vigor! The Randaci's were 'Encourage'd' by this special plant! Apple-green coloration. Great for shady, damp areas and woodland gardens. From Angelo and Carol Randaci.
 Z 4-8. ☐ ● 12/18/NA

Athyrium filix-femina 'Cruciato-cristatum' Dre's Dagger (Randaci)(Victorian Lady Fern)
 A more compact form of the sought after Victorian fern. The thin, deep green fronds are unusually crisscrossed and come to a narrow point that terminates with a small crest that grows through the season. It brings elegance to any shaded or morning sun location in rich soils. Multi-season interest. Z 4-9. ☐ ● 18/18/NA

Athyrium niponicum var. pictum 'Pewter Lace' PP15721 PVR (Japanese Painted Fern)
 Gardeners everywhere are falling for the arresting metallic pewter foliage. Color is deep rich grey with no reds, and less metallic than 'Silver Falls'. Silversmith Paul Revere would have succumbed to the charms of this new designer color in Japanese painted ferns. Customers are impressed with this vigorous selection which combines nicely with *Hakonechloa* or *Tiarella*. Z 4-9 ☐ ● 12/18/NA

Athyrium filix-femina 'Plumosum' Aura (Randaci)(Golden Plumose Lady Fern)
 Lacy, frilly chartreuse leaflets flutter about on this beauty for the shade garden. This illuminating Randaci beauty is a natural in the moist or woodland garden.
 Z 4-9 ☐ ● 30/24/NA- for a 3 year old plant

Athyrium niponicum var. pictum 'Silver Falls' PP12803 (Ballantyne)
 (Japanese Painted Fern) Unlike any other painted fern, this one intensifies its silvers as the season progresses! Winner of the 2002 "Stars of Spring" awards in New Zealand, this is a salute to "silvertude" with stunning, lustrous fronds that shimmer with its contrasting red veins. Named after a set of famous Oregon waterfalls. Later to appear in the spring than the other Japanese ferns. Z 4-9 ☐ ● 12/15/NA

Athyrium niponicum var. pictum 'Ursula's Red' (Herz)(Japanese Painted Fern)
 This fern heralds the spring with broad silver leaves traced and flushed with wine red down the center. This dynamite seller at Wayside Gardens has color that softens in summer heat. Plantswoman Ursula Herz had a little secret in South Carolina.
 Z 4-9. ☐ ● 12/16/NA

Athyrium 'Wildwood Twist' (Maness)
 (Japanese Painted Fern) An unusual, vigorous, and silvered hybrid fern, its mature fronds slightly twisted and painted in smoky gray and green. A unique and artful addition to the garden. A *nipponicum* x *A. otophorum* according to the Pittsboro, NC native. Z 4-9 ☐ ● 12/18/NA

Polystichum sp. 'Shiny Holly'
 (syn. 'Spiny Holly') (Jones)
 (Shiny Holly Fern) This recently collected evergreen fern has a wonderful, clean, shiny look, and plastic-like texture. Deep green foliage year round looks great in the fall, winter and in spring with early bulbs. The emerging fronds are also a sight with huge coppery scales unfurling. From Judith Jones at Fancy Fronds. Easy to grow and use in the woodland garden or containers for long lasting beauty. Possibilities as a cut? Z 6-9 ● 12/12/NA

GEUM 'FIREBALL'

HELLEBORUS 'HONEYHILL JOY'

GERANIUM 'MARGARET WILSON'
HEMEROCALLIS 'FINAL TOUCH'

Geranium phaeum
'Margaret Wilson' (Wilson)
Spectacular creamy, marbled, variegation flows over the leaves of this tough plant. In April, the lilac-purple flowers emerge for a show throughout the spring season. The color display continues thru the summer as the variegation holds true all season. Hailing from England, this strong plant is perfect for the woodland or the border.
Z 5-9 ☀ 14/12/13 🦋

Geranium pratense 'Victor Reiter Jr.'
This stunning plant emerges royal purple in spring, forming a beautiful mound that elongates and produces a lovely show of large, dark lilac blooms. Leaves go to dark green with a purple edge. 'VRJ' is four times larger and is more vigorous than its child, 'Midnight Reiter.' Z 5-9 ☀ 25/25/30 🦋

Geum 'Fireball'
Profuse, huge, sterile, orange-yellow, semi-double flowers continue from spring to fall. These 1 1/2" blooms are picoteed with a red edge. One of the most impressive (and early) orange blooming perennials in the spring! Found exploding in the walled city of York, England, this dynamic plant held its regal position in the garden, attracting every eye. Well-drained soil. Z 5-9 ☀ 24/8/26 🦋

Hakonechloa macra 'All Gold'
(Gold Japanese forest grass) This gleaming, metallic gold "Forest Grass" holds its brilliant color all summer before turning tan in winter. Leaves are more upright and spiky than the type and are awesome in containers and the garden! Dan saw this glowing in the morning sun while visiting Suzuki-En in the Kowaguchi area of Japan. He was bowled over. Z 6-9 🌿 gc/6/NA

Helleborus x nigercors
'Honeyhill Joy' (Metcalf)
(Lenten Rose) This hybrid from Honeyhill Farms is exceptional for its quantities of large, out-facing, cream-centered, white flowers over vigorous, shiny, blue tinged foliage. Plant 'Honeyhill Joy' at your entry to enjoy the exceptionally early 2-month long show of marvelous, late winter blooms. Blooms early (after its first winter) in a 4" pot!
Z 6-9 🌿 24/18/28 🦋

Hemerocallis 'Final Touch' (Apps)
(Daylily) From June to October, you might count as many as 50 buds on one stem from this REBLOOMING daylily! Pink and lavender blooms, 6" wide, appear from mid-to-late summer and keep blooming through the fall! Flowers stay open and fresh through the next morning. Why only 1 daylily in our list? Because Darrel Apps did a very good job! Hardy dormant type.

Giant 4" Leaves

x Heucherella

x Heucherella 'Burnished Bronze'
PP12159 EU13528
This has large cut leaves with a glossy, burnished bronze finish. Top this off with starchy, soft pink flowers on branched stalks and you have an amazing plant. Flowering repeats in the summer as well. One of Dan's favorites! Z 4-9 ☀ 14/8/18

x Heucherella 'Dayglow Pink' PP12164 EU11469
Blooming with hundreds of branched, brilliant pink flower stalks, this hybrid stunned us from day 1. The greatest thrill in hybridizing is to hit a color breakthrough. 'Dayglow Pink' comes through with flying colors. Leaves are cut with a chocolate inlay. Z 4-9 ☀ 14/7/16 🦋

x Heucherella 'Kimono' PP12154 EU13668
One of our largest, most vigorous and showiest Heucherella, 'Kimono' has indescribable ornamentation of silvers, purples, and greens! The narrow, deeply dissected foliage with a dark chocolate center stripe are topped by summer blooms of creamy white. Colorful winter foliage of rose-purple. Z 4-9 ☀ 18/18/24

x Heucherella 'Stoptlight' PPAF PVR
Large 4" screaming yellow and red centered spring leaves have shot this vigorous selection to the top of our Best Sellers list. Striking leaf coloration continues to intensify as leaves mature. 'Stoptlight's' texture and colorful foliage allows it to combine with red flowering annuals and perennials for multi-seasonal interest. Simply beautiful! Airy white flowers are produced in spring. Z 4-9 🌿 12/6/16

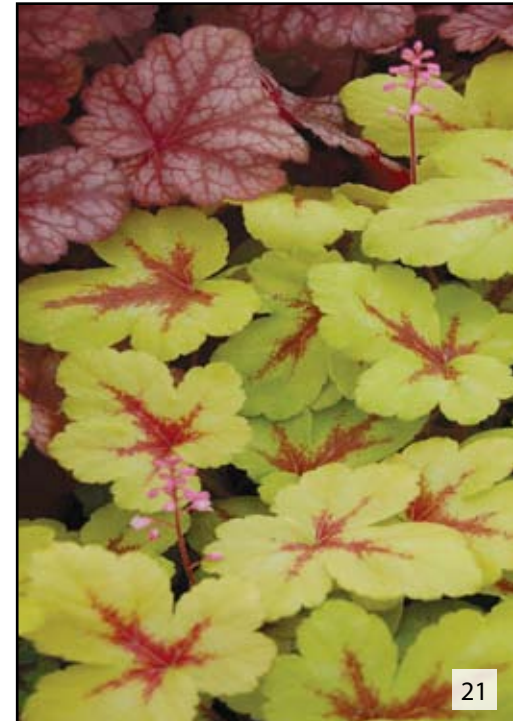

x Heucherella 'Sunspot' PP14825 PVR
Feast your eyes on this brilliant form of 'Dayglow Pink' with electric yellow foliage and wine-red center patches. Blooms heavily with dozens of flamingo pink flowers adding to any spring color display. Foliage color softens to a pleasant buff for summer long interest. Z 4-9 🌿 14/7/16 🦋

HEUCHERELLA 'KIMONO'
HEUCHERELLA 'DAYGLOW PINK'

HEUCHERELLA 'BURNISHED BRONZE'
HEUCHERELLA 'SUNSPOT'

Heuchera

(Coral Bells or Alum-Root) For more than a decade, the Terra Nova Breeding Team has worked to enhance every characteristic of this trouble-free native. We've expanded the color palette to include oranges, blacks, reds, purples, etc. This rainbow of colors is combined with ruffles, bright flowers, sturdier habit, and rebloom to extend the selling season and create popularity amongst American home gardeners. A wide range of color for both sun and shade make them excellent companion plants to complete your perennial program!

Heuchera 'Amber Waves' PP13348 EU11455
 The light rose-colored flowers are secondary to the STUNNING, ruffled, amber-gold foliage which is brightest in spring. No Heuchera has ever attracted such great attention at the retail level as much as our dazzling 'Amber Waves'. Winner: "Best New Plant" - Four Oaks, UK 2001, Winner "Best New Product" 2001 - Scotgrov, UK 2001. Z 4-9 ☀ 17/8/12 🌸 🌿 ✂

Heuchera 'Amethyst Myst'
 A cool fog of silver settles over the stunning amethyst foliage. This glossy-leaved, vigorous clump can achieve an impressive 24" across. Both size and color make this Heuchera stand out in the spring garden. Z 4-9 ☀ 17/9/26

Heuchera 'Black Beauty'
 PP13288 EU11507 ('Dark Beauty' in Europe)
 This recent introduction pleases the senses with very black-red and GLOSSY, ruffled leaves. From any angle this plant is strikingly backlit in ruby red. The leaves are held somewhat upright, catching the sun from any direction. Z 4-9 ☀ 16/10/24

Heuchera 'Blood Red' PPAF PVR
 Large, blood red flowers on 20" stalks erupt over bright green leaves swirled with a silvery-white overlay. Largest red flower yet on small compact foliage. Great in the border and one of the best for container production! Z 4-9 ☀ 12/7/20 🌸 🌿 ✂

Heuchera 'Cherries Jubilee' PP11377 EU10038
 Soft red flowers on warm brown foliage make this Heuchera good enough to eat! A compact habit and tidy appearance. Foliage is veiled in shadier locations. Performs great in containers. Z 4-9 ☀ 16/7/16 🌸 🌿 ✂

Heuchera 'Cinnabar Silver' PPAF PVR
 Our breeders have been working for years to try and combine the best of both worlds...exceptional flowers and color-holding foliage on the same plant! 'Cinnabar Silver' combines a profusion of cinnabar red flowers atop compact mounds of showy metallic silver foliage. Z 4-9 ☀ 13/9/18 🌸 🌿 ✂

HEUCHERA 'CAFE OLÉ'

Heuchera

NEW Heuchera 'Café Olé' PPAF PVR
 Frilly, ruffled leaves in the darkest of milk chocolate form a tight mound on this unusual new hybrid. Numerous branched spikes hold hundreds of white flowers kissed with purple. Create a cute border display with our best multi-crowned compact Heuchera! Great for edging a pathway or en masse.
 Z 4-9 ☀ 16/6/21

HEUCHERA 'FANDANGO'

Heuchera 'Chocolate Ruffles' PP8965 EU3954
 Heavily ruffled leaves of rich chocolate on top and deep burgundy on the bottom create a warm contrast of color. Thousands of small purplish flowers on strong purple spikes continue the show. One of our first and finest, and still in amazing demand, this heat/humidity tolerant Heuchera thrives in gardens across the country and has become a landscaper's staple. Winner of the highest gold medal as "Best New Perennial Introduction" at Plantarium in Holland '95. Gold and silver medal winner at VKC Nieuw, Belgium.
 Z 4-9 ☀ 17/10/30

Heuchera 'Fandango' PPAF PVR
 Ruffled, veiled-metallic leaves, swirl around the flowers. Repeat blooming, dark pink wand-type flowers are held on short stalks above the colorful foliage on this compact grower. Excellent garden performance.
 Z 4-9 ☀ 16/7/16

Heuchera 'Fantasia' PPAF PVR
 Massive display of pink flowers in spring above the intensely silver veiled leaves. Compact mounds of shiny silver foliage and red backing extends the show. Excellent in mixed containers, en masse, or as a landscape specimen.
 Z 4-9 ☀ 14/10/20

Heuchera 'Ginger Ale' PPAF PVR
 A surprise! Effervescent flowers in shades of ginger yellow and light pink erupt from soft, um, ginger colored leaves. Lovely to contrast with the darker coral-bells in the marketplace. Good in containers and in borders. Limited.
 Z 4-9 16/12/22

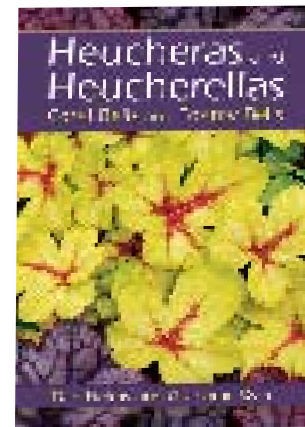

Heuchera 'Gypsy Dancer' PP15959 EU17450
 This floriferous hybrid has a multitude of light pink flowers swirling over low, darkly veiled foliage. A heavy repeat bloomer that is first to start and last to finish! Stays small and flashy. Doesn't require long cold treatments to bloom like most Heuchera making it great for the South.
 Z 4-9 ☀ 12/8/20

HEUCHERA 'GYPSY DANCER'
 HEUCHERA 'FANTASIA'

Heucheras & Heucherellas Coral Bells & Foamy Bells by Dan Heims & Grahame Ware

Few perennials have undergone as dramatic a "makeover" as heucheras (coral bells) and their hybrids with tiarellas (foamflowers), the heucherellas (foamy bells). Drawn mainly from diminutive forest-dwelling species with small white flowers and unremarkable foliage, these woodlanders and crevice dwellers are now among the most popular plants in nurseries around the world. Dan Heims and Grahame Ware not only provide background

on the wild species of Heuchera, they also tell how these plants were developed into the garden stars they are today, with an appreciative nod to the breeders who revolutionized the plants' characteristics. The book's main feature is extensive listings of the choice selections and hybrids available commercially; practical chapters on garden care, propagation, and design uses round out this fascinating account.

HEUCHERA 'GREEN SPICE'

Heuchera

Heuchera 'Geisha's Fan'

This Heuchera employs the Japanese spirit of color and grace. Charcoal-veined leaves crest to the form of a geisha's fan. Clusters of light pink flowers emerge in spring to complete the show!

Z4-9 ▶ ● 15-8-18

Heuchera americana 'Green Spice'

A top-seller around the world and great in the shade! Much more color contrast and more vigorous than Heuchera 'Beauty Color'. Its dark gray-edged silver leaves with red venation are smoother and brighter, bigger, and better. Exceptional fall color, which we label as "pumpkin, neon orange". Z 4-9 ▶ ● 16/9/28

Heuchera 'Hollywood' PPAF PVR

Strong reblooming spikes of dense coral-red flowers are produced over white veiled, lightly ruffled metallic leaves. Every flower stem produces dozens of reblooming flowers continuously. 'Hollywood's' compact habit and long bloom period make it perfect for mixed containers and edging. An amazing breakthrough in breeding and the first to get an "11" by Dan's standards.

Z 4-9 ☀ ▶ 12/8/16 ✂ ✂ ✂

Heuchera 'Lime Rickey' PP16210 EU17451

Consistently one of our top 3 selling Heuchera! Lime-green to chartreuse ruffled foliage provide multiseasonal interest in both gardens and mixed containers. This refreshing color is the perfect contrast plant allowing it to play well with others. A vigorous grower which is topped with tons of small pure white flowers in spring.

Z 4-9 ▶ ● 18/8/17 ✂ ✂ ✂

NEW Heuchera 'Midnight Rose'

PPAF PVR (Behnke)

Hot pink polka dots adorn this vigorous growing 'Obsidian' sport. Pink flecks emerge in spring and continue to enlarge and brighten before lightening to cream as the season progresses.

Bold, black, and beautiful for sunny locations! This marvelous addition was discovered by Larry Hurley of Behnke Nursery. A special find! Z 4-9 □

HEUCHERA 'MIDNIGHT ROSE'

HEUCHERA 'OBSIDIAN'
Our Best Black!

HEUCHERA 'MARMALADE'
Thrives In the South!

Heuchera

Heuchera 'Marmalade' PP15945 EU17452
'Marmalade' stands out with its rich, shiny, undulating foliage ranging in color from umber to deep sienna. Particular notice is paid by all to its hot pink undersides that make this plant shout "Take me home!" Showy in all seasons, this vigorous plant has heavy substance standing up to inclement weather. A great landscape choice which performs well in both sun and shade. Z 4-9. ☀️ 18/10/16

Heuchera 'Mint Frost' EU5886
5" leaves are frosty cool and minty fresh. This shimmering plant is a great player in our lineup. Bright silver is overlaid on a mint-green background. Red petioles add to the appeal, as does a spectacular rose overlay in fall. Z 4-9 16/7/28

Heuchera 'Obsidian' PP14836 EU15761
The "Black Standard" which does NOT fade, even in full sun. Shiny, broad, rounded leaves like black satin! 'Obsidian's' richly colored foliage showcases all other colors in the garden. Vigor and consistent performance under a variety of garden conditions make this a fool-proof choice. Customers have continued to rank 'Obsidian' as one of their TOP 5 selling Heuchera nationwide. Z 4-9 ☀️ 16/10/24

NEW Heuchera 'Paris' PPAF PVR
As silvered as 'Mint Frost', this free-flowering cousin to 'Hollywood' has striking, white-veiled green leaves that give rise to continuous columns of large, deep rose-colored flowers. Repeat blooms until frost with a single bloom-stem lasting for 2 months. Excellent in containers or the shade border. Janet's new favorite as it lights up the garden year round. Z 4-9 14/10/14 ✂️

Heuchera 'Peach Flambe' PPAF PVR
Bright peach-colored leaves that literally glow in spring, summer and fall, turning to plum in winter. Large, smooth leaves and flaming red infusions create drama in the garden. 'Peach Flambe's' color progression thru the year provides multi-seasonal interest as a superb color companion with spring yellows, summer blues, and fall oranges. A vigorous, medium-sized plant that produces white flowers in spring on stems to 16". This newcomer has rapidly climbed the charts to become one of our TOP 5 sellers! Z 4-9 14/7/16 ✂️

HEUCHERA 'RAVE ON'

HEUCHERA 'PEWTER VEIL'
HEUCHERA 'SASHAY'

Heuchera

Heuchera 'Peppermint Spice' PPAF PVR
The first Heuchera with the lovely 'Green Spice'-type foliage combined with H. sanguinea-type rose pink flowers. Flowers are shorter than 'Green Spice' but taller than the compact forms, giving a new niche in Heuchera-dom.
Z 4-9 ☀ 14/12/28 🌸 🌿 🌱

Heuchera 'Pewter Veil' PP8984 EU6209
Our largest grower and best landscape silver! Amazing copper-pink spring foliage changes to sheets of pewter-silver on 6"+ leaves. Well publicized winner of the year 2000 Theodore Klein Award. Tolerates shade better than most Heuchera. Z 4-9 ☀ 14/12/28

Heuchera 'Plum Pudding' EU3330
Thriving in the heat and humidity of the South, this industry staple is still one of our finest "plums". Tight, compact habit with "beyond burgundy" shiny foliage make this an excellent companion planting for a wide array of colors. Gold medal winner VKC Nieuw, Belgium '96.
Z 4-9 ☀ 16/8/26

Heuchera 'Purple Petticoats' EU5885
Dark purple frilly foliage, the texture of petticoats, adorns this tough beauty. Placed first for winter foliage at one of the top horticultural shows during one of Holland's toughest winters. Gold medal winner at VKC Nieuw, Belgium '96. Award of Garden Merit winner.
Z 4-9 ☀ 24/12/28

Heuchera 'Rave On' PPAF PVR
One of our heaviest spring bloomers, producing masses of pink flowers above highly silvered foliage. Excellent in containers, en masse, or as a splendid specimen. A new level of Heuchera breeding with more flowers than any other in our trials.
Z 4-9 ☀ 14/8/20 🌸 🌿 🌱

Heuchera 'Sashay'
This sport of 'Purple Petticoats' has deeply cut, ruffled leaves which are dark green on top contrasted by luscious burgundy below. The unique substance and leaf color provide dramatic interest in both landscapes and containers. Award of Garden Merit winner.
Z 4-9 ☀ 16/8/22

Heuchera sanguinea 'Snowfire'
Our most vigorous variegated Heuchera! Leaves with heavy white variegation give rise to large rose-red flowers in late spring. This one is cool and hot at the same time! The pristine variegation does not slow this plant down as a strong garden performer!
Z 4-9 ☀ 14/8/20 🌸 🌿 🌱

Giant 6" Glowing Leaves!

HEUCHERA 'SPARKLING BURGUNDY'
HEUCHERA 'VELVET NIGHT'

Heuchera

Heuchera 'Sparkling Burgundy' PPAF PVR
Giant 6" burgundy leaves literally glow all spring and summer. Multi-seasonal interest begins with bright rose burgundy spring foliage and clean white flowers followed by leaf colors that become orange and white veiled as the season progresses to a final summer color of veiled burgundy and olive tones. The evergreen leaves darken in winter to a rich wine-red. Forms a medium sized mound that is great in the landscape or in containers. Z 4-9 ☀ 18/12/20 ✂

Heuchera 'Starry Night' PP16076 PVR
With 'Starry Night' we have put together a plant with rich dark leaves and prolific, bicolored blooms. Beginning with a major flush in spring, 'Starry Night' erupts with 14" spikes each holding 100 to 200 pink buds. These open to reblooming, white bicolored flowers. Plant habit is mounding and compact. Z 4-9 ☀ 16/12/24 ✂

Heuchera 'Stormy Seas'
Magnificent, ruffled foliage with an appliqué of silver, lavender, pewter, and charcoal gray. Visions of dark gray waves smashing into the seashore created this name. Fantastic form and extreme vigor. One of our best landscape Heuchera and Gold Medal Winner VKC Nieuw, Belgium '96 and '97. Z4-9 ☀ 36/18/36

Heuchera 'Tango' PPAF PVR
This compact plant features the unique combination of metallic purplish leaves with hot pink flowers. Keeping up with its Latin namesake, its hot fuchsia-pink flowers rise in narrow spikes to 14" tall and continue reblooming all summer. Z 4-9 ☀ 14/7/14 ✂

Heuchera 'Vanilla Spice' PPAF PVR
This is the first Heuchera with 'Green Spice' type foliage and lovely white flowers. Flowers are shorter than 'Green Spice' but taller than the compact forms. Z 4-9 12/8/24 ✂

Heuchera 'Velvet Night'
Our darkest veiled form, 7" plush, slate black leaves, with complex metallic purple overlays. Great with gold Hosta. It has shimmering leaves that are actually velvety to the touch, showing best in part shade. Z 4-9 17/7/26

Heuchera 'Vesuvius' PP13215 EU11503
Profuse and reblooming spires erupt like fountains of magma over the dark flanks of this hot little number. The flowers of this great garden performer are an orangey red. Bloomed very well in 55% shade. Z 4-9 ☀ 17/7/24 ✂

10 "Must Have" Heucheras for Landscapes

LEWISIA 'CONSTANT COMMENT'

Lewisia 'Constant Comment'

(Rare Plant Research)
This succulent perennial forms compact rosettes with short clusters of large, rose pink flowers, reblooming heavily up to 6 times a year. Burl Mostul from Rare Plant Research has come up with a *Lewisia* for the rest of us. Do not fertilize. Requires excellent drainage with a gravel mulch.
Z 6-9 ☀ 5/3/5

LIRIOPE 'OKINA'

Ligularia 'Britt-Marie Crawford'

PP16113 EU12794 (Walter's Gardens)
(Black Groundsel) Giant 12" leaves of glossy black create mirrors in the garden! This darkest *Ligularia* to date exhibits extreme vigor providing a dramatic backdrop for infinite color combinations! Daisy-like flowers of golden orange emerge in late summer. Create a tropical mood with this hardy "must have" perennial. Z 4-9 ☀ 30/30/45 ✂

LOBELIA 'GRAPE KNEE-HI'

Liriope muscari 'Okina'

(Frosted Monkey Grass) How about a neat compact habit with broad leaves like an *Ophiopogon*? How about beautiful lilac-purple flower spikes? How about PAPER-WHITE new growth that later develops green tips and a minty finish in the warmer areas. We thought we'd hook you.
Z 6-9 ☀ 10/10/15 ✂

Lobelia 'Grape Knee-Hi' PP13264

(Cardinal Flower) By backcrossing to an extremely dwarf form of the very hardy *Lobelia siphilitica*, we've come up with a true dwarf cardinal flower with deep, purple flowers! Not only is this plant dwarf, it's also sterile! This prolongs the bloom time. Z 6-9 ☀ 15/22/25 ✂ ✂ ✂

LOBELIA 'MONET MOMENT'
PETASITES 'GOLDEN PALMS'

Lobelia 'Monet Moment' (Maness)

(Cardinal Flower) We were amazed by two of this plant's traits - immense flower size, and MASSES of flowers. The vigor of this plant is extraordinary. If Monet ever had "a moment" it would be reflected in this gorgeous rose pink beauty from Thurman Maness. Z 4-9 ☀ 16/20/36 ✂ ✂ ✂

Lonicera x italica Harlequin (= 'Sherlite' EU417)

(Variegated Honeysuckle) Beautifully variegated leaves, often cream-edged with pink highlights are combined with lovely, fragrant, yellow and pink flowers from summer to fall. Hummingbirds will love you! Super fall color. Deciduous.
Z 4-9 ☀ vine/24/27 ✂ ✂ ✂ ✂

Mertensia sibirica

(syn. *M. pterocarpa* var. *yezoensis*) (Japanese Bluebells) The leaves of this selection have a cool blue cast and a better clumping habit than the native form. Spring brings dozens of periwinkle-blue flowers. The powder blue foliage is persistent all season long on this woodland delight. Z 4-9 ☀ 10/7/12

Mukdenia rossii 'Crimson Fans'

(syn. 'Karasuba')
Mukdenia is a very hardy, deciduous *Heuchera* relative from China. This form has large maple-like leaves, which emerge green then age (after flowering) to mid-green splashed with bright red. Foliage remains red all summer and is striking in fall as the green areas change to gold. Numerous white, bell-shaped flowers are held in branched panicles for several weeks from February to April. Can be used as a groundcover or specimen in part shade. This stunning plant is actually hardy in Vermont! Likes even moisture and remember, it is not as fast as a *Heuchera* in growth. Limited.
Z 4-9 ☀ gc/12/16 水 ☐

Penstemon 'Pink Chablis' PP13422 EU13695

This gem is eight generations evolved from the ultra-tough and Zone 3 hardy 'Saskatoon Hybrids'. This compact, dense, heavily blooming hybrid has all the refinement the huge British hybrids don't. Not only are these tolerant of poor soil, but the rosettes are also neat and glossy. A pleasure to have in the border or rock garden. Reblooms with spent flower removal.
Z 3-9 ☀ 16/8/18

Penstemon 'Sweet Grapes' PP13549 EU15667

This compact, heavily blooming purple hybrid has all the refinement that the huge British hybrids don't. Not only tolerant of poor clay soil but the rosettes are neat and glossy. A pleasure to have in the border or rock garden. Reblooms with spent flower spike removal. Place in a sunny well drained spot. Saskatoon hybrid blood.
Z 3-9 ☀ 18/6/13 ✂ ✂

Persicaria 'Chocolate Dragon' PPAF PVR

A wonderful LOW mound of striking leaves that are purple when young and mature to a rich chocolate brown with a silvery olive chevron. In late summer and early fall it then becomes bright green with a dark basal blotch. Forms a dense, low mound to 3', never falling open like its predecessor, 'Red Dragon'. The other good news is that it doesn't creep or reseed.
Z 6-9 ☀ 36/18/20

Petasites frigidus var. palmatus

'Golden Palms' (Pavlich)
(Golden Coltsfoot) A wild sport collected at 1500' in the Northwest by Chuck "Eagle-eye" Pavlich. Shimmering metallic golden "palms" a foot wide arise in early spring preceded by cream male flower spikes from February-April. A wonderful spreading marginal or bog plant that is also quite at home in the cultivated garden. It does resent drought. Requires shade in southern climes and needs sun elsewhere for best color. Limited selling season in the spring and offered as bare-root only.
Z 6-10 ☀ gc/12/15

Great for the South!

PULMONARIA CEVENNENSIS

PULMONARIA 'EXCALIBUR'

Pulmonaria (Lungwort)

Terra Nova Pulmonaria breeding has focused on vigor, flower size, color, plant habit, and mildew-resistance. Being one of the earliest perennials to bloom, they combine wonderfully with spring bulbs, Dicentra, and Corydalis.

Pulmonaria 'Cotton Cool'

This bright silver, mildew resistant Pulmonaria outshines 'Majeste'! We looked at 'Majeste' and 'Cotton Cool' in our trials and of the two, 'Cotton Cool' never mildewed. Small clusters of sky blue flowers appear in April. This long-blooming English introduction sports attractive upright leaves that are entirely silvered.

Z 4-9 ◀ 19/12/14 ✨

Pulmonaria 'Dark Vader'

A fine, mildew resistant plant with a super strong habit. Silver spotting and pink to dark purple flowers adorn this plant.

Z 4-9 ▶ 19/10/11 ✨

Pulmonaria 'Excalibur'

Shiny silver leaves edged in dark green give rise to spring masses of purplish-blue flowers held tightly against the foliage in spring. Extremely mildew-resistant (see winter 2001 PPA journal).

Z 4-9 ▶ 20/9/9 ✨

Pulmonaria 'High Contrast'

'High Contrast' has brilliantly contrasting foliage and one of the best track records of all of our Pulmonarias in the hot summers of the Midwest and South. Large pink flowers fade to blue over mildew resistant foliage. Wavy, spear-shaped leaves are dark green, infused with melting silver.

Z 4-9 ▶ 18/9/9 ✨

Pulmonaria longifolia ssp. cevennensis

This superb landscape Pulmonaria has the best of both worlds. Long, silver, spear-shaped 26" leaves are highly mildew resistant and provide the perfect backdrop for an EXTENDED floral show. Large, midnight-blue flowers are wider than the typical longifolia species. The PPA gave this species the highest mildew resistance rating in their trials.

Z 4-9 ▶ 24/18/12 ✨

☀ = full sun ▶ = partial shade ● = shade x/x/x = spread/foliage
✂ = cut flower 🦋 = butterfly ✨ = hummingbird 水 =

PULMONARIA 'MOONSHINE'

Pulmonaria 'Milky Way'

This plant offers the stellar combination of lance-shaped, heavily spotted leaves and pink-wine blooms that fade to blue. Strong spotted leaves are of mildew-resistant P. 'Margery Fish' heritage. Tony Avent of Plant Delights Nursery feels it's the best form for the south!

Z 4-9 ▶ 12/15/10 ✨

Pulmonaria 'Moonshine'

Our flashiest Pulmonaria with great garden vigor, compact growth habit, and mildew resistance. Shimmering silver-white leaves are rounded with a thin edge of darkest green. Heat and humidity tolerance make it a good choice for the South. One of the favorites of the entire Terra Nova breeding team! Small, pale, blue-white flowers.

Z 4-9 ▶ 12/14/16 ✨

Pulmonaria 'Raspberry Splash'

Very profuse flowering on this sun tolerant hybrid. Dusky raspberry-coral flowers arrive in early spring to herald the strongly silver-marked, sharply pointed, very upright foliage. P. longifolia breeding. John Walters was captivated with this plant when he first saw it.

Z 4-9 ◻ ◻ 25/12/13 ✨

Pulmonaria 'Silver Shimmers'

This Pulmonaria has large, and undulating silvered leaves on a low plant. Steel-blue flowers are some of the largest of any cultivar we carry. Mildew resistant.

Z 4-9 ▶ 18/8/9 ✨

Pulmonaria 'Trevi Fountain'

This superb, brightly silver-spotted beauty will give rise to profuse clusters of large cobalt-blue flowers in spring. A stunner! We feel it is our best, true dark-blue and grows into a magnificent landscape specimen. The roots of this plant are in P. longifolia, the best form for the south, according to John Elsley, the botanical brains of Song Sparrow Farms.

Z 4-9 ☀ ▶ 25/11/12 ✨

Pulmonaria 'Victorian Brooch'

One of the longest blooming of all Pulmonarias with masses of out-facing magenta-coral flowers that pop against the attractive, long, silver-spotted foliage. Victorian Brooch bloomed for over 10 weeks in our Oregon garden.

Z 4-9 ☀ ▶ 20/12/8 ✨

Sun Tolerant

PULMONARIA 'RASPBERRY SPLASH'

PULMONARIA 'MILKY WAY'

PUL. 'SILVER SHIMMERS'
PULMONARIA 'TREV FOUNTAIN'

PULMONARIA 'HIGH CONTRAST'

PULMONARIA 'COTTON COOL'

Sedum New breeding has yielded a great new group of cultivars which are more compact and less likely to do the Sedum "fall apart" swan song in asight to be seen, many times covering the foliage entirely. Grower Note: All Sedum are sensitive to chemical applications and require good drainage and low fertility (reduced N levels).

SEDUM 'CLOUD WALKER'

SEDUM 'HOT STUFF'

SEDUM 'MR. GOODBUD'
SILENE 'VALLEY HIGH'

Pimpinella major 'Rosea' (Pink Queen Anne's Lace) A perfect companion to Old Roses and Knautia, this is like a pink Queen Anne's lace with no weedy seedlings. This clumping perennial is an airy addition to the border. The stem rises to nearly 3 feet topped with lacy soft pink in June and July (May in the NW). Prefers good drainage in a sunny spot. The color is intensified in cool weather and may rebloom in fall! Rare and limited, please order well in advance. Z 5-8 ☀ 24/20/24 🦋 ✂

Pinellia tripartita 'Dragon Tails' (Variegated Green Dragon) Fabulous gold splashed foliage gives rise to fragrant(!), white to green "Jack-in-the-pulpit" type flowers. Exciting and exotic leaves. Prefers fertile, humus-rich, well-drained soil in a woodland garden or as a specimen in a container. Z 5-9 ● 12/8/15 ✂

Podophyllum 'Kaleidoscope' (Asian Mayapple) PP14460 "The" plant to have! Astounding! Exotic! Breathtaking! One runs out of adjectives to describe this "way-cool" relative of our Mayapple. Each is liberally splashed with bronze and silver. If the 20" wide leaves weren't enough, it produces 7 to 20 burgundy red flowers when mature, each measuring nearly 2 inches in length! Most sell here for \$40 for a gallon pot. Crowds will encircle them. We've seen it. Protect from late spring frosts. Z 6-9 ● 16/18/17

Podophyllum 'Spotty Dotty' PPAF PVR (Asian Mayapple) This brilliant hybrid of several Asian Mayapples boasts large, VIGOROUS, lobed umbrella shaped leaves. Leaves are chartreuse with dramatic and bizarre chocolate-brown spotting throughout the spring. In summer, the leaves are green with lightly spotted areas. Huge garnet-colored flowers are found under the leaves in clusters of 5 or more. This form was selected for its coloring, frost tolerance, vigor, and rhizomatous habit. Z 6-9 ● 24/18/17

Polemonium caeruleum 'Snow and Sapphires' PP13441 (McDonald) (Variegated Jacob's ladder) Clean white variegation surrounds the larger fern-like leaflets. The foliage mound gives up sky-blue flowers whose fragrance can be enjoyed from 3-5 feet away. Deadheading can encourage rebloom. It has rebloomed 3 times here with dead-heading. Vigorous and long-lived. Z 3-9 ☀ 16/10/11 🦋 ✂

Polemonium reptans 'Stairway to Heaven' PP15187 PVR (Cullina) (Variegated Jacob's ladder) Broad, bold, cream variegated foliage has 12" stems bearing light blue flowers from May-June. A very hardy large-leafed Polemonium introduced by Bill Cullina of the New England Wild Flower Society. Plant grows into a nice clump the first year. High tolerance

to East coast heat and humidity. Pink leaf tones during cool periods. Z 3-9 ☀ 10/12/15 🦋 ✂

Rubus spectabilis 'Golden Ruby' (Pavlich) (Golden Salmonberry) This startling gold leaf form of the easy to grow, native salmonberry features strong, 1" wide hot pink blooms in spring; a very pretty combination. A great weaver for the woodland garden! 3' x 4' deciduous shrub. Prefers moist soil. Z 5-9 36/48/48 (In 2 years) 🦋 ✂

Sanicula caerulea (Blue Sanicle) Hundreds of dainty sky-blue, flowers stand on black stems over the divided bronze-green foliage on this low-growing groundcover. This woodland gem has a compact, creeping habit with flowers emerging in early summer, and continuing thru fall. This ever-blooming shade groundcover has enchanted all who have seen it! Z 6-9 ● 12/4/6 🦋 ✂

Saxifraga fortunei 'Silver Velvet' (Velvet Saxifrage) Velvety bronze leaves are crossed with silver bands to produce an unforgettable plant. This is one of Dan's favorites, with light pink flowers in the fall. Dan was happy to be able to bring this wonder back from Japan. He had been stopped short by this beauty blooming in the "other Dan's" woods only a few months previous. Prefers low to no peat in soil (try aggregate/bark, 50/50 or a loose woodland soil). Z 6-9 ● 6/6/9 水

Sedum 'Cloud Walker' PPAF PVR Cloud Walker beautifully combines large mauve blooms and dark tinted foliage. A S. spectabile hybrid with vase shaped, open branching habit that creates a new look in blooming hybrid Sedum. The 6-8" airy flower clusters are layered in patterns reminiscent of clouds. Z 4-9 ☀ 14/17/17 🦋 ✂

Sedum 'Mr. Goodbud' PPAF PVR This dusky new S. spectabile hybrid has tight foliage and strongly contrasting colors between its light buds and dark mauve flowers. Richer tones and better foliage than S. 'Brilliant'. Upright habit and short stature. Dan's favorite of this trio. Z 4-9 ☀ 14/17/17 🦋 ✂

Sedum spectabile 'Hot Stuff' PPAF PVR The SHORTEST S. spectabile on the market! This seedling of 'Brilliant' bloodlines forms a tight 10" mound of foliage covered by domes of pink flower heads! Z 4-9 ☀ 14/10/12 🦋 ✂

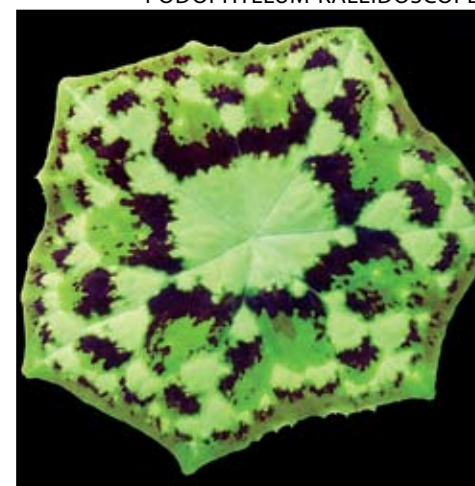

Silene dioica 'Valley High' PP16064 (Variegated campion) Strongly contrasting variegation has a large green center surrounded by cream to white margins. Profuse rose pink flowers begin in May and continue thru summer and into fall. An excellent and showy companion when planted with sun-loving Heuchera, Echinacea, and Campanula. Needs good drainage and minimal fertilization. Z 4-9 ☀ 8/10/13 🦋 ✂

PINELLIA 'DRAGON TAILS'

PODOPHYLLUM 'SPOTTY DOTTY'
PODOPHYLLUM 'KALEIDOSCOPE'

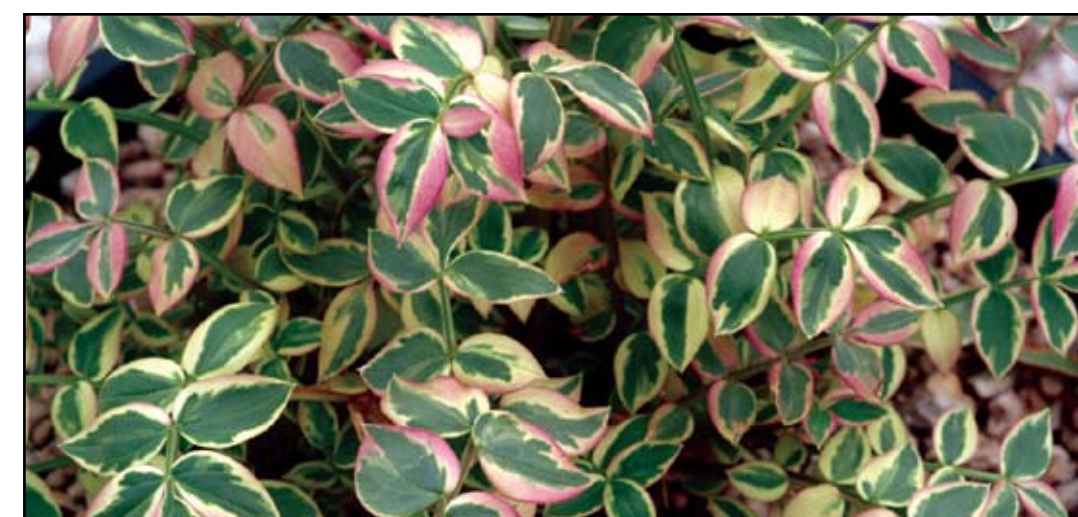

SAXIFRAGA 'SILVER VELVET'

Everblooming
Groundcover for Shade

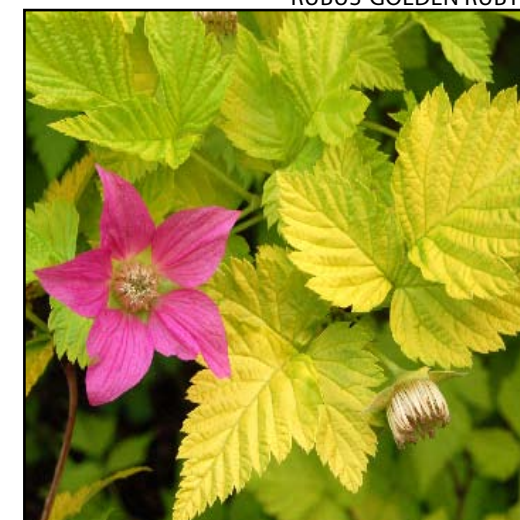

SANICULA CAERULESCENS

PIMPINELLA ROSEA

RUBUS 'GOLDEN RUBY'

POLEMONIUM 'STAIRWAY TO HEAVEN'
POLEMONIUM 'SNOW AND SAPPHIRES'

SISYRINCHIUM 'DEVON SKIES'

Sisyrinchium 'Devon Skies' (Blue eyed grass)
This showy, grass-like clumper is covered with dozens of large, sky-blue flowers for weeks in midsummer atop deer resistant foliage. It blooms all summer in the NE and South tolerating heat, humidity, poor soils, and drought as long it has good drainage. Z 7-10 ☀ 10/4/6 ✂

THALICTRUM 'BLACK STOCKINGS'

Thalictrum sp. 'Black Stockings' (Meadow Rue) This tall beauty has long, nearly black stems, contrasting green leaves and is topped by fluffy lavender flowers in large flat-topped corymbs. Very showy for the back of the border. Needs to be vernalized to bloom. Z 5-9 ☀ 24/48/48 ✂ ✂ ✂

TOLMIEA 'COOL GOLD'

Tolmiea menziesii 'Cool Gold' PP15948 PVR (Golden Piggyback Plant) With foliage of soft, cool, clear gold, 'Cool Gold' is a substantial improvement over previous clones. No splotching or reversions! It retains its color throughout the selling season. Z 6-9 ☀ 14/12/18

TRACHELOSPERMUM 'TRICOLOR'
TRICYRTIS 'EMPRESS'

Trachelospermum jasminoides 'Tricolor' (syn. T. asiaticum. 'Hatsuyuki' = First Snow) (Tricolor Star Jasmine) Fabulous hot-pink new growth, which later turns to cream splashed on green. Drought tolerant, loves full sun (needs heat to grow). Fragrant white flowers with a "jasmine" fragrance. Does well in containers. AGM (Award of Merit--a huge honor) awarded in the U.K. Short vining habit. Z 7-10 ☀ 12/4/6-in 3 years ✂ ✂
Grower Note: Grow warm to really get the color to splash the foliage prior to selling.

Tricyrtis (Toad Lily)

This trouble free genus of plants has architectural foliage which adds drama to the garden and compliments various perennials in the shade. Flowers are speckled wonders appearing during an unexpected season of year (fall) resembling miniature orchids in an array of colors from turquoise and purples to whites and yellows.

Tricyrtis 'Empress'
A great and regal hybrid of T. formosana with very large, darkly spotted, orchid-like flowers at the tips. Strong foliage grows "clean" and upright like others in this series. Flowers in August-September, sooner than the "hirta" forms. Z 5-9 20/28/29 ✂

Tricyrtis formosana 'Gilty Pleasure' PP13688 EU14209
We found a great sport of 'Gilt Edge', which shows electric yellow foliage in the spring and softer gold foliage throughout the balance of the season. Some gold Tricyrtis show little vigor, but with a hybrid base like 'Gilt Edge', that's not a problem. Nice lavender flowers contrast with the golden foliage in fall. Z 5-9 12/24/24 ✂

NEW Tricyrtis 'Imperial Banner' PPAF PVR
A very elegant sport of T. 'Empress' with cream

and deep green variegated leaves and dark stems. The orchid-like flowers are heavily purple spotted over a white base. Flowers from August through September atop a compact plant. Prefers moist, woodland conditions. Z 5-9 20/28/29 ✂

Tricyrtis lasiocarpa
Intrepid plant explorers were able to pluck a gem called Tricyrtis lasiocarpa from the mountains of Taiwan. This relatively new species has impressed us with its vigorous, bold, substantive form, and jewel-like blue flowers in the fall. The last of our Tricyrtis to bloom, extending the season. The mottled growth in spring is striking! Z 5-9 14/24/24 水

Tricyrtis 'Lightning Strike'
Its variegated and gold-stripped leaves vary to a light center with a dark green "lightning" along the edges. Lavender flowers come into view in fall. Keep moist for best growth. Z 4-9 15/24/26 水 ✂

Veronica prostrata 'Aztec Gold' PP13354 EU13144 (Golden Speedwell) Brilliant gold foliage spreads in congested mats and is complimented by rich blue flowers in May. This versatile groundcover works well in mixed containers, hanging baskets, over walls, etc. Foliage goes chartreuse in partial shade, which is still very nice! Z 3-9 gc/3/6 ✂

Viola 'Silver Samurai'
Samurai wore robes often marked with silver highlights and the story is; they had a soft spot for flowers. To their honor, we dedicate this plant with large, silver, ruffled and cut foliage giving rise to lavender flowers. This is a "big brother" to Viola 'Geisha'. Rarely reseeds. Z 5-9 8/5/6 ✂

Yucca filamentosa 'Bright Edge'
Creamy white flowers on great spikes hover over the spectacularly bright golden edged dark green leaves, this plant is simply dazzling. With its colorful evergreen display 'Bright Edge' provides year-round, multiseasonal interest! Z 4-9 24/20/36 (in 4 years) ✂ ✂

Yucca filamentosa 'Color Guard'
Tantalizing tufts of yellow centered foliage make a great addition to the garden. Awesome coral winter color along the stripes. Growth is superior to other clones of Yucca filamentosa. Creamy white, fragrant flowers on large spikes. Z 4-9 24/20/36 (in 4 years) ✂ ✂

Yucca rostrata 'Sapphire Skies' (Cistus) (Blue beaked Yucca) Elegant, short leaf selection, with gorgeous powder blue-colored leaves which hold their color year-round. Over the years it will form an upright, unbranched tree with a stout trunk to about 4'. The hardiest of the trunk forming Yucca. Another rare and exciting plant find brought to us from our friends at Cistus Nursery, Sean Hogan and Parker Sanderson. Prefers alkaline soil and needs excellent drainage. Z 5-9 (if winter dry & with wind protection) 16/16/36 (in 4 years) ✂ ✂

TIARELLA 'CROW FEATHER'

TIARELLA 'CANDY STRIPER'
TIARELLA 'PINK SKYROCKET'

Our Best Pink!

Reblooms

TIARELLA 'IRON BUTTERFLY'

Tiareella

(Foam Flowers)

This genus is indispensable in the woodland/shade garden. These shade loving groundcovers thrive in moderately moist, humus rich soils. Tiarellas have many great attributes; evergreen foliage (in the NW), winter color, fragrant spring flowers, and attractively marked and shaped leaves.

Tiareella 'Black Snowflake' PP13684 EU13699

A very elegant Tiarella featuring finely dissected leaves with prominent black centers and scented white flowers. Spring foliage color is vibrant with the contrast between black and green. Wonderful paired up with Corydalis 'Berry Exciting'. Z 4-9 12/8/12 * ✂

Tiareella 'Candy Striper' PP15528 PVR

Lush green leaves sport a dark stippled stripe down each leaf lobe. Its mounding habit, huge leaf size, pink flower buds, and white, foamy flowers are tantalizing. Possibly our largest foamflower, Candy Striper combines strikingly with Athyrium 'Burgundy Lace' and Pulmonaria. Z 4-9 16/10/14 * ✂

Tiareella 'Crow Feather' PP12335 EU13663

Bright green leaves, cut, and deeply marked with a black feather. Probably the best winter color of ALL Tiarella - simply stunning with a brocade of pinks, reds, purples, and blacks. A strong grower with a mounding habit and bright pink spring flowers. Z 4-9 11/8/12 * ✂

Tiareella 'Iron Butterfly' PP12396 EU9848

Large, fragrant flowers, striking, contrasting, cut foliage, and beautiful plant form combine into what is one of the most widely distributed Tiarella in the world. Dan saw this blooming in Chicago in mid-October! Winner of a Silver Award at Plantarium in Holland '00. Z 4-9 11/8/16 * ✂

Tiareella 'Jeepers Creepers' PP13437 EU11504

Most running forms of Tiarella are blasé; they run too fast, and their flowers are often insipid. 'Jeepers Creepers' is the answer: Bold, well marked foliage, creeping (not running) habit and large white flowers. It has one of the best winter contrasts of all of our foamflowers. Z 4-9 24/7/12 * ✂

☀ = full sun 1/2 = partial shade ● = shade x/x/x = spread/foliage ht/f lower ht (inches on a 2 year old plant) * = fragrant ✂ = cut flower 🦋 = butterfly 🐦 = hummingbird 水 = Japanese origin 🌿 = tropicalismo 🏠 = house plant

TIARELLA 'MINT CHOCOLATE'

TIARELLA 'NEON LIGHTS'

Tiareella 'Mint Chocolate' PP11379 EU11546

Unusually long maple-shaped leaves are mint green with a chocolate overlay. Profusions of toffee-tinted flowers adorn the colorful foliage in early spring. Nice bronzing in winter. This was a Bronze Award winner at Plantarium in Holland '00. Z 4-9 11/8/15 ✂

Tiareella 'Neon Lights' PP13289 EU13669

The blackest black centered, palmate-cut leaves are edged with contrasting neon-green in spring and topped with large white flowers. This huge leaved cultivar glowed in our trials and has earned respect at the retail front. Z 4-9 22/12/16 * ✂

Tiareella 'Pink Skyrocket' PP13382 EU13697

Our BEST pink flowering Tiarella! One of our wild outcrosses shot up with this sparkling salute. Explosive heads of shrimp pink are held above the marvelously cut and marked foliage. This is a new flower form for the genus. Fall color in full sun is burnished bronze and in shade is deep shiny black. Z 4-9 12/6/11 * ✂

Tiareella 'Pirate's Patch' PP14907 EU17429

Broad, uncut leaves with the strongest patch yet, as dark as a pirate's heart. A breakthrough plant with outstanding habit with its low, creeping stems. Over 250 flower spikes (a record) on a mature plant make this Ken's favorite foamflower. Good bronze fall color. Z 4-9 12/5/10 * ✂

Tiareella 'Spring Symphony' PP12397 EU9847

A smooth melody of compact foliage with leaves "painted" with black along the mid-rib. Profuse, strong pink flowers reach their crescendo in mid-spring. Z 4-9 10/7/10 * ✂

Tiareella 'Sugar and Spice' PPAF PVR

This plant is everything nice; and it IS Dan's very favorite Tiarella in the whoooole world! Dramatic, lacy leaves with painted, heavily marked centers are seen in summer to winter. Lightly fragrant, spring flowers are uniquely "frosted with pink with a white interior." The shiny leaves appear to be lacquered and look fabulous all year here at the nursery! Z 4-9 12/8/13 * ✂

Extremely Compact!

VERBASCUM 'GOLD NUGGET'

VERBASCUM 'DARK EYES'

Verbascum

(Mullein) Terra Nova's Breeding Team has been up to some of the best improvements this genus has seen to date. Our new clones are compact, supremely branched, floriferous, vigorous, and have flowers that are larger, with more color and presentation. (All species are deer resistant too!) The TNT stresses the sterility of these hybrids because they rarely stop blooming! Good drainage is essential for best garden performance.

Long Blooming & Deer Resistant!

VERBASCUM 'LAVENDER LASS', 'GOLD NUGGET', & 'HONEY DIJON'

Verbascum 'Blushing Bride' PPAF PVR
Each pink floret flower "blushes" to a darker shade. These compact plants are the result of Terra Nova's extensive breeding program to produce sterile, reblooming plants with well-branched spikes of profuse flowers. Good drainage is important. Z 5-9 ☀ 14/8/18 🌿 ✂

Verbascum 'Dark Eyes' PPAF PVR
Absolutely unique form displays pyramids of bloom! Large dark, red-centered sterile flowers in shades of pale yellow on very tight but wide spikes. Individual flowers have purple stamens and an orange pistil. The leaves are silver and have a

rugose texture. This is our most dwarf Verbascum to date – so low it can be planted en masse as a groundcover! Z 5-9 ☀ 10/8/12 🌿 ✂

Verbascum 'Gold Nugget' PPAF PVR
This super compact plant has soft golden-yellow, sterile flowers with vibrant red eyes that are held close to the lovely silvered foliage. Drought tolerant and needs good drainage. Z 5-9 ☀ 14/8/18 🌿 ✂

Verbascum 'Honey Dijon' PPAF PVR
Numerous flower heads boasting hundreds of hefty flowers in shades of peach and gold, with a plum

eye over compact, sterile plants! Will rebloom after cutback. Foliage is like felt. Wonderful when combined with Echinacea 'Hope' and Heuchera 'Marmalade'. Z 5-9 ☀ 14/8/18 🌿 ✂

Verbascum 'Lavender Lass' PPAF PVR
Masses of summer-long bloom create a gigantic display of color. Shades of lavender and plum arise from compact plants atop this sterile bloomer! Foliage is quite ruffled. One of Dan's favorites. Z 5-9 ☀ 14/8/23 🌿 ✂

Verbascum 'Lemon Sorbet' PPAF PVR
These reblooming (and sterile) clear lemon blooms decorate a well behaved clump. This drought tolerant hybrid is perfect for the Southwestern garden with glowing flowers lasting well into summer heat. Z 5-9 ☀ 14/8/18 🌿 ✂

Verbascum 'Plum Smokey' PP16156 EU17454
Rosettes carrying a multitude of sterile, 16" flowering stems above the foliage with numerous, large, smoky-purple flowers. Blooms for months in full sun. Good drainage is necessary. Z 5-9 ☀ 12/8/18 🌿 ✂

Verbascum 'Royalty' PPAF PVR
Only 12-15" tall in bloom with more than 80 blooms per branch! Our richest royal-violet flowers atop compact 12" tall clumps add a new and needed color to our Verbascum palette. Use in containers or in the garden and cut back the sterile flowers for more flower show. Z 5-9 ☀ 10/6/12 °

Verbascum 'Sierra Sunset' PPAF PVR
This color breakthrough has huge, coppery orange ruffled flowers that dance in the setting sun. Deep red eyes draw your attention over the compact, velvety foliage. Perfect compliment for Heuchera 'Peach Flambe' and 'Obsidian'. Sterility assures

rebloom. Z 5-9 ☀ 14/8/18 🌿 ✂

Verbascum 'Sugar Plum' PP16224 EU17455
You will be amazed at the large, clear plum flowers on numerous spikes. This dwarf reblooms for months in full sun with Delphinium-sized flowers. Z 5-9 ☀ 12/8/18 🌿 ✂

CREATIVE SOLUTIONS

Mixed container gardening is one of the fastest growing trends in the industry inspiring multiple purchases and creating a win-win solution for both gardener and greenhouse! Terra Nova plant material provides the key elements of color, texture, and form when designing exciting container combinations. Enhance and extend your color palate with our broad range of Heuchera, Tiarella, Pulmonaria, and many other Terra Nova treasures.

No-Brainer Container Recipes

We've designed six Plant-A-Grams as suggestions of combinations that you can recreate for your garden center customers. Market research tells us that mixed containers are quickly becoming a "Must-Have" profit-center for retailers, targeting both beginner and experienced gardeners. Appealing to both wholesale and retail growers, these easy, colorful, and creative designs take the mystery out of gardening!

P.S. Check our website, www.terranovanurseries.com periodically for specials on No-Brainer Container Recipes!

Where Passion Meets Vision...

13 years ago two plant geeks had a plan. "Omigod!" said Dan, "with our skills, we could do a lab – we could multiply the coolest plants in the world and sell them to gardeners everywhere!" Ken said, "I can handle the science. I can set it up. Let's get to work!" And work they did. Today, with their perseverance, Terra Nova has spread to eighteen acres of trial beds, greenhouses, gardens, and a recently completed laboratory for research and the production of millions of the newest plants in the marketplace.

This couldn't be done alone. Our breeding, sales, shipping, and growing staff has done an incredible job supporting Ken and Dan's dream of being one of the world's top plant introduction teams. In addition to the plants we've bred, other breeders and Dan's trips around the world have brought a plethora of new and showy items to horticulture; over five hundred to date! We've joined with strategic partners from the U.S., Germany, Holland, and Japan to bring our plants to an expanding market worldwide.

The Power of Our Tags

- The right picture is worth 1000 words!
- Your silent salesman
 - Loaded with cultural information
 - Create a classy "premium" look with our gold foil fronts
- Use Terra Nova tags for national brand recognition
- Tag / Pot lock system
- Tags are 14¢ each *

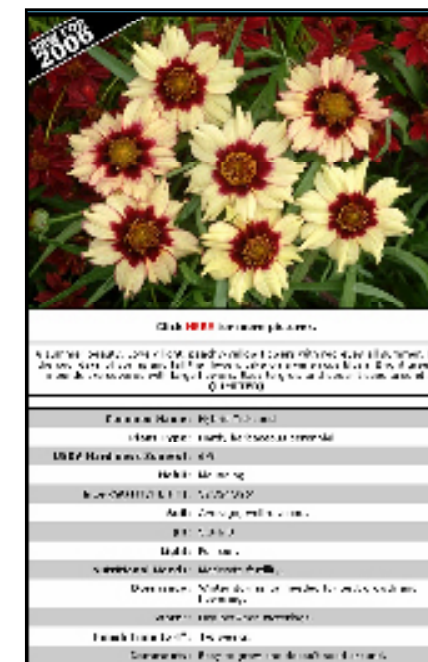

Shipping:

- NEW state of the art shipping facility
- We ship globally 12 months of the year
- Superior packing ensures that you receive the best quality plants
- Grower alert labels for dormant plants or for plants requiring special handling
- Our production and sales department are here to assist you in successfully growing your plants

Some of the NEW improvements include:

- Over 1000 downloadable hi-res images
- A dynamic site that is constantly updated
- Grower and gardener-friendly printable culture sheets
- Profit building items posted weekly for wholesale customers
 - Industry first 'Garden Blog' (our display garden happenings)

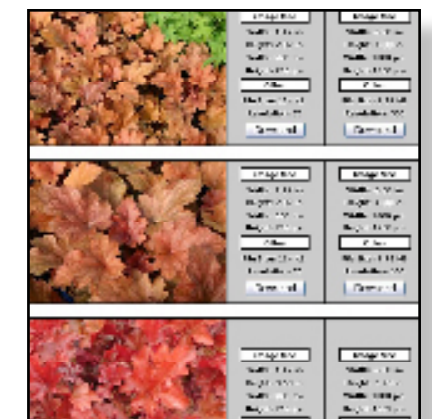

Printable Culture Sheets

The TerraNova board, Dan, Ken, Lynne &

Jody, fire up the new and improved website! Josh Blair, our talented resident webmaster has spun a new site offering the retail customer critical new information on the plethora of exciting new plants that Terra Nova is offering. Our wholesale customers will have access to more cultural information as well as a database of digital photographs for use in their catalogs, bed cards, and web-sites.

Hi-res Image Library

- Streaming banner of Terra Nova's Top 10 Best Sellers
- Sales territories that are easily identifiable
- Press released, media coverage, and current advertisements posted online

Ordering Info

PRICES We reserve the right to change our prices at anytime.

TERMS All accounts will be cash in advance until credit is approved.

- Visa / MasterCard are accepted. Please phone or fax this information.
- Open accounts are payable within the terms stated upon each invoice. A finance charge of 1.5% per month is added to all account balances not paid within the terms.
- We reserve the right to suspend credit and delay any and all shipments if conditions of account are not met.
- We reserve the right to change the terms of any account at any time for any reason.
- Accounts with a balance of over 90 days will become cash only unconditionally.
- Returned checks are subject to a \$25 fee.
- There is a fee for any wired funds, foreign or domestic.
- All orders must be paid in U.S. funds.

ORDERING Place your orders by fax, phone, or e-mail.

- Minimum order of one tray.
- We are wholesale only, not mail order, and do not have the ability to accommodate orders that do not meet our minimums.

Discount Program

Volume Discount by Customer:
(based on previous calendar years sales) Customers whose accounts fall delinquent past their established terms will forfeit their right to participate in our discount program.

\$6,000 – 11,000 ...	2%
\$11,001 – 16,000 ...	3%
\$16,001 – 25,000 ...	5%
\$25,001 – 40,000 ...	8%
\$40,001 – 60,000 ...	10%
\$60,001 – 85,000 ...	15%
\$85,001+ ...	20%

All invoice totals will be applied towards the total calendar year end volume and will count to determine the coming year's Volume Discount. We reserve the right to discontinue this program.

- Please allow at least a 9-month lead-time on custom/ large orders.
- Large orders may require a 30% down payment and an additional 30% payment 30 days prior to shipping.
- Our goal is to ship the majority of your plants at the same time, but all plants are not created equal and do not grow at the same rate and speed. Our apologies if your ship dates are spread out.
- It is our policy to back order all material unavailable at the time of shipment unless specifically stated on your order, by you, that you do not wish to have items back ordered. Each time materials are shipped; new boxing and shipping charges are incurred.
- Tags automatically ship with patented items. Request tags at the time of ordering

for non-patented plants.
Tags are 14¢ ea.

DORMANT PLANTS

If you are ordering plants to ship between September and April you may receive dormant plant material.

These flats will be clearly marked with "Grower Alert" tags with special instructions. More information about the care and handling of dormant material can be found on our website www.terranovanurseries.com or by calling our sales department at 800-215-9450.

RESTOCK/CANCELLATION POLICY Customers receiving Quantity Discounts who then cancel orders within the customer provided delivery window will be required to pay back any discount received if

- the partial shipments falls below the required quantity amount.
- Customers canceling large orders of 1440 plant or larger within two weeks prior to ship date will be required to pay a cancellation fee of 50% of the order cancelled.

GUIDED TOURS Contact the Sales Department to arrange tours.

PAYMENT REMITTANCE ADDRESS / PO Box 50037-256, Portland, OR 97208

CURRENT AVAILABILITY Call or email your sales rep to be added to our batch email and fax lists to receive the most up-to-date availability. This information is sent out and posted to our website www.terranovanurseries.com weekly.

DOMESTIC SHIPPING We ship materials using the most cost effective local carrier. An alternate carrier may be recommended, however, use of this carrier will be dependent on the size of the order and approval by sales and shipping. Please coordinate all Will Call orders with the Sales Department. Will Call hours are Wednesday – Friday from 7:30am – 3:00pm, we are closed Saturdays and Sundays. Alternate arrangements must be made in advanced and approved by the shipping department. All Will Call orders not picked up within the designated time frame will be charged a restocking fee of 15%. There is a boxing charge of \$5.50 per box. A \$45.00 certificate fee will be charged for all grass orders shipping to California. We may ship dormant plants September – April. All plants requiring special care will be marked with a "Grower Alert" label, corresponding to instructions enclosed in the box.

INTERNATIONAL SHIPPING A customs broker must be selected and contact information provided at the time an order is placed. All orders must consist of full flats of plant material. We ship F.O.B. Canby, OR. Should your order be damaged in transit or held at a border, Terra Nova is not to be held responsible. Additional fees incurred in shipping, other than the boxing fee of \$5.50 per box are...

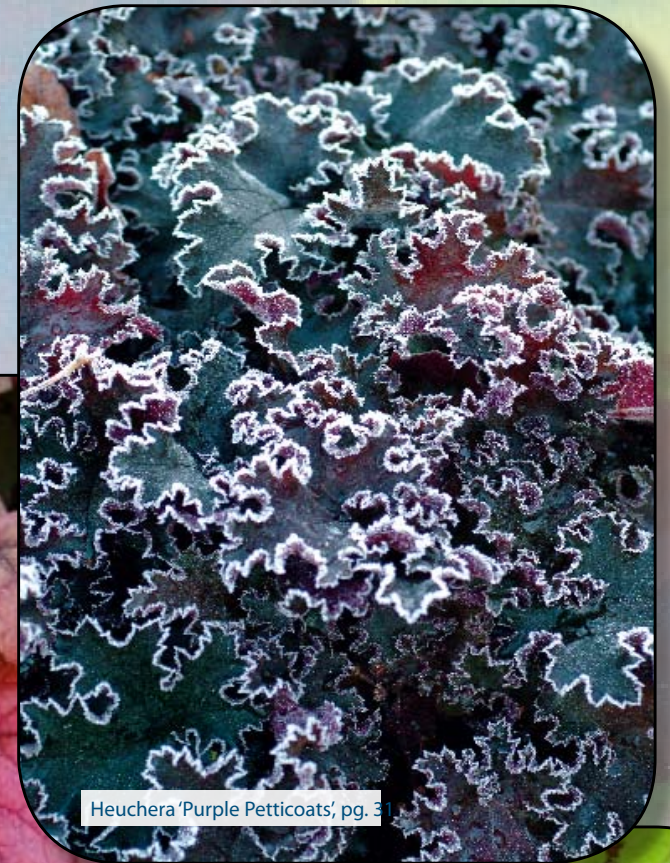

- Oregon Phytosanitary Certificate fee: \$11.00
- Canada and European Union International fee: \$25.00
- Japan International fee: \$45.00
- Chemical application fee (if required): \$45.00

At this time a chemical treatment is not required by the Canadian Food Inspection Agency. If an import permit is required, it is the responsibility of the customer to obtain one and provide a copy before an order ships. The global Home Land Security policies have had a dramatic impact on Import/Export fees. As an alternative to ordering direct from Terra Nova, please visit our website for a broker or distributor in a country near you.

PATENTS Unauthorized propagation of varieties that are patented is strictly prohibited. These varieties are identified by PP or PVR (European Patent) If you are found to be propagating such material, you will be expected to destroy your stock and pay a punitive fee.

Colorful Fall Harvest

As days grow shorter and Jack Frost magically drapes his blanket of frost across the garden, the colors of our Heucheras and Tiarellas intensify! This color change complements the flush of fall flowers and foliage including Mums, Asters, Pansies, and Japanese Maples. Build displays incorporating the rich reds, blacks, purples, and oranges that are found among these garden beauties. You too can be a magician by reserving your fall color palette today!
