

YOUNG PLANTS & SEEDS

AUTUMN 2023

VIOLA | PRIMULA | SPRING & AUTUMN BLOOMERS SPRING TRIOS | CYCLAMEN | EUPHORBIA

VOLMARY NURSERIES AND INFORMATION CENTRE

Dear Customer.

We are delighted to provide you with the Volmary Young Plants & Seeds Catalogue for Autumn 2023 along with an optimal overview of the Volmary **Young Plants & Seeds** range to suit the season, making your production planning easier.

The Viola Cornuta 'Twix®' series has repeatedly proven itself for cultivation in autumn and spring. The attractive 'Twix® Beach Mix' is new in the range, and will impress you with its uniform growth and early blooming.

Also discover the new 'Twix® for Mix' colour combinations 'Purple Berries' and the new 'Halloween Mix' for seasonal sales in October. A special sowing method and tested combinations of varieties ensure uniform distribution of the flowers' colours and an attractive colour mix.

The interspecific Spring Checkies® trios of springtime bloomers are ideal for sale in March. These are now supplemented by other combinations, such as the 'Spring Checkies® Late Nassau' with a particularly high-contrast combination of colours, consisting of orange ranunculus, blue polyanthus primrose and two-tone bellis.

With our cyclamen, you can add some strong-selling highlights to your range of potted plants. Special innovations include the pleasantly fragrant 'Metis' Absolu' de Morel' in the Victoria type, the 'Metis' Abanico' Deep Magenta' with wing-shaped, white-rimmed flowers, and the mini cyclamen 'Super-Serie' Dijx' with corymbose, two-tone flowers.

The **Volmary® garden retail brand**, in colourful pots, is still increasing in popularity. Targeted marketing activities, both online and offline, are aimed at the creation of emotional Volmary® brand experiences. Many gardeners and marketers have recognised the good results that are achieved through this collaborative partnership. Have you already started producing in Volmary pots?

Better products and targeted information are a decisive factor for your success. Our international connections to scientists, plant breeders, producers of seedlings, production nurseries, marketers and the media, provide you with the world's best varieties and first-hand knowledge.

The **Volmary online portal**, which is available at pro.volmary.com, enables you to order seeds and young plants around the clock, view availability and place hassle-free repeat orders, based on existing orders.

The **internal and field employees** of Volmary will provide confidential advice on varieties and cultivation. We encourage you to make use of this offer.

Yours sincerely, Management and Staff

VOLMARY YOUR INDEPENDENT PARTNER

Volmary GmbH is an independent, medium-sized family enterprise in the horticultural field, and a leading European nursery enterprise. In Volmary, you have a strong, innovative partner for your retail nursery, with carefully developed plant-branding concepts for the horticultural and retail supermarket trades

Volmary enjoys international success in the following areas:

- Production and sale of vegetatively and generatively propagated **flowers, vegetables, herbs** and young **fruit-bearing plants**
- Propagation and sale of **seeds** (flower and vegetable seeds)
- Sale of vegetable bulbs
- Classical plant-breeding in the areas of flowers and vegetables
- Management of the plant-branding concepts, Volmary® Plants and Soul Plants®

Products that meet the highest quality requirements

Volmary Seedling/Young Plant Production uses the latest seedling and greenhouse technology in their production areas. Each production step is accompanied by precise seed-sowing technology and climate control. A computer-controlled quality assurance system enables us to ensure the delivery of only full trays of the highest quality. Thanks to our efficient logistics, you can rely on getting your seedlings within a very short space of time. Our high quality standards guarantee the safe and successful further cultivation of our seedlings/young plants.

Exclusive varieties

New, particularly high-performing varieties are of great importance, in order for you to offer your customers a modern, high-quality selection of flowers and vegetables. At the Volmary Nurseries and Information Centre in Münster, we offer you the ideal opportunities to get to know our new varieties insideout. Through intensive testing of varieties, we are able to provide you with precise, practice-relevant recommendations for cultivation. All of the new varieties are subjected to several years of testing, in the Volmary greenhouses and in our own Volmary test fields, where they are assessed in terms of their suitability for field and bed cultivation.

VOLMARY® PLANT BRANDING CONCEPTS

Convincing strategies also generate an equal measure of added value for production growers, over the entire retail chain, all the way to the end user.

Service, sales support – from the seed, all the way to the plant, Volmary® represents the highest demands and premium quality. The plants are cultivated under license by selected horticultural facilities, and marketed through nurseries. The product quality is decisive: only the best varieties, selected from the professional horticultural industry, make it into the Volmary® selection.

- A fun selection of varieties that sell well!
- Year-round marketing programme
- Fresh, modern design
- Plenty of sales promotion materials for optimum presentation of your Volmary® plants
- Effective multichannel marketing

Profit from the many advantages offered by the world of Volmary® plants!

VOLMARY® SALES PROMOTION MATERIALS

The attractive Volmary® sales promotion materials enable optimum presentation of your Volmary®-branded plants, thereby boosting your sales.

Colourful presentation, e.g. CC trolleys can be provided with CC corners, adhesive tape, toppers, sales signage and informative flyers. This assures a cheerful mood at the POS and promotes successful sales. Make use of our wide range of sales promotion materials for the presentation of your Volmary® plants.

Volmary® – Active marketing support

Volmary® Plant World sales promotion is characterised by a multi-faceted marketing concept. Let your sales benefit from a strong, inspiring and informative brand. Gain new customers and improve your sales channels with individual sales concepts and special offers.

HIGHLIGHTS 2023

VIOLA 'TWIX® FOR MIX'

The Viola 'Twix' For Mix' pots by Volmary are utterly on trend. Due to their varied mix of colours and versatility, they make for a colourful highlight for the end user in every facility. The 'Twix' For Mix' young plants can be handled efficiently and thus enable fast and targeted production of attractive viola pots with a mix of colours. The wide range of colour combinations ensures countless design options. And with exciting tone-on-tone variations, such as 'Twix' For Mix Purple Berries', the end user is also motivated to make impulse purchases.

Discover the entire world of Volmary violas starting on page 5.

PRIMULA 'VICTORIANA'

Lush primroses with perennial growth are hugely popular. Our Primula veris series 'Victoriana', especially, with the particularly delicate lines of its flowers, offers terrific possibilities for attractively designed pots and table decorations. When it comes to the 'Victoriana' series, it is not only the velvety, vibrant flowers with their bright edges that impress, but also the colour and sturdiness of the foliage, thanks to the cultivation. The 'Victoriana Mix' by Volmary is also an attractive novelty for the end user.

Our primula range starts on page 34.

Fragrance and optics are a magnet for end users. In this respect, our new fragrant cyclamen, 'Metis' Absolu' de Morel', captivates across the board. The beautifully wavy Victoria flowers stand above dark-green, marbled foliage and exude a very pleasant fragrance. This intensifies in the middle of the day and is almost a guarantee of impulse and spontaneous purchases.

The entire range of cyclamen can be found starting on page 67.

EUPHORBIA Q-ISMAS®

True stars in the euphorbia heavens are our red Q-ismas® cultivars. You can secure an ideal production line with the 'Forever Q-ismas® & Q-ismas® Light' cultivars. With Forever Q-ismas®, you meet the demand for early sales up until November, and with the Q-ismas® Light cultivar, you ensure the perfect maturity for strong sales from the end of November onwards. In addition, the cultivars impress due to their good transportability, their increased stress tolerance and an excellent shelf life at the point of sale.

Q-ismas® and other euphorbia cultivars from well-known breeders can be found starting on page 87.

'MIX A TWIX®' OR 'TWIX® FOR MIX' - THE CHOICE IS YOURS

Two different pot variants for attractive colour combinations. With 'Mix a Twix®' you can put together cheerful trios however you like. Put three 'Twix' violet varieties into a pot to get beautiful, blooming trios in whichever colours you like.

Our sales team will be happy to advise you on Twix® trio combinations.

The 'Twix® For Mix' variety combinations are ideal for planting mixed flowering pots economically.

With the help of a special sowing process and tried-and-tested variety combinations, you can get attractive colour combinations directly as seedlings. This ensures that the flower colours are evenly distributed in the pot.

'GIRL'S DELIGHT®' ROSES AND PRIMROSES

These 'Girl's Delight®' roses and primroses in the Volmary® plant brand concept are unique to the sophisticated range. The large, semi-filled flowers boast a delightfully pretty play of colours. Their growth is well-branched and medium-strong – just right for heavier goods in a 10- to 10.5-cm pot. They start to flower from mid-January to mid-February, depending on the date on the pot.

- A nostalgic speciality for the sophisticated range
- Volmary® pot with a colourful special print: with serial logo, illustrated care instructions, EAN
- With an attractive pallet label

For sale: September to November and February to March

472062 Lucia Honey Mix F1

- Very compact growing series with unique flower colours
- The reddish foliage emphasises the radiance of the flowers
- Robust habit, insensitive to cold

336 | SEED 472000 Esperanta® Mix F1

- Purple-pink flowers with a dark edge stand charmingly above the high-contrast, dark foliage
- A very rich and continuous blooming variety
- · Strong leaf rosettes with short foliage, ideal for high-quality potted plants

🏸 INDIAN TIGER F1

- Bronze-yellow flowers with attractive, red stripes
- · Large flower umbels on robust peduncles
- · A speciality for late sales for upscale assortments
- Height: approx. 20 cm

468710 Indian Tiger F1 Yellow with red stripes 336 | SEED

468710 Indian Tiger F1

'INDIAN TIGER' HIGH TIGER PRIMROSES

In addition to the 'Solena® Mix' (Primula vulgaris) tiger primroses, the tall 'Indian Tiger' primroses stand out thanks to their bright orange flower colour and striking blossom pattern. These tiger primroses are a real eye-catcher and a sales magnet in the Volmary® plant brand concept.

- Attractive primrose for tray-planting and floristry
- Bright, two-tone flowers

For sale: February - March

'ANGELWINGS®': ANGEL VIOLETS

These 'Angelwings®' violets can also be produced in the Volmary® plant brand concept. Their flowers are sleek, modern and simply inspiring. These grow just above the leaves, in shades of pink to red with white, tapered edges. This permanent bloomer makes for a long-lasting eye-catcher for months.

- Permanent bloomer ideal for decorating your home
- Sleek, two-tone flowers with a white tapering edge

For sale: October - November

Mini Assortment

ANGELWINGS® F1

General Terms and Conditions of Volmary GmbH

1. General

- 1.1 The following General Terms and Conditions apply to all sales and licensing procedures that take place within the context of our sales business. insofar as it is not stated otherwise in our offer or in the confirmation of the order
- 1.2 Our General Terms and Conditions are exclusively applicable. Any opposing conditions, or any conditions that diverge from the General Terms and Conditions of the ordering party, as well as any side agreements, are only binding if we have expressly agreed to their validity in writing. Our General Terms and Conditions shall also apply if we execute the delivery without reservation, in the knowledge that the Terms and Conditions of the ordering party are contrary to or divergent from our Terms and Conditions.
- 1.3 The following General Terms and Conditions apply exclusively to compa nies in the sense of Section 14 of the BGB (German Civil Code).
- 1.4 Insofar as no divergent provision has been made, the Incoterms 2020 (EXW in accordance with INCOTERMS 2020), including any supplements valid at the time of conclusion of the contract, shall apply in terms of the interpretation of the customary forms of the contract

2. Offer - Closing of Contracts

- 2.1 Presentation of our products (seeds, bulbs, seedlings/young plants etc.) in advertising and other materials, including our web pages, do not represent legally binding offers in the sense of Section 145 of the BGB. They are free and non-binding. They are merely to be seen as encouragement to an ordering party to submit orders.
- 2.2 The binding nature of the order placed by the ordering party, with respect to our company, shall be two weeks from the date of receipt of the order, unless otherwise specified at the time of submission of the order.
- 2.3 The order shall only be deemed to have been placed upon receipt of our written confirmation. Execution and delivery of the ordered goods or services by us without prior written confirmation shall also be deemed as acceptance of the order.
- 2.4 If our acceptance whether in writing or by execution of the order takes place after expiry of the binding period of two weeks (Clause 2.2), the contract shall nevertheless be deemed to have been concluded, insofar as the ordering party does not react immediately.
- 2.5 We reserve the right to adjust the varieties, quantities and delivery dates in our order confirmations, according to the actual delivery possibilities. Such changes shall be deemed to have been agreed upon if the ordering party does not object within eight calendar days of receipt of the order confirmation. This shall only apply if the changes made to the order appear acceptable to the ordering party, under consideration of our interests

3. Delivery

- 3.1 Unless otherwise agreed in the respective contract, the agreed delivery dates refer to the provision of the goods for handover or dispatch at our production plant in Senden (ex our premises Incoterms 2020).
- **3.2** Insofar as the delivery by our suppliers is not correct or on time, our obligation to deliver shall be suspended. This shall only apply in the event that e or our supplier are not responsible for the failure to meet the deadline.
- 3.3 Shortages of raw materials or energy, strikes, lockouts, traffic disrup tions, official decrees or other restrictions under public law, operational disruptions, all cases of force maieure and other circumstances, in particular trade restrictions as a result of the Corona pandemic, for which neither we nor our vicarious agents can be held responsible and which could not have been foreseen by us, shall release us from our obligation to deliver and, if applicable, from our licensing obligations, for as long as they persist, insofar s these circumstances affect our ability to delive
- 3.4 In the cases of Sections 3.2 and 3.3, we shall be entitled to withdraw from the contract without any obligation to pay damages if performance becomes impossible or unreasonable for us, or if an end to the impediment to the performance is not foreseeable. This shall only apply if we or our vicarious agent are not responsible for the impediment to the performance and if we have immediately informed the ordering party of the aforementio ned impediments to the performance. In the event of withdrawal from the contract, we are obliged to immediately reimburse any payments already made by the ordering party.

4. Duty to examine and to notify of defects

- **4.1** We are entitled to execute orders in the form of partial deliveries, unless otherwise agreed. The ordering party can only justifiably refuse acceptance of partial deliveries if they are objectively of no interest to them. The ordering party shall declare refusal of acceptance in writing; the lack of objective
- interest must be justified in writing together with the refusal.

 4.2The ordering party shall inspect and examine the goods immediately upon receipt, insofar as this is feasible in the ordinary course of business.

 Depending on the scope of the delivery, the inspection/examination shall be carried out by taking a sufficient number of random samples, as required. If the ordering party requests a delivery to a third party, he must ensure that an immediate inspection and examination of the goods takes place.
- 4.3 The obligation of the ordering party to examine the goods and give notice of defects also extends to phytosanitary properties, i.e. in particular to viruses, pest infestations and diseases. If the ordering party suspects the existence of such phytosanitary issues, they must proceed as described in Section 10.7. Furthermore, in particular — especially with regard to the duty to minimise damage incumbent upon themselves — they shall separate the possibly infested or sub-standard goods from other goods, both those delivered by us and those already present at the ordering party's premises in order to prevent the spread of the infestation/infection.
- **4.4** In the event of obvious lack of quality, incorrect deliveries or shortfalls in terms of quantities, the ordering party must notify us immediately, at the latest within 3 calendar days. The notification must be made in writing. Transport staff are not authorised to accept complaints. If the ordering party fails to provide such notification, the goods shall be deemed to have been approved and the ordering party shall not be entitled to claim any rights arising from lack of quality, unless it was not recognisable during the inspection. In all other respects, Sections 377 et sec. of the HGB shall apply.
- 4.5 The ordering party shall notify us of any quality issue that are not immediately apparent (hidden issues) immediately upon discovery thereof
- 4.6 The ordering party is obliged to inspect the goods for transport damage - if necessary by way of appropriate random samples - upon receipt. If any transport damage is detected, the ordering party must immediately prepare a report in which the condition of the goods and the transport damage are recorded. The report must be handed to the transport staff for signature. The ordering party is obliged to report any transport damage to the transport company without delay, together with this report, and to inform us, along with a copy of the report. We shall not be held liable for transport damage subject to Section 11 – unless the damage was caused intentionally or due

gross negligence, either by us or by one of our vicarious agents 4.7 The acceptance of a notice of lacking quality on our part does not nstitute an acknowledgement of the alleged conditior

5. Prices and Delivery Modalities

- **5.1** Unless otherwise agreed in the respective contract, all prices are ex our production facility in Senden. All costs relating to the goods, such as duties, insurance, taxes, storage costs, etc., shall be borne by the orderin party once the goods are made available at our production plant in Senden Shipment shall only take place at the request of the ordering party; in this case, any additional freight/transport costs shall also be borne by the rdering party, and we shall transfer them accordingly.
- 5.2 The risk of accidental loss of the goods shall be transferred to the ing party upon handover to the transport company.
- **5.3** We shall take back sales packaging, within the scope of the statutory obligations. Unless otherwise agreed in the respective contract, such packaging materials must be returned to our production plant in Senden, nd this shall be arranged by the ordering party at their own expense
- 5.4 Other transport packaging will be charged to the ordering party, unless otherwise agreed. If such materials are returned to us by the ordering party, undamaged, they will be credited accordingly.
- 5.5 Unless otherwise agreed in the respective contract, the loading of the goods at our production plant in Senden shall be arranged by the ordering party. This also applies in the event that the ordering party commissions the collection of the goods. Insofar as we provide the ordering party or their agents with support during loading, this shall be deemed to be a matter of courtesy on our part. The ordering party or their agents shall be solely responsible for proper loading, and in particular for compliance with the regulations relating to the securing of the load.
- 5.6 Our prices are based on the listed price at the time at which the order becomes binding, unless otherwise agreed. Insofar as no divergent agreement has been made in the respective contract, the prices are ex our production facility in Senden, excluding packaging and the statutory VAT.

- **6.0 Conditions of Payment 6.1** Invoiced amounts are due 30 days after the invoice date. Any discounts require an express prior written agreement. Such discounts must be agreed anew for each contract.
- 6.2 If there is a statutory change in VAT after conclusion of the contract, the value added tax shall be charged at the new rate applicable by law.
- **6.3** Insofar as partial deliveries are made, in accordance with Section 4.1, or in agreement with the ordering party, we shall be entitled to invoice each partial delivery individually. Invoicing shall be based on the agreed individual prices.
- 6.4 Payments shall only be submitted to one of our bank accounts, as stated on the invoice.
- 6.5 Unless otherwise agreed in individual cases, payments made by the ordering party shall always be set off against the oldest outstanding claim. The offsetting shall be carried out in accordance with the statutory regulation of Section 367 of the BGB, i.e. first on the costs, then on any interest and finally on the relevant principal claim. Any other provision of services by the debtor, after the conclusion of the contract, shall be deemed irrelevant.
- **6.6** Cheques will only be accepted as conditional payment. Payment shall only be deemed to have been made when and insofar as the amount has been irrevocably credited to our account. Any charges incurred by the bank in particular in the event of dishonoured cheques, shall be borne by the ordering narty

7 Defaults

- 7.1 The occurrence and consequences of a default shall be governed by the statutory provisions of Sections 286, 287 and 288 of the BGB
- **7.2** If the ordering party is in default of payment, we may withdraw from all contracts from the mutual business relationship or only provide further deliveries and services - also for other contracts from our mutual business relationship — dependent on advance payments or securities, at our discretion; we are also entitled to disclose all assignments (Section 9.1) to all customers of the ordering party, and to demand immediate payment to us. This shall not apply if the ordering party is only in arrears with minor amounts and there is no doubt as to their solvency; an arrears in payments shall be deemed to be minor if it amounts to a maximum of 5% of the total order volume from which it originates.
- **7.3** The ordering party may only offset any counterclaims if these are either recognised by us or have been legally established.

8. Retention of Title

- 8.1We retain the title to the goods delivered by us until all claims to which we are entitled from the underlying contract — including any costs, interest and damage caused by delay — have been met in full.
- **8.2** Our ownership also extends to the goods, plants and products produced by the ordering party through cultivation, processing, blending or mixing of the goods delivered by us, under retention of title. If any of our goods subject to retention of title are processed or inseparably mixed with goods still owned by third parties, we shall acquire co-ownership of the new goods or mixed stock. The extent of the co-ownership results from the ratio of the invoice value of the goods delivered by us under retention of title to the invoice value of the remaining goods.

9. Transfer of Claims

- **9.1** The ordering party shall be entitled to resell the goods delivered by us within the scope of their proper business transactions. In this case, they hereby assign the claim against their customer arising from the resale to us. The assignment is limited to the amount of our claim arising from the delivery of the resold goods, including any costs, interest and damages caused by delay, insofar as these have already been invoiced to the ordering party and registered. At our request, the ordering party shall disclose all resales of goods not yet paid for, name the recipients in full and provide us with all the required information for the direct enforcement of the claims assigned to us.
- 9.2 The ordering party is obliged to ensure, by means of suitable agree nents with its customers, within the scope of what is legally permissible. that the claims assigned to us are not forfeited by offsetting, but are only fulfilled by payment; to the required extent. They must refer to the ment for this purpose.
- 9.3 The ordering party is entitled to collect claims assigned to us from its customers. The ordering party is obliged to immediately forward any such payments received from its customers to us, up to the amount of the claims which we are entitled. If the ordering party collects claims assigned to us by their customers, without passing them on to us accordingly, we are entitled to disclose the assignment with regard to all claims — also against other customers - and to demand immediate payment to us. Furthermore we are entitled to revoke the authorisation to collect if the ordering party is in default with the fulfilment of their obligations towards us, in particular regarding payments, or if another circumstances become known

cast doubt on their creditworthiness. If the authorisation to collect lapses or is revoked by us, the ordering party must inform us immediately, at our request, of the debtors of the assigned claims and provide us with the information and documents required for collection.

- 9.4 If any third parties, particularly within the scope of comp execution or insolvency law measures, want to access the goods that are our property, the ordering party must inform them of our ownership and present the relevant documentation. At the same time, they must inform us mmediately. If we incur any costs in defending ourselves against alleged third-party claims to the goods that are our property, the ordering party shall reimburse these cost, insofar as they are not actually reimbursed by third parties; we shall assign any claims against third parties to the ordering
- 9.5 If the value of the securities granted to us by the ordering party exceeds the sum of our secured claims by more than 20%, we are obliged to release the securities exceeding 20% at the request of the ordering party. We shall select the securities to be released at our reasonable discre

10. Guarantee

- 10.1 Insofar as any goods delivered by us are found to be defective, the cause of which already existed at the time of the transfer of risk, in principle we shall be obliged to fulfil our guarantee obligations, insofar as we are notified of the defect within the limitation period (Section 10.4).
- 10.2 If the ordering party resells the goods delivered by us and its custome or the last customer in the supply chain is a consumer in the sense of Section 13 of the BGB, the ordering party may submit a claim against us in accordance with the statutory provisions of Sections 478 and 479 of the BGB, by way of so-called supplier recourse. If a justified case of supplier recourse exists, the restrictions on our quarantee obligations as set out in these General Terms and Conditions shall not apply.
- 10.3 The prerequisite for supplier recourse is that the goods delivered by us are sold to the consumer in an unchanged condition throughout the entire supply chain. Insofar as the goods have been cultivated or otherwise changed, or improperly handled in the meantime, supplier recourse shall not come into consideration. Supplier recourse presupposes that the shortcoming present at the time of handover to the consumer also constitutes a shortcoming in the relationship between us and the ordering party.
- 10.4 The period of limitation for guarantee claims is one year from the start of the statutory period of limitation. In deviation from this, the statutory periods of limitation shall apply insofar as the ordering party justifiably asserts a claim against us, within the context of the supplier recourse (Sections 10.2 and 10.3).
- 10.5 If the ordering party breaches their duties of inspection and notification of complaints, in accordance with Section 4, they may lose their rights under guarantee, pursuant to the provisions as set out in Section 4.
- **10.6** If the ordering party notifies us of any shortcomings, whether in accordance with Section 4 or 4.5, they must give us the opportunity to examine the goods ourselves and/or have them examined by third parties commissioned by us. If the ordering party commissions any third parties, particularly an expert, to inspect the goods or determine any shortcomings, we shall only be obliged to bear the costs incurred if an immediate inspection is objectively necessary and we do not carry out an inspection immediately.
- 10.7 If the ordering party asserts guarantee claims, we shall initially only be obliged to provide supplementary performance (rectification of the defect or delivery of a defect-free item). If we refuse subsequent fulfilment or if subsequent delivery fails or is unreasonable for the ordering party, the ordering party may reduce the purchase price or withdraw from the contract. Claims for damages on the part of the ordering party are excluded, subject to the provisions in Section 11.2.
- **10.8** If the ordering party has the right to claim subsequent fulfilment by delivery of goods free of defects, we shall be entitled to adjust the varieties supplied to the actual delivery possibilities, insofar as the deviation is reasonable for the ordering party.

11. Claims for Damages

- **11.1** Insofar as the ordering party is entitled to claims for damages or reimbursement of expenses due to shortcomings that are not excluded by the above agreements or Section 11.2, they shall be subject to a limitation period of one year.
- 11.2 Claims for damages or reimbursement of expenses on the part of the ordering party, irrespective of the legal grounds, in particular due to breach of obligations arising from contractual obligations or unlawful acts, shall be excluded, subject to the exceptions stated below:
- a) In the event of a slightly negligent breach of cardinal obligations, our liability shall be limited to the damage typically occurring in transactions of this type
- b) Damages resulting from injury to life, body and health caused by a negligent breach of duty on our part, or a negligent or intentional breach of duty on the part of our legal representatives or our vicarious agents.
- c) Other damages, based on an intentional or grossly negligent breach of duty on our part or intentional or grossly negligent breaches of duty on the part of our legal representatives or our vicarious agents.
- 11.3 Furthermore, claims for damages by the ordering party are not excluded with regard to
 a) damages resulting from injury to life, body or health caused by a negli-
- gent breach of duty on our part, or a negligent or intentional breach of duty on the part of our legal representatives or our vicarious agents, and
- b) other damages, based on an intentional or grossly negligent breach of duty on our part, or an intentional or grossly negligent breach of duty on the part of our legal representatives or our vicarious agents

. Advice, Plant Protection, Cultivation

- **12.1** Storage instructions, planting instructions, information on resistances, plant protection advice and other advice do not form part of purchase and delivery contracts. Unless they are expressly included in the contract, they merely represent non-binding information. They do not release the ordering party from their obligation to store and process the goods supplied by us in an appropriate and professional manner and to exercise the necessary care, especially when using plant protection agents, fertilizers and growth regulators. In particular, the possibility of a break-through of the stated resistances by the respective pest cannot be ruled out.
- 12.2 Insofar as we carry out plant protection consultations and provide information on resistances, the ordering party is obliged to first carry out a test of the recommended measures on a portion of the goods, if they decide to proceed, in accordance with the advice provided during the plant protection consultations. Only after successful testing may the general implementation of the measures take place. The test plants must be kept under identical conditions to the conditions under which the rest of the plants will be subjected after successful testing of the plant protection measures Subject to the restrictions in these contractual conditions, we shall only be

liable for plant protection advice provided by us if a proper test has been carried out in advance, and this can be proven by the ordering party. Section

12.2 shall apply accordingly.12.3 With regard to plant protection, the ordering party must observe the

- statutory provisions, in particular the Plant Protection Act. Even if we provide advice on plant protection, this does not exempt the ordering party from taking responsibility for the observation of the statutory provisions.
- 12.4 The ordering party shall be responsible for the cultivation, in particular with regard to the selection and use of growth regulators and inhibitors, fertilizers and plant protection products. The ordering party must ensure that the products used are compatible with one another. We wish to point out that damage may occur if, for example, growth regulators and pesticides that are incompatible are used. We accept no liability for any damage resulting from cultivation errors. Section 11.3 shall apply accordingly
- **12.5** Descriptions, illustrations, recommendations for cultivation and other information, in whatever form, either from us or from our vicarious agents. such as information on shelf life, sowing, planting and harvesting dates, or any information and notes on growing and cultivation conditions, are based on practical and experimental procedures, as accurately as possible In all cases, we shall not be held for any damages resulting from the implementation or use of such descriptions, recommendations for cultivation or any other information provided. The ordering party bears the sole risk and responsibility as to whether the products or the recommended cultivation methods are suitable for the intended cultivation under local conditions. Product illustrations in catalogues, on the internet or in other publications show the variety type of the respective cultivar and not the cultivar as such. These illustrations do not represent a guarantee of the harvest results, neither explicitly nor implicitly

13. Proprietary Rights, Licenses, Propagation

- **13.1** The use of intellectual property rights applied by us, including industrial property rights (plant variety protection and trademark protection), copyrights and image rights, is only permitted on the basis of a license agreement. Specifically, those goods that are subject to plant variety protection may only be propagated and multiplied on the basis of a license agreement. Any such licence agreement shall be concluded separately, and there shall be no entitlement thereto; the license fees shall be determined in the license agreement.
- 13.2 In particular, variety protection is based on the respective legal provisions, especially the German Variety Protection Act (Sortenschutzgesetz). The supply of protected varieties by us shall be exclusively for the purpose of cultivation and subsequent sale; the ordering party shall not be authorised to produce propagating material or to export propagating material to any country that does not quarantee plant variety protection, except in cases where this is agreed separately, in writing.
- 13.3 If mutations/sports occur at the ordering party's premises, they shall inform us immediately, grant us access for inspection and verification and, without being requested to do so, they shall provide us with samples and cuttings of the mutations.
- 13.4 Should the ordering party be entitled to alleged rights from the identification of the mutation, which they wish to sell or have protected, they shall be obliged to inform us thereof in advance. In all cases, we reserve right to assert our own rights to mutations.
- 13.5 In the event of a sale of any rights to mutations to which they may be entitled, the ordering party shall grant us an irrevocable right of first refusal; in the event of planned protection of such rights, they shall agree forthwith, to undertake to offer us the rights of assignment at a reasonable price and, in the event of non-transferability, for exclusive licensing.
- 13.6 If no agreement can be reached regarding an appropriate price, in the sense of the above clause, an assessor annointed by the Chamb of Agriculture with jurisdiction over us, shall determine an appropriate, binding price
- 13.7 The customer shall irrevocably permit us or third parties commissioned by us to inspect his cultivation areas, after prior notification and scheduling, in order to verify compliance with the plant variety protection agreement.
- **13.8** Without our express written consent, the customer may not use any trademarks and symbols we use, to distinguish its products from those of any other legal entities or companies, and the ordering party is not permit-ted to use any trademarks and symbols that are not clearly distinguishable from ours. One exception to this is in the case of trading in our original packaging, bearing the trademarks and symbols affixed by us. Another exception applies in the event that the goods were delivered together with labels supplied by us. In this case, the trademarks used on the labels may only be used by attaching the labels supplied for the actual material supplied, in order to maintain the corporate design associated with them.
- 13.9 Please note that the GGN (GLOBAL GAP number) of Volmary GmbH may only be used for products produced by Volmary GmbH. Please ensure that the GGN is only used in accordance with GLOBAL GAP guidelines, and that it is not abused. Adopt the best possible practices for traceability and labelling of products, e.g. labelling of GAP-certified products at your premises, to exclude mix-ups.

14. Place of Fulfilment

14.1 The place of fulfilment for all services arising from contracts between elves and the ordering party shall be Münster in Westphalia (Germany).

15. Court of Jurisdiction

- 15.1 German law shall apply exclusively. The application of the UN Con vention on Contracts for the International Sale of Goods and the applicability of any other conflicting provisions, which may lead to the applicability of other legal systems, including the so-called ROM I Regulation (EC 593/2008 of 17.06.2008), are expressly excluded.
- 15.2 For any disputes arising from contractual relationships between ourselves and the customer, the court of jurisdiction shall be Münster in Westphalia (Germany), unless a different exclusive court of jurisdiction is

16. Severability Clause

16.1 Should any of the clauses contained in these General Terms and Conditions, or any other clause contained in any contract concluded between ourselves and the customer, be or become invalid, either in their entirety or part, the rest of the contract shall retain its validity The parties undertake to replace the invalid clause with an agreement that comes as close as possible to the original intention of the invalid clause, in economic terms.

Volmary GmbH.

Head Office Münster, Regional Court Münster, Trade Reg. No. 12502 CEOs: Hubertus Volmary, Frank Hüdepohl

We have compiled our new catalogue with the greatest of care. Nevertheless, misprints could still have occurred. We do not take any responsibility for printing errors.

SIMPLE ONLINE ORDERING OF SEEDLINGS/YOUNG PLANTS AND SEEDS

As a Volmary® customer, you have the exclusive options of using the Volmary® Online Portal.

The advantages at a glance

- Order seeds & seedlings/young plants 24/7
- See the current availability at any time
- Get information on the current selection of products and varieties
- Query prices directly
- Download and view catalogues
- View your order history easy, direct reordering
- Mobile access from any location, even directly from your greenhouse

Get started with the Volmary® Online Portal now, at pro.volmary.com!

POWER FOR YOUR PLANTS WITH MULTIKRAFT®

Effective by nature

The family-owned company Multikraft® is the leading developer and manufacturer of effective microorganisms. With the help of this technology, Multikraft® produces environment friendly products with sustainable benefits for humans, animals and the environment. The functioning of Multikraft® is inspired by nature. It promotes regeneration and boosts natural processes. Microscopic living organisms, referred to as microorganisms, which are the basis of all life, are used to drive these processes. The use of Multikraft® plant boosters promotes root formation and increases the resistance of the plant to soil-borne diseases and pests. This product also increases the germination, flowering, fruiting and maturation of the plants and increases the radiance of the flowers, often making it possible to reduce or even eliminate the use of pesticides.

The new all-in-one products, MK Start and MK Blume, are particularly easy to use, and they prevent problems with fungal diseases and pests. Steady growth and bushiness are encouraged by regular spraying of the foliage. For years, Multikraft® products have been used to great effect in the cultivation of ornamental plants and vegetables, and they offer an excellent opportunity for environment friendly production. Gardening with the power of nature is also possible for you.

Your contact at Volmary® will gladly provide you with information about Multikraft®.

LEGEND

Symbol	Meaning	Symbol	Meaning	Symbol	Meaning		
∴ 1000¥	Seed requirement/1,000 plants	S	Protected Variety		Climbing Growth Form		
::: [[]	Sowing period (month)	(x)	As Required	1	Vigorousness (1 = very compact to 5 = fast-growing)		
l ∘c ८	Germination temperature (°C)	x	Once or Twice	10	Earliness (1 = very early to 5 = very late)		
8 ⊗	Germination time (days)	xx	Repeatedly	\$	Fragrant		
ુ∷.→₩	Cultivation time from sowing to young plant (weeks)	P	Packaging	Q\$	Insect-friendly (bees & butterflies)		
=	Pot size (cm)	НВ	Hanging basket culture possible	SEED	Available as seed only		
\odot	Cultivation time from young plant (weeks)	12/HB	For 12cm Pot or Hanging basket Culture	YOUNG PLANTS	Young plants available		
Į ∘c ⊻	Cultivation temperature (°C)		Seed raised	Va	Variety / Series / Brand Volmary		
	Cropping/trimming		Cutting raised	APPROVED OF	Fleuroselect Novelty		
*	Use of growth inhibitors		Tissue culture		Fleuroselect gold medal		
£	Natural flowering time (month)		Upright growth habit		223		
OUT	Well-suited to Field Culture		Semi-hanging/creeping growth habit	DE-ÖKO-013	The varieties marked with DE- ÖKO-013 come from recognised ecological production, controlled		
®	Registered Brand		Hanging growth habit		according to the EU organic regulation.
