**VOLMARY® PLANT BREEDING AND INFORMATION CENTRE** 

Ladies and Gentlemen,

Here is the Volmary® young plant & seed catalogue for Spring 2022.

The product range includes the best varieties in our experience and has been expanded to include many attractive innovations. All varieties have proven their excellence in an international comparison.

Thanks to its compact growth and abundance of flowers, the **Bidens Taka Tuka®** series has become a standard for production and retail. With the **Red Yellow Brush** and the **Orange Yellow Brush**, two new colours as well as improved versions of **White & Yellow** and **Red Glow** have been added.

Thanks to intensive breeding in-house here at Volmary, our top **Thunbergia Sunny Susy®** series of black-eyed Susans offers another colour option: the fast-growing **Sunny Susy® Orange Eye** offers the classic bloom colour with very early and particularly large flowers with deep black eyes.

New in the range are **young plants** from the **Naturbiente®** flower mixes, ideal for a small flower bed on a balcony or terrace as well as our **drought-loving succulents.** You can easily integrate these current trends into your range of products.

The new Volmary® **vegetable and fruit specialities** also pick up on the trend towards more diversity and closeness to nature on balconies and terraces. Attractive names like **Jupiter® hops, Mandala® peanut, Vitara® horseradish, Sunnybees® papaya** and **Nekita® mini kiwi** invite hobby gardeners to experiment and dream. Everything is very simple and in coordinated quantities in seedling trays.

Through targeted breeding activities, we have succeeded in developing **basil cuttings in the,Long-life' variety.** The already very popular **Tauris® Petite** garden basil and the new colourful **Copa® leaf basil** series impress with their stability in production and long marketing periods. This breeding success will also be appreciated by your customers. Hobby gardeners are happy to make repeat purchases of long-lasting and reliable aromatic herbs.

The gardening specialist **Volmary**® is very popular in colourful pots and containers. Many gardeners and marketers have recognized that good success can be achieved by partnering to do targeted marketing work.

The Volmary® concept convinces customers with the product, sales, and also online. Targeted social media activities on Facebook, Instagram, etc. create emotional **experiences of the Volmary® brand.** 

**Better products and targeted information** are critical to your success. Our international connections to research, breeders, seedling producers, production gardeners, marketers, and the media make the world's leading varieties and first-hand knowledge available to you.

Our optimized **Volmary® online service** offers not only the option of ordering seeds and young plants 24/7, but also many other advantages such as insights into current **availabilities** and easy reordering of past orders.

Use your advantage with Volmary. Our experienced employees in the field and in the office provide trustworthy advice on issues relating to varieties and cultivates.

With best regards,

Management and Staff

Volmary GmbH is an independent, medium-sized family horticulture business and a leading European plant breeding company. With Volmary®, you have a strong, innovative commercial horticulture partner at your side with developed plant brand concepts for the specialist gardening trade and grocers.

Volmary® is internationally successful in the following areas:

- Production and sales of vegetatively and generatively propagated young flower, vegetable, herb, and fruit plants
- Propagation and distribution of **seeds** (flower and vegetable seeds)
- Sales of onion sets
- Classic breeding of both flowers and vegetables
- Control of the Volmary® plant brand concept plants and Soul Plants®

#### Products for the highest quality demands

Volmary® uses the most modern seed and greenhouse technology to produce Volmary® young plants. The work steps are accompanied by precise sowing technology and climate controls. A computer-aided quality assurance system ensures that only fully populated trays with the best quality seedlings are delivered. Thanks to efficient logistics, you will receive the young plants reliably and in the shortest pos $sible\ time. These\ guarantee\ our\ high\ quality\ standard\ and\ enable\ safe\ and\ successful\ further\ cultivation.$ 

#### **Exclusive varieties**

In order to be able to offer your customers a modern, high-quality range of flowers and vegetables, new and particularly high-performance varieties are of great importance. The Volmary® plant breeding and information centre in Münster offers the optimal opportunity to get to know the new varieties in detail. Precise cultivation recommendations that work in the real world are the result of intensive testing of its plant varieties. All new cultivars are subjected to tests over several years in Volmary® greenhouses and tested on our own Volmary® test fields for open field and bedding suitability.

#### We are climate-neutral gardeners

and pay CO<sub>2</sub> offsets

Sustainable commitment to climate protection is a matter of the heart. First, this means that Volmary® avoids as much CO<sub>2</sub> emission as possible through energy-efficient, climate-friendly production methods.

In addition, Volmary® has decided to make a further contribution to climate protection: in cooperation with CO<sub>2</sub>OL, Volmary® pays voluntary CO<sub>2</sub> offsets for the CO<sub>2</sub> emissions generated in Germany. Volmary® is also an investor in the Bujagali hydropower plant in Uganda through CO<sub>2</sub>OL. This project will ensure that large parts of the population in the African country are supplied with affordable electricity from renewable sources. This replaces electricity that otherwise would have been generated by burning fossil fuels, resulting in a further significant reduction in CO<sub>2</sub> emissions.

### **Variety show dates**

Several times a year, we open the doors of the Volmary® Plant Breeding and Information Centre and offer visitors the opportunity to find out about the latest varieties.

# VOLMARY® PLANT BRAND CONCEPT

Convincing strategies create added value for production gardeners, the entire retail chain, and end consumers alike.

The Volmary® plant brand concept is aimed at producers who market their goods through specialist gardeners. This concept represents the values of the family company Volmary. In its service, marketing support, seeds, and young plants, Volmary® stands for the highest standards and premium quality. The plants are cultivated under licence by selected horticultural companies and marketed through specialist gardeners.

The decisive factor is the product quality: only the best varieties from professional horticulture companies that guarantee successful results are included in the Volmary® range.

- Varieties with strong sales: for variety that's fun!
- Year-round marketing programme
- Modern, fresh design
- Extensive sales promotion materials for optimal presentation of Volmary® plants
- Effective multi-channel marketing

#### Benefit from the many advantages of Volmary® plants.

Further information can be found in our catalog "Plant brand concept for the garden trade"

# **VOLMARY®** PROMOTIONAL MATERIALS

The attractive Volmary® sales promotion material lets you present your Volmary® branded plants optimally and thus increase your sales.

A colourful design of CC carts, for example, can be done with CC corners, adhesive tape, toppers, sales signs, and informative flyers. This creates a good mood at the POS and promotes successful sales. Use the numerous sales promotion materials for your Volmary® plant presentation.

#### Volmary® active marketing support

The promotion of Volmary® plants and seeds is accompanied by a wide range of marketing support. In this way, you benefit in sales from a strong brand that inspires, informs, and gets your customers excited. Win new customers with individual sales concepts and special campaigns and improve your sales channels.

#### Volmary® shapes marketing:

- Modern websites for all target groups and active professional area on www.volmary.com
- Creative design on all important social media channels such as Facebook, Instagram, Pinterest,
- Blog for end consumers with relevant focus topics at www.plant-happy.de
- Volmary® gardening tips via Telegram, WhatsApp, and Facebook Messenger
- Active speakers for specialist presentations
- Volmary® garden blogger meetings with intensive dialogue with hobby gardeners and influencers
- Editorial contributions to leading hobby gardening magazines, radio and television, and
- effective Volmary® print advertising in renowned hobby gardening magazines aimed directly at the target group

# STRENGTHENING YOUR PLANTS WITH MULTIKRAFT®

#### Naturally effective

The family company Multikraft® is the leading developer and manufacturer of effective microorganisms. With the help of this technology, Multikraft® produces ecological products with sustainable benefits for human beings, animals, and the environment. Multikraft® works with nature as a role model, promotes its regeneration, and strengthens natural processes. Microorganisms, the smallest living beings on the planet, are used to drive these processes forward.

The use of Multikraft® plant strengtheners promotes root formation and increases the resistance of plants to soil-borne diseases and pests. In addition, the germination, flowering, fruiting, and ripening of the plants and the brightness of the flowers are increased. It is often possible to reduce or even dispense with pesticides.

Multikraft® products have been used successfully for years in the cultivation of ornamental plants and vegetables and offer an excellent opportunity to produce plants in a more environmentally friendly way. You too can garden with the power of nature.

Your Volmary® contact person will be happy to provide you with information about Multikraft®.

Spring Assortment 2022

# **GO DIGITAL WITH VOLMARY® PROFESSIONAL SERVICE**

#### It's simple to order young plants and seeds online

MARIGOLDS FOR FIGHTING NEMATODES **ASTERACEAE** 

1000	*** Eu	<b>J</b> ∘c <b>£</b>	& ♡	
6-10*/15-20**	V-VII	15-18	10-17	-

- \*) Early sowing: 6-10 kg/ha
- \*\*) Late sowing: 15-20 kg/ha

In some areas of horticulture, nematodes have led to reduced yields or have even caused problems with total crop losses. One way of fighting these pests in the soil is by sowing Tagetes before the start of cultivation.

Туре	0	Į∘c <u>⊁</u>	<b>\$</b> ≠%	₹

# Varieties for selling as foliage plants

#### **APPLE CRISP**

- White flowers above silvery green foliage, a fresh colour combination
- Very compact growing plants with attractive, curled foliage
- Short, firm flower stalks, ideal for flowering potted plants

448998 Apple Crisp

White

#### **BERRY SMOOTHIE**

84

- Vigorous type
- The foliage is violet-pink during the summer and changes to a striking, bright pink colour in the spring
- · Heat tolerant variety

**449010** Berry Smoothie 28 | 84 Pink

#### **BLACK BEAUTY**<sup>®</sup>

- · Very intense, black/red foliage
- Wavy leaves

**449015** Black Beauty<sup>®</sup> 84
Black red

#### CINNABAR SILVER®

- Silver foliage
- · Round habit
- Exceptional, intense coloured, deep vivid red flowers on robust stems

449030 Cinnabar Silver <sup>®</sup> 84
Silver

#### **FOREVER PURPLE**

- Silvery, gleaming, violet foliage throughout the entire year
- Flat, round plant structure with little flower formation
- Robust and reliable growth
- A special colour for floristic arrangements in pink and violet

449042 Forever Purple 84
Violet / silver

### **FOREVER RED**

- Intensely bright, copper red leaves with a slight curl
- · Robust and healthy, vigorous habit
- Little formation of flowers in the first year, ideal as a structure plant in autumn
- The light pink flowers in the following year form a pleasant contrast

449043 Forever Red
Copper red

#### **ELECTRA**

- Intense red venation on golden yellow foliage that later turns ochre yellow
- · Cream white flowers on short stems
- · Compact plants, ideal for pot cultivation

**449035 Electra** 28 | 84 Golden yellow, veined in red

#### GREEN SPICE<sup>®</sup>

- · Silvery green foliage with distinct, red venation
- Compact habit with no autumn flowers, ideal for mixed plantings
- Suitable for shade and partial shade

**449050 Green Spice** 84 Silvery / green

#### **LIME MARMALADE**

- Lime green, slightly wavy foliage
   Vigorous, healthy habit with comparati
- Vigorous, healthy habit with comparatively good tolerance to sunlight

449055 Lime Marmalade
Lime green

#### **MARMALADE**<sup>®</sup>

- Wavy, bronze-coloured foliage with a purple pink bottom side
- Very robust, ideal for sun and shade as well as for mixed autumn and spring plantings

**449065** Marmalade<sup>®</sup> 28 | 84

Caramel colours

#### MIDNIGHT ROSE®

- Black / brown foliage with pink speckles
- Cream-coloured flowers
- · Semi-spherical, compact habit
- · Suitable for sunny and shady locations

**449075 Midnight Rose** <sup>®</sup> Black-brown, mottled pink

#### **OBSIDIAN**<sup>®</sup>

- Smooth, black / brown foliage that does not fade in the sun
- Very robust and reliable cultivation
- · Suitable for sunny and shady locations

449080 Obsidian<sup>®</sup>
Black / brown

#### **VELVET NIGHT**<sup>®</sup>

28 | 84

- · Smooth, silvery foliage with pink venation
- · Vigorous, semi-round habit
- Less flowering during summer cultivation, ideal for use as an ornamental plant

449105 Velvet Night® Silver

84

28 | 84

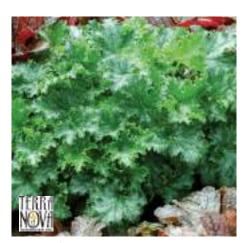

#### PEACH FLAMBÉ®

- The large, fiery red-veined foliage changes in the winter to purple red
- · Attractive play of colours during the entire year
- Medium strong habit, ideal for robust potted plants
- Suitable for sunny and partially shady locations

### **SUNRICH SUMMER F1**

- · Pollen-free variety for cultivating in the summer
- Under long day conditions, this variety blooms earlier and remains shorter than 'Sunrich' F1
- Particularly suitable for cultivating in the summer in very vigorous locations
- · Concentrated, uniform bloom
- The flowering quality is comparable to 'Sunrich'
   F1

**446345 Gold** SEED Golden yellow

**446350 Orange** SEED Orange

446345 Sunrich Summer Gold F1

446350 Sunrich Summer Orange F1

# SUNRICH SUMMER DMR F1

- · A pollen-free variety for summer cultivation
- · Tolerant to downy mildew
- On long days this variety blooms earlier and stays shorter than 'Sunrich' F1, ideal for growing on very vigorous sites
- Concentrated, uniform bloom
- The flower quality is comparable to 'Sunrich Summer' F1

446355 Orange SEED Orange

446355 Sunrich Summer DMR Orange F1

### **SUNRICH F1**

- Uniform start of bloom after a short cultivation time of approx. 10 weeks
- · Stable, dense ring of petals
- · Flower diameter: approx. 15 cm
- Very suitable for transporting and very durable in vases
- Also ideal for greenhouse cultivation in early spring and in late autumn

**446500 Gold** SEED Golden yellow with yellow centre

**446512 Provence** SEED Golden orange

446510 Sunrich Orange F1

446505 Sunrich Lemon

446512 Sunrich Provence

### SUNRICH DMR ORANGE F1

- · Sunflower for cutting with resistance to downy mildew
- Pollen-free, golden orange flowers with contrast-rich, dark centres
- Stable, dense ring of petals
- · Flower diameter: approx. 15 cm
- · Very suitable for transporting and very durable in vases
- · Ideal for outdoor cultivation

### 446525 Sunrich DMR Orange F1 Orange

446525 Sunrich DMR Orange F1

### **DAFNA F1**

- A sunflower for cutting with golden orange flowers and a dark brown ring
- Slightly earlier blooming than 'Sunrich' F1 with a marginally shorter stem length
- · A quality enrichment to the pollen-free range

446560 Dafna F1 SEED Orange

446560 Dafna F1

### **VINCENT'S DMR**

SEED

- Cut flower variety with a high resistance to downy mildew and a short cultivation time
- Deep orange flowers with a pollen-free, dark centre
- A double ring of petals gives the flowers a particularly high quality
- Low photoperiod sensitivity, suitable for the entire summer season

446595 Deep Orange Orange yellow

446595 Vincent's DMR Deep Orange

### **VINCENT'S F1**

446610 Pomelo

Lemon yellow

SEED

- Very early flowering, pollen-free series with intense flower colours and an advantageous, upright position of the flowers
- Extra-wide, overlapping petals form a tight ring around the flower centre
- Daylength neutral growth ensures sufficiently long stems, even at low daylengths
- The uniforms crops can be harvested quickly and they can be defoliated easily

446610 Vincent's Pomelo

### **SUNBRIGHT SUPREME F1**

SEED

- Golden yellow flowers with large, dark centres Pollen-free flowers with a diameter of approx.
- Good cutting quality and durability in vases

446625 Sunbright Supreme F1 Golden yellow

446625 Sunbright Supreme F1

### Single stem varieties

### **TIFFANY F1**

- Golden yellow petals and a jet-black, pollenfree centre
- Dark green, glossy foliage
- Cultivation time is approx. 1 week longer than 'Sunrich Orange' F1
- Particularly recommended for outdoor cultivation on self-cutting fields

446650 Tiffany F1 Golden vellow

**FULL SUN F1** 

SEED

- · Large, golden yellow petals and a black-brown ring without pollen
- Very robust, vigorous habit
- · Particularly suited for outdoor cultivation in poorer soils
- Cultivation time is approx. 12 weeks

446660 Full Sun F1 Golden yellow SEED

### **KING KONG**

- · A variety with impressive growth
- Ideal for competitions for the largest sunflower or for use in striking exhibition plantings
- Forms giant leaves and flowers on the up to arm-thick stems
- Provided that enough water and manure is supplied, the stable plants can reach a height of up to 4.5 m

446700 King Kong

Yellow

SEED

### **MEZZULAH F1**

- A low growing, single stem sunflower with very large flowers
- The jet-black, pollen-free centre surrounds the pure yellow petals
- Dark green, glossy, very healthy foliage and stable, thick stems
- Ideal for impressive bed plantings or for marketing as a robust container plant
- When densely sown, it is also suited for growing as a cut flower in locations with a high risk of wind

446750 Mezzulah F1

Yellow

### **SCHNITTWUNDER**

- · A well-tried variety with single stems and a black centre
- Golden yellow ring of ray florets
- Open-pollinated variety for semi-professional outdoor cultivation

446800 Schnittwunder Yellow

SEED

446650 Tiffany F1

446700 King Kong

446750 Mezzulah F1

446800 Schnittwunder

### **Branched varieties**

### **TANJA F1**

- Pollen-free, branched variety of type 'Sonja'
- · Small, upright flowers with a diameter of approx. 10 cm
- Bright, golden orange petals and a contrast-rich, very dark centre
- · Ideal for using in bouquets and arrangements

446900 Tanja F1

128 | SEED

Golden orange, small-flowered

### **STARBURST F1**

- · Semi-double series with a branched habit
- Develops numerous, long lateral shoots early
- · Attractive, pollen-free flowers in fresh colours

446920 Lemon Aura Lemon yellow

446925 Panache SEED

Golden yellow with dark centre

### **RUMI F1**

- Vigorous plants form numerous flower stalks Medium-sized, pollen-free flowers in bright
- colours Wide spacing and pinching off the first bud promotes the formation of 5-7, high-quality
- flower stalks per plant Well suited for outdoor cultivation with a long harvesting period
- Due to the long flowering time, also interesting for background plantings in public areas

446945 Gold SEED Golden yellow

446955 **Bicolor Scarlet** SEED

Golden yellow with red ring

446960 Bicolor Cherry SEED

Light yellow with cherry red ring

Ferns

### **CLARET F1**

- Intense, wine red-coloured cutting variety with little pollen
- Vigorous habit, early pruning promotes the development of high-quality side shoots
- An attractive variety for unique autumn arrangements

446990 Claret F1 Wine red SEED

### **GOLDRUSH F1**

- · Very early blooming, branched variety
- Yellow, pollen-free flowers with a dark centre and a diameter of 15 cm
- Early pruning promotes the formation of numerous solitary stems with a length of 80 cm
- Ideal for small-flowered products at the beginning of the season

446995 Goldrush F1

SEED

Golden yellow with dark centre

### **MOULIN ROUGE F1**

- An intense wine red coloured variety for cutting with flowers that are low in pollen
- Vigorous habit, early pruning promotes the formation of high-quality side shoots

**447000** Moulin Rouge F1 Dark red

### **SONJA**

- Bright orange flowers with a diameter of 10 cm
- Very good, medium-long cutting quality
- Very well-branched plants

447100 Sonja

Golden yellow, small-flowered

### **Branched varieties**

### **HOLIDAY**

- Cutting variety with strong basal branching
- · Long, solitary stems
- · Golden yellow flowers with a dark centre
- · For outdoor cultivation in the summer

**447135 Holiday**Golden yellow

SEED

### **RING OF FIRE**

- A two-coloured cutting variety with a fiery red ring around the centre of the golden yellow flowers
- The individual flowers with approx. 50 cm long stems or the entire plant with 4 to 6 flowers can be harvested

447145 Ring of Fire

Fiery red, golden yellow

### **SORAYA**

SEED

- Golden orange flowers that grow almost horizontally on the very stable stems
- · Produces only little pollen
- Branched habit
- An attractive enrichment for medium late to late harvests outdoors

447165 Soraya

Golden orange

### **VERZWEIGTE MIX**

SEED

- This mixture includes different pollen-free cutting varieties with branched growth for outdoor cultivation
- For diverse sunflower bouquets in different shades of yellow and red
- Rich development of side shoots allows harvesting to take place over many weeks without interruption

447215 Verzweigte Mix
Mix

### **Double blooming varieties**

### **DOUBLE QUICK F1**

- Variety for cutting with golden yellow, double flowers
- Short cultivation time
- The low stems are ideal for cut cultivation in the summer

446760 Double Quick F1

Golden yellow

SEED

### EARLY BEAR F1

- · Very early, double blooming variety for cutting
- Golden yellow flower balls
- Stable, short stems with little development of side shoots
- · Ideal for outdoor cultivation in the summer

**446840 Early Bear F1**Golden yellow

SANTA FE

SEED

- Particularly uniformly filled flowers in orange-yellow colours
- Stable, medium-sized growth
- $\,\cdot\,$  For harvesting outdoors starting in August

**446850** Santa Fe Orange yellow SEED

### **HOHE SONNENGOLD**

- Vigorous, late blooming variety
- Golden yellow, densely filled flowers on branched stems
- Ideal for direct marketing after outdoor cultivation

**446855** Hohe Sonnengold Golden yellow

446760 Double Quick F1

446840 Early Bear F1

446850 Santa Fe

YCD9	Green	

489400 Green Marble

### **BABY BEAR (C. PEPO)**

- A high yielding, orange pumpkin in an unusual intermediate size of approx. 0.8 to 1.2 kg
- Flat, round fruits with strong stems
- · Medium-late ripening and good shelf life
- · The husks of the seeds are thin, therefore well suited for roasting

419510	Baby Bear	SEE	Đ
Y604			

### **BABY BOO** (C. PEPO)

- The white counterpart to 'Jack be Little'
- · White, flat-spherical, ribbed fruits with golden vellow flesh
- Edible fruits with a diameter of approx. 10 cm

419520 Baby Boo TO1

### **BALL ORANGE (C. PEPO)**

- · Smooth, bright, orange yellow balls with a 10-15 cm diameter
- · Very high yielding and reliable cultivation

419530 Ball Orange SEED

419520 Baby Boo

419530 Ball Orange

### **Small-fruited varieties**

### **BICOLOR PEAR (C. PEPO)**

- · Pear-shaped fruits, 10-15 cm in length
- The upper half is golden yellow, dark green below, some have light stripes
- Early and high yielding, vigorous habit

419550 Bicolor Pear

SEED

### **CASPERITA F1** (C. PEPO)

- · White, flat, round, well-ribbed fruits with a weight of approx. 300 g
- Very much improved with regard to the colouration, yield and uniformity when compared to the small-fruited variety 'Baby Boo'
- Tolerant to powdery mildew
- · Medium early ripening, ripening period: 90 days

419566 Casperita F1

SEED

# **HARLEQUIN** (C. PEPO)

- · Flat, round, grooved fruits with shoulders
- The colours range from cream white to yellow with dark green spots
- · Edible fruits with a very good shelf life
- · Diameter: approx. 12 cm

419640 Harlequin

SEED

### **BICOLOR SPOON (C. PEPO)**

- · Small, slender, club-shaped fruits, 12-15 cm in lenath
- The upper half is golden yellow, dark green below, some with cream white stripes
- Vigorous, climbing habit

419560 Bicolor Spoon

SEED

### **DELICATA** (C. PEPO)

- · Oblong, cream-coloured fruits with green stripes and slight grooves, length: approx. 20 cm
- · Tender flesh

419590 Delicata

1001

4009

### **HOARGARTH** (C. PEPO)

- Golden yellow fruits with dark green markings reminiscent of spilled paint
- Attractive wart, flat-round fruit shape with a long stem
- Fruit size approx. 10-15 cm

419645 Hoargarth

SEED

NFW

**BLACK KAT F1** (C. PEPO)

- A ribbed blackish green pumpkin that turns orange late in October
- Bushy growth, early yield
- · Good resistance to mildew
- Fruit weight: approx. 400-600 g, suitable for the microwave

419561 Black Kat F1

409

### FLAT STRIPED (C. PEPO)

SEED

- · Flat, round, dark green, ornamental fruits with highly contrasting, light stripes
- · Fruit size: approx. 8 cm
- · Early and productive

419600 Flat Striped

### **JACK BE LITTLE (C. PEPO)**

- · Bright orange fruits that resemble tangerines
- · Diameter: 10-12 cm
- · Attractive, edible ornamental pumpkin

419660 Jack be Little

101

SEED

SEED

### **BUSH DELICATA (C. PEPO)**

SEED

- · Elongated, cream-coloured fruits with green stripes
- Tender pulp, good variety for filling
- · Little climbing habit
- Earlier harvesting

419564 Bush Delicata

SEED

# · Cream yellow pumpkin for microwaving with

- orange stripes and pronounced shoulder
- · Diameter: approx. 8-10 cm

FLAME F1 (C. PEPO)

- · Moderately slender
- · Healthy growth, resistant to mildew

419605 Flame F1

SEED

### **GOLD DUST F1 (C. PEPO)**

- · Very high yielding mandarin pumpkin with a moderately vigorous habit
- · High resistance to powdery mildew
- · Diameter: approx. 8-10 cm

419610 Gold Dust F1

101

SEED

- main colour and green-yellow marking Slightly smaller fruits than 'Harlequin', diameter:
- approx. 10-12 cm, weight: approx. 600 g Medium early, good yield

419570 Celebration F1

Y09

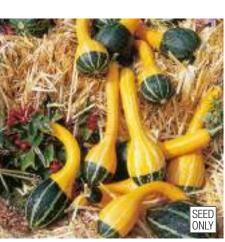

SEED

### **GREMLINS** (C. PEPO)

- · The warty ornamental fruits are versatile in their design and colour
- · Contains star-shaped, pear-like, winged and mushroom-shaped fruits
- Medium early ripening, fruit size: approx. 12-15 cm

419630 Gremlins SEED

419560 Bicolor Spoon

419610 Gold Dust F1

419660 Jack be Little

### **Small-fruited varieties**

### LIL' ORANGE MON (C. PEPO)

- · The skin of the tangerine-shaped fruits is intense bright orange
- The fruits reach a diameter of approx. 12-15 cm
- · Very decorative, long, dark green stems

419670 Lil' Orange Mon

SEED

### 419725 Snowball F1

**SNOWBALL F1** (C. PEPO)

and a highly rounded shape

· Fruit weight approx. 0.8-1 kg

· Small, very white fruits with a pronounced stem

Grows compactly with an early start to yield

· Dark storage promotes the preservation of the

white colour

SEED

### WEE-B-LITTLE (C. PEPO)

- · Very early, high yielding mini pumpkin
- · Bright, golden orange skin and deep green-coloured stems
- · The fruits are edible when young and can be used as "soup cup pumpkins"
- Diameter: approx. 10 cm

419790 Wee-B-Little

SEED

SEED

(C.PEPO)

### LITTLE PUMP-KE-MON (C. PEPO)

- · White, flattened fruits with yellow stripes
- An attractive contrast colour to orange and yellow fruits
- Fruit size: approx. 12 cm

419680 Little Pump-Ke-Mon

SEED

### SPINNING GOURD (C. PEPO)

- Small, pear-shaped fruits with dark green skin and light stripes
- · Fruit size: approx. 5-7 cm
- · Can also be used in floristry as decorative fruits

419730 Spinning Gourd

### 25 cm fruit size 419799 Autumn Wings Large

and a curved neck

**AUTUMN WINGS LARGE** 

· Elongated fruits with pronounced wings, warts

Attractive colour combinations with approx.

- · Orange-red, small, turban-shaped fruits with green and white stripes
- Ideal for bringing colour into ornamental pumpkin mixtures
- Diameter: approx. 10-12 cm

419690 Mini Red Turban

SEED

### **SUGAR BABE F1** (C. PEPO)

- An oven pumpkin with a flat bottom, ideal for filling and baking
- Sweet flesh, fruit weight: approx. 500-800 g
- · High yield and good shelf life
- Bushy habit

419737 Sugar Babe F1

# **W** View all orders

### MISS SOPHIE PINK (c. MAXIMA)

- Salmon pink coloured, ornamentally ribbed fruits with eye-catching stems
- Very tasty, thin flesh
- Fruit weight: approx. 400-600 g, diameter: approx. 10-12 cm

419695 Miss Sophie Pink

# SWEET DUMPLING (C. PEPO)

SEED

- · Tasty fruits with a diameter of 10-12 cm
- Dark green stripes and spots form a very striking contrast to the cream white skin
- · Orange-yellow, sweet flesh
- · The fruits keep approx. 3-4 months

419740 Sweet Dumpling

84 | SEED

### **ROLET** (C. PEPO)

SEED

- · Dark green, glossy, slightly spherical balls with a smooth, hard skin
- Productive, brings good contrasts into the pumpkin assortment
- Edible when young, diameter: approx. 7 cm

419710 Rolet

### SWEET LIGHTNING (C. PEPO)

- · Flat, round pumpkins in mandarin form with deep orange stripes and light-coloured skin
- The 500 g fruits are very tasty and can be cooked in the microwave

419750 Sweet Lightning

SEED

### SAM ORANGE (C. PEPO)

SEED

SEED

- Golden orange 'Jack Be Little' Variety with very distinctive stems and larger fruits that have a diameter of approx. 10 cm
- Suitable for microwaving
- High resistance to mildew and reliable, high yield

419715 Sam Orange

101

### WARZEN ORANGE (C. PEPO)

- Flat, round, light orange fruits that are covered with numerous warts
- Rich and reliable yield, keeps well
- · Diameter: approx. 10 cm

419780 Warzen Orange SEED

419670 Lil' Orange Mon

### Acorn squash

### GREEN TANGERINE F1 (C. PEPO)

- · A dark green acorn squash with orange flesh
- Sweet taste and small core
- · High resistance to mildew and bushy habit
- Good shelf life
- Fruit weight: approx. 700 g, diameter: 11-14 cm

### 419625 Green Tangerine F1

SEED

### **HONEY BEAR F1** (C. PEPO)

- · Small-fruited acorn squash with sweet, very starchy flesh
- Fruit weight: approx. 500 g
- Bushy growing plants with early, dense fruit set
- Tolerant to mildew
- · Ideal single squash for direct marketing

### 419650 Honey Bear F1

SEED

- Golden yellow mini acorn with a fruit weight of approx. 500 g
- Sweet, tender flesh
- · Medium early yielding, fruits can be stored well
- Robust, vigorous plants

419685 Mini Acorn Gold

SEED

# WHITE PEARL (C. PEPO)

- Small, almost round acorn squash with white skin for decoration and food purposes
- Bushy growth with few tendrils
- · The yellow-fleshed fruits reach about 500 g in weight

### 419793 White Pearl 100

SEED

### **TABLE MIX (C. PEPO)**

- · Attractive mix of three different coloured, grooved acorn squashes
- Little creeping, early yield
- Golden yellow, edible flesh
- Fruit size: approx. 20 cm

### **Butternut squash**

### **ARIEL F1** (c. moschata)

- Butternut squash with a high yield potential and very uniform fruits that weigh 1-1.5 kg
- Fruits have a low tendency to crack and a large amount of flesh
- The vigorous growing plants and the high resistance to powdery mildew ensure a long growth phase

420090 Ariel F1

SEED

### ATLAS F1 (C. MOSCHATA)

- · Very reliable butternut squash with large, elongated fruits that weigh approx. 2-3 kg
- The good fruit set over a long period of time ensures a high yield
- · High sugar content and good flavour, ideal for processing

420095 Atlas F1

SEED

# **BARBARA** (C. MOSCHATA)

- · A green butternut squash with light stripes
- · The fruit flesh has an excellent quality, intense colouring and is very tasty
- Requires heat during cultivation, pre-cultivation in the spring is recommended for cooler locations
- · Fruit weight: approx. 2-3 kg

420100 Barbara

SEED

### **EARLY BUTTERNUT F1** (C. MOSCHATA)

- A bell-shaped, pale yellow Variety of butternut squash
- · Orange-coloured, sweet, aromatic flesh
- · Medium early fruit set, fruit weight: approx. 1.3 kg

420110 Early Butternut F1

### **HONEYNUT** (c. MOSCHATA)

- · Mini butternut squash with dark orange flesh and a melon aroma
- The cylindrical fruits that weigh approx. 600 g change colour from green to brown
- · Good resistance to mildew

### 420125 Honeynut

### **HUNTER F1** (c. moschata)

- · Early maturing butternut squash with a fruit weight of approx. 1.2 kg
- · High yielding, long fruits
- · 'Hunter' F1 bears fruits early and reliably, even under cooler conditions

420130 Hunter F1

(C. MOSCHATA)

# **JUPITER JWS 6823 F1**

- · Smaller butternut with a high level of yield
- · Uniform fruit size, high proportion of marketable fruit
- · Forms short tendrils
- · Good mildew resistance

420133 Jupiter JWS 6823 F1 1001

SEED

# LONGUE DE NICE (C. MOSCHATA)

- · Fruits with a length of up to 1 m that thicken towards the end
- The dark green, smooth skin later turns light brown
- · Very durable and good storability
- · Sweet flesh, fruit weight: approx. 6-10 kg

420135 Longue de Nice

SEED

### METRO F1 (C. MOSCHATA)

- · Very uniform butternut Variety with medium-sized fruits that weigh approx. 1.4 kg
- · Highly tolerant to powdery mildew
- · High dry substance content and good shelf life
- Short shoots and medium-late ripening fruits with smooth, light brown skin

420140 Metro F1 100

### Moschata

### **AUTUMN CROWN F1** (C. MOSCHATA)

- Small Moschata pumpkin with a fruit weight of approx. 2 kg
- · The flat, round, light brown fruits are slightly ribbed
- · Light orange flesh
- · Aromatic, slight melon-like flavour
- · Good shelf life and a high ornamental value

420200 Autumn Crown F1

SEED

### **BUTTERKIN** (C. MOSCHATA)

- · Small-fruited Moschata pumpkin with a fruit weight of approx. 1.5 kg, ideal for smaller households
- · Light brown skin, high content of deep orange coloured flesh
- · Early ripening for a Moschata pumpkin after approx. 100 days, short tendrils

420205 Butterkin

SEED

### **HIDEMI** (C. MOSCHATA)

- · Light brown, grey-frosted fruits with strong ribbing of Variety Futsu Black Rinded
- · Earlier and more uniform yield
- · Very durable and tasty
- · Fruit weight: approx. 1-1.5 kg

420215 Hidemi 4009

SEED

### MINI MUSK (C. MOSCHATA)

- · A Moschata pumpkin with smaller fruits that weigh approx. 5 kg, short tendrils
- Firm, ochre-coloured flesh with the popular, aromatic flavour of the Moschata pumpkin
- · Late ripening, requires warmth, protected pre-cultivation is recommended

420220 Mini Musk

409

# **MUSCAT DE PROVENCE** (C. MOSCHATA)

- Popular, tasty pumpkin for cooking
- · Flat, round, light brown fruits have an orange, appetisingly bright flesh
- Relatively late maturing, ripens in storage from green to orange
- Diameter: 30-40 cm, height: 20 cm, good for storage

# 420225 Muscat de Provence

84 | SEED

TO 9

# PANTHER (C. MOSCHATA)

- · Small nutmeg pumpkin with a fruit weight of approx. 4-5 kg
- The flat, round, light brown fruits are slightly ribbed and change colour from green to brown
- Golden yellow, tasty flesh
- · Good durability and a high ornamental value

420235 Panther

SEED

- A traditional variety from France with sweet, orange-yellow flesh
- Medium-sized, oval and pear-shaped fruits that change colour from green to ochre-brown
- Fruit weight: 1.5-2 kg, the ideal size for family households

# 420860 Stripetti F1

SEED

401

420860 Stripetti F1

# Hokkaido squash

# AMORO F1 (C. MAXIMA)

- · Heart-shaped Hokkaido with a high yield potential of up to 40 t/ha
- Orange skin with light stripes
- · Very compact bush Variety that does not climb
- · High proportion of golden orange fruit flesh with a good flavour
- Seed set separates itself well from the fruit flesh, making it easy to take the seeds out

420295 Amoro F1

84 | SEED

420295 Amoro F1

# **BLUE KURI (C. MAXIMA)**

- · Greyish blue, flat, round, fruits with orange, very tasty flesh
- Good storability
- · Fruit weight: approx. 1.5 kg

SEED 420320 Blue Kuri

# **BONBON F1** (C. MAXIMA)

- Dark green, flat-topped, round to blocky fruits with light stripes and a greenish grey centre
- · Golden yellow, sweet and delicate flesh
- · Awarded with the All American Selections Medal
- · Fruit weight: approx. 2 kg

420330 Bonbon F1

101

# **COLINKY** (C. MAXIMA)

SEED

- A Hokkaido for professional field cultivation with the classic Hokkaido shape
- Solid, bright orange skin
- · High sugar content
- · High yield level, fruit weight: approx. 1-1.5 kg

420332 Colinky

# **DOLCEVERA F1** (c. MAXIMA)

- · A convincing Kabocha squash with green skin
- Golden yellow, tasty flesh
- · Uniform fruit size of approx. 1.5-1.8 kg
- Robust crop, reliable yield

420333 Dolcevera F1 SEED

# FICTOR (C. MAXIMA)

- Dark orange Hokkaido with smaller sized fruits, ideal for retailers
- Good flavour
- · Uniform fruit size and colouration
- · Very good durability until the end of January

420335 Fictor

SEED

# **ORANGE SUMMER F1** (C. MAXIMA)

- Vigorous hybrid Hokkaido squash
- · Attractive, red skin
- · Low susceptibility to mildew
- · High fruit set of uniform fruits that weigh approx. 1.3 kg
- Early and reliable yield

# SEED 420350 Orange Summer F1

409

# **SOLOR** (C. MAXIMA)

- · Ideal Hokkaido for professional cultivation with
- Dark orange fruit with a uniform size of approx. 1 kg, ideal for retailers
- Good flavour
- · Very good durability up until the beginning of **February**

420375 Solor SEED

101

# **SOMBRA F1** (C. MAXIMA)

- · Grey crown Variety with sweet flesh
- · Fruit weight: approx. 1.5-2 kg
- · Excellent shelf life up to 5 months
- · Healthy, robust growth with moderate tendril formation

# 420377 Sombra F1

SEED

# **SUNSHINE F1** (c. MAXIMA)

- · Flat, round fruits with bright, reddish orange
- · Extraordinary sweet, starchy flesh
- · Awarded with the All American Selections Medal
- · Medium early ripening and relatively short shoots
- · Fruit weight: approx. 1.5-2 kg

420380 Sunshine F1

SEED

# **SWEET DELITE (C. MAXIMA)**

- Dark green Hokkaido Variety with golden yellow, very tasty fruit flesh
- Very good durability, also suited as a decorative numpkin
- Diameter: 20-25 cm

# 420390 Sweet Delite

SEED

# TRACTOR F1 (C. MAXIMA)

- · Vigorous growing, robust bush Variety with a high yield
- Flat, round fruits that weigh 2-4 kg depending on the selected planting density
- High proportion of flesh with a firm structure and a good flavour
- Easy to remove the seeds due to the fact that the seed set can be separated easily from the
- · Very good durability up until the end of February

420395 Tractor F1

100

# **UCHIKI KURI** (C. MAXIMA)

## **RAPTOR F1**

SEED

- · An orange ripening bell pepper for heated crops in soil and substrate
- · Inspires by its perfect orange colour
- High uniformity and good shelf life of the fruit (190-220 g)
- · Vigorous plants with very high quality yield ₩ HR Tm: 0-3

SEED 513848 Raptor F1

#### **PUSZTAGOLD**

- Medium early, high yielding pepper, open-pollinated
- · Light yellow, blocky, blunt pepper that ripens to

513800 Pusztagold 336 | SEED

#### **NEUSIEDLER IDEAL**

- A well-tried bell pepper variety
- Matures from green to red

336 | SEED 513400 Neusiedler Ideal

## Midi blocky peppers

## **Volmary brand series**

**ALMIRA® MIDI RED** F1 (WLS 9420)

- Beautiful, small blocky pepper (60 g), matures to bright red
- The compact habit is also ideal for producing fruit-bearing container plants

514300 Almira® Midi Red F1 (WLS 9420)

84 | 180 | SEED

### **ALMIRA® MIDI YELLOW** F1 (WLS 9423)

- Bright yellow, small blocky pepper (60 g) from the 'Almira® Midi' series
- · Fits well to the other colours with regard to aroma, fruit quality and habit

514350 Almira® Midi Yellow F1 (WLS 9423)

180 | SEED

## **ALMIRA® MIDI ORANGE F1 (WLS 9425)**

- Blocky pepper (60 g) that matures to orange with an excellent flavour
- Impressive like other varieties from the 'Almira® Midi' series due to its overly rich and early yield
- Very much recommended for the production of fruit-bearing plants for hobby gardeners

514400 Almira® Midi Orange F1 (WLS 9425)

180 | SEED

### Spinacia oleracea:

= Downy Mildew

(Peronospora farinosa f.sp. spinaciae)

### Two resistance degrees are defined:

### High/standard resistance (HR):

Plant types that highly limit the growth and development of a certain pest or pathogen under normal pest or pathogen pressure in comparison with susceptible plant types. These plant types, however, may exhibit some symptoms or damage under high pest and pathogen pressure.

### Moderate/intermediate resistance (IR):

Plant types that limit the growth and development of a certain pest or pathogen, but may exhibit more symptoms or damage in comparison with resistant varieties. Moderate/intermediate resistant varieties will still have less serious symptoms or damages that susceptible plant types when grown under comparable environmental conditions and/or pest and pathogen pressure.

### Susceptibility:

The susceptibility of a plant type is the inability of it to limit the growth and development of a certain pest or pathogen.

### 1.3 Variety Resistance Information

The resistances of our breedings are coded if they have not been noted elsewhere.

For varieties with resistances to more than one pathogen, resistance codes are separated by "/". If a resistance code refers to a particular disease strain, there is no protection against another strain of this pathogen. If the resistance indication does not refer to a certain strain of a pathogen but to uncertain, non-specified strains, it cannot be guaranteed that the respective variety could nevertheless be infected by the stated pathogen.

The resistances indicated in the catalogue are based on current knowledge at the time of printing. A breaking of resistances by the respective pest, however, cannot be excluded.

### 2. Disclaimer

We have produced our new catalogue with great care, however mistakes are not excluded. We cannot assume any liability for the completeness and correctness of the content.

### General Terms and Conditions of or one of our agents intentionally or as a result of gross negligence. **Volmary GmbH**

### 1. General

- 1.1 The following General Terms and Conditions apply to all sales and licensing conducted in the course of our business operations, unless otherwise indicated in our binding o er or order con rmation.
- 1.2 Our General Terms and Conditions apply exclusively. Buyer terms and conditions that con ict with or di er from our General Terms and Conditions or any supplementary agreements are only binding if expressly agreed to in writing. Our General Terms and Conditions apply even if goods are delivered to the buyer without reservation despite our awareness of con icting or di ering buyer terms and conditions.
- 1.3 The following General Terms and Conditions apply only to businesses within the meaning of Section 14 of the German Civil Code (Bürgerliches Gesetzbuch — BGB).
- 1.4 Unless otherwise agreed, the interpretation of customary contracts is subject to Incoterms 2010 (EXW per Incoterms 2010), including any additions in force at the time of contract signing.

### 2. Offer – contract signing

- 2.1 Representations of our products (seeds, bulbs, seedlings etc.) in promotional materials etc., including our web pages, are not legally binding o ers within the meaning of BGB Section 145. They are non-binding and subject to change. Their purpose is to encourage buyers to submit orders.
- 2.2 Orders submitted by the buyer shall be considered binding for the buyer for two weeks as of the date on which we receive the order unless otherwise stated upon order submission.
- 2.3 No contract shall result until the order is con rmed by us in writing. If we deliver goods or services without rst con rming the order, this shall constitute accentance of the order
- 2.4 If we accept the order, whether in writing or through ful Iment, after the two-week binding period (see 2.2), the contract shall be considered in e ect unless immediately rejected by the buyer.
- 2.5 We have the right to adjust varieties, quantities and delivery dates on order con rmations to re ect actual availability. Such changes shall be considered accepted unless rejected by the buyer within eight calendar days of receipt of the order con rmation. This applies only if the change is deemed reasonable by the buyer in consideration of our interests.

- 3.1 Unless otherwise stated in the contract, delivery dates agreed upon represent the dates on which the goods will be made available at our production facility in Senden, Germany, for handover or shipping (ex works per Incoterms 2010).
- 3.2 Should our suppliers fail to deliver the right goods to us on time, ou obligation to deliver shall be held in abevance. This only applies in cases where we or our suppliers are not responsible for the delivery delays.
- **3.3** Raw material or energy shortages, strikes, lockouts, tra c disruptions, governmental decrees or other public law restrictions, breakdowns, force majeure or other circumstances not caused by us or our agents and not or foreseeable by us release us from our obligation to deliver and from any licensing obligations for the duration of the event to the exten that the circumstances impact our ability to deliver.
- 3.4 In the situations described in Sections 3.2 and 3.3, we have the right, without obligation to pay damages, to withdraw from the contract if ful Iment becomes impossible or unreasonable or an end to the hindrance is not foreseeable. This applies only if we or our agents are not responsible for the hindrance and we inform the buyer of the aforementioned hindrances immediately. In the event of withdrawal, we agree to promptly refund any payments already made by the buyer

### 4. Obligation to inspect and to give notice of defects

- 4.1 We are authorised to ful I orders in partial shipments unless otherwise agreed. The buyer may refuse to accept partial deliveries only if they do not serve its interests objectively. Rejection of partial deliveries is to be explained in writing, including written substantiation of how partial deliveries would not serve the buyer's interests objectively.
- 4.2 The buyer shall verify and inspect the goods immediately upon receipt to the extent advisable in the ordinary course of business. Depending on the size of the delivery, veri cation/inspection shall take place through random sampling of a su cient quantity of goods. If the buyer requests delivery of the goods to a third party, the buyer must ensure immediate veri cation and inspection
- 4.3 The buyer's obligation to inspect the goods and report any defects immediately upon receipt also extends to phytosanitary properties, including but not limited to viruses, infestation and diseases. If the buyer suspects the presence of such phytosanitary properties, it shall proceed as described in 10.7. In particular, the buyer must also, with regard to its obligation to minimise damage, separate infected or defective goods from other goods (goods delivered by us or those in prior possession of the buyer) to avoid cross-contamination.
- 4.4 In the event of obvious defects, incorrect deliveries or lower-than expected quantities, the buyer shall notify us immediately, but no later than within three calendar days. Noti cation must take place in writing. Transport nersonnel are not authorised to receive noti cation of defects. If the huve fails to notify us as required, the goods shall be considered approved and the buyer shall have no claims for such defects, except in cases where a defect was undetectable at the time of inspection. Sections 377 et seg, of the German  $Commercial\ Code\ (Handelsgesetzbuch-HGB)\ shall\ otherwise\ apply.$
- 4.5 The buyer shall notify any non-apparent defects (hidden defects) immediately upon discovery in writing.
- 4.6 The buyer agrees to inspect the goods upon receipt for transpor damage, through appropriate sampling if applicable. If transport damage is found, the buyer shall immediately prepare a report detailing the condition of the goods and the transport damage. The report is to be submitted to the transport personnel for signature. The buyer agrees to report transport damage immediately by submitting the report to the transporter and to inform us and send us a copy of the report. We are not liable for transport damage (Section 11 notwithstanding) unless the damage was caused by us

4.7 Our acceptance of notification of defects shall not constitute acknowledgement of the alleged defects.

### 5. Pricing and delivery methods

- 5.1 Unless otherwise contractually agreed, all prices are quoted ex works (our production facility in Senden, Germany). All costs of the goods, such as duties insurance, taxes, storage fees etc., will be charged to the buyer at the time the goods are delivered ex works (our production facility in Senden, Germany) Shipment shall take place only at the buyer's request, in which case any additional freight/transport costs will have to be borne by the buyer and will be recharged by us.
- 5.2 The risk of accidental loss of the goods is transferred to the buyer oon handover of the goods to the transporter. 5.3 We will accept the return of sales packaging as required by law. Unless otherwise contractually agreed, packaging must be sorted and delivered by the buyer to our production facility in Senden, Germany, at its own expense,
- 5.4 All other transport packaging shall be charged to the buyer unless otherwise agreed. Packaging returned undamaged by the buyer shall result in a credit.
- 5.5 Unless otherwise contractually agreed, goods shall be loaded for transport by the buyer at our production facility in Senden, Germany. This also applies to situations where the goods are picked up by a third party contracted by the buyer. If we assist the buyer or contractor in loading the goods, this shall constitute a favour on our part. The buyer and/or its agent remain solely responsible for proper loading, including compliance with the guidelines for securing the load.
- **5.6** Our prices are based on the price list in e ect at the time the nal order is received, unless otherwise agreed. Unless otherwise contractually agreed, prices are quoted ex works (our production facility in Senden Germany) and exclude packaging and VAT.

- 6.1 Invoices are due 30 days after the invoice date. Other discounts require express prior written agreement. Discounts are to be negotiated eparately for each contract
- 6.2 If any changes to the VAT rate occur after contract signing, VAT will be calculated at the newly applicable rate.
- 6.3 If partial deliveries are made as per 4.1 or in coordination with the buyer, we have the right to bill separately for each partial delivery. Deliveries will be billed at the agreed-upon unit prices.
- **6.4** Payment is to be transferred exclusively to one of the accounts listed on
- 6.5 Buver payments are always credited to the oldest outstanding ınt unless otherwise agreed. Payments are applied in accordance with BGB Section 367, i.e. rst to costs, then to interest and nally to principal Any other payment determinations by the debtor after the signing of the contract shall be disregarded.
- **6.6** Cheques are considered provisional ful Iment of payment only. Payment shall not be considered made until the amount of the cheque has been irrevocably credited to our account. Any applicable bank fees, including in the case of returned cheques, shall be charged to the buye

- 7.1 Conditions constituting default and the consequences thereof are de ned in RGR Sections 286 287 and 288
- 7.2 If the buyer is in default of payment, we may withdraw from all contracts from the mutual business relationship or - at our own discretion - make other deliveries and services (including those under other contracts from the mutual business relationship) dependent on prepayments or security deposits; we are further authorised to disclose all claims assignments (see 9.1) to all customers of the buyer and to demand direct payment from said customers. This does not apply if the buyer is only in minor default and its ability to pay is not in question; outstanding amounts are considered minor if they total no more than 5% of the total volume of the contract from which they arose.
- 7.3 The buyer may o set any counterclaims against us only if said counterclaims have been acknowledged by us or legally enforced.

- 8.1 We retain ownership of the goods delivered by us until full payment of all amounts owed to us under the underlying contract is received, including any costs, interest and default penalties.
- 8.2 Our ownership also extends to goods, plants and products produced by the buyer through cultivation, handling or processing, blending or mixing of delivered goods that remain under our ownership. If goods under our ownership are processed or inseparably mixed with goods owned by other parties, we shall acquire co-ownership of the new or mixed goods The amount of the co-ownership is based on the ratio of the invoice value of the delivered goods under our ownership to the invoice value of the other goods.

### 9. Assignment of claims

- 9.1 The huver is authorised in the course of its ordinary husiness operations to resell the goods delivered by us. In this case, the buyer shall, e ective at this time, assign the resulting claims against its customer to us. The amount assigned is limited to the amount of our claim for delivery of the resold goods including any costs, interest or default penalties, provided these were already charged and reported to the buyer. At our request, the buyer shall disclose to us any resale of still-unpaid merchandise including the full names of the recipients and any information necessary for direct collection of the claims assigned to us.
- 9.2 The buver agrees to ensure, through suitable arrangements with its customers to the extent allowed by law, that claims assigned to us are not o set but ful lled only through payment; if required, the buyer must advise the customer of the assignment of the claim.
- 9.3 The buyer is entitled to collect claims assigned to us from its customers. The buyer agrees to immediately pass on all payments received from its customers to us, up to the amount of our outstanding claims. If the buyer collects claims assigned to us from its customers without passing on payment to us as agreed, we are authorised to disclose the assignment of all claims, including those against other customers, and demand immediate payment. In addition, we

may revoke authorisation to collect if the buyer fails to meet its obligations to us in a timely manner or other circumstances arise that cast doubt on the buyer's creditworthiness. If authorisation to collect is no longer in e ec or is revoked by us, the buyer must immediately notify us at our request of the names of the debtors of the assigned claims and provide us with all the necessary information and documentation for collection.

- 9.4 If third parties desire access to goods under our ownership, including as part of foreclosure or insolvency proceedings, the buyer shall notify the third parties of our ownership and provide them with substantiating documentation. The buyer shall notify us immediately upon doing so. Any costs incurred in defending ourselves against alleged third-party claims to goods under our ownership shall be reimbursed by the buyer, provided these re not reimbursed by the third parties; any claims against third parties shall be reciprocally and simultaneously assigned to the buyer.
- 9.5 If the value of the securities given to us by the buyer exceeds the total value of our secured claims by more than 20%, we agree to release any securities exceeding the 20% at the request of the buyer. We are free select which securities to release

### 10. Guarantee

- 10.1 If goods delivered by us are marred by a defect, the cause of which was present at the time of risk transfer, we will generally quarantee the goods provided we are noti ed of the defect within the statute of limitations (see 10.4).
- 10.2 If the buyer resells goods delivered by us and its customer or the last customer in the supply chain is a consumer within the meaning of BGB Section 13. the buyer may seek recourse from us in accordance with BGB sections 478 and 479 under supplier's redress. In a legitimate case of supplier's redress, the liability limitations described in these General Terms and Conditions shall not apply.
- 10.3 Supplier's redress requires the goods delivered by us to have been sold to the consumer via the supply chain in unmodi ed condition. If the goods are cultured or otherwise altered or improperly handled prior to reaching the consumer, supplier's redress shall not apply. Supplier's redress require that the defect that was present upon transfer of the goods to the consumer also constitute a defect under our relationship with the buyer
- 10.4 The statute of limitations for quarantee claims is one year as of the beginning of the legal statute of limitation period. If the buyer seeks justiable recourse against us under supplier's redress (see 10.2 and 10.3), the legal statute of limitations shall apply instead.
- 10.5 If the buyer fails to meet its obligation to inspect and to give notice of defects under Section 4, the buyer may lose its rights to guarantee per
- 10.6 If the buyer reports defects, whether under Section 4 or Section 4.5. the buyer shall grant us the opportunity to inspect said defects and/or to have the defects inspected by third parties. If the buyer hires third parties, including experts, to inspect the goods or determine the presence of defects, we shall only be obliged to cover the costs of the inspection if an immediate expert examination is objectively required and we do not conduct said examination immediately
- 10.7 If the buyer brings quarantee claims against us, our initial obligation is limited to re-ful Iment of the order (correction of the defect or delivery of a defect-free product). Should we reject re-ful Iment or if re-ful Imen fails or is deemed unreasonable by the buyer, the buyer may reduce the purchase price or withdraw from the contract. The buyer shall not be entitled damages (Section 11.2 notwithstanding).
- 10.8 If the buyer is entitled to re-ful lment through delivery of defectfree goods, we have the right to adjust the variety based on actual availability, provided said adjustment is deemed reasonable by the buyer.

### 11. Claims for damages

- 11.1 If the buyer is entitled to claims for damages or expense reimbursement due to defects and said claims are not excluded under the above clauses or Section 11.2, these shall expire in one year
- 11.2 Damages or compensation claims of the buyer for whatever legal reason, including infringement of duties arising from obligations impermissible actions that are subject to the exceptions hereinafter mentioned, shall be excluded: a) Our liability for breaches of cardinal duty resulting from slight negligence is limited to those damages characteristic of this type of business transaction, b) Damages resulting from a loss of life. bodily injuries or injuries to health that are based on a negligent breach of duty by us, a negligent or intentional breach of duty by our legal representative or our agents. c) Other damages based on an intentional or grossly negligent breach of duty by us or deliberate or grossly negligent breaches of duty of our legal representatives or our agents.
- 11.3 Furthermore, claims for damages by the buyer resulting from the following are not excluded: a) damage resulting from injury to life, limb or health caused by a negligent breach of duty on our part, a negligent or intentional breach of duty by our legal representatives or agents b) other damage caused by an intentional or grossly negligent breach of duty on our part or intentional or grossly negligent breach of duty by our legal representatives or agents

### 12. Advice, plant protection, cultivation

- 12.1 Storage tips, planting instructions, information on resistance, plant protection advice and any other advice are not subject to purchase and supply agreements. They represent only non-binding information, unless expressly covered under the agreement. They do not relieve the buyer from its obligation to properly and professionally store and process the delivered goods and take the necessary care, especially when using pesticides and fertilisers as well as growth promoters and inhibitors. The possibility that pathogens may break the indicated resistance cannot be ruled out.
- 12.2 If we provide plant protection advice and information regarding resistance, the buyer agrees to rst test the recommended measures on a portion of the goods before proceeding with the recommended plant protection methods. Only if the test is successful should the methods be employed on a general basis. Tested plants must be kept under exactly the same conditions as the other plants that will be subject to the plant protection methods upon successful completion of the test. The limitations under these terms and conditions notwithstanding, we shall only be liable for the plant protection advice we provide if the recommended methods are properly tested prior to use and the buyer can provide proof of said tests. Section 11.3 shall

- 12.3 In protecting plants, the buyer shall follow all applicable laws. ncluding the Plant Protection Act (P anzenschutzgesetz). If we provide plant protection advice, this does not release the buyer from its responsibility to follow the applicable laws.
- 12.4 The huver shall be independently responsible for cultivation especially in terms of selecting and using growth promoters and inhibitors. rtilisers and pesticides. The buyer shall ensure the compatibility of the methods employed. Please note that damage may occur if non-compatible growth promoters and inhibitors and pesticides are used. We are not liable for any damage resulting from cultivation errors. Section 11.3 shall apply correspondingly.
- 12.5 Descriptions, illustrations, growing recommendations and other information, in whatever form, that have been provided by us or our agents. such as shelf life information, sowing, planting and harvesting dates or details and information about breeding and cultivation conditions, are based as closely as possible on practical and experimental procedures. We disclaim any responsibility for damages that result from the implementation or use of such descriptions, growing recommendations or other information. The buver shall bear the full risk and responsibility, whether the products and growing recommendations are suitable for the intended cultivation under local conditions. Product pictures in catalogues, on the internet or in other publications show the varietal type of each variety and not the variety as such. These pictures provide neither an expressed nor implied warranty regarding the harvest results

### 13. Intellectual property rights, licences, reproduction

- 13.1 The use of our intellectual property rights, including commercial property rights (plant variety protection and trademark protection), copyrights and image rights, is permitted only on the basis of a licensing agreement. Goods subject to plant variety protection in particular may only be cultivated and reproduced after purchase under a licence agreement. A separate licence agreement is to be signed without the buyer being entitled to such an agreement; the licence agreement shall cover licence fees.
- 13.2 Plant variety protection is based on applicable laws, especially the Plant Variety Protection Act (Sortenschutzgesetz). We will only deliver protected varieties of plants for the purpose of cultivation and subsequent sale; the buyer is prohibited from producing reproductive material or exporting fertile materials to a country that does not provide plant variety protection, unless agreed separately in writing.
- 13.3 If mutations/sports occur, the buyer shall notify us immediately. grant us access for examination and review and voluntarily provide us with samples and cuttings of the mutations.
- 13.4 If the buyer purportedly receives rights from discovery of a mutation that the buyer wishes to sell or protect, the buyer agrees to notify us thereof in advance. We reserve the right to claim our own rights to any mutations.
- 13.5 If the buyer sells any acquired rights to mutations, the buyer shall grant us irrevocable pre-emptive rights; in the case of the planned protection of such rights, the buyer agrees, e ective immediately, to o er us assignment of its rights and, in the event of their non-transferability, to exclusive licensing at an appropriate price.
- 13.6 If the parties fail to agree on an appropriate price as mentioned above, an expert appointed by our local Chamber of Agriculture shall have the final say.
- 13.7 The buyer grants us or third parties contracted by us the irrevocable right to visit its planting areas upon prior notice and by appointment in order to verify compliance with variety protection.
- 13.8 The huver may not use trademarks or symbols used by us to di erentiate its products from those of other legal entities or companies, or use trademarks or symbols that do not di er substantially from our own without our express written permission. The sale of plants in production in our original packaging marked with our trademarks and symbols is exempt Goods delivered with labels originating from us are also exempt. In this case, trademarks appearing on labels may be used only through use of the labels delivered along with the delivered material to ensure preservation of our corporate designs.
- 13.9 We point out that the GGN (GLOBAL G.A.P. Number) of the company Volmary GmbH may only be used for the products that Volmary GmbH has produced. Ensure that the GGN is only used in accordance with GLOBAL G.A.P. quidelines and not improperly. Choose the best practices in traceability and labeling of the products, for example, the identi cation of GAP-certi ed products at the company, in order to rule out mixing.

### 14. Place of fulfilment

14.1 The place of ful Iment for all services under contracts between us and the buyer is Mijnster in Westphalia (Germany).

- 15.1 German law applies exclusively. The CISG and other con ict of law provisions possibly leading to the applicability of other jurisdictions, including the so-called Rome I Regulation (EC 593/2008 dated 17 June 2008), are speci cally excluded.
- 15.2 Jurisdiction for all disputes arising from contractual relationships between us and the buyer is Münster in Westphalia (Germany) unless a di erent exclusive jurisdiction is prescribed by law.

### 16. Severability clause

16.1 If one of the clauses of these General Terms and Conditions or another clause in a contract between us and the buyer is or becomes fully or partially invalid, the remainder of the contract shall remain valid. The parties agree to establish a new clause that comes as close as possible to the economic intent of the invalid clause.

Volmary GmbH. Headquartered in Münster District Court Münster HRA 12502. Managing Directors: Hubertus Volmary, Frank Hüdepohl

We have produced our new catalogue with great care, however mistakes are not excluded. We cannot assume any liability for these mistakes.
