Guide to our regular plant sizes

Quality plants and bulbs delivered straight to your door at just the right time for planting.

Continued investment in quality management and packaging means that our quality control process is better than ever. Plants are double and triple checked before they get sent out to you. They also spend less time in the post. With our new packaging, many of our plant parcels can fit straight through your letter box.

A. Garden Ready Plants are supplied differently to those found in garden centres. And for good reason. Retailers need their plants to catch your eye on the shelf; we simply want ours to perform at their best! So we send them out at the perfect time for planting, usually before blooms form, for quicker establishment, better root growth and flowering, and a longer, stronger display. 10-15cm.

B. Jumbo Plugs Jumbo plugs can be planted straight into baskets or other containers. 5-11cm.

C. Postiplugs We've re-designed our most popular plug size so that our plant parcels will fit through most letter boxes. 5-9cm.

D. Plugs With our exclusive to T&M cartridge plug systemTM, each young plant has an extra-strong root system. 3-6cm. The open sided cartridge causes root tips to dehydrate. This is known as 'air-pruning' which encourages the growth of new, lateral fibrous roots.

E. Bulbs We always supply first year flowering-size bulbs.

F. Bare roots These are sent in a dormant state without pot or compost. Planted in spring, they produce new growth through the year. Size 1 is the highest spec available irrespective of plant variety or size.

G. Potted plants These well-established plants are ready to be planted straight out into final positions, as long as the weather allows. Sizes given are usually the diameter of the pot.

More information and pack sizes can be found on our website.

Our Garden Ready Plants make gardening as simple as...

1. OPEN

Open as soon as they arrive and check them over. We want your plants to arrive in tip-top condition so that they've got the best chance of success. Be sure to read and follow the enclosed planting instructions!

2. PLANT

Plant your garden ready plants straight into the garden, containers, or baskets. They'll be delivered to your door ready

to plant out, as we've done the crucial early growing for you.

3. WATER

Water your plants! Water when they arrive, then again when you plant them out into their final positions - don't allow them to dry out!

Growing on your plants:

If you're new to buying young plants, you might think you'll need a greenhouse or flashy equipment to grow them on, when all you really need is a few pots and a warm windowsill - you'll

find everything you need throughout the catalogue.

The importance of early ordering...

Some of our brand new and exclusive varieties are only available in limited quantities and sell out fast, so early ordering helps to secure the plants that you want. But more importantly, our technical trials prove that plants sent out earlier in the year end up bigger than those from later deliveries - they produce better foliage and fuller plants that subsequently give you 50% more flowers.

Flowers all summer long

New

Top Tip:

Begonia 'Catrin' will put on strong growth through the summer. As autumn sets in, trim the plants back and bring indoors. Offer a liquid feed and they'll reshoot to flower through winter. Do the same again in spring ready to plant outside again for summer!

New Arrivals for 2024

Showcasing the best new varieties for your garden

Step into your spring and summer garden surrounded by the latest must-have plant introductions, as well as your tried and tested favourites.

No doubt you've already picked out your favourite summer performers and added them to your order form or online basket, but don't forget to save room in your beds, borders and containers for one or two of your future favourites, which you are bound to find in our New Arrivals Highlights here.

Our plant hunting team works with the best breeders and growers around the world to bring the very best plants to our catalogue pages and your garden. This year is no different and we're pleased to be bringing you a wide range of introductions, covering some of your favourite plant types but all offering some different from the norm.

Lets start with UK exclusive **Begonia 'Catrin'**! We pride ourselves in offering the very best bedding and basket begonia varieties in the UK, so it takes a lot for a new begonia to make it into our range – it really has to offer something different! **Begonia 'Catrin'** is an unusual elatior hybrid, producing a profusion of small flowers over dark compact foliage, more commonly displayed indoors as a houseplant. The breeding behind Catrin has ensured excellent summer garden performance, the colour and habit stood out from the hundreds of varieties viewed during summer trials. A compact but branching habit lends well to patio and balcony container displays, as well as traditional border edging. We love it as a standalone centre piece on a patio/balcony table. Early to flower, but long in bloom, it offers months of easy summer colour and can then be brought inside for display through autumn and winter, providing real value for money.

Looking to add a touch of elegance and designer style to your hanging basket displays this summer? We have the perfect performer for you with **Petunia 'Bridal Blush'**. We've had our sights on the large ruffled blooms of this stunner for over 6 years, watching British petunia breeder David Kerley tweak its appearance and performance until truly happy to bring it to market. Bred in the UK and trialled to tolerate British weather conditions, we are so pleased to finally offer this elegant selection to our customers. Sumptuous flowers with overlapping pink blushed white petals and dusky veined centres smother this plant through the season, leading to easy elegant displays. Plants have inbuilt cold and mildew resistance and stand well against summer showers and sunshine, making it an ideal addition to any garden display.

Hardy to -10°C and remaining semi-evergreen through winter

Those looking for a permanent addition to the garden for striking colour year on year should look no further than **Fuchsia magellanica 'Arauco'**. This new hardy fuchsia will bring permanence to borders or container displays, producing a profusion of dainty tricoloured flowers in shades of pink, white and purple through summer and onto the first hard frosts of autumn. Hardy to -10°C and remaining semi-evergreen through winter in sheltered gardens, this stunning shrub will be a star performer wherever it is planted.

Top Tip:

Leave the spent flower heads on your hydrangeas through winter, the dried blooms will help protect developing buds on the stems below and offer winter interest – they look striking under a layer of crystal frost!

Large, hyacinth-like flowers

You don't need exotic blooms to bring a touch of the tropics to the summer garden. Why not let the fiery foliage of **Coleus 'Premium Sun Coral Candy'** set your displays ablaze? A mixture of showstopping colours, bold patterns and rich textures make this a real centre-stage addition to beds or containers, giving strong performance whether in full sun or part shade. The striking foliage patterns are strong enough to hold their own attention, but also make a great accent when added to floral bedding and container displays.

A mixture of showstopping colours, bold patterns and rich textures

Building on the resurgence in popularity of cottage garden geum varieties in recent years, we've secured the next BIG thing with **Geum 'Orange Pumpkin'**. This large flowered form, spotted as a shortlist for RHS Chelsea Flower Show Plant of the Year 2023, builds on recent geum introductions offering bigger, double pompom flowers and more per plant than other traditional types for more versatile use. A neat habit makes it an unusual, eye-catching option for patio pots and standalone displays. This really is a designer herbaceous perennial.

We're making it easier, safer and cleaner than ever to grow cut flower quality lilies in the garden with the introduction of **Lily 'Diantha'**. Upward facing, fully double, pollen-free blooms are safe for growing around cats and won't stain furniture when cut for the vase. But we think these sumptuously scented blooms on tall sturdy stems make a better living display in the garden than in the vase. Set out in a sheltered spot and have their heady perfume fill the garden on a summer evening. With up to 8 flowers per stem when fully mature, it's easy to produce a bountiful bouquet from just one pack of easy to plant bulbs.

We are pleased to be offering you a perfectly proportioned hydrangea paniculata with the launch of **'Skyfall'**, a variety we believe holds its elegance from bud break to leaf fall. Come late summer many paniculata hydrangeas are buckling under the weight of their own blooms. Compact **'Skyfall'** remains upright and elegant right through the flowering period, holding its large panicles upright on top of short stocky stems well into winter. A wonderful shrub for adding glamour to borders, the neat habit also lends well to container displays and smaller gardens where space is a premium. The large unusual flowers heads demand attention, each composed of flowers with distinctively narrow, stary petals giving the whole panicle the appearance of an enormous hyacinth. Greenish buds open to cream before maturing to white and then taking on pink tints as they age.

NEW Hydrangea 'Skyfall'

KF5750 £12.99 (1 x 9cm pot)

KF5751 £19.99 (2 x 9cm pots)

NEW Osteospermum 'Flower Power Lavender Feather'

KF6385 £12.99 (5 plugs)

KF6386 £16.99 (10 plugs)

HHA, 30-35cm (12-14in). Flowers: Jun-Oct. Sun. Beds, Ground Cover, Pots. Delivery: Mar-May.

You'll likely have a selection of bicoloured flowers in your garden, but have you ever seen a feathered flower? Not just two-toned, but seemingly textured and patterned too? That's what we're offering with new **Osteospermum 'Flower Power Lavender Feather'**. Each petal is unique and you'll get lost in admiring each flower as it opens to follow the day's sun. A compact, anti-stretching habit means plants stay tight no matter the light levels, with flowers sitting on short stems just above the foliage. This stocky habit keeps the plants looking great from early summer to the autumn frosts. While not fully hardy, like many osteospermums it will likely overwinter in sheltered spots, or with protection, to perform again the following year.

Not just two-toned, but seemingly textured and patterned too!

Our much loved Clematis 'Taiga' has a new sister with the arrival of **Clematis 'Manju'** to our catalogue. This is another of our unusual Japanese clematis introductions combining novel colour and flower shape with vigorous growth and strong flowering habit. The flowers of **Clematis florida 'Manju'** are pale green when young, maturing to whitish, creamy-green blooms. Layer upon layer of petals unfold to form a pompom that radiates outwards and is framed by a surround of broader petals. This really is an elegant form, and one which flowers for months from late spring until early autumn. Its fast growth and strong performance is ideal for covering walls, fences and trellis. We know it can be tricky getting to grips with all the different clematis pruning groups, so we've made it easy with **'Manju'**, simply cut back the stems each year in late winter to just above ground level and it will bounce back for another strong performance. What could be easier?

We've stumbled across something very special in sourcing **Magnolia 'Meganolia'**. If you are looking for the biggest fanfare to spring for your garden you've found it with this mega magnolia. We couldn't believe it as we watched the larger than life buds burst into bloom for the first time. Sumptuously rich, dark petals unfurling into flowers 30cm across – dinner plate magnolia blooms larger than our heads! The deep pink, double blooms are colour intense and sturdily built, resisting the wind and staying on the tree for a long time.

We don't just supply plants, we breed them too!

We're really proud of our plant breeding history. Over the years, we've won many awards for the brand new plants we've introduced to the British gardening public.

These include:

- The world's first white bidens
- The first properly dwarf buddleja
- The first intensely-scented trailing viola
- The first-ever bright blue verbascum

T&M exclusives are licenced and grown around the world by other specialist growers and breeders - this is why we can offer you such a wide range of plants that simply aren't available anywhere else! To find out more, visit www.thompson-morgan.com

Thompson & Morgan breeding comes with a trusted assurance of guaranteed garden performance, thanks to a focus on creating plants perfect for the British climate, while always offering that little bit extra - every plant has to be able to create big impact in even the smallest of spaces to make it into our catalogue.

You'll see a common theme through all of our popular plant launches - smaller compact plants, ideal for the modern garden, but with extra flower power - allowing more variety, colour and drama into the smallest of gardens.

Weigela 'Camouflage' (one of this year's RHS winners) not only offers masses of trumpet blooms, on arching but compact stems, it brings unique variegation into play for a rich lush foliage enhancement to planting displays.

Take **Buddleja 'Flower Towers'** for example. We've totally transformed an unruly sprawling shrub into a compact and upright column of summer colour, an essential for wildlife lovers looking to bring butterflies to beds and borders.

We pride ourselves on our begonia collection, and our very own **'Fragrant Falls' Duo** is a star performer in the range. Weather-resistant plants repeat bloom through summer and into autumn, adding soft tones and intense fragrance. **Cosmos 'Chocamocha'** follows suit, offering rich dark blooms that not only look sumptuous, they actually smell like chocolate! **Geum 'Samba Sunset'** may not have fragrance but its larger than life blooms will bring pollinators to the garden year-after-year.

Our breeding extends out to the veg garden too! We created the perfect duo cropping veg plant with the launch of the **TomTato**. An all-natural grafting process allows you to grow potatoes and tomatoes on the same plant in the same pot! Its ideal for bringing veg to the balcony, patio or yard.

The concept had been worked on for years, but we were first to crack producing commercial scale plants with the vigour and performance needed for the home market. We are constantly tweaking the recipe and this year have **TomTato Improved**, promising you even more potatoes and sweeter cherry tomatoes than before. Tomatoes are members of the potato family and are therefore naturally compatible with potatoes. Each **TomTato** plant is specially grafted by hand to create this unique double cropping feature. There's no genetic modification - it's an all-natural, and safe process.

Incredible innovation in vegetable growing

We brought more colour and fragrance to scented jasmine with bicoloured **Jasminum 'Starry Starry Summer Scent'**. Unusual rich pink flowers burst in scented clusters on twining stems, taking on a white edging as they age. It's a real show off summer performer in sheltered warm sunny spots. Plant it close to a well-used seating area, or an entranceway where you can breathe in the perfume every time you pass.

The magnificent **Sweet Pea 'Three Times as Sweet'** is another fragrant colour breakthrough that saw us shortlisted for RHS Chelsea Flower Show Plant of the Year 2021. It is the very first modern grandiflora variety with tri-colour petals and added striping! The unique, marble effect blooms blend lavender-blue, burgundy and white tones together to produce a magical and eye-catching flower display. Make sure to cut some blooms every day from this easy to grow annual, to keep them in repeat flower all through summer.

Wiegela 'Tower of Flowers' joins our rapidly expanding range of own-bred Wiegela under the T&M banner. As the name suggests, very much like our brand new Buddleja, this compact upright weigela produces a column of spring and summer colour, in two romantic pastel shades. Each stem flowers in between every set of leaves for a real hit of colour. The tidy habit is ideal for patio containers. Choose from a matching pair or a complementing mix of **'Apple Blossom'** and **'Cherry'**.

With **Sollya 'Ultra Blue'** we have taken the already popular bluebell creeper and literally turned it ultra blue! True blue is a rare colour in the flower world. This is our favourite for its rich indigo hue, offset with slight, white-streaked collars and delicate, yellow centres. It makes a real statement grown as a patio climber in a large pot!

Add a piece of T&M breeding history to your garden for guaranteed colour & performance!

We are proud to present **Hydrangea 'Cloud Nine'**, another product of our own breeding. Masses of white lacecap flowers blanket the plant for months on end, offset by glossy green leaves. With striking serrated edges to the petals, the large flowers open a pale lime green before fading to brilliant white. Especially useful in tricky shady areas, this hardy shrub makes a great patio plant and brings height and structure to a border.

- Fully hardy, getting bigger and better each year

KA8208 £13.99 (1 x 9cm pot)

KA8940 £29.99 (3 x 9cm pots)

A real show off climber, producing countless blooms throughout summer over a canvas of rich green foliage. Despite its opulent looks, this exquisite Clematis is completely hardy, undemanding and easy to prune - simply cut back the stems to just above ground level each year. Layer upon layer of violet petals, are delicately tipped with white to create a spectacular contrast - you could easily mistake them for Passion Flowers!

HS. 2m (6.5ft). Flowers: Jun-Sept. Sun/Part Shade. Fences, Pots, Trellis. Delivery: Mar-May.

3. Clematis 'Kokonoe'

- Double blooms with rich, violet purple petals which produce a luxurious display

Pick n Mix Grafted Veg
3 or more 9cm pots for £5 per pot

Pages 116-117 and online www.thompson-morgan.com/grafted-veg-offer

BENEFITS

- **Longer cropping season** - plants fruit earlier in spring and crop later into autumn
- **Extra strong root system** allows plants to be grown outside - no need for a greenhouse!
- **Better tolerance to soil pests and diseases** - no need for growbags - plant straight into the ground.

This all-natural process of joining a fruiting variety to a more vigorous rootstock brings the goodness of grafted vegetables to your own pots and plots. We've selected rootstocks to bring you **the best possible results**. Spend a little extra and reap the rewards right through the season!

GARDEN READY BENEFITS

Garden Ready Plants are supplied differently to those found in garden centres. Retailers need their plants to catch your eye on the shelf; we simply want ours to perform at their best! So we send them out at the perfect time for planting, usually before blooms form, for quicker establishment, better root growth and flowering, and a longer, stronger display. 10-15cm.
