

SEED CATALOGUE 2022

Sluis Garden

FLEUROSELECT

Herewith you will find our catalogue for sales season 2022 with a picture of each variety, a short description and its EAN code.

Garden Seeds B.V. has operated for many years in the packaging market for vegetable, herb and flower seeds. We supply various seeds in small colourful packages to the consumer market (garden centres, mailorder companies and chain stores) and also to the premium market. We supply under our own brand "Sluis Garden" of which the assortment consists of approximately 600 different varieties.

All our seeds are untreated, so no disinfection materials are used and the seeds are not genetically manipulated. Across our "SL series" you will find several organic seed varieties, recognizable by the "EKO" sign.

In our assortment you can also find many green gifts. These are small, interesting and affordable gifts which are very nice to treat as a give away article for example.

We wish you a very good gardening season!

Garden Seeds BV

SLUIS GARDEN SPECIALS:

Modern varieties which have been selected for their special characteristics that do not or less occur in other varieties.

PROFESSIONAL SERIES:

Varieties with extraordinary characteristics. Prize winners or professional varieties with special flowering and growth habits.

GOLDEN OLDIES / HERITAGE:

"Treasures from the past." Old and ancient varieties which are very reliable, tasteful and sometimes very elegant, among others forgotten vegetables.

ORGANIC SEEDS:

Seeds grown, cleaned and packed according to organic production method which has been determined and controlled by SKAL.

PELLETED SEEDS:

Pelleted seeds are very useful. Sowing the seeds directly in the right spot is very easy because of the pelleted form.

BUTTERFLY:

Very attracting varieties for butterflies and bees.

Vegetables

Endive Batavian, broad leaved Nuance

0017 Price cat. : 3

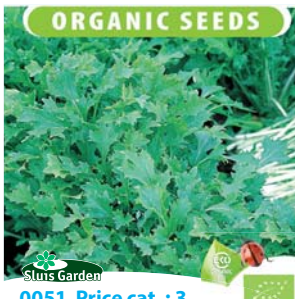

Nuance forms attractively compact heads with yellow heart. Suitable for early and late greenhouse cultivation and outdoors in summer. Suitable for early and late cultivation.

0,4 grs. • approx. 250 seeds

8711441100175

Turnip-tops Namenia

0051 Price cat. : 3

A vitamin rich spring leaf vegetable. More robust version of leaf vegetables and closely related to turnip tops. Sow thinly in lines in the garden from March to May. Do not thin out.

3 grs. • approx. 1250 seeds

8711441100519

Celery, green Green Sleeves

0074 Price cat. : 3

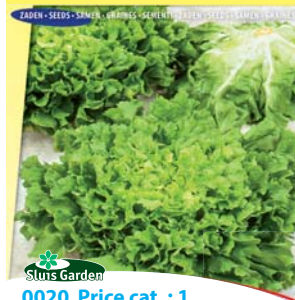

Green stalks without string, which can be eaten raw and cooked. Crispier, less fibrous and more aromatic in flavour than the self-blanching varieties.

0,15 grs. • approx. 300 seeds

8711441100748

Endive Batavian Avantgarde

0020 Price cat. : 1

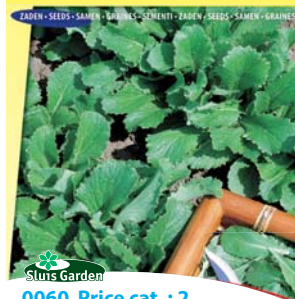

It is not very susceptible to rotting and so ideal for cultivating in the garden in the autumn and in a greenhouse early in the winter. Produces a firm, but juicy leaf.

1,2 grs. • approx. 750 seeds

8711441100205

Swede, Turnip Salad, green

0060 Price cat. : 2

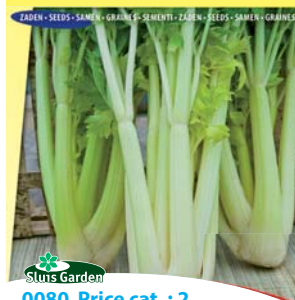

Turnip tops are actually the young plants of turnips that have been sown close together. Of all the spring vegetables it is one that can be harvested the earliest.

8 grs. • approx. 2200 seeds

8711441100601

Celery, Golden Self Blanching 2

0080 Price cat. : 2

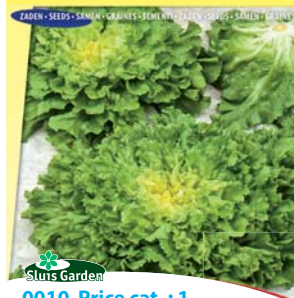

Yellow-green stalks without string which can be eaten raw as well as cooked. Can be eaten raw and cooked. Celery has diuretic powers, is low in calories and very rich in vitamins.

0,3 grs. • approx. 875 seeds

8711441100809

Endive Batavian, broad leaved "Vijf 2"

0010 Price cat. : 1

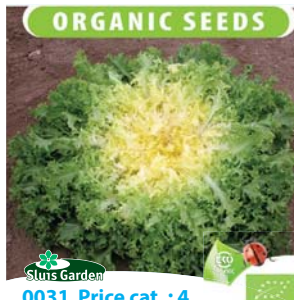

Broad-leaved variety, large heads with a yellow heart. Suitable for cultivation in greenhouses and in gardens, in spring as well as in autumn. Tasty and vitamin-rich crop.

1,2 grs. • approx. 825 seeds

8711441100106

Endive, curled leaved Très fin Maraîchère-Myrna

0031 Price cat. : 4

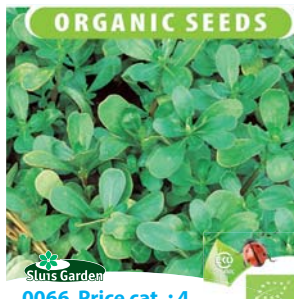

A large, dark green, curled-leaved endive with a golden yellow heart. Very resistant to poor weather conditions and so ideal for summer, autumn and early winter cultivation.

0,5 grs. • approx. 250 seeds

8711441100311

Purslane green "Groene Gewone"

0066 Price cat. : 4

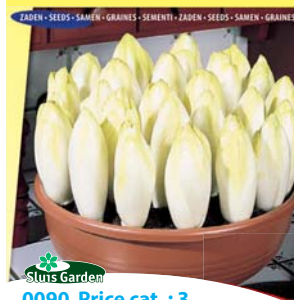

Purslane is a crop that prefers warm and humid conditions. Sow early cultivation in a greenhouse, later in the year in the garden. Sow thinly, directly in the soil.

3 grs. • approx. 7000 seeds

8711441100663

Brussels Witloof Zoom F1

0090 Price cat. : 3

Suitable for cultivation with and without casing soil. Produces uniform, firm bushes. Sow on well worked soil. Forcing duration at approx. 16°C is 4 to 5 weeks.

1 grs. • approx. 675 seeds

8711441100908

Endive Batavian, broad leaved Eminence

0015 Price cat. : 3

Eminence quickly forms exceptionally large, attractively compact heads. Good resistance to running to seed. Attractive yellow heart. Eminence is very winter hardy.

0,6 grs. • approx. 350 seeds

8711441100151

Leaf Chicory, Self-closing "Zuckerhut"

0035 Price cat. : 2

Self-closing heads approx. 30 cm tall. With outer leaves the heads can be kept for several weeks in a cool storage place. Popular with amateur gardeners.

1 grs. • approx. 800 seeds

8711441100359

Winter Purslane Miner's Lettuce, Cuban Spinach

0070 Price cat. : 3

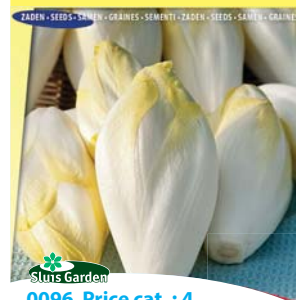

Delicious and healthy addition to sandwiches, and salads. Contains plenty of vitamin C. Sow preferably in a greenhouse on account of the leaves turning red.

2 grs. • approx. 3800 seeds

8711441100700

Brussels Witloof Atlas F1

0096 Price cat. : 4

Cultivation without casing soil from September to March. Sow on well worked soil. Thin out upon emergence. Harvest roots in late August. Forcing duration at 16°C is 4 to 5 weeks.

0,7 grs. • approx. 475 seeds

8711441100960

Brussels Witloof
"Mechelse Middelvroeg"

ORGANIC SEEDS

Sluis Garden

0101 Price cat. : 3

Cultivation with casing soil from Dec. to March. Sow on well worked soil. Thin out upon emergence. Harvest roots in late October. Forcing duration at 16°C is 4 to 5 weeks.

0,5 grs. • approx. 250 seeds

87114411101

Frilled Iceberg Lettuce
Eazyleaf, Skilton

ORGANIC SEEDS

Sluis Garden

0121 Price cat. : 4

Crispy lettuce with excellent taste. Very decorative. Contains plenty of vitamin C, calcium and iron. Produces heads early. Can be cultivated over a long period.

0,3 grs. • approx. 180 seeds

8711441101219

Lettuce Butterhead
May Queen

ORGANIC SEEDS

Sluis Garden

0136 Price cat. : 3

Light green lettuce with heavy heads. Edges of the leaves have a red tint. Leaves that are coloured red are very soft. Particularly suitable for early spring cultivation and early summer.

0,8 grs. • approx. 800 seeds

8711441101363

Lettuce Butterhead
Roxy (black seeded)

ORGANIC SEEDS

Sluis Garden

0164 Price cat. : 4

For cultivation from spring to autumn. A splendid, glossy red butterhead lettuce with a light green heart. Keep seeds cool in the summer. Black seeded.

0,12 grs. • approx. 105 seeds

8711441101646

Iceberg Lettuce
Barcelona

ZADEN • SEEDS • SAMEN • GRAINES • SEMENTI • ZADEN • SEEDS • SAMEN • GRAINES

Sluis Garden

0110 Price cat. : 3

Resistant to greenfly and partially to false mildew. Can be cultivated over a fairly long period and does run to seed quickly. Lettuce can be sown in very cold weather (> 10°C).

0,15 grs. • approx. 100 seeds

8711441101103

Lettuce Butterhead
John

ZADEN • SEEDS • SAMEN • GRAINES • SEMENTI • ZADEN • SEEDS • SAMEN • GRAINES

Sluis Garden

0126 Price cat. : 3

Thrives in cool conditions in early spring or in the autumn. Ventilate when kept in a greenhouse in warm weather. Also fine for cultivation outdoors with summery weather.

0,15 g. • approx. 165 seeds

8711441101264

Lettuce Butterhead
Appia

ZADEN • SEEDS • SAMEN • GRAINES • SEMENTI • ZADEN • SEEDS • SAMEN • GRAINES

0,4 grs. • approx. 375 seeds

8711441101400

Lettuce Butterhead
Quattro Stagioni

ZADEN • SEEDS • SAMEN • GRAINES • SEMENTI • ZADEN • SEEDS • SAMEN • GRAINES

Sluis Garden

0165 Price cat. : 2

Black seeded all-round variety, with tender, firm, compact heads and with a golden yellow heart. Leaves that have an attractive red colour are often also tender.

1 grs. • approx. 900 seeds

8711441101653

Iceberg Lettuce
Great Lakes 659

ZADEN • SEEDS • SAMEN • GRAINES • SEMENTI • ZADEN • SEEDS • SAMEN • GRAINES

Sluis Garden

0115 Price cat. : 2

A vigorously growing, bright green iceberg lettuce with crenated leaf edges and a heavy closed head. Does not run to seed quickly. The heads keep for a fairly long time when cooled.

1 grs. • approx. 900 seeds

8711441101158

Lettuce Butterhead
Sylvesta

ZADEN • SEEDS • SAMEN • GRAINES • SEMENTI • ZADEN • SEEDS • SAMEN • GRAINES

Sluis Garden

0130 Price cat. : 3

Sylvesta is resistant to greenfly and partially to false mildew. Quickly forms an attractive head. The cultivation period is very long. Lettuce can already be sown at low temperatures (> 10°C).

0,1 grs. • approx. 100 seeds

8711441101301

Lettuce Butterhead
"Twellose Gele"

ORGANIC SEEDS

Sluis Garden

0144 Price cat. : 3

Twellose Gele is a historically known regional variety and forms attractive yellow-green heads. An excellent butterhead lettuce, which produces soft, tender heads.

0,4 grs. • approx. 325 seeds

8711441101448

Lettuce Winter (little) Gem
"Pinilla"

ORGANIC SEEDS

Sluis Garden

0168 Price cat. : 4

Pinilla lettuce is a real Little Gem, which through years of selection work now is very resistant to frost. Because of this, it is now also possible to sow and harvest Pinilla in a cold frame in the winter.

approx. 50 seeds

8711441101684

Iceberg Lettuce
"Grazer Krauthüptel 2"

ORGANIC SEEDS

Sluis Garden

0119 Price cat. : 3

This dependable variety has slightly serrated leaf edges with a thin red border. It tastes delicious, is nice and crispy, and very resistant to bolting. The heads keep for a long time when cooled.

0,4 g • approx. 200 seeds

8711441101196

Lettuce Butterhead
Matilda

ORGANIC SEEDS

Sluis Garden

0132 Price cat. : 4

Matilda is resistant to greenfly and partially to false mildew. Quickly forms an attractive head. The cultivation period is from spring to early summer, as well autumn.

0,15 grs. • approx. 115 seeds

8711441101325

Lettuce Butterhead
"Dikke Blonde"

ORGANIC SEEDS

Sluis Garden

0150 Price cat. : 2

A bright green butterhead lettuce with large heads and a golden yellow heart. Particularly suitable for summer and autumn cultivation. Lettuce can be sown at low temperatures.

1 grs. • approx. 1000 seeds

8711441101509

Lettuce Butterhead
Lollo Rossa (extra frilled)

ORGANIC SEEDS

Sluis Garden

0171 Price cat. : 3

Red, finely frilled lettuce variety. Suitable for early outdoor cultivation. Wonderfully tender leaf. Leaves that have an attractive red colour are often also tender.

0,6 grs. • approx. 750 seeds

8711441101714

Looseleaf Lettuce, Red Oak Leaf Red Salad Bowl

0175 Price cat. : 2

2.5 grs. • approx. 3000 seeds

8711441101752

Red Salad Bowl has tender leaves that are yet somewhat crispy. It has a strong, slightly nutty flavour. Suitable for garnishing, in salads, but can also be eaten stewed.

Looseleaf Lettuce, Oak Leaf mix Red & Green Salad Bowl

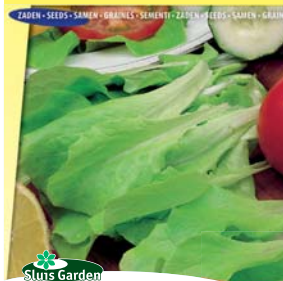

0176 Price cat. : 4

approx. 5 m seeds

8711441101769

Seed tape is quick and easy. A red and green looseleaf lettuce with oak leaf-shaped leaves. Tender leaves that are somewhat crispy. It has a strong, slightly nutty flavour.

Looseleaf Lettuce green "Witte Dunsel"

0180 Price cat. : 2

5 grs. • approx. 6500 seeds

8711441101806

Fast-growing looseleaf lettuce with a cultivation manner that is different: in an unheated greenhouse can sometimes already be sown in rows as of mid February, early March.

Mixed Lettuce Gastronomie

0185 Price cat. : 2

2 grs. • approx. 2000 seeds

8711441101851

Well balanced mix of green and red (baby) lettuce varieties, chervil, corn salad, radicchio and endive. In an unheated greenhouse it can already be sown in rows as of mid February.

Mixed Italian Leaf Lettuce Misticanza di Lattghe

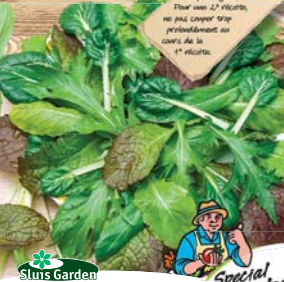

0187 Price cat. : 3

2 grs. • approx. 1500 seeds

8711441101875

Popular looseleaf or cut lettuce of both wild and cultivated crops including French Spinach, Indian Mustard, Italian Dandelion, Wild Rocket, Erba Stella, Perilla. A veritable taste explosion.

Cut 'n' come again Asian Salad mix

0188 Price cat. : 3

4 grs. • approx. 2300 seeds

8711441101882

Mixture of diverse oriental vegetables such as Mizuna, Tatsoi, Leaf Mustard and Perilla. The taste of your harvest is deliciously spicy with a mild aftertaste.

Cut 'n' come again Baby Leaf mix

0189 Price cat. : 3

4 grs. • approx. 3000 seeds

8711441101899

This balanced colourful mix consists of 5 various types of lettuce. After having cut away your 1st meal, the mix will grow again and can be cut for a 2nd time "Cut 'n' come again".

Garden Rocket, Rocket-salad Rucola Pronto

0190 Price cat. : 2

2.5 grs. • approx. 1400 seeds

8711441101905

Pronto is a clear improvement to the regular Rucola. The leaf is deeper and more finely lobbed. The green leaves have a nutty, pleasantly strong, light peppery flavour.

Wild Rocket, Rocket-salad Sylvetta

0195 Price cat. : 3

2 grs. • approx. 8000 seeds

8711441101950

Sylvetta has clearly finer leaves, is less prone to flowering and has a more pleasant, nutty flavour than the regular Rucola or even Pronto. A very attractive and fast growing variety.

Wild Rocket, Rocket-salad Rocky Wild

0196 Price cat. : 4

1,5 grs. • approx. 6000 seeds

8711441101967

Wild rucola Rocky Wild has clearly finer leaves, is less prone to flowering and has a more pleasant, nutty flavour than the regular Rucola or even Pronto. A very attractive and fast growing variety.

Asian mustard Giant Red

0206 Price cat. : 3

1 grs. • approx. 350 seeds

8711441102063

Can be eaten raw in salads, cooked as spinach and as a stir-fry vegetable. Sow in a greenhouse or in the garden. Can withstand some cold. The larger the plant, the stronger the taste.

Japanese mustard Mizuna

0211 Price cat. : 3

1 grs. • approx. 475 seeds

8711441102117

Cultivated in Japan since time immemorial. At an early stage Mizuna can be prepared in the same way as turnip tops. At a later stage can be eaten raw in salads, cooked or as stir-fry vegetable.

Chinese flat cabbage Tatsoi Green Coin - Tah Tsai

0216 Price cat. : 3

1 grs. • approx. 600 seeds

8711441102162

A vegetable with a compact rosette and spoon-shaped leaves. Can be eaten raw in salads and as a stir-fry vegetable. The young leaves are very tasty.

Pak choy Green Fortune F1

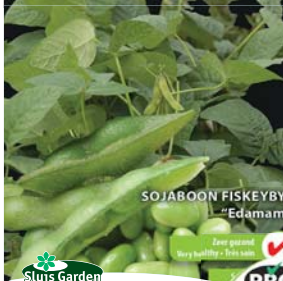

0225 Price cat. : 3

0,3 grs. • approx. 100 seeds

8711441102254

Open cabbage with bare, white flower stalks, white leaf veins and dark green top leaves. Oriental vegetable, but a typically western beef steak with pak choy is also very good.

Soybean Fiskeby V

0231 Price cat. : 5

15 grs. • approx. 85 seeds

8711441102315

Soya bean Fiskeby "Edamame" can be cultivated well in our cooler climate. The crop looks similar to beans. The plants are approx. 50 cm tall, prefer plenty of sun.

Lady's fingers Okra - Clemson Spineless

0235 Price cat. : 2

1,5 grs. • approx. 30 seeds

8711441102353

Produce attractive yellow flowers with a dark red heart. The fruits become hard and fibrous fairly quickly, so harvest early and regularly, also as new fruits would otherwise not form.

Cauliflower
Alpha 6 - Fortados

ZADEN - SEEDS - SAMEN - GRAINES - SEMENTI - ZADEN - SEEDS - SAMEN - GRAINES

Sluis Garden

90 grs.

8711441130608

New Zealand Spinach
"Nieuw-Zeelndse" • contents: 25 grs.

Sluis Garden
3065 Price cat. : 3

Climbing, thermophilic plant which grows well in a greenhouse. Can only grow in the garden as of mid May. It is a tender, piquant vegetable, which can be prepared like spinach.

Dry Bush Bean, Italian White
Cannellino • contents: 100 grs.

Sluis Garden
3075 Price cat. : 4

Classic Italian white bean. Very pleasant flavour. When unshelled can be used both fresh and dried. It is a bush bean, so support is not necessary. The pods are not edible.

Dwarf French Bean, French Filet Bean
Niki • contents: 75 grs.

Sluis Garden
3085 Price cat. : 4

Very fine-seeded, very thin French filet bean approx. 12 cm long. White seeded. Good yield per plant. For an early harvest sow in a greenhouse or pre-sow in pots.

Dwarf French Bean, French Filet Bean
Argus • contents: 75 grs.

Sluis Garden
3095 Price cat. : 5

Very early, fine-seeded, thin French filet bean approx. 18 cm long. Coffee-coloured seeds are better resistant to poorer weather conditions. Wonderful flavour, but harvest on time.

Dwarf French Beans
Calima • contents: 70 grs.

Sluis Garden
3100 Price cat. : 5

Early fine-seeded, thin French filet bean approx. 19 cm long. Coffee-coloured seeds are better resistant to poorer weather conditions. Very high yield with a fine flavour.

Dwarf French Bean, Kylian
Kylian • contents: 75 grs.

Sluis Garden
3105 Price cat. : 4

Fine, fleshy, dark green pods approx. 13 cm long. Fine "Haricot vert" variety. The pods grow high on the crop, so easy and clean to harvest. Very resistant with high yields.

Dwarf French bean
Orinoco wax • contents: 70 grs.

Sluis Garden
3119 Price cat. : 4

Medium early butter bean. The pale yellow tender pods without string stay soft and fleshy until the seed forms. Very high yields of wonderful, healthy 16 cm long pods.

Dwarf French Bean, Snap Bush
Purple Queen • contents: 75 grs.

Sluis Garden
3121 Price cat. : 4

Purple Queen has plump purple pods that turn completely green after cooking. Produces very tasty beans. For an early harvest sow in a greenhouse or pre-sow in pots.

Dwarf French Bean (type Chinese)
Baccara • contents: 65 grs.

Sluis Garden
3126 Price cat. : 4

"Chinese" variety of Dwarf French Bean produces uniform, straight beans. They are fine and fleshy, fairly short (approx. 12 cm long) and have a somewhat stronger bean flavour.

Dwarf French bean, snap bush green
Maxi • contents: 40 grs.

Sluis Garden
3130 Price cat. : 5

Early harvestable bean, 20 cm long slender pods. Very productive. The pods of Maxi hang above the leaves and are easy to pick and so withstand bad weather conditions very well.

Dwarf French Bean
Record • contents: 85 grs.

Sluis Garden
3141 Price cat. : 4

Well-known variety producing medium-length, fairly coarse pods without string. It has an unsurpassable flavour. Can be harvested for a long period of time, also with a bean in the pod.

Dwarf French Bean, Snap Bush
Prelude • contents: 90 grs.

Sluis Garden
3150 Price cat. : 4

A well-known variety of medium length with oval coarse pods that hang in bunches. Superb flavour. Can be harvested early and for a long period of time, also with a bean in the pod.

Dwarf French Bean
Artemis • contents: 100 grs.

Sluis Garden
3165 Price cat. : 4

Produces an early high yield of 20 cm long pods, which are very upright, wide and tender. Resistant plant. Delicious flavour. For an early harvest sow in a greenhouse.

Climbing French bean, Snap Pole Bean
Cobra • contents: 55 grs.

Sluis Garden
3170 Price cat. : 5

Cobra produces 20 cm long, dark green and fleshy French beans, hanging in bunches of 4 to 5. Very early, vigorous plants, highly resistant and black-seeded. Remarkably tasty.

Climbing French bean, Snap Pole Bean
Blue Lake White • contents: 100 grs.

Sluis Garden
3176 Price cat. : 5

Produces 14 cm long and fleshy French beans, hanging in bunches of 4 to 5. Has that genuine old-fashioned fine bean flavour. Beans thrive in the warmth.

Climbing French bean
Neckarkönigin • contents: 60 grs.

Sluis Garden
3181 Price cat. : 5

Produces 25 cm long, fleshy snap pole beans, which are used as French bean. The pods are not membranous, are soft and have a sweet taste. Resistant to poor weather.

Climbing French bean
Goldmarie • contents: 60 grs.

STOKSPEKBOON
Goldmarie

Great harvest
Well / Bonne resistant

Sluis Garden

3182 Price cat. : 5

2070 Price cat. : 3

Compact variety with dark green, pinnate, fragile leaves. Especially selected for cultivation in pots. The freshly cut leaves have a wonderful fragrance and are perfect with fish dishes.

0,7 grs. • approx. 630 seeds

8711441120708

Tarragon, Dragon Wormwood
Artemisia dracunculus

2075 Price cat. : 2

Generally known and popular due to its particular aromatic flavour: sweet and yet somewhat bitter. Use sparingly as too much makes the flavour sharp.

Sweet Chamomile, Scented Mayweed
Matricaria recutita

ORGANIC SEEDS

2081 Price cat. : 3

German chamomile has a strong fragrance and contains many essential oils. Harvest the flowers when sunny and allow to dry well. Tea can be made from the dried flower heads.

Chervil Curled, Garden/salad Chervil
Anthriscus cerefolium

2085 Price cat. : 2

Chervil has a rather special flavour. This and its pleasant aromatic fragrance make it one of the "fine herbes". A very well known kitchen herb an is, of course, essential for Chervil soup.

Chervil plain leaved, Brusseler Winter
Anthriscus cerefolium

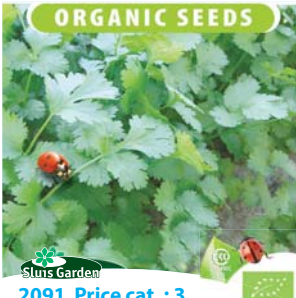

ORGANIC SEEDS

2086 Price cat. : 3

Good cold tolerance. Chervil has a rather special flavour. This and its pleasant aromatic fragrance make it one of the "fine herbes". Can also be grown as a winter culture indoors.

Coriander slowbolting, Marino
Coriandrum sativum

ORGANIC SEEDS

2091 Price cat. : 3

The leaf (Cilantro) has a unique parsley fragrance and is used in Mexican/Asian salads and dishes, whilst the seed (Coriander) has a pleasant fragrance and is often used in European cooking.

Sweet Lavender, Violet Blue
Lavandula angustifolia vera

ORGANIC SEEDS

2104 Price cat. : 3

Sweet Lavender has silvery grey leaves and splendid blue flowers. As a solitary plant or in pots. The flowers are plucked for use in linen sacks or flower arrangements.

Lovage
Levisticum officinalis

ORGANIC SEEDS

2116 Price cat. : 3

The fresh leaves give soups, sauces, scrambled eggs, spinach, carrots and potatoes a strong celery flavour. Chopped it gives salads a fine aromatic and spicy flavour.

French spinach, Red Flash
Atriplex hortensis

2120 Price cat. : 3

Orach is an indigenous plant from Southern Europe but now grows in the wild here. Orach is of decorative value, but was originally used as a leaf vegetable. Easy to cultivate.

Yellow or White mustard
Sinapis alba

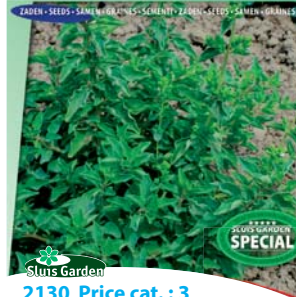

ORGANIC SEEDS

2126 Price cat. : 3

White or Yellow mustard (blooms with yellow flowers) is often used as a green manure crop, but can also be used to harvest mustard seeds or as a sprout vegetable (entire year).

Greek Oregano, Winter Marjoram
Origanum hirtum

2130 Price cat. : 3

This plant from the Greek mountains is a herb that prefers dry, calcareous and sunny spots. Has a mild, pleasantly spicy aroma. The herb is used in the preparation of sausages or potato dishes.

Wild Marjoram
Origanum vulgare

2131 Price cat. : 3

Oregano has a delicious pungent aroma and is essential for pizza and pasta. This plant prefers dry, calcareous and sunny spots. Has a mild, yet pleasantly spicy aroma.

Pennyroyal
Mentha pulegium

2135 Price cat. : 2

The fresh, deep green leaves with their refined minty flavour can be harvested in the summer. Tasty in salads and soups as well as in vegetable and meat dishes.

Curled Spearmint, Crispleaf Mint
Mentha spicata crispata

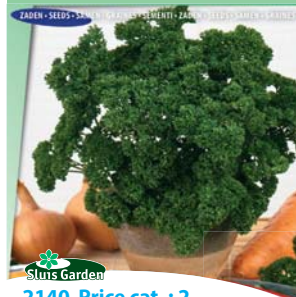

2136 Price cat. : 3

The fresh, deep green leaves with their refined minty flavour can be harvested in the summer. Tasty in salads and soups as well as in vegetable and meat dishes.

Parsley, Moss curled 2
Petroselinum crispum

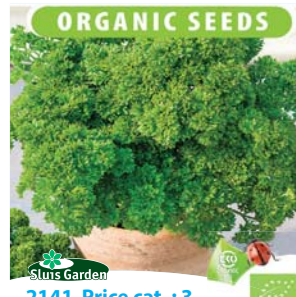

2140 Price cat. : 2

A well-known flavour enhancer as well as garnish. Parsley has a refined and piquant taste. Can be harvested fresh throughout the year. Can be grown in pots or boxes.

Parsley, Moss curled
Petroselinum crispum

2141 Price cat. : 3

Grüne Perle is a fine selection for cultivating in the garden and in pots. Can overwinter well due to its low propensity to run to seed. Fine flavour, attractive colour and healthy plant.

Parsley, Moss curled Wega
Petroselinum crispum

2145 Price cat. : 3

Wega is a clear improvement to the common curled parsley. Has a healthy, uniform growth, is dark green and has a perfect flavour. Can be harvested fresh throughout the year.

Plain leaved Parsley, Hilmar
Petroselinum hortense

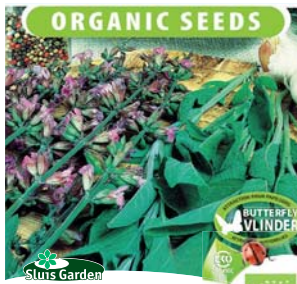

2147 Price cat. : 3

Very aromatic and a larger variety than the common parsley. Smooth leaves. Due to its higher water and essential oils content it has a more refined flavour than curled parsley.

2 grs. • approx. 760 seeds
8711441121477

Garden Sage, Culinary Sage, Fanni
Salvia officinalis

2166 Price cat. : 3

Popular with bees. The leaves used to be cooked in milk. This sage milk was considered to be medicinal and have sedative properties. Use sparingly, as its flavour is rather strong.

0,6 grs. • approx. 65 seeds
8711441121668

Thyme French Summer, Garden Thyme
Thymus vulgaris

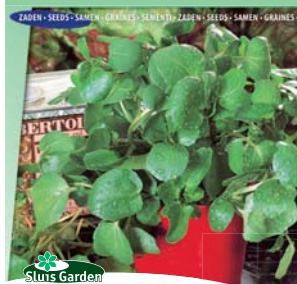

2185 Price cat. : 2

Blooms in subsequent years in May-June with lilac or pink, sometimes white flowers. Leaves and branches can be stewed along with meat dishes and cooked with heavy vegetables.

0,2 grs. • approx. 1000 seeds
8711441121859

Watercress, Booklime, Brown Cress
Nasturtium officinale

2195 Price cat. : 3

Perennial marsh plant that generally grows in and around water. The crispy leaves are a good seasoning for all sorts of salads, as well as garnishing and meat dishes. It has a mild spicy taste.

0,8 grs. • approx. 3200 seeds
8711441121958

Plain leaved Parsley 2
Petroselinum hortense

2150 Price cat. : 2

A fine aromatic type, also called 'plain leaved parsley' Due to its higher water and essential oils content it has a more refined flavour than curled parsley. Excellent in pots, boxes, etc.

3 grs. • approx. 1200 seeds
8711441121507

Apium graveolens
Apium graveolens

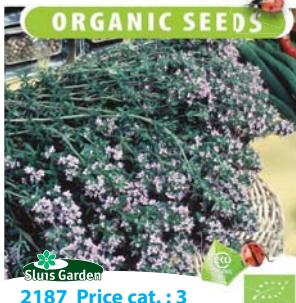

2170 Price cat. : 2

Can be cultivated in a greenhouse and in the garden. Very aromatic, attractively compact plant. Leaf celery has a strong taste and is particularly suitable in winter dishes.

2 grs. • approx. 5000 seeds
8711441121705

Thyme German Winter, Garden Thyme
Thymus vulgaris

2187 Price cat. : 3

Blooms in subsequent years in May-June. Leaves and branches can be stewed along with meat dishes and cooked with heavy vegetables. Winter Thyme is more resistant against frost.

0,15 grs. • approx. 750 seeds
8711441121873

Common Sorrel, Cow Sorrel
Green de Belleville • Rumex acetosa

2200 Price cat. : 2

Wide-leaved. Excellent eaten raw as a salad. Can be prepared with hardly any vinegar or lemon juice. Also goes well in soups, sauces and as spinach. Harvest as many young leaves as possible.

1,5 grs. • approx. 1500 seeds
8711441122009

Turnip-rooted Parsley Berliner
Petroselinum crispum, var. tuberosum

2155 Price cat. : 2

The delicious leaves can be used as curled parsley; it is, however, often cultivated for the root, which resembles a small turnip. Its taste is between that of turnip and celeriac.

2 grs. • approx. 1650 seeds
8711441121552

Celery, dark green
Apium graveolens

2176 Price cat. : 3

The plant and its leaves and stems are coarser than those of Amsterdamse dark green. Aromatic leaves. Leaf celery has a strong taste and is particularly suitable in winter dishes.

0,5 grs. • approx. 1250 seeds
8711441121767

Gardencress commun or plain, Pepperweed
